PROOF OF COMPLETION OF WORKS

H. H. Allen, Jr.,
~~Ben~~ Banida, Idaho.

Boise, Idaho,
June 21, 1917

Dear Sir:—

Under the terms of your permit No. 12423-----, you are required to complete your diversion works on or before Aug. 19, 1917. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

J. H. SMITH,

August 21st, 1917.

State Engineer,

Boise, Idaho,

Dear Sir:

12423
We notice from the Franklin County Citizen that a notice has been published by one Mr. H. H. Allen Jr., giving notice to proove up on a certain spring situated on the South East quarter of the South East quarter of Sec. 19 Tp., 13 South, range 39 E. B. M., same being set for September 1st, 1917. This is to enquire if the section is properly given. Mr. James Frew the holder of application No. 18541, permit No., 12960 claims the same water., Under date of aproval by you of May 28th 1917, and he is given until November 20th 1918 in which to complete his proof. Mr. Frew states that very likely the water applied for by Mr. Allen is the water that he previously filed on, and this is therefore to inquire if there is a mistake in the section in the notice of Mr. Allen. And this is further to request the necessary blanks to contest the application of Mr. Allen, as Mr. Frew is the rightful owner of the same if it is the spring that is in question. Will you kindly inform us fully as to this matter, and forward us the necessary blanks by return of mail.

Very sincerely,

Re: Permit 12423.- H. H. Allen, Jr.

Messrs. Smith, Erickson & Condie, Attorneys,
Preston, Idaho.

Gentlemen:

Replying to yours of the 21st inst. relative to the above water right, would say, that the point of diversion is given in the permit in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 19, T. 13 S., Range 29 E. 1. N.

We have no regular form for filing notices. Sworn affidavit should be filed in this office prior to the date set for proof. This affidavit should set forth fully the facts which your client wishes to be brought before the State Engineer, in regard to the water filed upon.

Re: Permit No. 12422.

Mr. H. H. Allen, Jr.
Ponida, Idaho.

Dear Sir:

Am in receipt of deposition, affidavit of publication and Money Order for fees in the sum of \$2.00 for proof of beneficial use of water under above permit. As soon as the examination can be made by our engineer, the matter of issuing license will be taken up.

In regard to fees, would say that where the water is used for other than irrigation purposes, the fee for beneficial use is \$5.00. Money Order for \$2.00 is therefore herewith returned to you. Am also enclosing letter for our information relative to this examination.

Very truly yours.

J. H. Smith.

State Engineer.
