RE: APPLICATION FOR PERMIT NO. 24884

MR. GUY HARRIS
Lago, Idaho

Dear Sir:

We are herewith returning your application for permit to appropriate 2.0 cubic feet per second of the waters of a spring located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 8, T. 11 S., R. 41 E.B.M., with the request that you submit some additional information.

Will you please make a statement under "Remarks" as to whose land the spring is located upon?

With reference to paragraph 12 of the application, it is suggested that you take at least six months in which to offer your proof of Completion of Works. You say that the works are fully completed, but nevertheless proof of Completion of Works and also proof of application of water to Beneficial Use must be made in the usual manner.

At the time you submit Beneficial Use proof a publication must be made which will require approximately four weeks' time. Therefore you should ask for at least sufficient time in which to make these proofs.

When the application has been returned in fully completed form we will prepare a power notice for posting in accordance with Section 41-203, Idaho Compiled Statutes, and mail it to you for service.

The fee which accompanied this application will be held pending the issuance of the permit.

Very truly yours,
R. W. FARIS

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

MR. GUY HARRIS
LASO, Idaho

Boise, Idaho, August 7, 1933

Dear Sir:—

Under the terms of your permit No. 17766..... you are required to complete your diversion works on or before Oct. 3, 1933. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

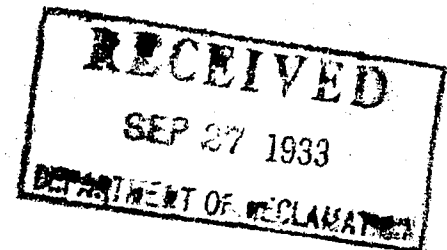

Yours truly,

R. W. FARIS
Commissioner of Reclamation.

Dear Sir:

This will acknowledge receipt of your notice in duplicate for publication in connection with beneficial use proof and also your authorization to have the notice published in the Grace Herald of Grace, Idaho.

In making out the notice you designated Pocatello as the place where proof would be offered and you did not indicate before whom the depositions would be executed. Since you live a considerable distance from Pocatello, we have changed the place where proof will be offered to Grace. Furthermore, we have designated Mr. Alvin Whitehead, Notary Public, as the officer before whom proof will be submitted.

A copy of the notice has been forwarded to the newspaper for publication so that the necessary insertions will appear prior to October 12, 1934, which is the date set for taking the proof. On this date you should appear at Mr. Whitehead's office with two disinterested witnesses to execute the depositions which will be mailed to him in ample time for the purpose.

Dear Sir:

The papers which you and your witnesses executed in connection with beneficial use proof under the above permit are in proper form. However, we have not received the affidavit of publication from the newspaper. Will you kindly get in contact with the editor of the newspaper which published your notice and request him to furnish use with this affidavit at his earliest convenience.

Your depositions are in proper form but before we can take any action in this matter a field examination must be made by the field engineer from this department. Upon receipt of his report you will be further advised as to fees due before your license is issued.

Very truly yours,

Re: Permit No. 17766

MR. GUY HARRIS
Lago,
Idaho

Dear Sir:

We have your letter of January 22nd in which you state that you offered final proof, under the above permit, in the latter part of November but to date you have not heard from this office. According to our files we acknowledged receipt of your papers within a few days after they were received and we also informed you at that time that a field examination would have to be made by an engineer from this office before any further action could be taken toward the issuance of a license. It will not be possible for Mr. Tolman, Field Engineer, to make this examination before some time in the spring, but we wish to assure you that no loss will result to you from the delay on the part of this office to make the examination.

The affidavit of publication from the Grace Herald has not yet been received. If you have this paper kindly forward it to us at your earliest convenience. If you do not have it, kindly contact the editor of the newspaper and have him forward it to this office.

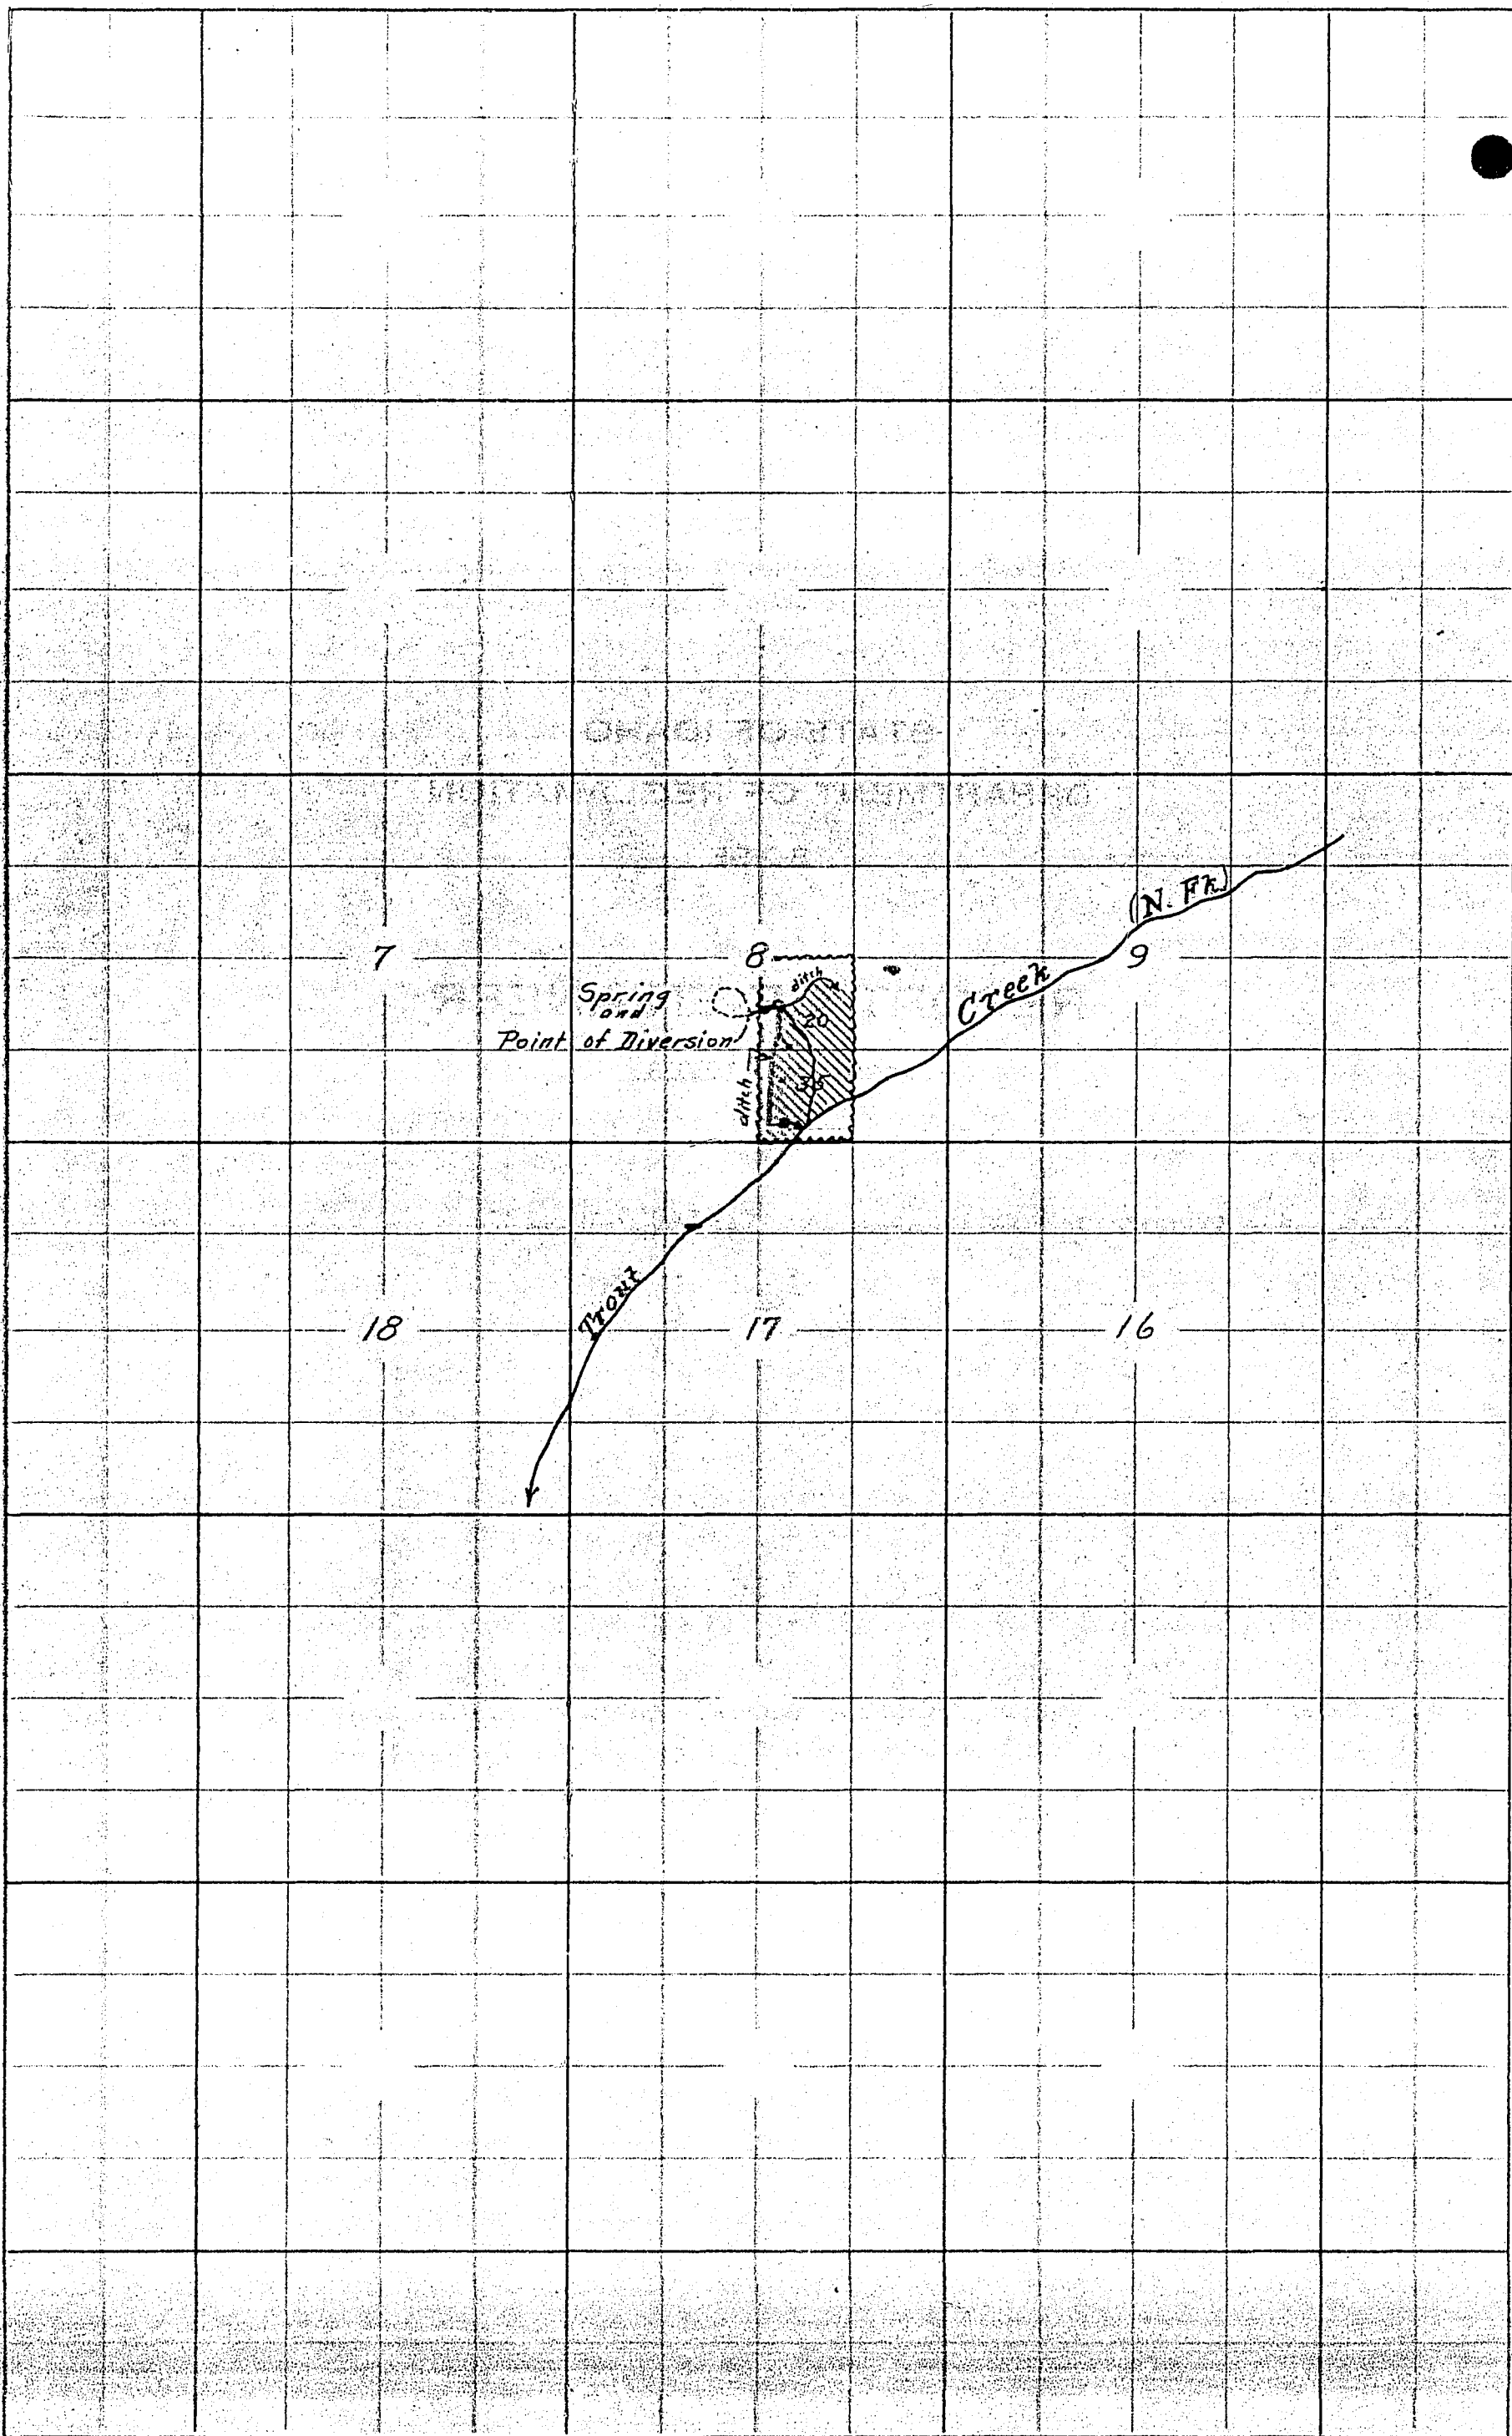

Very truly yours,

H. W. FARIS
