APPROVAL OF COMMISSIONER OF RECLAMATION

The number of this permit is 10451

Recorded in Book 67 Page 18451 Approved June 1, 1937

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before July 31, 1957 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before September 1, 1937

The whole of said work to be completed on or before December 1, 1937

Beneficial use of water appropriated in accordance herewith, to be made on or before June 1, 1938

Witness my hand this 1st day of June, 1937

R. W. FARIS
Commissioner of Reclamation.

Remarks: I have used the water herein applied for for the past five years for irrigation on my lands and no one has raised any objection. The source of the spring is too low and too near the river to be of any value to any other lands; in fact, the water could not be used on any other lands in the vicinity because they are above the source of the spring.

14. The spring is located upon my own land.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO 18451

Comes now CHARLES LEO HOBBS, and represents to the Commissioner of Reclamation of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 18451, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:
Part of NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 28, Township 15 South, Range 39 East, E. M., making a total of ten (10) acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Preston, Ida., this 18 day of March, 1939.

(Signed) Charles Leo Hobbs.

Date of receipt at Office of Department of Reclamation 8:50 A.M. March 21, 1939

APPROVAL OF COMMISSIONER OF RECLAMATION

I, James Spofford, Commissioner of Reclamation of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 18451. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Charles Leo Hobbs
Preston, Idaho

Boise, Idaho, **October 8, 1937**

Dear Sir:—

Under the terms of your permit No. 18451.....you are required to complete your diversion works on or before December 1, 1937..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARIS

Commissioner of Reclamation.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is three-tenths cubic foot.

The place where said water is used: SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 21, Tp. 15 So. R. 39 East, B.M. in Franklin County.

or other works by which said water is conducted to such place of use is private ditch.

The right to take water from such works is based upon Permit No. 18451.

The source of supply from which such water is diverted is an un-named spring.

The date of priority which said user is prepared to establish is May 24, 1937.

Re: Permit No. 18451.

Mr. Charles Leo Hobbs
Preston, Idaho

Dear Sir:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above-numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made since the department has but one field engineer who makes examinations all over the state.

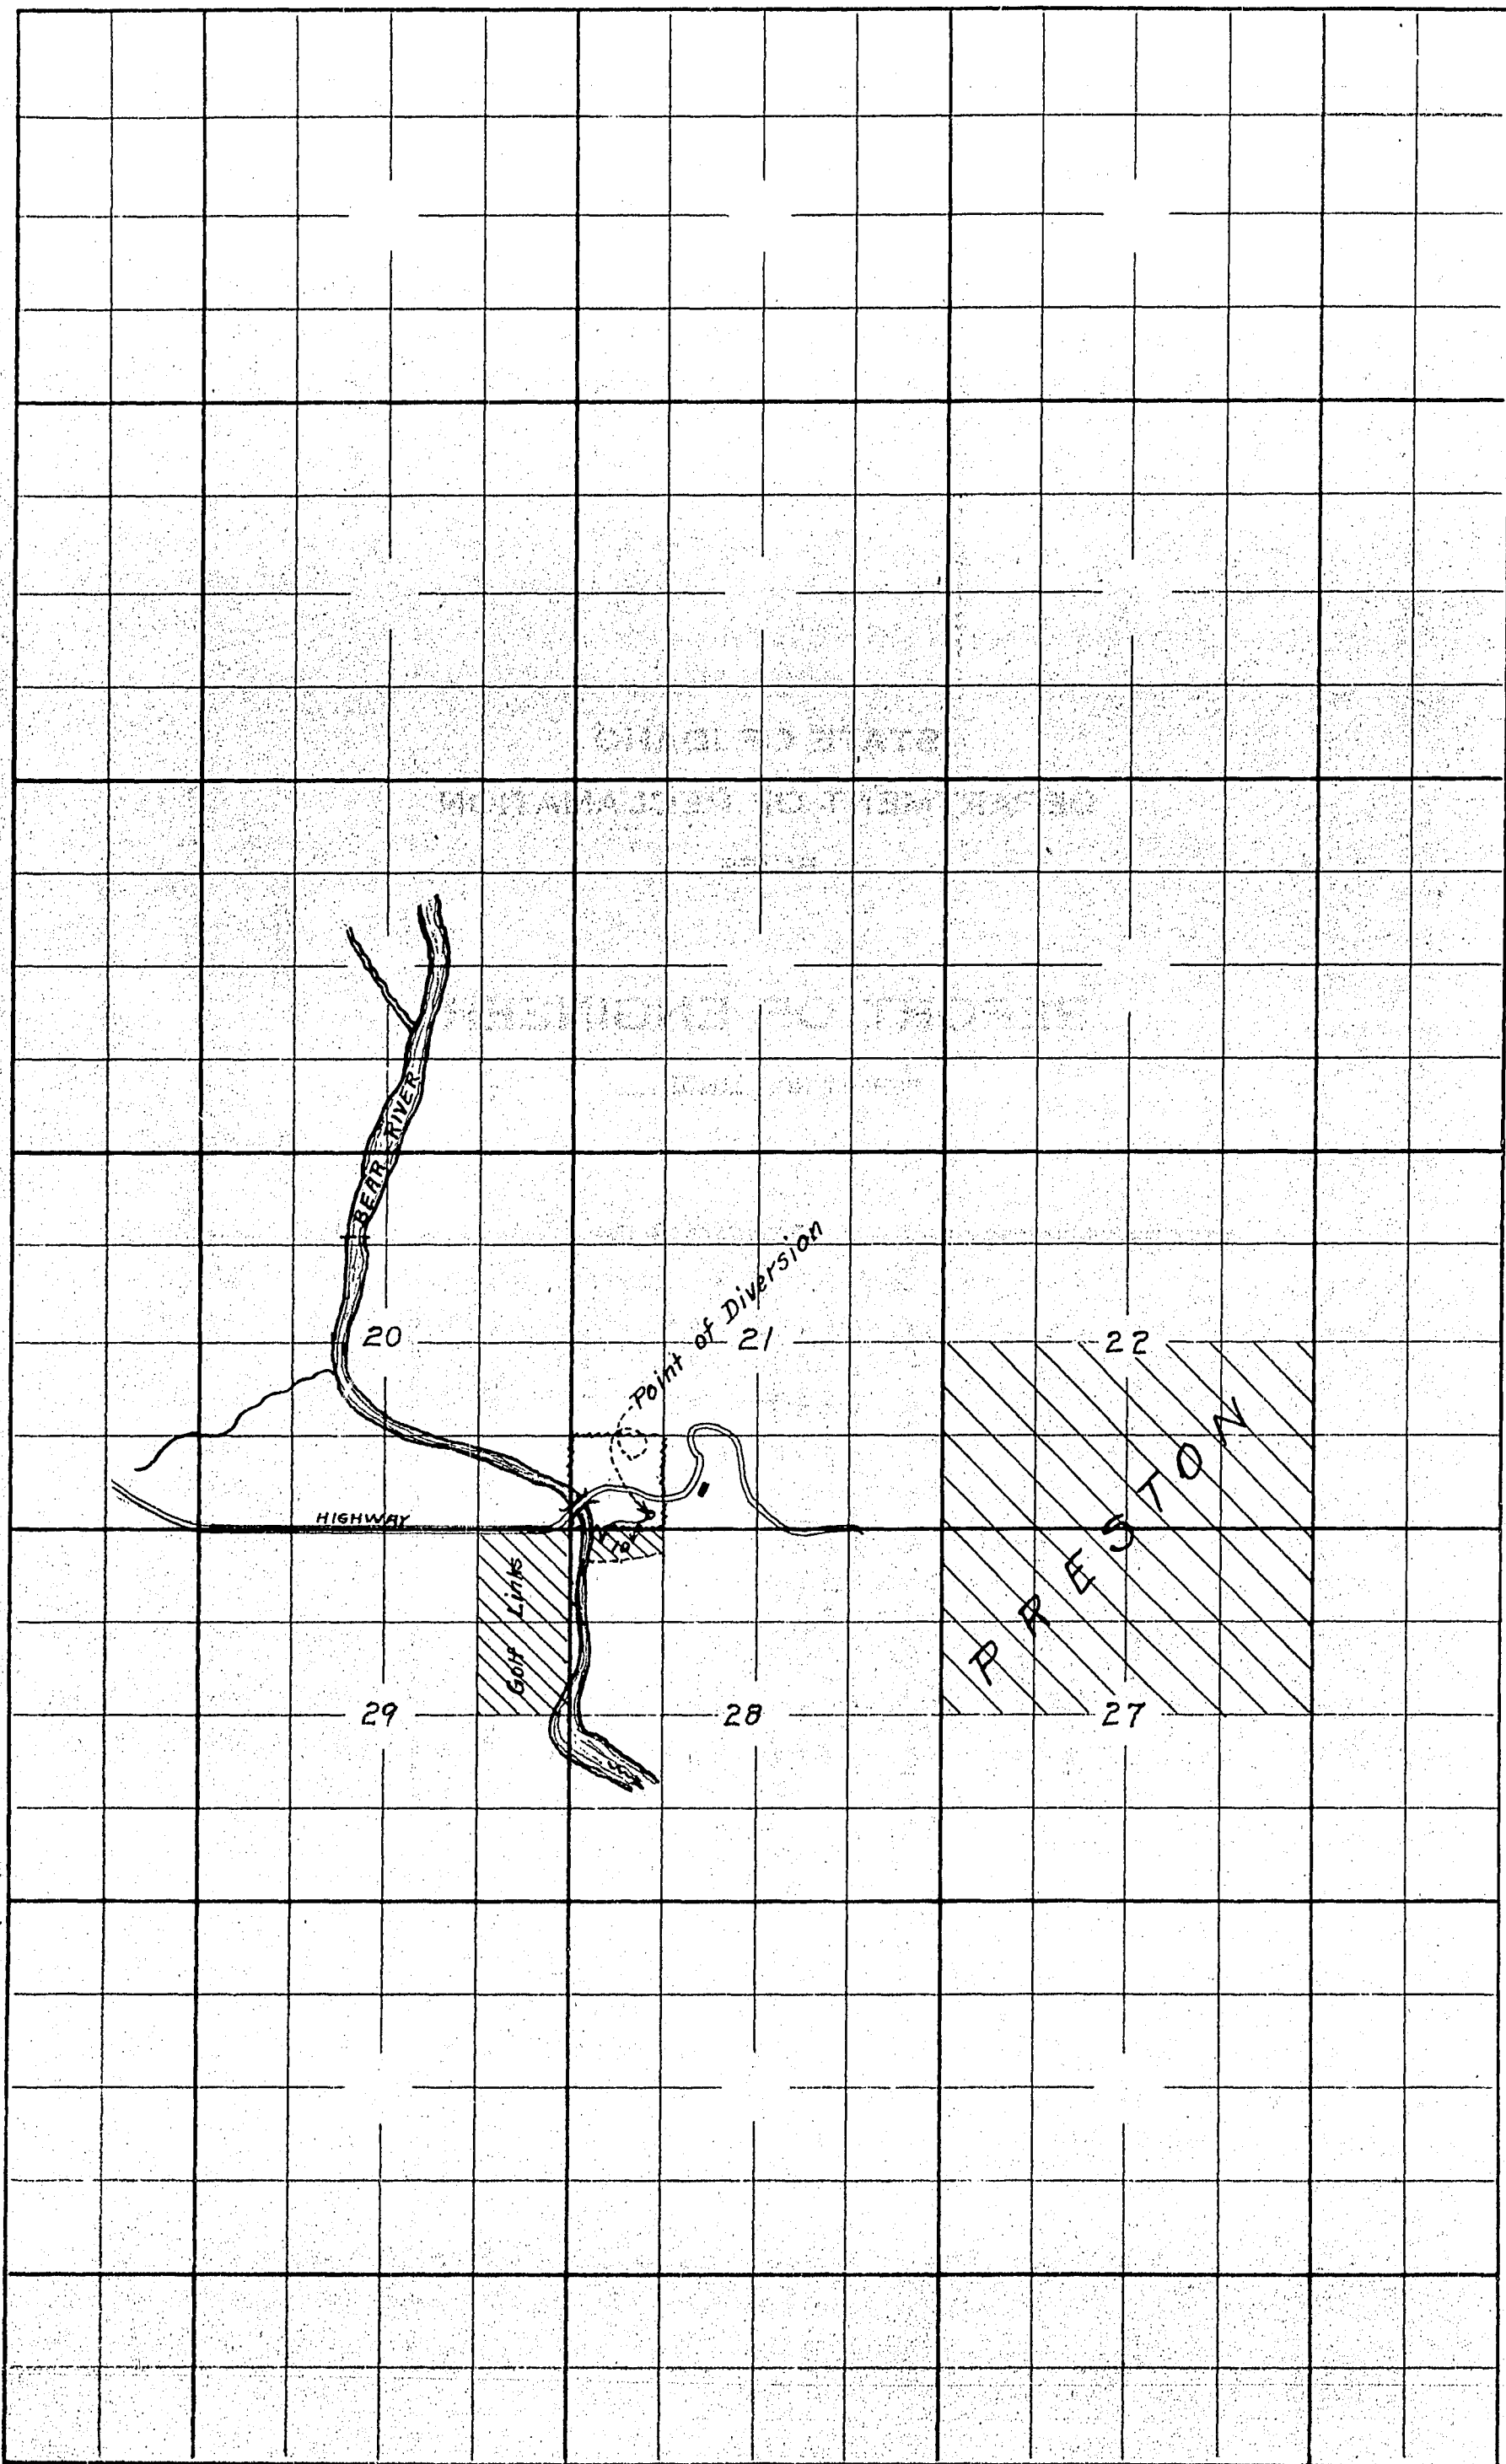

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his report is on file in this office you will be further notified as to fees due before the issuance of your license.

Very truly yours,

R. W. FARIS

Re: Permit No. 18451

Mr. Charles Leo Hobbs,
Preston, Idaho.

Dear Sir:-

A short time ago we received our field engineer's report on examination for beneficial use proof under the above numbered permit.

This report shows that you are irrigating ten acres in the NW $\frac{1}{2}$ NW $\frac{1}{2}$ Section 28, Township 15 South, Range 39 East, instead of the SW $\frac{1}{2}$ SW $\frac{1}{2}$ Section 21, same township and range, as shown on your permit.

The report further shows that while the ditch runs along the north side of the section line fence, or in the SW $\frac{1}{2}$ SW $\frac{1}{2}$ Section 21, all of the irrigation is south of the fence, or in the NW $\frac{1}{2}$ NW $\frac{1}{2}$ Section 28.

We are therefore enclosing an application for amendment to the permit, to show this change in point of use- which it will be necessary for you to execute and return to this office, for approval of the Commissioner of Reclamation.

Upon return of this application for amendment, and the fee of \$2.00 for final proof, a license will be issued.

Very truly yours,

**Application for Amendment
To Permit to appropriate the Public Waters
of the State of Idaho, No.**

Comes now Charles Leo Hobbs, and represents to the Commissioner of Reclamation of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 18451, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

part of NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 28, Township 15 South, Range 39 East. B.M.

making a total of 10 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Preston, Idaho, this 18 day of March, 1939

Re: Permit No. 18451

Mr. Geo. E. Huggi,
Preston, Idaho.

Dear Sir:-

We are in receipt of your letter of April 6th, enclosing License issued to Charles Lee Huth, under the above numbered permit, and calling attention to the fact that while the license sets out that the Certificate of Completion of Works showed that the works had a carrying capacity of 0.3 second foot, the amount to which the holder is entitled is only 0.2 second foot.

The Engineer's examination on proof of beneficial use shows only ten acres being irrigated, and according to the law we are limited in granting you more than one inch per acre, or 0.2 cubic feet per second for 10 acres.

I trust that this explains the matter satisfactorily.

Dear Mr Reynolds

I appreciated talking to you about the water on the land I purchased in Franklin Co. The Quit Claim^{Deed} that I received when I purchased the land describes the water from Erickson hollow & I understood from description that the water was on the Deeds but I have been unable to verify this from the records in Franklin Co. The water has been in use as long as I know. This stream of water also feeds my lullinory well, I found out a few years ago. The Conal Co above me ran their ditch over & washed several hundred yards of sand down the ditch & filled it up. & My Well dried up. But when we got the water fork in the old channel I got water fork in the well. I also used the water for irrigation. I would appreciate your checking into My Water Rights.

Sincerely Yours

Preston, ID 83263

Dear Mr. Hobbs:

We have one recorded water right on file that is appurtenant to the lands described on the copy of the deed you provided.

License water right 18451/13-2136 has a 5/24/37 priority for 0.2 cfs for irrigation of ten acres in NW $\frac{1}{4}$ NW $\frac{1}{4}$, sec. 28, T. 15 S., R. 39 E. in the name of Charles Leo Hobbs. A copy of the license is enclosed.

We do not have any record of any water right filing on waters from Ericksen Hollow or the dump ground area.

You perhaps may want to file a claim on those sources used on your land. A claim form is enclosed.

Sincerely,

Jim Johnson
