

V. H. Mendenhall, Chairman

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Application No. 26094

Permit No. 18731

District No.

1. Name of Applicant: THATCHER RURAL HIGH SCHOOL No. 2

Postoffice address Thatcher

County: Bannock

State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of capital stock:

(c) Amount paid in:

(d) Names and addresses of directors:

II. The financial resources of the applicant are:

(a) Cash on hand:

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources:

2. Quantity of water claimed: 0.6 cubic feet per second.

3. Source of water supply: Bear River which is a tributary of

4. Location of point of diversion: feet distant from the
corner of Section , T. , R. , B. M., and is in the NE $\frac{1}{4}$ SW $\frac{1}{4}$
of Section 1 , T. 12 S , R. 40 E. , B. M., County of Bannock

5. Water is to be used for: Irrigation and domestic use

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section
T. , R. , B. M., in the of Section , T. , R. , B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to at a point feet
distant from the corner of Section , T. , R. , B. M., in the
of Section , T. , R. , B. M.

7. Estimated cost of works: \$ 800.00

8. Kind of works: Pipe and pump

The works consist of a centrifugal pump, Five horse power motor intake pipe four inches,
delivery pipe three and four inches

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water

feet; dimensions of flume:

Diameter of pipe Three and four inches; length of conduit 500 feet miles.

Average grade per mile feet.

12. The time required for the completion of such work is One years.

13. The time required for the complete application of the water to the proposed use is One additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? **NO** If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

THATCHER RURAL HIGH SCHOOL DISTRICT No. 8 Applicant.

By V. H. Mondenball

Agent.

Chairman of Board

In testimony whereof, we, C. A. ROTTOLFSEN, Governor of the State of Idaho, and C. H. CURTIS, Secretary of State of the State of Idaho, have hereunto caused this instrument to be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 18th day of February, 1939. Countersigned: By C. H. Curtis Secretary of State (SEAL) State of Idaho By C. A. Rottolfesen Governor AFFIDAVIT FOR CHANGE OF POINT OF DIVERSION OF WATER RIGHT Permit No. 18731 STATE OF IDAHO) ss. County of Bannock) V. H. Mendenhall, Chairman of Board, Thatcher Rural High School District No. 2, being first duly sworn, deposes and says: That his postoffice address is Thatcher, Idaho. That he is the owner of and using a certain water right for .6 cubic feet per second of the water of Bear River, County of Bannock, State of Idaho, obtained by virtue of Permit to appropriate the public waters of the State of Idaho No. 18731, issued by the Department of Reclamation dated 18th Feb. 1939, bearing date of priority of Feb. 13, 1939, for the purpose of irrigating the following described lands, situate, lying and being in Water District No. 1 in the County of Bannock, and State of Idaho, to-wit: 5 acres in the NW¼ SE¼ of Section One, Township 12 South, Range 40 East, B.M. and is the person (or representative of the person or persons) to whom such right was so issued (or has become the owner thereof in the following manner:) By application for permit, approved by the Commissioner of Reclamation, James Spofford, February 18, 1939. That said waters are now diverted from said stream in the NE¼ SW¼ of Section One, Twp. 12 Range 40 and conducted to the above described lands through a pipe line, as per map filed herewith and on this affidavit made a part; That affiant desires to change the point of diversion of said waters from the point above described to a point located in NW¼ of SE¼ of Sec. One, Twp. 12 S Range 40 E., and thereafter conduct same to the above described land through the pipe line as per map above referred to; Source of water supply Trout Creek which is a tributary of Bear River. That his reasons for desiring to make such changes are as follows: Shortens the distance and eliminates about 15 feet lift, thereby saving in the cost of pumping the water to said land. That no one will be injured by such change and that such change will be made at affiant's own risk. Subscribed and sworn to before me this 17th day of April, 1939. Wm. H. Mendenhall Justice of the Peace, Lago Precinct. Received and filed for record in the Department of Reclamation at Boise, Idaho at 9:00 A.M. April 19, 1939, James Spofford Commissioner of Reclamation Vernon H. Mendenhall Chairman of School Board Affiant.																			

PERMIT NO. 18731
Certificate of Completion of Works.

TO ALL WHOM IT MAY CONCERN:

This is to certify that THATCHER RURAL HIGH SCHOOL NO. 2, of Thatcher, County of Bannock, and State of Idaho, the holder of Permit No. 18731, issued upon Application No. 26094, bearing date of priority of February 13, 1939, authorizing the diversion of 0.6 second foot of the waters of Bear River, County of Bannock, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 0.6 second foot of the waters of Trout Creek, as amended from the original permit by Affidavit dated April 17, 1939; that the point of diversion of said waters is in the NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 1, Township 12 South, Range 40 East, B.M.; and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: Part of the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 1, Township 12 South, Range 40 East, B.M.

Witness my hand this 11th day of September, A. D. 1939.

DEPARTMENT OF RECLAMATION

Dept. of Reclamation,

Boise, Idaho.

Gentlemen: Will you please send me full instructions upon how to proceed to file on water out of Bear River at a point close to the Thatcher High School in Thatcher Idaho, Bannock Co. It is the desire of the board of trustees of Thatcher High to lift enough water to properly take care of the campus of the school consisting of about two acres which will be planted into lawn and trees. Water would be lifted about 100 feet and delivered thru a three inch pipe to the school grounds which are about 600 feet away from the river. The capacity of the pump which is under consideration is 300 G.P.M. however would only be run long enough each day to properly take care of the school grounds.

Sincerely,

J. H. Adams
Clerk of Board.

Re. Permit No. 18731

Department of Reclamation
James Spofford, Commissioner

Dear Sir:-

Referring to Thatcher High School permit to appropriate water for irrigation and domestic use to irrigate the athletic field. We have discovered by changing our point of diversion we can save considerable expense in pumping due to the grade and lift of the water will be greatly lessened.

Will it be possible for us to make the following changes in our applization ?

- 3 Change source of water supply to Trout Creek a tributary of Bear River.
4. Change point of diversion from N E, S W. to n.w. S.E.

I am sending you the map and have indicated in lead pencil the change we would like to make.

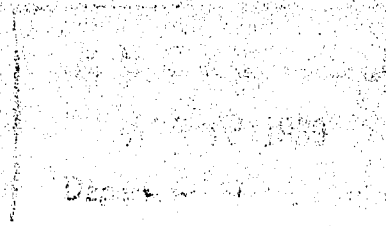

There is no water taken out below the proposed point of diversion on Trout Creek.

We hope you will be able to make these changes for us in the interest of economy. The distances or the same, and there will be no other changes than that mentioned above.

Yours very truly.

Wm. W. Wendenhall

Re: Permit No. 18731
Thatcher Rural High School District # 2

Mr. Wm. H. Mandenhall,
Thatcher, Idaho.

Dear Sir:-

In reply to your letter of April 12th, relative
to certain amendments which you wish to make in
the above numbered permit.

The enclosed affidavit, and two revised maps
should be submitted for application to change the
point of diversion. The maps to constitute a part
of the affidavit.

I believe that this will be all that is required.

Re; Permit No. 18731

Dear Sir:-

Permit No. 18731 to appropriate water for irrigation purposes to Thatcher Rural High School No 2. has been complied with. Our works are completed and the water has been appropriated and used upon the land described.

We are now ready to submit proof therefore. We have complied with the provisions of the permit. We had one fifth of the work done before the time set and we now have the water to the land and irrigating.

Yours very truly.

Re: Permit No. 18731

Mr. Wm. H. Hendenhall,
Chairman of the Board,
Thatcher Rural High School No. 2,
Thatcher, Idaho.

Dear Sir:-

In reply to your letter of the 25th inst., we are enclosing herein an Affidavit for proof of completion of works under the above numbered permit. This should be executed before a Notary Public, and returned to this office together with a fee of \$5.00. If the proof as submitted checks out satisfactorily, Certificate of Completion of Works will be issued.

We are also enclosing duplicate notice for proof of beneficial use, which we have filled out excepting for the time and place for making proof, and the name and address of the Notary Public before whom you wish the proof to be made.

The date set should be at least forty days ahead, as the notice must be published once a week for four consecutive weeks, in the county in which the water is diverted.

We are also enclosing a form of Authorization to have this notice published in a paper that you may designate in Benneek County; and upon return of both notices and the authorization, we shall send a copy of the notice to the newspaper, with instructions in regard to publishing same.

Very truly yours,

Ans. THATCHER RURAL HIGH SCHOOL DISTRICT NO 2. I APPEAR BY APPOINTMENT FROM THE BOARD AS ITS CHAIRMAN.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 18731 ; Feby. 13. 1939; Feby. 13 1939

✓ Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Trout Creek, a tributary of Bear River. N.W 1/4 S.E. Section one. Tp. 12 N. R. 40 east B. M.

✓ Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. 7 1/2 H. P. Cent. Pump operated by electricity with discharge pipe of 4 in. and intake 2 in. pump 0.6 cu. ft. or 260 gal per minute.. The water is conducted to place of use by means of the 4in. pipe. No name given other than school plant.

✓ Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation of lawn on school campus, trees shrubs and for fire protection. The campus consists of 5 acres and 90 % of it has been irrigated by sprinkling method, and grass is now growing there on.

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans.

18731

✓ Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. It will require the full amount of water to successfully irrigate the

✓ Ques. 9. ^{ground 0.6 sec ft} If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

✓ Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Since latter part of August 1939. The full amount of water has been used and 90 % of the ground has been irrigated a number of times to start the grass planted on said ground.

✓ Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

PERMIT NO. 18731

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

✓ Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. ^{Age. 29 yrs.} Trent Baker, Thatcher, Idaho. Laborer. (Ditch rider and Janitor)

Address Thatcher Bannock Co. Idaho.

✓ Ques. 2. Are you acquainted with Thatcher Rural High School District No 2.
V. H. Mendenhall, Chairman of the Board, the holder of Permit No. 18731? How long have you known him and where does he reside?

Ans. Yes., I have known him 7 years, He resides at Thatcher, Idaho.

✓ Ques. 3. Have you read or heard read said Permit No. 18731, and are you familiar with its provisions and conditions?

Ans. Yes.

✓ Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Trout Creek a tributary of Bear River, Diverted at the N.W. S.E $\frac{1}{4}$

Section 1, Tp. 12 so. R 40 east. A 7 $\frac{1}{2}$ horse power pump is used operated by

electricity 4 in. discharge pipe is used from the pump to the ground where

it is distributed over the ground by means of sprinklers.

✓ Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 0.6 cu. ft. and I have seen 125 gal. and up and I think it will safely deliver the 0.6 cu. ft.

✓ Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Water is used for irrigation domestic and fire protection to the school

buildings. Used on the athletic field in the N.W.; S.E. $\frac{1}{4}$ Sec. 1, Tp. 12 so.

R. 40 E. Approximately 5 acres have had water on it. Ground is cultivated

and grass has been planted and is now growing by reason of the water.

18731

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. _____

✓ Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. _____ Sandy soil and will require at least 1 inch per acre or more.

✓ Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. _____ No.

✓ Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. _____ The water has been turned on from the latter part of September and at

_____ intervals since as required to keep the ground wet. Rain makers have been used to sprinkle the ground the water is conducted through lateral pipes

_____ to the sprinklers and I have seen nearly all 90% of the ground so irrigated.

PERMIT NO. 18731

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

✓ Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Harris Stephenson 28 Yrs. Thatcher, Ida. Laborer (Clerk Store)

Thatcher, Bannock Co. Idaho.

✓ Ques. 2. Are you acquainted with Thatcher Rural High School No. 2,
V. H. Mendenhall, Chairman of the Board, the
holder of Permit No. 18731 ? How long have you known him and where does he reside?

Ans. Ten Years. Residence Thatcher. Idaho.

✓ Ques. 3. Have you read or heard read said Permit No. 18731, and are you familiar with its provisions and conditions?

Ans. Yes.

✓ Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of Water supply is Trout Creek, Diverted at N. W. S. E.

Sec. 1. Tp. 12 so. R. 40 east Consists of pump run by electricity

discharge pipe is 4 in. which takes the water to the school grounds

where it is distributed by means of sprays

✓ Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. It will deliver 0.6 sec. ft. and I have seen it running at full capacity--
I estimate it would be fully 0.6 sec. feet

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Water is used for irrigating the school grounds which consists of about 5

acres and I have seen the water over practically all of it.

It is cultivated ground, sandy loam, and the grass planted a short time ago
is up and growing nicely as a result of the water.

18731

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. _____

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is sandy and in some places contains some gravel

It will take more than an inch to the acre to successfully irrigate the land.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans.

No.

Ques. 10. State when, how, in what amount, and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. The latter part of September, 1939 I saw the land being irrigated by means of sprinklers and grass growing there on which had been planted since the completion of the water system. I should judge that the full amount of 0.6 cu ft. was being delivered.

Re: Permit No. 18731

Mr. V. E. Mendenhall,
Chairman of School Board,
Thatcher Rural High School District # 2,
Thatcher, Idaho.

Dear Sir:-

We acknowledge receipt of the deposition of the holder, the depositions of two witnesses, and the affidavit of publication from the Grace Herald, all in connection with beneficial useproof under the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for the examination, so that you may arrange to show him over the grounds.

After his report is on file in this department, you will be further notified as to fees before the issuance of a license.

Very truly yours,

JAMES SPOFFORD

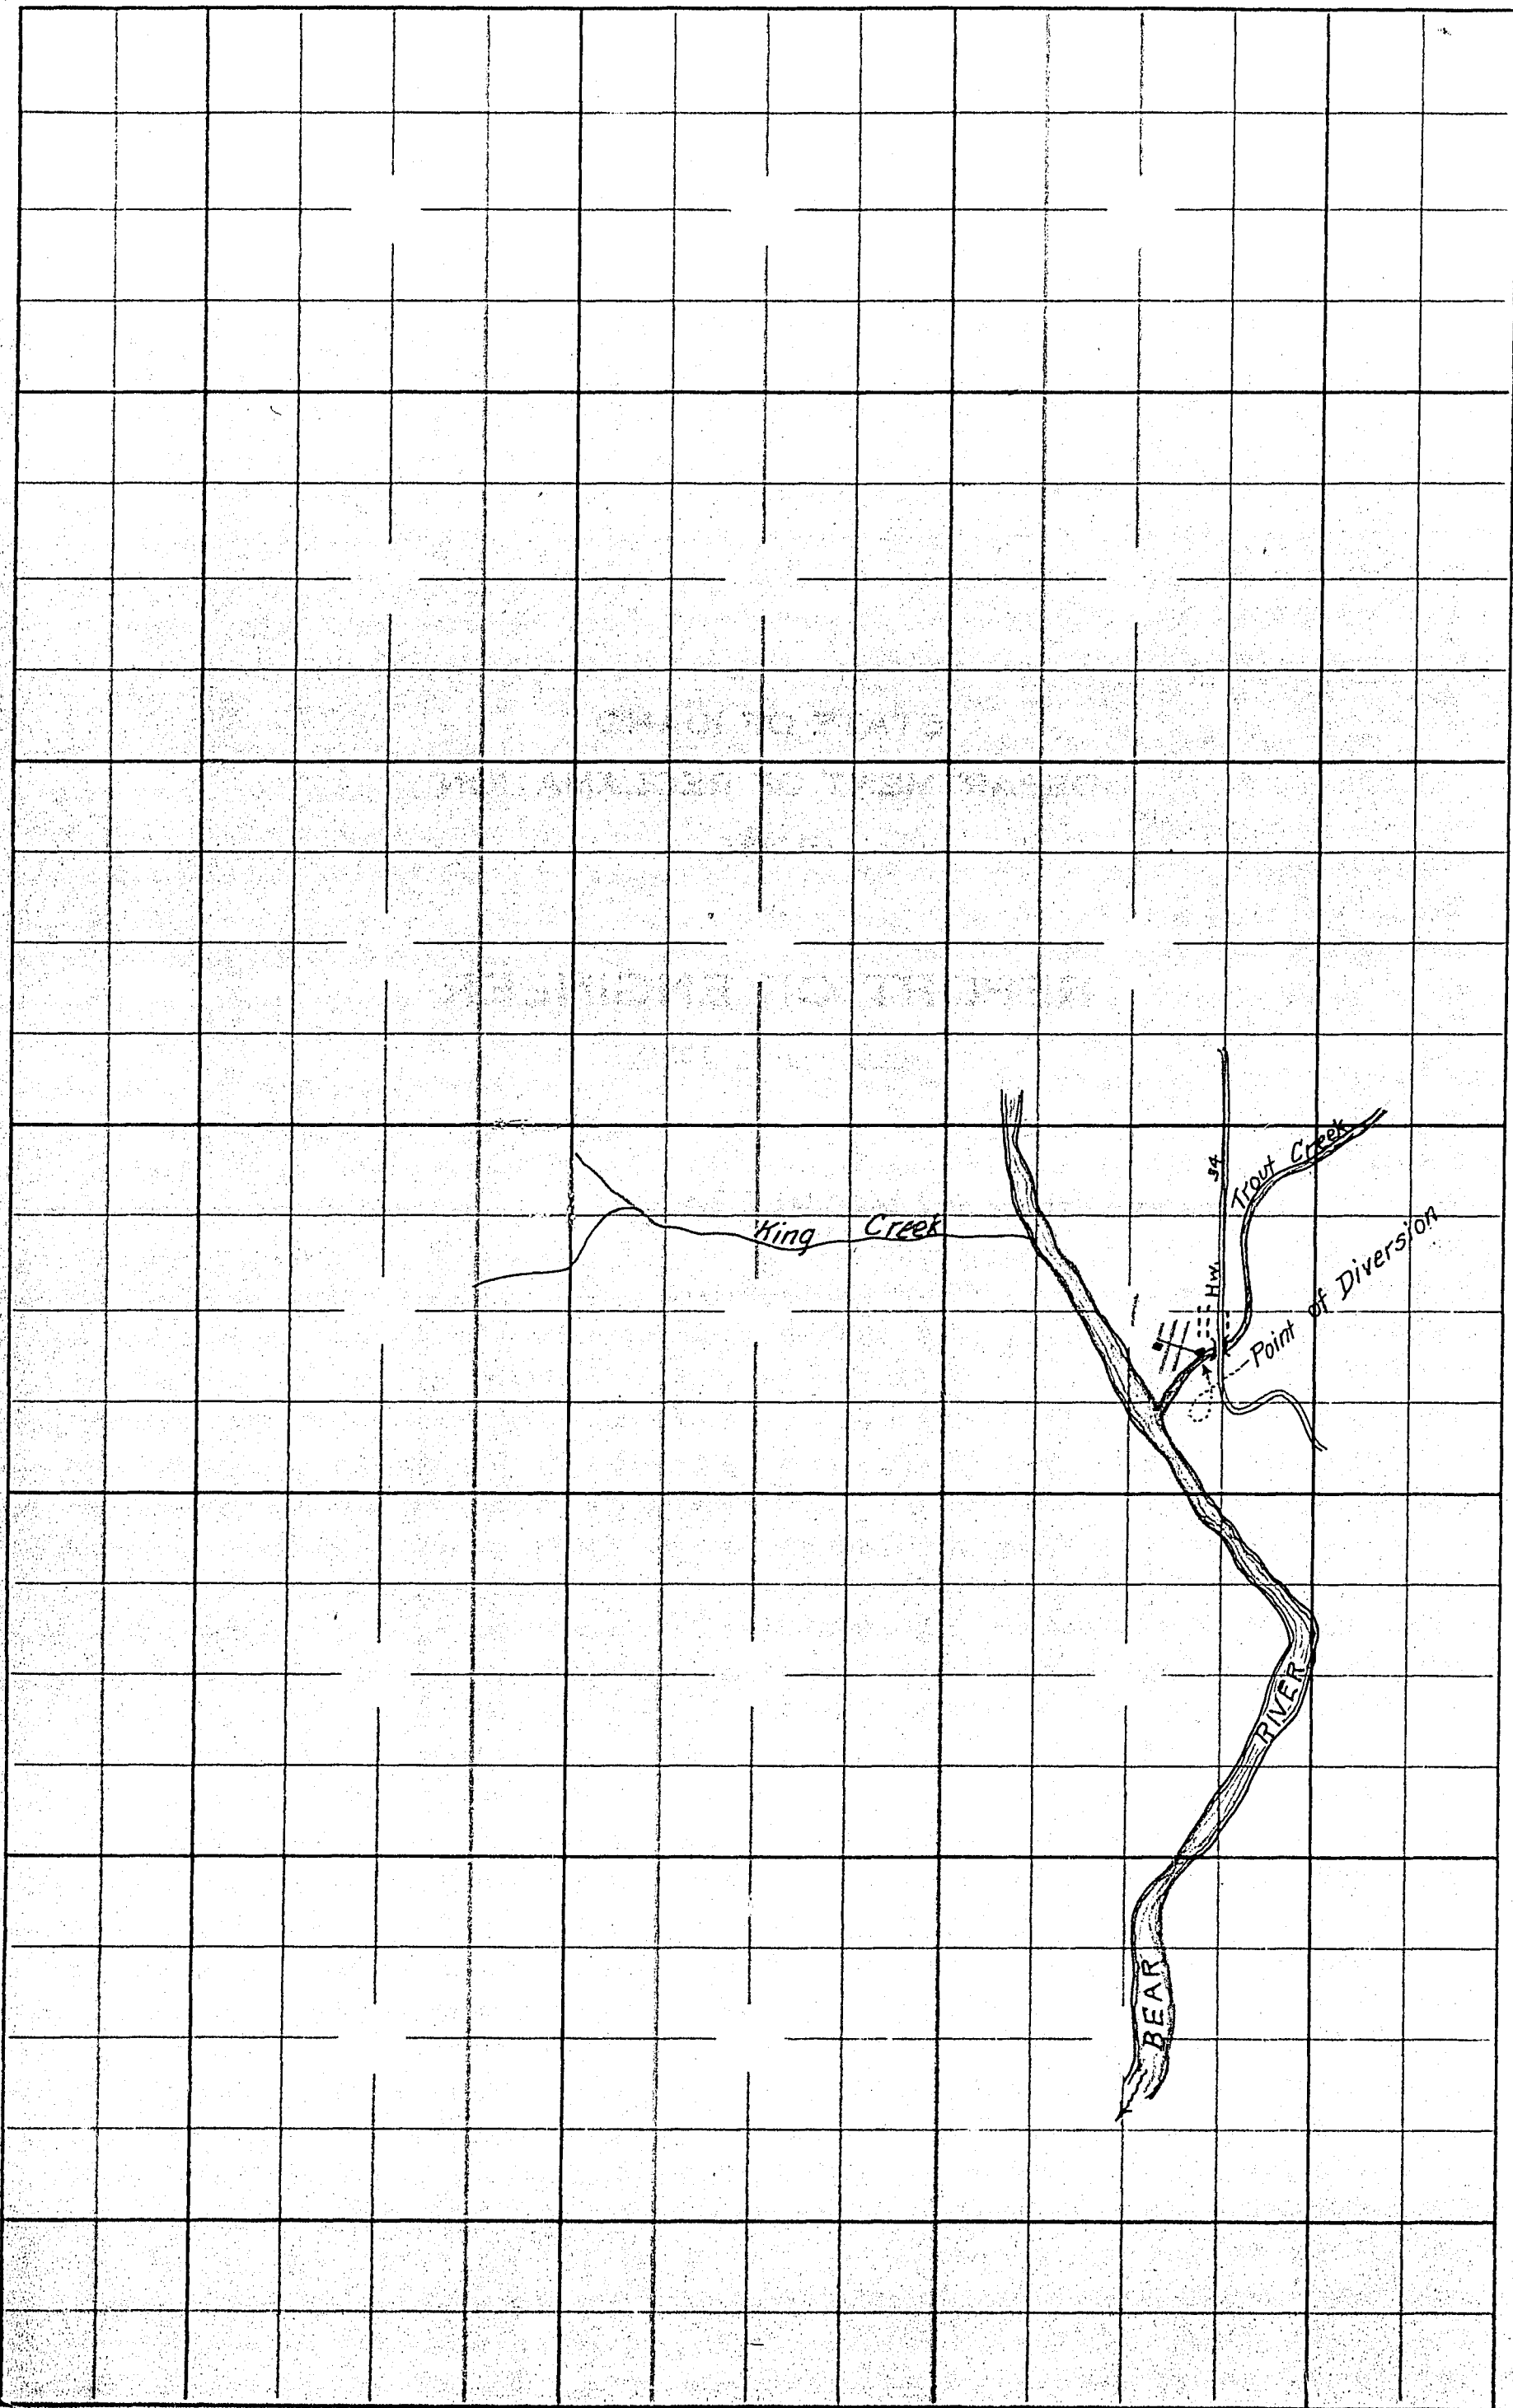

Commissioner of Reclamation

REPORT OF ENGINEER

Permit No. 18731

This proof is for Beneficial use

In Water District No.

1. Name of applicant. Thatcher Rural High School District # 2- V. H. Mendenhall, Chairman
Board- Thatcher, Idaho
2. Source of water supply: Trout Creek
3. Location of point of diversion: Is in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 1
T. 12 S. R. 40 E. County of Bannock
4. Describe works as they exist, giving dimensions and capacities of same: Pump house equipped with Fairbanks-Morse 7 $\frac{1}{2}$ H.P. motor, direct connected to centrifugal pump; pump has 20 feet of 2 inch intake pipe and discharges through 650 feet of 4 inch main pipe leading to school grounds where five lines of "rainmaker" pipes with a total length of 750 feet are under valve control. The maximum lift is 57 feet.
5. Water is used for: irrigation and domestic purposes
6. State whether or not water has been turned into works of diversion: Yes
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): Part of NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 1, Township 12 South, Range 40 East, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Bear River

Remarks:

This examination was made on the 5th day of June, 1940.

Re: 18731

Thatcher Rural High School #2
c/o V. H. Mendenhall
Thatcher, Idaho

Gentlemen:

A short time ago we received the report of our field engineer on examination for Beneficial Use under the above numbered permit.

Our engineer found that the works would be capable of conducting to the place of use 0.6 second foot and inasmuch as the land you are irrigating covers a portion of NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 1, Township 12 South, Range 40 East, B. M., the statutory fee will be \$2.00. Upon receipt of this fee, a license will be issued.

Very truly yours,

E. V. BERG.
Commissioner of Reclamation.
