RE: Permit No. G-23858

Date January 1, 1958

Mr. Roy C. Andreason
Preston, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-23858 are due not later than March 7, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper with the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Dear Mr. Andreasen:

This will acknowledge receipt of the Notice of Completion of Works and Application of Water to Beneficial Use in connection with the above stated permit, to be published in the Preston Citizen, of Preston, Idaho.

In stating the place of use on said notice to be published, we observe that you had one 40 acre subdivision that is not in the original permit and you are leaving out several 40 acre tracts which are in the original permit on which you are not making proofs. The leaving out of part of the land is of no consequence, however, the addition of additional lands should be amended on the original permit to cover same.

We are therefore enclosing an application for amendment, upon which we have listed the lands which you have designated in the notice of publication as the lands to be irrigated. If the lands as designated on the enclosed amendment are correct, please sign same and return to this department. Otherwise, if the lands designated are not correct, please correct same before returning.

Please return as soon as possible, as we are holding up notice of publication until we hear from you, before sending same to the newspaper.

DEPOSITION OF HOLDER

Permit No. G 23858

Name of holder of permit: Roy C. Andreasen.

Post Office Address: Preston, Franklin County, Idaho.

Date of priority holder wishes to establish: March 7, 1953.

Source of water supply: Subterranean flow from well.

Location of well and point of diversion: Southwest quarter of Northeast quarter of Section 18, Twp. 15 South, Range 39 E. B. M.

Diversion works consist of Myers pumps (two), with capacity of 2.5 cfs. each or a total of 5 cfs. Pumps operate at full capacity when in use.

Land irrigated from this source: NE $\frac{1}{4}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 7, and NE $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ NE $\frac{1}{4}$, Section 18, Twp. 15 S., Range 39 E. B. M. Of this land applicant irrigates actually 205 acres.

Other water used on this land: None. Had another filing, not completed.

Have actually used on this land five cfs. of water from the two pumps.

Water is pumped into two pipes. One pipe is 8 inch and the other 6 inch, two thousand feet of 8 and 6 inch pipe, 2600 feet of 4 inch laterals.

Irrigation season is from May first to October first of each year.

Note { Applicant has other land which can be irrigated and would like the privilege of increasing the flow from his well by deepening the same.

Land irrigated is sandy in nature and it requires all of the water available for this purpose.

Crops produced by the application of said water: Potatoes, grain, hay and peas.

Subscribed and sworn to before me this 14th day of March 1953.

DEPOSITION OF WITNESS

Permit No. G 23858

RECEIVED
MAR 17 1958
Department of Reclamation

Name: Albert E. Moser. Post Office Address: Dayton, Idaho. Age 53 years.

Have known Roy C. Andreasen, holder of Permit No. G 23858, for ten years.

Have read Permit No. G 23858 and know its contents; and have no interest in the land or water applied for by applicant.

Source of water: A subterranean well and point of diversion of water therefrom is in SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 18, Twp. 15 South, Range 39 E. B. M., in Franklin County, Idaho.

Works of diversion consist of: Two Myers pumps of a total capacity of 5cfs. Water is pumped into two pipe lines, one of 8 inch diameter and the other of 6 inch diameter. There are about 2000 feet of this pipe, and approximately 2600 feet of four inch laterals.

Have seen both pumps in operation, pumping what appeared to be full capacity. This I have observed several times during the past five years.

Have also seen this water applied to the production of crops such as potatoes, hay, grain, and peas.

In my opinion slightly over 200 acres have been irrigated from this source, and I have not seen any other water used on this land. The land irrigated is NE $\frac{1}{4}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 7, and NE $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 18, Twp. 15 South, Range 39 E. B. M.

The land irrigated is of sandy character, and it requires the full capacity of the two pumps to irrigate said land.

The works of diversion were fully completed in the year 1955.

Have known Roy C. Andreasen, holder of Permit No. G 23858 for 17 years.

Have read Permit No. G 23858 and know its contents, and have no interest in said Permit or in the water applied for by applicant.

Source of water: A subterranean well and point of diversion of water therefrom is in SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 18, Twp. 15 South, Range 39 E. B. M., in Franklin County, Idaho.

Works of diversion consist of: Two Myers pumps of a total capacity of 5 cfs. Pumps pump water into two lines of pipe, one of 8 and the other of 6 inch capacity. There are 2000 feet of this pipe, and approximately 2600 feet of four inch laterals.

Have seen both the pumps in operation, pumping full capacity, frequently during the irrigation season in the years 1954-57, both inclusive.

Have seen this water beneficially applied to the production of crops in each of said years, and have seen over 200 acres of land irrigated from this source, in the following subdivisions: NE $\frac{1}{4}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 7, and NE $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 18, Twp. 15 South, Range 39 E. B. M.

Character of land irrigated: Sandy. Crops raised: Potatoes, grain, hay and peas.

Water required for proper irrigation of this land: The full capacity of the diversion works, or five cfs.

The works of diversion were fully completed in the year 1955.

No other water is used on this land.

Have known Roy C. Andreasen, holder of Permit No. G 23858 for 17 years.

Have read Permit No. G 23858 and know its contents, and have no interest in said Permit or in the water applied for by applicant.

Source of water: A subterranean well and point of diversion of water therefrom is in SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 18, Twp. 15 South, Range 39 E. B. M., in Franklin County, Idaho.

Works of diversion consist of: Two Myers pumps of a total capacity of 5 cfs. Pumps pump water into two lines of pipe, one of 8 and the other of 6 inch capacity. There are 2000 feet of this pipe, and approximately 2600 feet of four inch laterals.

Have seen both the pumps in operation, pumping full capacity, frequently during the irrigation season in the years 1954-57, both inclusive.

Have seen this water beneficially applied to the production of crops in each of said years, and have seen over 200 acres of land irrigated from this source, in the following subdivisions: NE $\frac{1}{4}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 7, and NE $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 18, Twp. 15 South, Range 39 E. B. M.

Character of land irrigated: Sandy. Crops raised: Potatoes, grain, hay and peas.

Water required for proper irrigation of this land: The full capacity of the diversion works, or five cfs.

The works of diversion were fully completed in the year 1955.

No other water is used on this land.

Dear Mr. Andreasen:

This acknowledges receipt of the depositions of Holder and two witnesses, also, the affidavit of publication in The Preston Citizen in proof of Completion of Works and Beneficial Use under Permit No. G-23858.

Before final action is taken the law requires that a field examination be made by an engineer from this department. We cannot say just when this examination will be made but our field engineer will contact you prior to the time he is to make the examination so that you can arrange to show him over the ground.

Re: Permit No. G-23858

Mr. Roy C. Andreasen
Preston
Idaho

Dear Mr. Andreasen:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-23858 shows the well is capable of conveying 55 miners inches (1.10 c.f.s.) of water for irrigation of 154 acres and that in addition to the land described in the permit that you are irrigating 5 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 18, Township 15 South, Range 39 East. It is necessary that the permit be amended to include this land and we enclose an Application for Amendment to the Land List for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees, totaling \$17.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (twelve dollars--fee based at the rate of two dollars for each 20-acre subdivision) confirming the right with priority of March 2, 1953, to the use of 1.10 second feet of subterranean water, with point of diversion in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 18, for irrigation of 154 acres in the E $\frac{1}{2}$ SW $\frac{1}{4}$ Section 7, W $\frac{1}{2}$ NE $\frac{1}{4}$ and E $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 18, Township 15 South, Range 39 East, B.M.

Comes now Roy C. Andreasen, and represents to the State
Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of
Idaho, No. G-23858, and requests that the list of lands to be irrigated, as described in said
permit, be changed to read as follows:

To include 5 ^{acres} in the ^{SE 1/4 NW 1/4} of Section 18, Township 15 South,
Range 39 East, B.M.

making a total of 5 additional acres.

That an additional amount of water is not asked for, and that the rights of others will not be ad-
versely affected by such change.

Signed at Preston, Idaho, this 4th day of November, 1958.
