Dear Mr. Ballif:

We are in receipt of your application for permit to appropriate $2\frac{1}{2}$ second feet of the water from a well, and we also have your letter of September 1st enclosing money order for \$5.00.

The application should be accompanied by sketch maps in duplicate showing the location of the well and cross-hatching or coloring the land where the water is to be used. These maps should be made on the forms enclosed.

The filing fee on $2\frac{1}{2}$ second feet of water is \$5.50 being at the rate of \$5.00 for the first second foot and 25 cents for each additional second foot or fraction thereof. There is, therefore, a balance of 50 cents required to complete the filing fee.

Re: Permit No. G- 25158

Date: July 1, 1959

Mr. Serge C. Ballif
155 North 2nd West
Logan, Utah

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G- 25158 are due not later
than Sept. 21, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

Dear Mrs. Ballif:

Enclosed are the Forms 36 and 11 you submitted with two blank Forms 36.

In the notice for publication, you show $\frac{1}{2}$ cubic feet per second. That may be all the works will produce, however the permit calls for 2.4 cubic feet per second. The amount should not be less than the amount of water produced by your works.

You show your name as owner of the permit. It will be necessary that we have a certified copy of the Court Order of Distribution or naming you as administratrix of Mr. Ballif's Estate. The order may be sent in later if you show that it will be sent.

Kindly complete the blank forms 36, change the date of making proofs to a week or more later; add your address under 1., change the amount of water, if more is produced; under 3 add "and domestic"; and under 5 show the complete land description as shown in pencil and the priority should be changed as shown in pencil.

Return two form 36 and the one form 11 to this office and the notice will be processed.

Dear Mr. Ballif:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-25158. The proofs are to be made at 11:00 o'clock A.M., on the 18th day of September, 1959, before Ted Larsen, 10 West Omsida, Preston, Idaho, Notary Public.

As of this date we have mailed the Notice to the Franklin County Citizen with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.
