Dear Mr. Smith:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 27015 are due not later than August 13, 1962

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

Mrs. Rufus R. Smith has come into my office with your notice, dated September 24, 1962, relative to the cancellation of the above cited permit.

She informs me that the well has been completed, that the water has been put to beneficial use, and that failure to complete proof was a matter of inadvertence and oversight, plus the fact that at this particular time, Mr. Smith is in the potato harvest, working early and late. He could not even get into the office to bring in the notice, at this time.

For the foregoing reason, we respectfully request that we be permitted to submit proof, at this time, without forfeiture of the permit. We would appreciate it, also, if you would send to this office the necessary forms for completing such proof.

Very respectfully yours,

Mr. Leonard O. Kingsford,
Attorney at Law,
Soda Springs, Idaho.

Dear Mr. Kingsford:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27015, in the name of Rufus R. Smith. Final Proof is to be made before you, as Notary on the 15th day of December, 19 62, at 1:30 o'clock P.M., at 176 South Main St., Soda Springs Idaho.

As of this date we have mailed the Notice to the Caribon County Sun Soda Springs, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

ice is hereby given that at 1:30 P. M., on the 15th day of December
at Soda Springs, County of Caribou, State of Idaho,
Leonard O. Kingsford, Notary Public, at (address) 176 South Main Street,
Springs, Idaho, proof will be submitted of the completion of works for
diversion of 2.24 cubic feet per second of underground water from a well, and of
application to beneficial use of said water, in accordance with the terms and
conditions of Permit No. G-27015, heretofore issued by the Department of Reclamation
State of Idaho.

The name and postoffice address of the person or corporation holding said permit
Wm R. Smith, Grace, Idaho.

Said works of diversion will be fully completed on the date set for such com-
pletion, and the amount of water which said works are capable of conveying to the place of
diversion is 2.24 cubic feet per second.

The use to which said water has been applied is irrigation and domestic
purposes, and the amount applied to beneficial use is 2.24
cubic feet per second.

The point of diversion of said water is South center S $\frac{1}{2}$ Sec. 18, Twp. 10 S.,
1 E.B.M.

The place where said water is used is Twp 10 South, Range 41 E.B.M.:

Beginning 64 rods East of the NW corner of NE $\frac{1}{4}$ SW $\frac{1}{4}$, and running thence East 32 rods;
thence South 160 rods; thence West 32 rods; thence North 160 rods, to point of beginning
NE $\frac{1}{4}$ SW $\frac{1}{4}$.

The date of priority which said user is prepared to establish is August 13, 1957.

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Rufus R. Smith, of Grace, Idaho. Occupation, Farmer. Post Office
Address, Grace, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Not a corporation.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-27015, dated August 13, 1957. Date of Priority: August 13, 1957.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of Water is a well located South center S $\frac{1}{2}$ Sec. 18, Twp. 10 S.,
Range 41 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Buried main line from well to place of use, $\frac{1}{4}$ -mile of 10 inch line, $\frac{1}{8}$ -mile
of 8 inch line, $\frac{1}{8}$ -mile of 6 inch pipe, carries water to point of discharge into
movable sprinkler system used on surface. Well is 190 feet deep, 22-inch casing
to 190 foot depth, perforated in lower portion. Water stands at depth of 160 feet;
pump has demonstrated capacity to pump for 8 lines rated at 40 inches per line;
256 nozzles, 7.5 gal. per minute capacity, under 50 lbs. pressure.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used to irrigate the following described lands located in Caribou County,
Idaho: Twp. 10-South, Range 41 E.B.M.:

Sec. 18: Beginning at a point 64 rods East of the West $\frac{1}{16}$ th corner, and
running thence East 32 rods; thence South 160 rods;

s. 7. If for power or other purposes than irrigation, state how water has been used:

Culinary and stock watering use takes some water, but the main use is
for irrigation.

s. 8. (If for irrigation) state character of land that has been reclaimed, and
your estimate of the amount of water required for its profitable cultivation:

Land has been dry farm until the last few years. It was flood irrigated for a
few years. An inch per acre, or 112 inches of water, minimum, would be needed.

s. 9. Have you any interest in the works, water or lands above mentioned? If so,
in what way and to what extent: No.

s. 10. When did you first see this water used: Start of irrigation season, 1961.

How many times you have seen such use: During balance of 1961 irrigation season, and during
the 1962 irrigation season.

Dear Mr. Smith:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Caribou County Sun, all submitted in proof of completion of works and beneficial use on Permit No. G-27015.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.
