

Application For Permit To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 36724
PERMIT NO. 28742
DISTRICT NO.

1. Name of Applicant: C. J. Butters

Postoffice address: Cornish

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
(b) Amount of capital stock:
(c) Amount paid in:
(d) Names and addresses of directors:

County: Cache State: Utah

II. The financial resources of the applicant are:

- (a) Cash on hand:
(b) Treasury stock:

(c) Bond to be issued:
(d) Other resources:
cubic feet per second.

2. Quantity of water claimed: 1.42

3. Source of water supply: Springs

which is a tributary of West
Cache Canal

4. Location of point of diversion:

feet distant from the

corner of Section , T. , R. , B.M., and is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$

of section 19 , T. 16 S , R. 39 E , B. M., County of Franklin

5. Water is to be used for Irrigation, culinary, livestock

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water:

feet distant from

corner of Section

T. , R. , B.M., in the

of Section of

T. , R. , B.M.

(b) Amount of power generated:

H.P., under

feet head.

(c) Water is to be returned to

at a point

feet

distant from the

corner of Section

T. , R. , B.M., in the

of Section

T. , R. , B.M.

7. Estimated cost of works: \$ 8,000

8. Kind of works: Pump from canal thru steel pipeline

9. Height of dam

feet; length of dam at top

feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width

feet; height

feet.

11. Ditch: Width at bottom

fee; width at water line

feet; depth of water

dimensions of flume:

Diameter of pipe 8

inches; length of conduit

miles.

Average grade per mile

feet.

12. The time required for the completion of such work is 5

years.

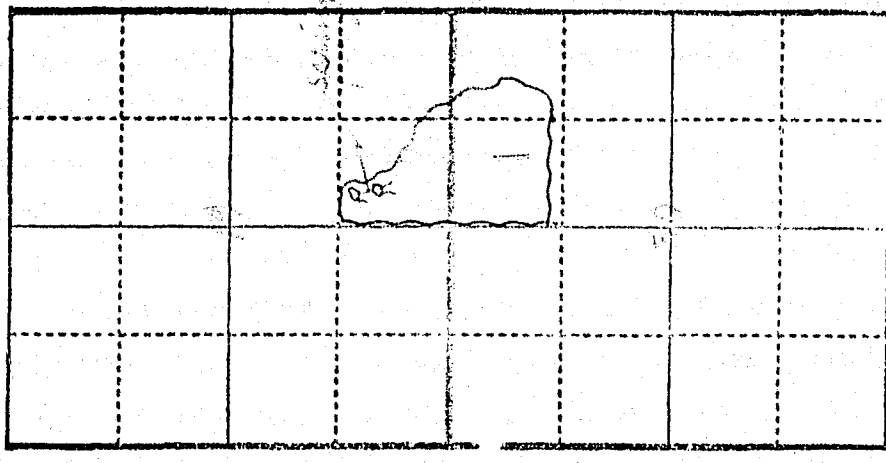

13. The time required for the complete application of the water to the proposed use is 1

additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

West Cache Canal -
55 shares

December 15, 1959.

RE: Application for Permit

C. J. Batters
Cornish, Utah

Dear Mr. Batters:

Enclosed is the application for permit you submitted, with the attached check for \$5.00.

The amount of water claimed is 1.42 cubic feet per second, and the filling fee is \$5.25, being \$5.00 for the first cubic foot, and \$0.25 for an extra fractional part of a second foot.

The point of diversion under 4 is not clear. Kindly complete, showing the 40-acre subdivision which appears to be the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 30, Township 16 South, Range 39 East in Franklin County.

On second page under 4, you show 40 acres under NW $\frac{1}{4}$ NW $\frac{1}{4}$ and 31 acres under NW $\frac{1}{4}$ SW $\frac{1}{4}$. The map shows NW $\frac{1}{4}$ NW $\frac{1}{4}$ and we have penciled 31 under SW $\frac{1}{4}$ NW $\frac{1}{4}$.

Instructions, copy enclosed, shows you should show under Remarks the ownership of the land where the springs are located. We assume from the map that the springs are on your land, however you should so state under Remarks on page 3.

Show the section, township, and range on the map with arrow indicating north if north is not at top of map.

Kindly show corrections and additions and return to this office within 60 days.

Yours very truly,

GEO. N. CARTER
State Reclamation Engineer

Re: Application for Permit

Mr. C. W. Butters
Cornish, Utah

Dear Mr. Butters:

Returned herewith is your application for permit with the attached check for \$5.25 filing fee.

We are further confused as to the location of your point of diversion and the land to be irrigated. The figures you give under Question 1 do not identify any place. The original sketch has been marked void and a new sketch below without showing the section, township or range number. If the scale is 2 inches equal one mile, the area enclosed appears to be less than 50 acres. The sketched area is moved from the NW 1/4 of the section to the NE 1/4 of the section.

Kindly get some familiarity with the task to plat your land on the form, show the location of the springs and the pipe line and/or the ditch used to distribute the water, and complete Question 11. Or you may send us the description of your land and described the location of the springs so we can make the map.

Very truly yours,

EDN. P. HALE

Re: Permit No. 28742

Mr. C. J. Butters,
Cornish, Utah.

Dear Mr. Butters:

We enclose Permit No. 28742 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. 30134 which was issued covering payment in the amount of \$5.25 for the filing fee of the above mentioned permit.

You will note, under Question 12, that we have changed the required time for completion of works to five years. However, you may make the required proofs at any time you are prepared to do so within that time.

Very truly yours,

GEO. N. CARTER

June 5, 1966

Re: Permit No. 28742

C. J. Butters
Cortish, Idaho

Dear Mr. Butters:

We have received your letter of June 4th in regard to completion of work under your permit to divert water from springs on your land.

You must make proof of completion of work on forms supplied by this office, on or before May 27, 1966. You must also make proof of beneficial use of the water on or before May 27, 1966, all as shown on page 1 of the permit.

Proof of completion of work requires answering questions on a form describing the work, the form to be signed before a Notary Public. The completed form with \$5.00 should be sent to this office and the Certificate of Completion of Work can be issued.

Proof of use of the water requires a legal notice to be published in four successive weekly issues of a paper published in the County wherein your land is located and subsequent depositions by the holder and two witnesses of the use of the water before a Notary Public.

Both proofs can be made at the same time with one set of forms similar to the proof of beneficial use of the water, which is the easiest way. We assume that you will have developed complete use of the water prior to May 27, 1966.

Kindly notify this office which proofs you desire to make when you request the forms.

Very truly yours,

GERD. N. CARTER
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho

March 1, 1965

Re: Permit No. 28742

C. J. Buttars
Cornish, Utah

Dear Mr. Buttars:

Under the terms of your Permit No. 28742 you are required to complete your diversion works on or before May 27, 1965. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

Carl E. Tappan

State Reclamation Engineer

RE: Permit 28742

Chester J. Butters
Cornish,
Utah

Dear Mr. Butters:

Returned herewith is your proof of completion of works on the above numbered permit. You list the point of diversion as being in the NE $\frac{1}{4}$ Section 30, T15S-R39E, while the permit has it listed as the SW $\frac{1}{4}$ Section 19, T4S-R39E. If the point of diversion has been changed we require an amendment prior to accepting the proofs. Also you list the land as surveyed not as required by government land descriptions such as: 8 acres in the NE $\frac{1}{4}$ Section 30, T15S-R39E.

Please make the required amendment and/or corrections and return promptly.

RE: Permit No. 28742

Chester J. Butters
Cornish, Utah

Dear Mr. Butters:

In checking your permit which shows irrigation of 31 acres in the SWSE¹/₄, Sec. 19; 8 acres in the NESE¹/₄, 32 acres in the NWSE¹/₄, Sec. 30, Twp. 14 S., Rge. 39 E., B.M., I found a description of your land on the proof of completion of works which shows you own 40 acres in the NWSE¹/₄, and 31 acres in the SWSE¹/₄, Sec. 30, T. 16 S., R. 39 E., B.M.

You amended your point of diversion from a spring in the SWSE¹/₄, Sec. 19 to the NWSE¹/₄, Sec. 30.

You should be sure of the land to be irrigated before making proof of beneficial use of the water or you may have to readvertise the legal notice at your expense.

Enclosed is a form to amend the land list. There is a fee of \$1.00 for recording an amendment to a permit.

Very truly yours,

RALPH W. THOMAS
Deputy State Reclamation Engineer

RWT:mr

Enc. amendment form

28742

STATE OF IDAHO

DEPARTMENT OF RECLAMATION

Re: Permit No. 28742

Date:

March 4, 1966

C. H. Buttars
Cornish, Utah

Dear Mr. Buttars:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 28742 is due not later than **May 27, 1966**. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated -- by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

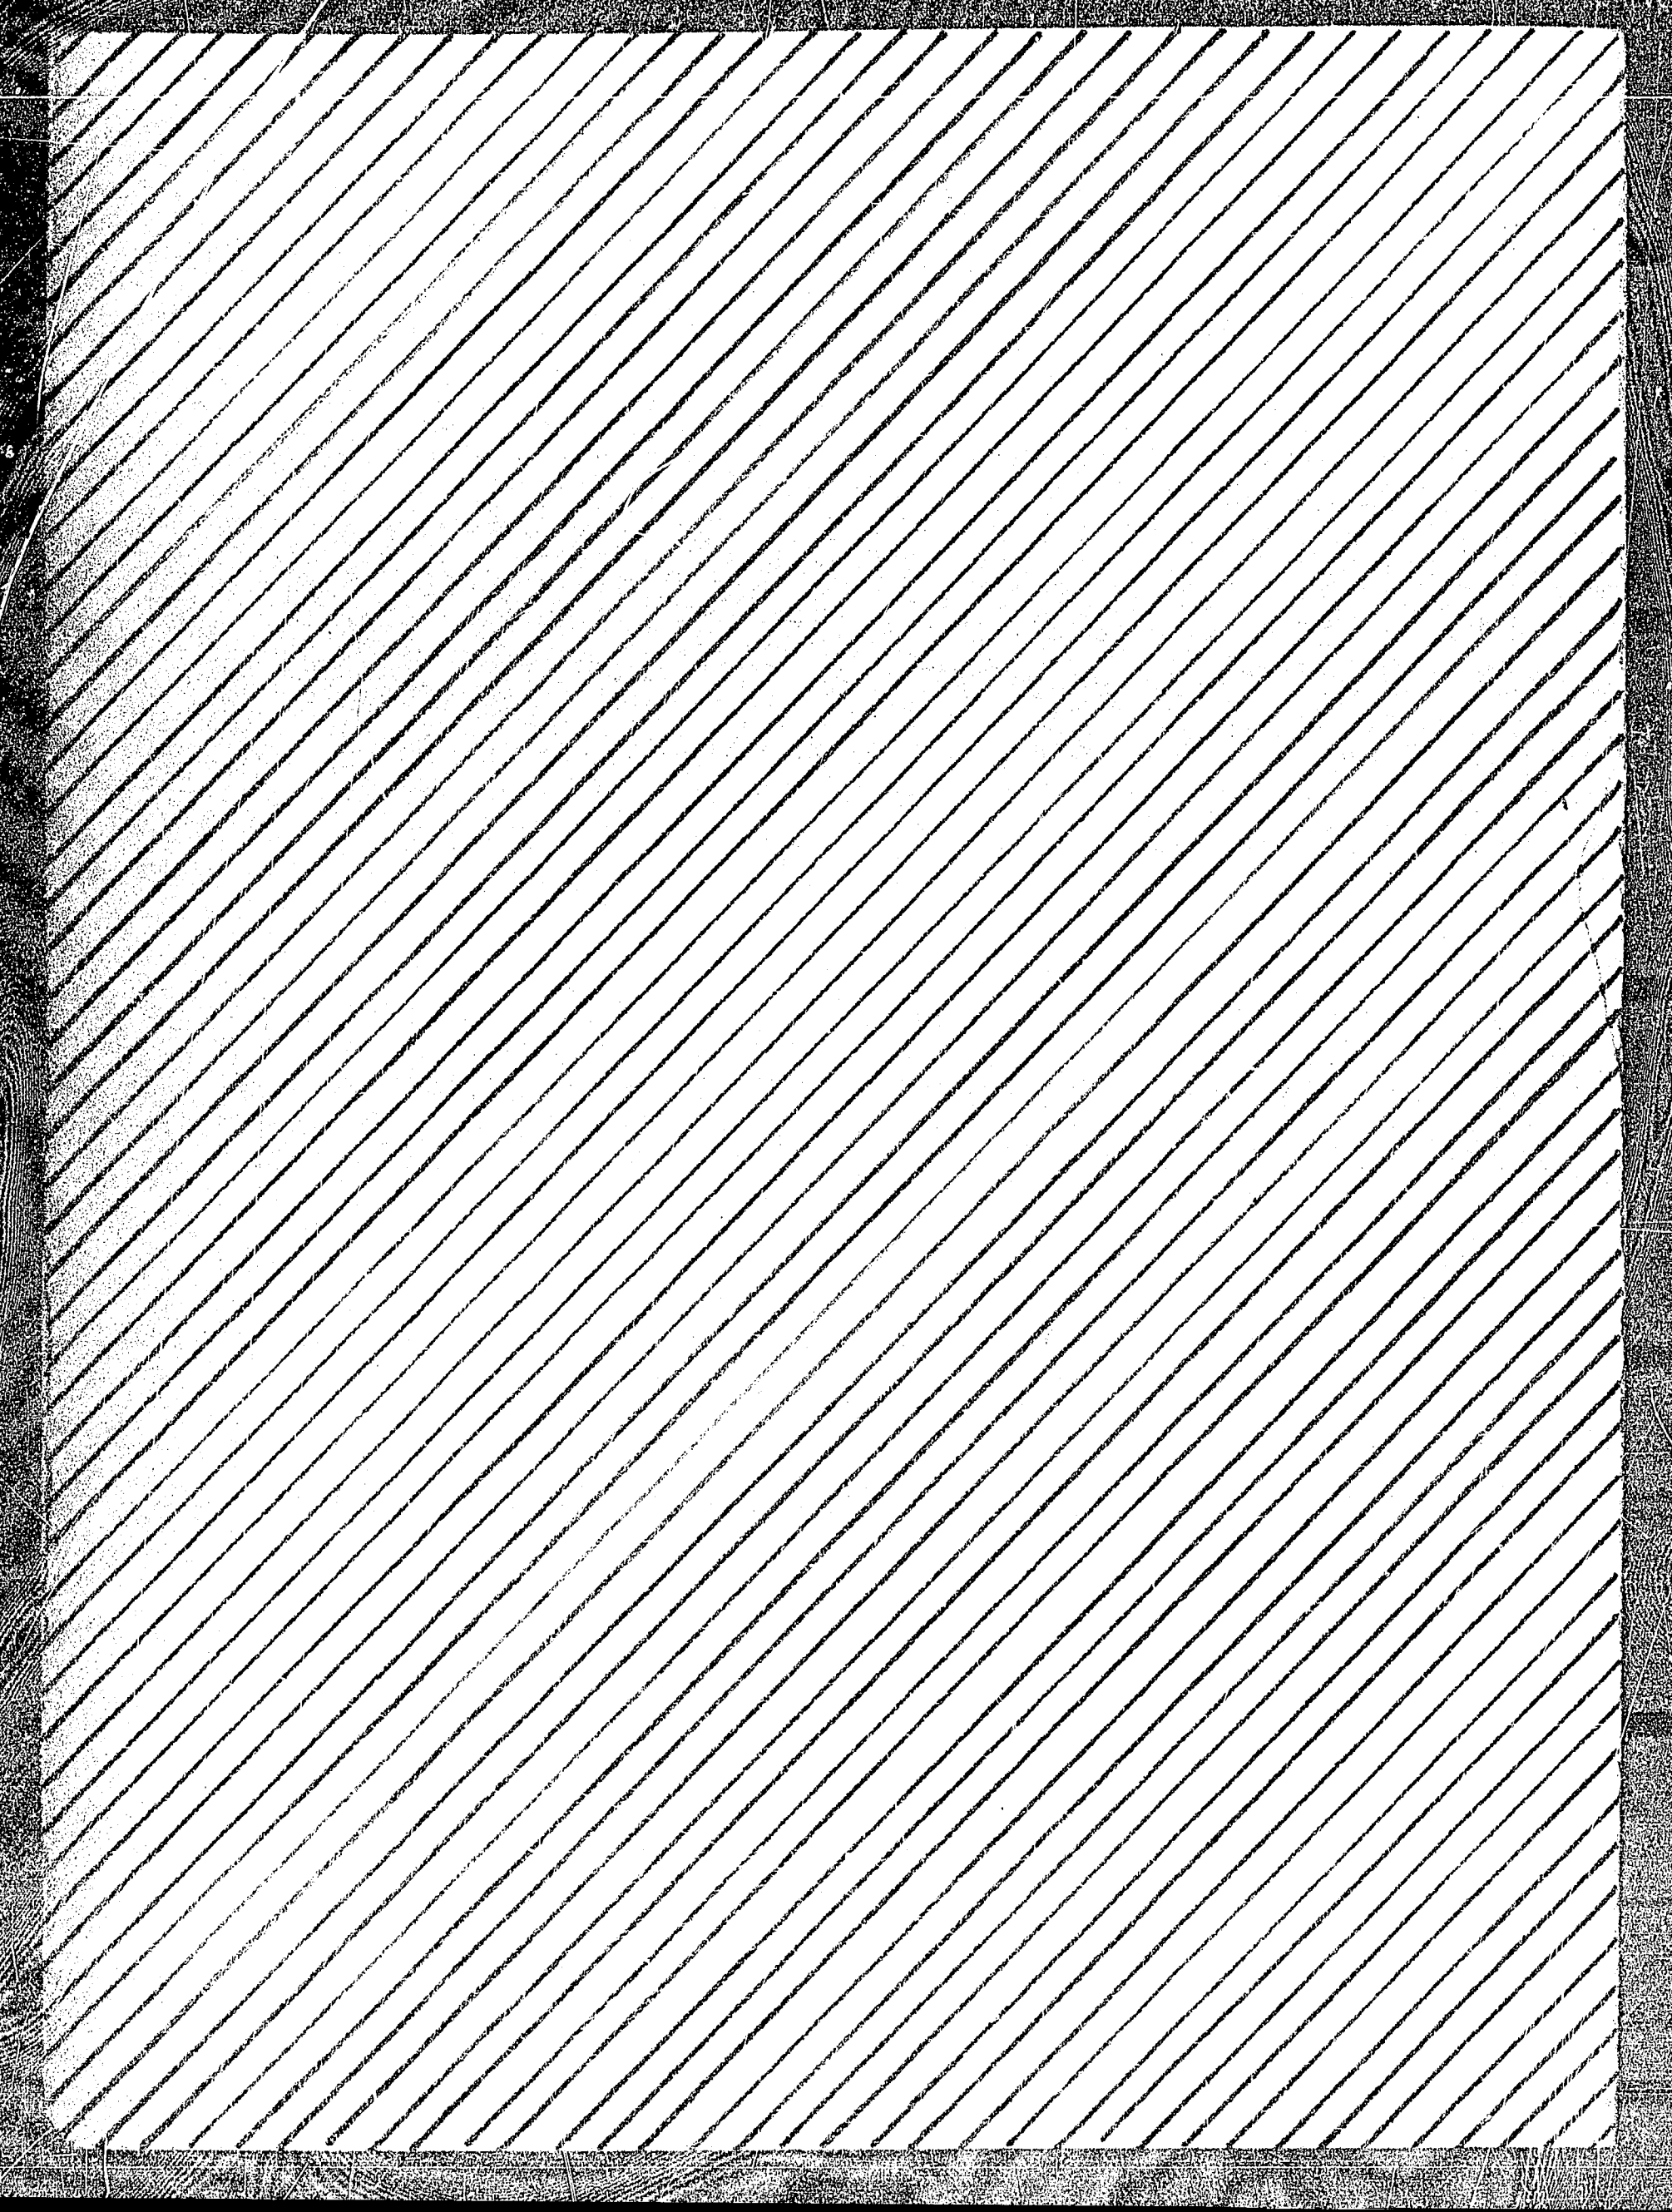

Very truly yours,

Carl E. Tappan

C. J. Buttars
Cornish,
Utah 84308

Dear Mr. Buttars:

It appearing to the Department of Water Administration that the terms and conditions of Permit 28742/13-2207 to appropriate the public waters of the State of Idaho have not been complied with as to failure to submit proof of beneficial use of water due on May 27, 1966, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the Department of Water Administration on or before June 24, 1974, why said permit should not be cancelled.

Permit 28742/13-2207 claims the use of 1.42 cubic feet per second of water from Springs, tributary to West Cache Canal, the point of diversion was to be located within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 30, Twp. 16 S, Rge. 39 E, B. M. and the permit was approved May 27, 1960.

Dear Sir:

Regarding Permit No. 28742 (New No. 13-2207) and your letter of May 15. This spring is on my property. My father purchased this property on November 10, 1941 and I purchased it from him on December 10, 1959.

Since 1941 the water from this spring has been pumped to water turkeys and livestock. The power for the pump is furnished by Utah Power & Light at Preston, Idaho. If you need proof of the use of this pump, you can check with them.

I want this water for cullinary purposes as well as watering livestock.

Yours truly,

C. J. Buttars

Re: Permit No. 28742/13-2207

C. J. Buttars
P. O. Box 15
Cornish, Utah

Dear Mr. Buttars:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit. Enclosed is an Order which advances the priority for this permit to June 23, 1968.

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof of beneficial use of water. The enclosed Order modifies your permit to comply with these rules and regulations.

As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department. If you will sign and return the enclosed advertisement authorization, we will cause the notice to be published.

If you have any questions concerning this matter, please do not hesitate to contact us.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

BEFORE THE DEPARTMENT OF WATER ADMINISTRATION

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 28742/13-2207)
IN THE NAME OF C. J. BUTTARS)
_____)

ORDER

WHEREAS, on May 26, 1960, C. J. Buttars applied to the Department of Water Administration (formerly the Department of Reclamation) for a permit to appropriate 1.42 cubic feet per second of water from springs, tributary to the West Cache Canal, from a point within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 19, Twp. 16S, Rge. 39E, B.M., Franklin County, to be used for irrigation, culinary, and livestock purposes; and,

WHEREAS, on May 27, 1960, the Department approved said application and issued Permit No. 28742/13-2207 with the condition that one-fifth (1/5) of the work be completed on or before November 27, 1962, that the whole of said work be completed on or before May 27, 1965, and the proof of beneficial use of water be made on or before May 27, 1966; and,

WHEREAS, on May 27, 1965, the Department received the required proof of completion of works; and,

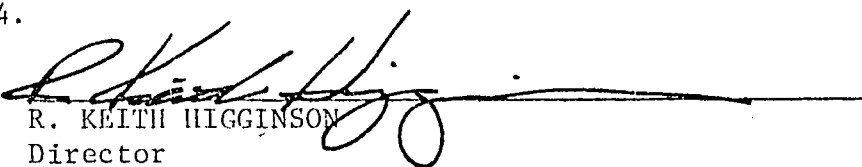

WHEREAS, on May 15, 1974, the Department notified the permit holder that Permit No. 28742/13-2207 was subject to cancellation for failure to submit proof of beneficial use on or before May 27, 1966; and,

WHEREAS, on June 24, 1974, the Department received the required proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that in the event that proof of beneficial use is submitted after the deadline set forth in the conditions of approval, the priority date of such permit shall be advanced the same number of days that said proof is late;

IT IS, THEREFORE, HEREBY ORDERED that the priority under Permit No. 28742/13-2207 be advanced to June 23, 1968.

Dated this 26 day of June, 1974.

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 13-2207 Priority (late proof)
June 23, 1968 Amount 0.16 cfs

THIS IS TO CERTIFY, that C. J. BUTTARS
of Cornish, Utah, has complied with the terms and conditions of Permit
No. 13-2207 issued pursuant to Application for Permit dated May 26, 1970,
and has submitted proof to the Department of Water Resources on June 24, 1974,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.16 cfs of water from an unnamed springs,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	<u>from April 1 to November 1</u>	<u>at 0.16 cfs and</u>	<u>68 acre feet</u>
<u>Stockwater</u>	<u>from January 1 to December 31</u>	<u>at 0.16 cfs and</u>	<u>0.2 acre feet</u>
	<u>from _____ to _____</u>	<u>at _____ cfs and</u>	
(both dates inclusive)			

Subject, however, to the condition that no more than 0.16 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
68.2 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 30, Twp. 16S,
Rge. 39E, B.M. in the County of Franklin

Description and location of place of use:

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				Totals
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	
16S	39E	30		32	31	8									71

Total number of acres irrigated 71

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 24 day of
December, 19 79.

APPLICATION FOR AMENDMENT OF A PERMIT

Department of Water Resources

To change the point of diversion and/or the place of use.

Comes now C. J. BUTTARSof (address) Box 15, Cornish, Utah 84308, and represents to the

Director of the Idaho Department of Water Resources:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho No. 13-2207, and requests that the permit and permit map be changed as follows:

1. Point of diversion: NW 1/4 NE 1/4, Section 30, Township 16S, Range 39E, B.M., County of Franklin. Other points of diversion: _____

2. Period and nature of use: (irrigation, domestic, stockwatering, industrial, etc.)

Amount 0.16 for Irrigation purposes from April 1 to November 1 (both dates inclusive)
(cfs or acre feet per annum)

Amount 0.02 for Stockwater purposes from January 1 to December 31 (both dates inclusive)
(cfs or acre feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre feet per annum)

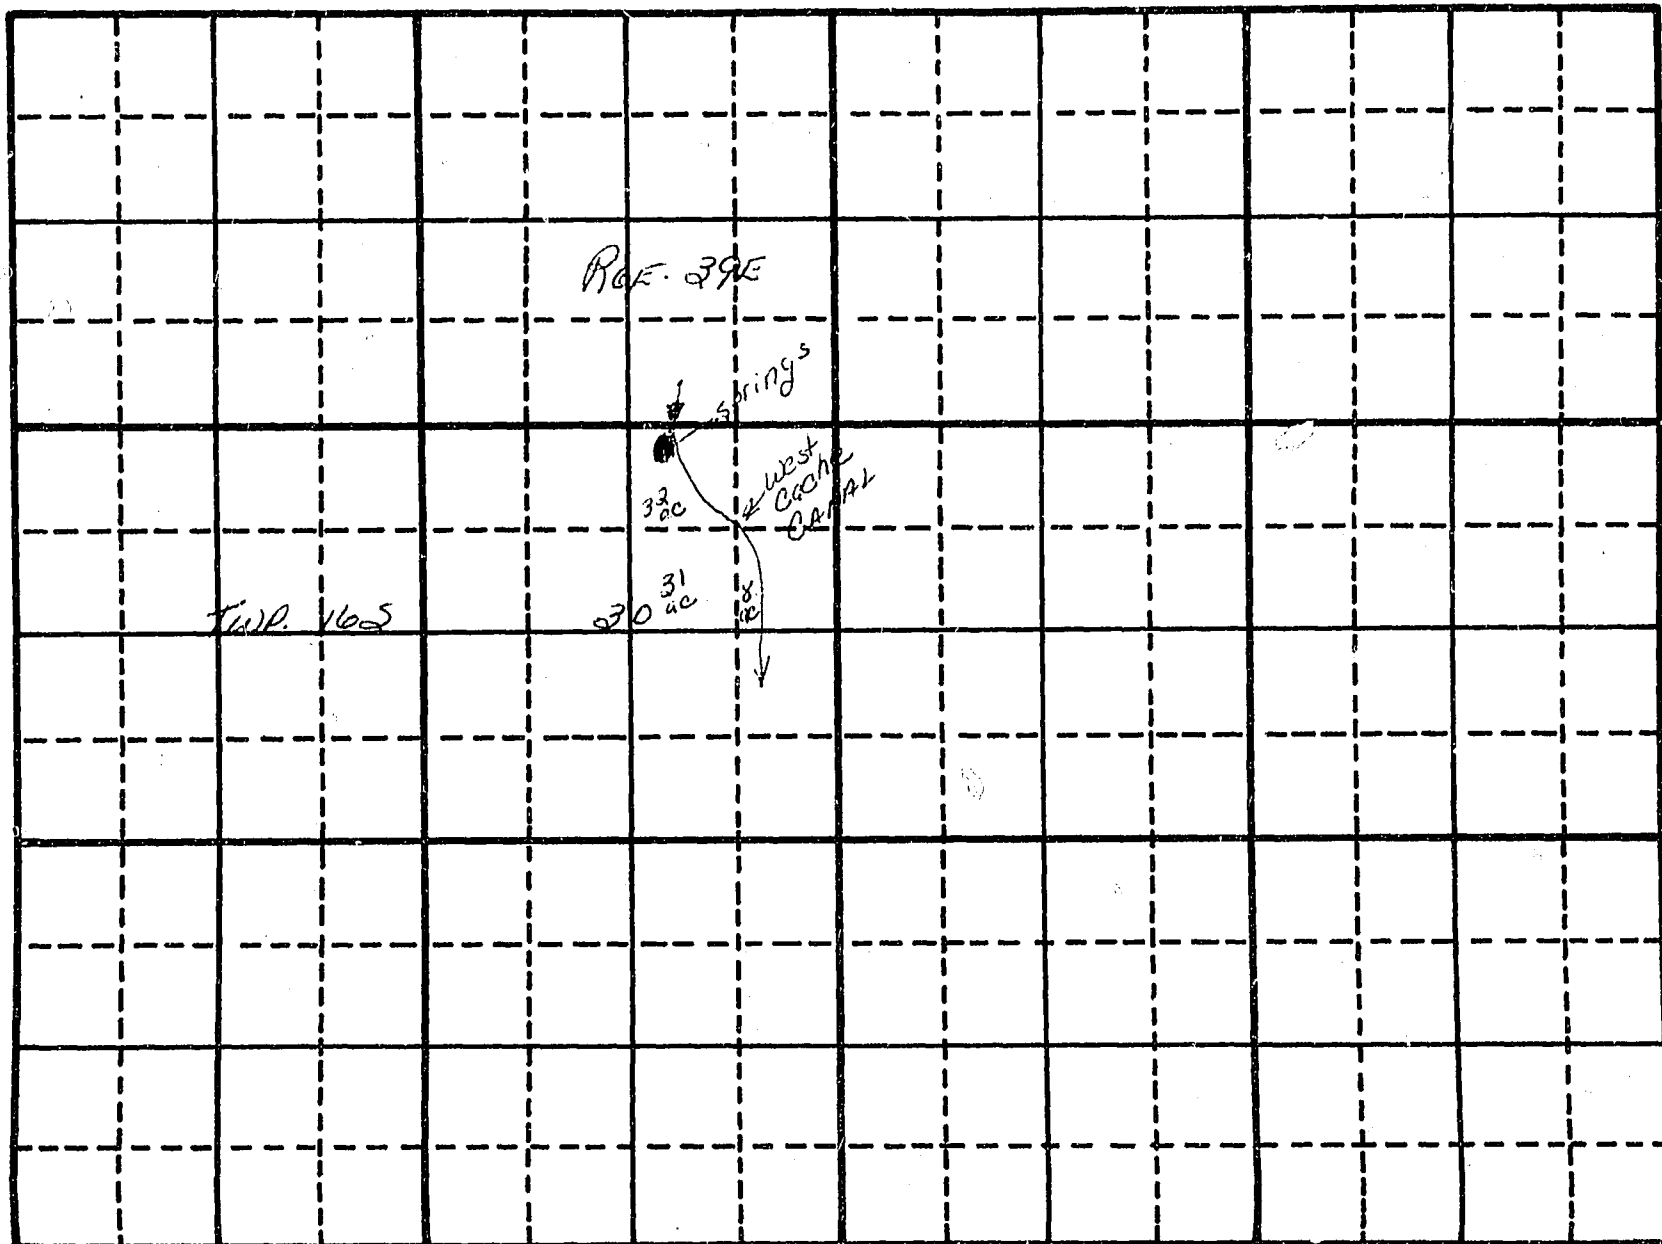

3. Place of use or land to be irrigated:

TWP	RGE	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
16S	39E	30		32	31	8													71

Total number of acres to be irrigated = 71

4. a. Who owns the property at the point of diversion? C. J. Buttars
- b. Who owns the land to be irrigated or the place of use? C. J. Buttars
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

Complete the following map by showing land and point of diversion as proposed by this amendment.
Show 40-acre subdivisions, townships, ranges and ditches.

Scale: 2 inches equal 1 mile.

That no one will be injured by such change, and that such change will be made at permit holder's own risk.

Signed at Cornish, Utah, this 28 day of Nov, 19 79.

On Jan 18, 1977 I telephoned Mr. Bullard to make him aware that a field examination needs to be completed. Since a preliminary exam was made by Bill & Louis, Mr. Bullard has taken a Backhoe and dug a trench & catch basin to collect the flow of water from the springs. He has also tapped some new spring flows and he claims that he now has twice the flow previously measured.

We need to remeasure the isolated flow of spring waters & also the diversion of combined water from the spring & the canal. Subtracting his canal or Bear River water right from the measure of combined flows will yield the beneficial use of the water from the springs.

Potential Problem: This permit should have never been issued in the first place. This water rightfully belongs to the Canal Co. as it has historically discharged into the canal and has been used by the Canal Company. More than likely W. Carter canal will file a claim & the matter could go for court for resolution. Be sure the exam is done accurately & correctly. Apr Jun 19, 1977

Dear Mr. Rhoads:

Regarding your letter of January 9th, I do not know what information you have on my water system, but it isn't a well, it is springs that I have filed on that run into the West Cache Canal.

When the West Cache Canal is operating at full capacity it would be much harder to determine the full amount of water that these springs contribute to the irrigation stream. In order to see the full capacity of the springs, 1.42 second foot of water, it would almost be necessary to see it before the water is back in the canal, which is around April 1st.

If you wait to come until after the water is in the canal, I am afraid you won't see what you are coming to see.

Yours truly,

RE: Permit No. 13-2207
DATE: October 30, 1979

Without providing you with a sales pitch or all of the irrigation details, I would like to ask that you issue this license as soon as it is convenient.

This office has made numerous measurements and other contact with Mr. Butters and the West Cache Canal Company. Apparently issuance of a license from this Department will smooth out the relationship that continually causes this region at least an annual visit to solve a delivery problem.

Mr. C. J. Buttars
P.O. Box 15
Cornish, Utah 84308

Dear Mr. Buttars,

RE: Permit No. 13-2207

A representative of this Department made an examination of the works covered by your Permit No. 13-2207 on June 29, 1978, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.16 cfs Source: unnamed springs

The maximum quantity diverted shall not exceed 68.2 acre feet
per year.

Point of diversion: NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 30, Twp. 16S, Rge. 39E, B.M.

Beneficial use: Irrigation of 71 acres and stockwater use within the NW $\frac{1}{4}$ NE $\frac{1}{4}$,
S $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 30, Twp. 16S, Rge. 39E.

Priority date established: June 23, 1968

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Sincerely,

JAN GROVER
Water Rights Supervisor
