

APPLICATION FOR PERMIT To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 36822
Permit No. G- 28839
District No.

1. Name of Applicant: Herbert N. Williams

Postoffice address: Weston

County: Franklin

State: Idaho

2. Quantity of water claimed:

(a) Rate of withdrawal in cubic feet per second 1.4 or Idaho
Miners' inches 70 M.I. or gallons per minute

(b) Annual withdrawal in acre feet per annum

3. Source of water supply: Open well - 10 feet deep and 30 feet wide and 60 feet long.
Also open hole 100 feet uncased 6" across

4. Location of point of diversion or well is in the NW 38 1/4 of the NW 1/4 of Section 8 (open hole)
38 1/4 of the SW 1/4 of Section 8 (open well)

Twp. 16 S , Rge. 38 E , B.M., County of Franklin

5. Water is to be used for: Irrigation

6. If for municipal, industrial or recreational purposes, give:

(a) Point of use of water is in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.

(b) Waste water or sewage effluent is to be returned to
at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.

7. Kind of works: I will case the 100' well with 4" casing in Sec. 8; other well in Sec. 5 will be
open combination over night storage pond.
8. Estimated cost of work: \$ 000.

9. (a) Is reservoir to be used? The 100' well could be dropped in my own private reservoir
(b) Capacity of reservoir: 4 acre feet

10. The time required for the completion of such work and complete application of the water to the proposed use is 5
years.

11. If applicant is a corporation, give:

1. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:

11. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:

12. The land to be irrigated is described in the following tabulation:

13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 53 shares in Weston Creek
Irrigation Co.

(a) 70 M.I. (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplied
mental to the existing water rights.

(b) 15 M.I. (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

By s/ Herbert N. Williams Applicant.
Agent.

Date of first receipt at Department of Reclamation: 9:00 A.M. July 1, 1960

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is G— 28839
Recorded in Book 101 Page 28839 Approved July 8, 1960

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ to be filed on or before

Work to begin on or before

and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before January 8, 1963

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made and proofs offered on or before July 8, 1965

Witness my hand this 8th day of July, 1960

s/ GEO. N. CARTER
STATE RECLAMATION ENGINEER.

IN TESTIMONY WHEREOF, We, ROBERT E. SMYTHE, Governor of the State of Idaho, and ARNOLD WILLIAMS, Secretary of State of the State of Idaho, have caused this instrument to be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 8th day of July 1960.

Countersigned:

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, No. G-28839

Comes now HERBERT N. WILLIAMS and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G-28839, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

Fractions of NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 5; NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 8, T. 16 S., R. 38 E., B. M., making a total of 137 acres

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Weston, this 8th day of March, 1961.

s/ HERBERT N. WILLIAMS

Date of Receipt at office of Department of Reclamation: March 9, 1961

APPROVAL OF STATE RECLAMATION ENGINEER

I, GEO. N. CARTER, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. G-28839. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

s/ GEO. N. CARTER
State Reclamation Engineer

Recorded: March 16, 1961

Application for Amendment ✓
POINT OF DIVERSION
Permit No. G-28839

Comes now HERBERT WILLIAMS and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-28839

That the point of diversion is described in said Permit as being located: SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 5; NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 8, T. 16 S., Rge. 38 E., B. M.

That he now requests that the points of diversion be changed to a point located: SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 5; 2 wells in NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 8, T. 16 S., R. 38 E., B. M.

That the reason for desiring to make such change is as follows: test well in NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 8 was a dry hole.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Preston, Idaho, this 20 day of February, 1961.

s/ HERBERT N. WILLIAMS

Date of receipt at department of Reclamation: March 9, 1961

Dear Sir:

Will you please send me the necessary papers to fill out so that I may file on a well for irrigation purposes?

A map giving an idea of the location of the Well marked AX is enclosed. The description reads as follows:

Located in the South West $\frac{1}{4}$ of Sec. 5, in T.P. 16, R. 38 E B. M. Boise, which is 1810 feet east of the section corner and 565 feet north.

In the near future ~~to~~ I wish to drill two more wells or test holes, will I have to obtain a separate permit? if so it would save time if you also enclosed papers for these.

Will the filing also have to include the amount of water to be taken from the well?

Yours very truly,

Herbert Williams

Re: Application for Permit

Herbert Williams
Boston, Idaho

Dear Mr. Williams:

Enclosed are two forms 3, application for permit to appropriate subterranean water with instructions.

One application, only, is needed for one or more wells to irrigate one farm or for more than one farm if the wells will furnish water to all the land. Separate farms and wells should have separate applications.

Proof of Completion of Works and Beneficial Use of the water must be made on or before five years after the permit is approved and one-fifth of the total work must be completed in two and a half years.

The application must show the amount of water claimed from the well or wells. More than one well location can be shown under "1" by using the space above or below the first line.

Very truly yours,

WEO. A. CARTER
State Reclamation Engineer

Jan. 31, 1961

RECEIVED
FEB 1 1961
Department of Reclamation

Mr. George N. Carter
Boise, Idaho.

Dear Mr. Carter:

Will you please send me the necessary papers to file for another permit to drill a well for irrigation purposes?

Since I filed for permit No. C 28839 dated July 8, 1961 I have had to change the location of my well. We drilled a test hole in the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 8 which turned out to be dry. We drilled hole (No. B) 100 ft. deep and put a 4" casing in it. (this is located in the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 8) I would like to drill another hole near this same location (No. C) and put a 10" casing. From hole No. C, the well driller, Mr. Charles Gardner from Malad, Idaho, said I could pump 450 GPM. with a draw down of 40 to 50 ft.

Last fall I purchased the rest of ^{the NW $\frac{1}{4}$ of} Section 8. My farm now = 178 A. I believe that with the water from well No. C--450 GPM and the water from well No. B-150 GPM and the water from the open hole (n. D) in SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 5 I will have enough to water my farm. (along with 53 shares of The Weston Creek Irrigation Co.)

Will you please advise me in this matter? Thanks.

Sincerely,

Herbert N. Williams

28839 - 1.4 cfs

70 acres

28839

February 2, 1911

Permit No. G-28839

Harbert W. Williams
Merton, Idaho

Dear Mr. Williams:

Returned herewith is your map to accompany Permit No. G-28839 with Form.

Permit G-28839 shows the amount of water as 1.4 cubic feet per second or 70 miner's inches to irrigate 70 acres of land. That is the maximum amount of water that can be taken on the license. If you develop additional water another permit will be necessary for you to have a right for all water developed.

You may amend the point of diversion on your permit by completing the enclosed form. There is a fee of \$1.00 for recording the amendment. On the amendment you would show 2 wells in the N. 1/4 of Section 8 and 1 well in the S. 1/4 of Section 5 as the amended points of diversion.

You may amend the land list on your permit by completing the enclosed form. In the description you would show a fraction of the N. 1/4, fraction of the S. 1/4 of Section 5, N. 1/4 of Section 8, Township 15 South, Range 35 East, making a total of 270 acres. There is a fee of \$1.00 for recording the amendment. Instead of amending the land list, you may want to apply for a new permit to cover the land you recently purchased.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-28839

Robert E. Williams
Wenton, Idaho

Dear Mr. Williams:

Your application for permit with amendments to point of diversion and land list under Permit No. G-28839 have been received with check for \$6.25.

The application will be approved for 67 miners inches. The filing fee of \$5.25 is included in your check.

The points of diversion and the land list on Permit No. G-28839 are amended to the same shown on your new application, making a total of 137 miners inches for 137 acres of land. There is a fee of \$1.00 for each amendment. As your check was for \$6.25 and the fee for the new application is \$5.25, you owe this office \$1.00 which you may remit.

The amendments will be returned as soon as they have been recorded.

RE: Permit No. G-28839, G-29553

Herbert M. Williams
Newton, Idaho

Dear Mr. Williams:

We received your letter of January 8 in regard to completion of your well and possible trouble with springs.

Enclosed are forms, with instructions, to be completed prior to making the proofs of completion of works and beneficial use of the water.

You indicate you are using 10-2 gallon sprinklers or about one cubic foot per second of water. Permit No. G-28839 claims 1.4 c.f.s. and should be the one you use at this time. Your other permit could be used later if you develop additional water.

Your right, and also the right of your neighbors, to divert subterranean water is good only insofar as you do not deplete water claimed by a prior right.

Determination of effect of withdrawal of water from a well or wells is a tedious job of measuring the water flowing from the spring prior and while one well is being used. Then the second well is checked, etc.

Record of depth to water in the wells should be kept during the test period as well as the flow from the wells. The time necessary would depend upon the number of wells involved. It could mean that the wells could not be operated for a considerable time. The tests could be made prior to the irrigation season. Any offending wells could probably divert sufficient water to the company to offset any loss of water in the spring.

Very truly yours,

GEO. W. CARTER
State Reclamation Engineer

APPLICATION OF WATER TO BENEFICIAL USE

Department of Reclamation

Notice is hereby given that at 5:00 P.M., on the 10 day of March
1962, at Weston, County of Franklin, State of Idaho,
before Rachel Lott, Notary Public, at (address) Weston
Idaho, proof will be submitted of the completion of works for
the diversion of 1.4 cubic feet per second of underground water from a well, and of
the application to beneficial use of said water, in accordance with the terms and
conditions of Permit No. 628839, heretofore issued by the Department of Reclamation
of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit
is Herbert Williams Weston, Idaho

2. Said works of diversion will be fully completed on the date set for such com-
pletion, and the amount of water which said works are capable of conveying to the place of
use is 1.4 cubic feet per second.

3. The use to which said water has been applied is Irrigation
purposes, and the amount applied to beneficial use is 1.4
cubic feet per second.

4. The point of diversion of said water is (Open Hole 1.4 C.F.S.) SE 1/4 SW 1/4 Sec. 5 +
(1 well 1 C.F.S.) NE 1/4 NW 1/4 Sec 8 T16S R38E B.M.

5. The place where said water is used is Fraction of NE 1/4 SW 1/4,
Fraction SE 1/4 SW 1/4 Sec. 5; Fraction of NW 1/4 NW 1/4, all NE 1/4 NW 1/4,
Fraction of SE 1/4 NW 1/4 Sec 8, T16S R38E B.M.

6. The date of priority which said user is prepared to establish is July 1, 1960

Mr. Robert Williams,
Wentz, Idaho.

Dear Mr. Williams:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 0-28839. The proofs are to be made at 5:00 o'clock P.M., on the 10th day of March, 1962, before Michael Lott, Wentz, Idaho, Notary Public.

As of this date we have mailed the Notice to the Prater-Citizen Press, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at
5:00 p.m. on the 10th day of
March, 1962, at Weston, County
of Franklin, State of Idaho, be-
fore Rachael Lott, Notary Public,
at Weston, Idaho, proof will be
submitted of the completion of
works for the diversion of 1.4 cu-
bic feet per second of under-
ground water from a well, and of
the application to beneficial use
of said water, in accordance with
the terms and conditions of Per-
mit No. 628839, heretofore issued
by the Department of Reclama-
tion of the State of Idaho.

1. The name and postoffice
address of the person or corpora-
tion holding said permit is Her-
bert Williams, Weston, Idaho.

2. Said works of diversion will
be fully completed on the date
set for such completion, and the
amount of water which said
works are capable of conveying
to the place of use is 1.4 cubic
feet per second.

3. The use to which said water
has been applied is irrigation pur-
poses, and the amount applied to
beneficial use is 1.4 cubic feet
per second.

4. The point of diversion of
said water is (open hole ACFS)
SE 1/4 SW 1/4 Sec. 5 & (1 well 1,
O.I.S. NW 1/4 NW 1/4 Sec. 8 T 16S
R 38 ERM.

5. The place where said water
is used is Fraction of NW 1/4 SW 1/4
Fraction SE 1/4 SW 1/4 Sec. 5; Fra-
tion of NW 1/4 NW 1/4, all T 16S
NW 1/4 Fraction of SE 1/4 of NW 1/4
Sec. 8 T 16S R 38 ERM.

6. The date of priority which
said user is prepared to establish
is July 1, 1960.

BOISE, IDAHO

Permit No. G-28839

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Herbert E. Williams Weston, Idaho Farmer Weston, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-28839 Approved July 8, 1960. Priority date July 1, 1960.

Ques. 4. State source of water supply and give exact location of point of diversion. (.4 c.f.s.)

Ans. Open hole located in the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 5, Twp. 16S Rge 38E, B.M.Underground well in the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 8, Twp. 16S Rge 38E, B.M. (1 c.f.s.)

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Water will be pumped from open hole, 30' by 60' by 10' deep, with a 10 hp gas engine capable of pumping 150 gal. per min, using 4" sprinkler line. 15-10 gal. head at 40 lbs. pressure.

The well is 157' deep, with a 4" casing. The water will be pumped with a 10 hp gas engine or a 25 hp electric motor. The water will be conveyed through a 3" underground mainline or a 3" portable mainline. 40-8 gallon heads will be used under 40 lbs. pressure. The depth to water is 10' when not pumping, and 60' while pumping.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for irrigation purposes. 4 acres in the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 5, 3 acres in the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 5, 10 acres in the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 5 Twp. 16S Rge 38E, B.M.39 acres in the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$, 4 acres in the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$, and 10 acres in the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Sec. 8 Twp. 16S Rge 38E, B.M.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Bernard Gardner Maled, Idaho

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. _____

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. 150 gal. per min. of water was pumped during July, Aug. and Sept. 1960 with a 10 h.p. gas motor, also during part of March, all of April & May 1961.
~~400 gal. per min. of water was pumped during June, July, Aug. and Sept. 1961 with a U.D. 236 Deisel Engine.~~

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. 53 shares of water from the Weston Creek Irrigation Co. has been used also on my farm. In 1961 I used 2 turns and 1 half turn then Reservior was dry. the size of this stream is 2 c.f.s. which comes every 11 1/2 days.

DEPARTMENT OF RECLAMATION
BOISE, IDAHO

RECEIVED
DEC 14 1937

Permit No. G-28839

Proof of Application of Water to Beneficial Use
Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Malvin W. McKay age 56 Weston, Idaho Farmer

Ques. 2. Are you acquainted with Herbert N. Williams Yes, the holder of Permit No. G-28839? How long have you known him and where does he reside?

Ans. I have known him 25 years. He resides at Weston, Idaho

Ques. 3. Have you read or heard read said Permit No. G-28839 Yes, and are you familiar with its provisions and conditions?

Ans. Yes I am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Place of diversion is open hole located in the SE 1/4 of the SW 1/4 of Section 5, Twp. 16S Rge 38E, B.M. (.4 c.f.s.) 4" sprinkler line used. Underground well is located in the NE 1/4 of the NW 1/4 of Section 8, Twp. 16S, Rge 38 E, B.M. (1.0 c.f.s.) 6" Buried mainline and 5" portable mainline with 3" sprinkler line is used to convey water from point of diversion to place of use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Said works will safely conduct 1. c.f.s. from underground well, and .4 c.f.s. from open hole. Same has been seen conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 15-10 gal. heads were used with 10 h.p. engine pumping from open hole. This equals 150 gal. per min. 40-8 gal. heads were used with UD 236 Deisel engine at 40 lbs. pressure. This is 320 gal. per min. or more if pressure is increased.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water is used for irrigation of cultivated land. 4 acres in the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$, 3 acres in the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$, 10 acres in the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 5 Twp. 16s Rge 38 E, B.M.

39 cros in the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$, 4 acres in the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$, and 10 acres in the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Sec. 8 Twp. 16s Rge 38 E, B. M.

~~The nature of improvements--3 crops of hay as compared to 1 crop previously.~~
Corn and beets were raised.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what etxent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Irrigated silt loam land. 1 M.I. per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. 1961 1.4 c.f.s. for the production of hay, grain, corn and sugar beets.

Herbert H. Williams
Weston, Idaho

Dear Mr. Williams:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Preston Citizen, all submitted in proof of completion of works and beneficial use on Permit No. G-28839.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

DEPARTMENT OF RECLAMATION

Dear Mr. Tappan:

I noticed a different Permit No. (G-29553) in your letter dated January 1, 1966. Am I required to submit Proof of Completion of Works after a certain number of years have lapsed? *I have my license also*

I typed the wrong number in form no. 36 then erased, can you type the correct No.?

I left the date off also, from the form No. 36. Your letter was placed in my letter file and I am a little late in mailing these forms. I certainly hope this lateness is not too serious.

Sincerely,

Herbert M. Williams

State of Idaho License and Certificate of Water Right

Water License No. G-28839

Amount 1.04 c.f.s.

Water District No.

Priority July 1, 1960

THIS IS TO CERTIFY that HERBERT N. WILLIAMS
of Weston, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated July 1, 1960; that Permit No. G-28839
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
1.04 second feet, was issued thereunder on August 4, 1964, showing that said works
were completed on the 10th day of March, 1962; and that on the 10th
day of March, 1962,

HERBERT N. WILLIAMS
of Weston, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well and a
sump, a tributary of subterranean flow, for the purpose of irrigation
, under Use Permit No. G-28839 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
13 of Licenses at page 7919, on the 4th day of August, 1964;

The right hereby confirmed dates from July 1, 1960;

The Point of Diversion is located SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 5 (sump); Franklin
in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 8, Tp. 16 S., R. 38 E., B. M. County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 1.04 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
16 S.	38 E.	5	NE $\frac{1}{4}$ SW $\frac{1}{4}$	4	5
