Mr. Owen Naughan,
Weston, Idaho

Dear Mr. Naughan:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-28844. The proofs are to be made at 10:00 o'clock A.M., on the 31st day of May, 1963, before Ted B. Larsen, 10 West Oneida, Preston, Idaho, Notary Public.

As of this date we have mailed the Notice to the Preston Citizen Preston, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Dear Mr. Racine:

We received your letter noting interference of wells described in above noted permits.

The Idaho Code provides that this office shall inspect the works at the time of making the proof. That inspection was possible at that time when diversions were from surface sources, except when the ground was snow covered or the roads were impassable. Under present conditions, when practically all diversions were through pumps, it is not possible to make inspections except during the irrigation season.

The works under these two permits will be examined as early as possible, this irrigation season. It would be appreciated if you could inform this office of the date when the pumps will be started.

Dear Mr. Carter,

I have turned my pumps on and am not pumping only about a sec. ft of water on land I turned it on May 22. Owen Maughn turned his on May 20 he said. From all indications the wells are interfering with one another. When we first started pumping after the wells were drilled we took [redacted] the water Maughn was pumping so he had to rush come back down & set his pump deeper in his well & he got the water back. In about 3 or 4 days our water went & we went down deeper with our pump but was unable to ever get our stream back. When we first started pumping we were pumping about

2934

2½ ft. of acre ft of water + now we are only pumping about a ft of water not enough to justify the cost of pumping. Last spring we turned our pumps on before Maughn + pumped a pretty good stream. This spring Maughn turned his on first + we just don't get much water. We were wondering if there is any protection for the one who drills first or could you have some one come + check the situation. We never pumped much water all last summer we spent trying to get it back but could not. Would appreciate any information you could give us as we are sure in need of water to keep our crops going. Yours truly

PROTEST AGAINST THE ISSUANCE OF CERTIFICATE OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE.

State of Idaho,
SS.
County of Franklin.

Dale McKay, being first duly sworn, deposes and says: I am a resident of Weston, Idaho, and am the holder of Permit No. G-28833, for the withdrawal of 4 cubic feet per second of water from a well, with point of diversion in Northwest quarter of the Southeast quarter of Section 18, Township 16 South, Range 39 E. B. M, Franklin County, Idaho, with priority of July first, 1960; that I began pumping water from my well in the spring of 1961, and in July, 1961, I noticed that my water was failing; this was after Owen Maughan, holder of Permit No. G-28844 started to pump from his well; then I lowered my pump and got back to my 4 second feet; this lasted for a few days and then my supply dwindled to about one second foot. It is evident that my well is affected by the pumping from the well of said Owen Maughan; that I began to drill for my well prior to said Owen Maughan, and filed my application with the Reclamation Department prior to said Owen Maughan. That the wells are about a quarter mile apart and it appears that they tap the same underground stream.

Affiant, therefore, protests against the said Owen Maughan being permitted to make proof under his application and against the issuance of certificate of completion of works and any other evidence of right in and to said water, and affiant prays that the State Reclamation Engineer will make an investigation and will enter any necessary order protecting the rights of affiant in and to the water to which he is entitled under his Permit and his proofs already made.

Dear Mr. McKay:

You protested issuance of water license under Permit No. G-28844 to Mr. Maughan, claiming that his diversion of water adversely affected your well.

Kindly notify this office at least two weeks prior to the time you will start your pump in the well for irrigation, in the spring.

An inspector from this office will measure the flow of water and depth to water in each well while each well is working separately. The test may take about a week to complete. The time of the test will depend upon whether you or Mr. Maughan desire to start irrigating first. The test should be made prior to the time the water will first be required to prevent loss of crop.

WATER RIGHT LICENSE

License of Water Right No. 28844/13-2212 Priority July 6, 1960 Amount 1.0 cfs

THIS IS TO CERTIFY, that Owen Maughan

of Weston, Idaho, has complied with the terms and conditions of Permit No. 28844/13-2212 issued pursuant to Application for Permit dated July 6, 1960, and has submitted proof to the Department of Water Resources on June 6, 1963, that he has applied water to a beneficial use; an examination by the Department indicates that the works have a capacity for the diversion of 1.0 cfs of water from a groundwater source, tributary to _____, and that the permit holder has applied to a beneficial use and established a right to use water as follows:

Beneficial Use		Period of Use		Rate of Diversion		Annual Volume
Irrigation	from April 1	to November 1	at 1.0	cfs and	374.5 acre feet	
_____	from _____	to _____	at _____	cfs and	_____	
_____	from _____	to _____	at _____	cfs and	_____	

(both dates inclusive)

Subject, however, to the condition that no more than 1.0 cfs of water be diverted at any one time, and that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed 374.5 acre feet per year, said waters to be diverted within the SE¼SW¼, Sec. 18, Twp. 16S, Rge. 39E, B. M. in the County of Franklin

Description and location of place of use:

Twp.	Range	Sec.	NE¼				NW¼				SW¼				SE¼				Totals
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
16S	39E	18												27			40	40	107

Total number of acres irrigated 107

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, **Idaho Code**, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 23 day of March, 19 78.

Dear Mr. Maughan:

A representative of this Department made an examination of the works covered by your Permit No. 13-2212, and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: 1.0 cfs Source: groundwater

The maximum quantity diverted shall not exceed 374.5 acre feet per year.

Point of diversion: SE¼SW¼, Sec. 18, Twp. 16S, Rge. 39E, B. M.

Beneficial use: Irrigation of 107 acres within the SE¼SW¼, S½SE¼, Sec. 18, Twp. 16S, Rge. 39E, B. M.

Priority date established: July 6, 1960

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Mr. Owen Naughton,
Preston, Idaho.

Dear Mr. Naughton:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-2884. The proofs are to be made at 10:00 o'clock A.M., on the 31st day of May, 1963, before Ted J. Larsen, 10 West Oneida, Preston, Idaho, Notary Public.

As of this date we have mailed the Notice to the Preston Citizen Preston, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Dear Mr. Racine:

We received your letter noting interference of wells described in above noted permits.

The Idaho Code provides that this office shall inspect the works at the time of making the proof. That inspection was possible at that time when diversions were from surface sources, except when the ground was snow covered or the roads were impassable. Under present conditions, when practically all diversions were through pumps, it is not possible to make inspections except during the irrigation season.

The works under these two permits will be examined as early as possible, this irrigation season. It would be appreciated if you could inform this office of the date when the pumps will be started.

Dear Mr. Carter,

I have turned my pumps on and am not pumping only about a sec. ft of water or less I turned it on May 22. Owen Maughan turned his on May 20 he said. From all indications the wells are interfering with one another. When we first started pumping after the wells were drilled we took [redacted] the water Maughan was pumping so he had Forbush come back down & set his pump deeper in his well & he got the water back. In about 3 or 4 days our water went & we went down deeper with our pump but are unable to ever get our stream back. When we first started pumping we were pumping about

2934/4

2¼ ft acre ft of water & now we are only pumping about a ft of water not enough to justify the cost of pumping. Last spring we turned our pumps on before Maughn & pumped a pretty good stream. This spring Maughn turned his on first & we just don't get much water. We were wondering if there is any protection for the one who drills first or could you have some one come & check the situation. We never pumped much water all last summer we spent trying to get it back but could not. Would appreciate any information you could give us as we are sure in need of water at this are Crops going. Yours truly

PROTEST AGAINST THE ISSUANCE OF CERTIFICATE OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE.

State of Idaho,
SS.
County of Franklin.

Dale McKay, being first daily sworn, deposes and says: I am a resident of Weston, Idaho, and am the holder of Permit No. G-28833, for the withdrawal of 4 cubic feet per second of water from a well, with point of diversion in Northwest quarter of the Southeast quarter of Section 14, Township 16 South, Range 39 E. B. M, Franklin County, Idaho, with priority of July first, 1960; that I began pumping water from my well in the spring of 1961, and in July, 1961, I noticed that my water was failing; this was after Owen Maughan, holder of Permit No. G-28844 started to pump from his well; then I lowered my pump and got back to my 4 second feet; this lasted for a few days and then my supply dwindled to about one second foot. It is evident that my well is affected by the pumping from the well of said Owen Maughan; that I began to drill for my well prior to said Owen Maughan, and filed my application with the Reclamation Department prior to said Owen Maughan. That the wells are about a quarter mile apart and it appears that they tap the same underground stream.

Affiant, therefore, protests against the said Owen Maughan being permitted to make proof under his application and against the issuance of certificate of completion of works and any other evidence of right in and to said water, and affiant prays that the State Reclamation Engineer will make an investigation and will enter any necessary order protecting the rights of affiant in and to the water to which he is entitled under his Permit and his proofs already made.

Dale McKay

Dear Sirs: -

I am writing in regard to my well that I have proved up on. The check to pay for proving up on the well was sent in and has come back in my bank statement about two months ago. So far I haven't recived any papers stating the well had been proved upon.

Would you please check on this matter for me

Thank you.

Respectfully

Dear Mr. McKay:

You protested issuance of water license under Permit No. G-28844 to Mr. Maughan, claiming that his diversion of water adversely affected your well.

Kindly notify this office at least two weeks prior to the time you will start your pump in the well for irrigation, in the spring.

An inspector from this office will measure the flow of water and depth to water in each well while each well is working separately. The test may take about a week to complete. The time of the test will depend upon whether you or Mr. Maughan desire to start irrigating first. The test should be made prior to the time the water will first be required to prevent loss of crop.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

Dear Mr. Maughan:

The enclosed forms and letter furnish information for refund of $11.00 fee you paid in response to our letter of May 27, 1964. That letter was in error as the fact that Mr. McKay entered a protest was overlooked.

It will be necessary for this office to check the wells before you need to start irrigation next spring. The time of the test will depend upon whether you or Mr. McKay desire to start first.

Dear Mr. Vaughan:

Thank you for your letter of April 19, 1965 stating your desire to start pumping between the 1st and 10th of May.

It will be necessary that you notify us of the exact date you or Mr. Kelly will start your pump. Knowing the exact date will help us schedule our arrival to make preliminary measurements before pumping starts.

Dear Mr. Naughan:

Thank you for your letter of April 25th. I was out of the office from April 26th to May 4th.

I would like to set the date for starting your pump as May 11th. That will give me a day to arrive and make what measurements I can before either pump is started. I'll try and contact you at your home around 2:00 P.M., or before if possible, on May 10th.

WATER RIGHT LICENSE

License of Water Right No. 28844/13-2212 Priority July 6, 1960 Amount 1.0 cfs

THIS IS TO CERTIFY, that Owen Maughan

of Weston, Idaho, has complied with the terms and conditions of Permit No. 28844/13-2212 issued pursuant to Application for Permit dated July 6, 1960, and has submitted proof to the Department of Water Resources on June 6, 1963, that he has applied water to a beneficial use; an examination by the Department indicates that the works have a capacity for the diversion of 1.0 cfs of water from a groundwater source, tributary to _____, and that the permit holder has applied to a beneficial use and established a right to use water as follows:

Beneficial Use	Period of Use		Rate of Diversion		Annual Volume
Irrigation	from April 1	to November 1	at 1.0	cfs and	374.5 acre feet
	from	to	at	cfs and	
	from	to	at	cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 1.0 cfs of water be diverted at any one time, and that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed 374.5 acre feet per year, said waters to be diverted within the SE¼SW¼, Sec. 18, Twp. 16S, Rge. 39E, B. M. in the County of Franklin

Description and location of place of use:

Twp.	Range	Sec.	NE¼				NW¼				SW¼				SE¼				Totals
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
16S	39E	18												27			40	40	107

Total number of acres irrigated 107

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 23 day of March, 19 78.

Dear Mr. Maughan:

A representative of this Department made an examination of the works covered by your Permit No. 13-2212, and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: 1.0 cfs Source: groundwater

The maximum quantity diverted shall not exceed 374.5 acre feet per year.

Point of diversion: SE¼SW¼, Sec. 18, Twp. 16S, Rge. 39E, B. M.

Beneficial use: Irrigation of 107 acres within the SE¼SW¼, S½SE¼, Sec. 18, Twp. 16S, Rge. 39E, B. M.

Priority date established: July 6, 1960

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.
