Re: Application for Permit

Mr. Russell A. Koller
Oxford, Idaho

Dear Mr. Koller:

Returned herewith your application for water permit for the following reasons:

No filing fee submitted

Only one sketch map sent in - two maps are required - drawn in ink, and must show place where the well is located.

Location of reservoir and dam dimensions must be shown on maps.

Land list entered under item 12 show 22 1/2 acres to be irrigated. Idaho Statutes allow One inch of water per acre making 22 1/2 inches the maximum quantity of water to be entered under item 2. This is written in as 1.418 c.f.s.

We enclose another application form which you should complete where you find check marks (✓). Then sign, attach your filing fee of \$6.00 and make out two sketch maps in ink which show the land by 40-acre subdivision and also show location of the well and reservoir within the 40-acre tract.

Prompt return of the corrected application to this office will ensure earlier priority date.

Very truly yours,

GEO. H. CARTER

Re: Permit No. G - 29011

July 1, 1965

Russell A. Keller
Oxford, Idaho

Dear Mr. Keller:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29011 are due not later than **September 13, 1965.**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER

Mr. Russell A. Keller,
Oxford, Idaho.

Dear Mr. Keller:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-29011. The proofs are to be made at 10:00 o'clock A.M., on the 1st day of September, 1965, before P.M. Condie, Larson Building, Preston, Idaho Notary Public.

As of this date, we have mailed the Notice to the Preston Citizen Preston, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Application for Amendment
POINT OF DIVERSION
Permit No. G-29011

RECEIVED
SEP 2 1966
Department of Reclamation

Comes now Russell A. Koller
and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G-29011.

That the point of diversion is described in said Permit as being located:

NE&SE $\frac{1}{4}$, Section 28, T 13 S., R 38 E., B.M.

That he now requests that the point of diversion be changed to a point located:

SE&SE $\frac{1}{4}$, Section 28, T 13 S., R 38 E., B.M.

That the reason for desiring to make such change is as follows:

The first description was in error.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Bozeman, Idaho this 1st day of Sept, 1966

Dear Mr. Koller:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the PRESTON CITIZEN, all submitted in proof of completion of works and beneficial use on Permit No. C-29011

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

RE: Permit G-29011

Russell A. Koller
Oxford, Idaho

Dear Mr. Koller:

Our field examiner has been out and examined your proofs on your permit. He finds that the point of diversion as listed and published does not agree with the actual point of diversion. Therefore, this requires that an amendment be completed and the enclosed notice published in the newspaper in your county for two (2) consecutive weeks.

Please complete the amendment form to agree with the legal notice, which is enclosed, and return to our department along with \$1.00 for the recording fee. Next, take the legal notice to the newspaper and have it published. Upon completion of the publication return the publication affidavit from the newspaper office to this department and we will issue your license for this permit.

We are in receipt of the letter of September 20 concerning the problem of the diversion of water by a Russell Koller in Section 28 of Township 13 South, Range 38 East.

I anticipate being in the area in a few weeks and feel that perhaps we could best discuss the problems you might be having with your ability to divert water from your wells at that time. If this is a satisfactory arrangement I will contact you before I leave Boise to make arrangements to meet with you.

As your signature appears first on the letter I assume that you act as spokesman for the group. If this is not correct please notify us as to the name of the person we should correspond with.

Dear Mr. Koller:

On August 18, 1966 you were notified that you would have to amend the point of diversion on the above numbered permit as it was not the same as shown on your permit and in the legal notice. At the same time a legal notice was sent to you with instructions to have it published. See the enclosed copy of our letter. The notice was evidently never published. The amendment has been recorded and returned to you.

Since the Attorney General's Office has ruled that the point of diversion and place of use on all permits must be advertised correctly this readvertising must be done before you can be issued the final license for the water. We would suggest, if you want a finalized water right, that you contact this office promptly in regard to the matter.

MEMORANDUM

RE: Russell Koller Permit No. G-29011

On March 20, 1967 a field examination was made of the protest to the Russell Koller well and Permit No. G-29011. I visited with Mr. Cox and Mr. Hatch, domestic well owners that signed the protest.

I pointed out that Mr. Koller's water right had been established and his certificate and license had been issued. However if they felt their rights were being damaged they could either request that a ground water board be formed through the state department of reclamation, or they could take the matter to the district court. They indicated that they would advise our office as to their decision after meeting with other protestants. I later talked with Mr. Koller and advised him of the protests and told him there would be no additional action from our office unless the protestants wanted to pursue the matter further.

It was observed that late in the winter or in early spring the Koller well has enough artesian pressure to flow. Mr. Koller's well is not equipped to control the artesian flow and at the time of the field examination a small amount of water was flowing out under the pump and appeared to be wasting. Koller stated that his well is over 200 feet deep and was not perforated until 120 feet.

RE: Russell Koller Permit No. G-29011

On March 20, 1967 a field examination was made of the protest to the Russell Koller well and Permit No. G-29011. I visited with Mr. Cox and Mr. Hatch, domestic well owners that signed the protest.

I pointed out that Mr. Koller's water right had been established and his certificate and license had been issued. However if they felt their rights were being damaged they could either request that a ground water board be formed through the state department of reclamation, or they could take the matter to the district court. They indicated that they would advise our office as to their decision after meeting with other protestants. I later talked with Mr. Koller and advised him of the protests and told him there would be no additional action from our office unless the protestants wanted to pursue the matter further.

It was observed that late in the winter or in early spring the Koller well has enough artesian pressure to flow. Mr. Koller's well is not equipped to control the artesian flow and at the time of the field examination a small amount of water was flowing out under the pump and appeared to be wasting.
