Dear Mr. Peterson:

Returned herewith is the application for Permit
you submitted to this office.

Kindly complete the maps by showing the land
to be irrigated. We are not able to determine the portions of the
40-acre tracts.

The fee for application for 3.0 cubic feet per
second is \$5.50 which must accompany the application when returned.

Dear Mr. Peterson:

Enclosed is receipt No. 0-5582 for \$5.25 filing fee and \$0.25 refund from the \$5.50 cash you submitted with your application for permit to appropriate subterranean water.

The maps show some land in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 22 to be irrigated which were not shown under 12 of the application. We inserted $\frac{1}{4}$ acres in that subdivision to make the total of 101 acres, which is probably $\frac{1}{4}$ acres more than will be irrigated.

As the maximum amount of water allowable is one miner's inch per acre, the amount of water claimed has been reduced to 2 cubic feet per second for which the filing fee is \$5.25.

Dear Mr. Peterson:

We enclose Permit No. G-29358 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

Departmental Receipt No. G-5582, which was issued covering payment in the amount of \$5.25 for the filing fee of the above mentioned permit, was mailed to you with our letter of January 26, 1961.

You will note, under Question 10, that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.

RE: Permit No. G29358
S. Joel Peterson, Clifton, Idaho

Dear Mr. Carter:

Mr. Peterson would like to amend his permit to include an additional 50 acres of land. His well produces 3 second feet of water, however, his permit was only for 2 second feet. The property that he would like to add to the permit on which the water will be used is shown on the plat in red, and is directly to the south of the area that he had described in his original application. You will notice that the additional land is located in the Southeast quarter of the Southeast quarter of section 21, and also in the Southwest quarter of the Southwest quarter of section 22, and in the Northeast quarter of the Northeast quarter of section 28, and the Northwest quarter of the Northwest quarter of section 27, all as appears on the plat attached to the permit, and return to your office for correction and amendment.

Since the well is able to furnish water for the additional 50 acres, Mr. Peterson wants to irrigate it and have his application and permit corrected and amended so that his permit can be made accordingly.

He is enclosing herewith an additional 25¢ for his additional second foot of water.

Thanking you for your cooperation in this matter.

Dear Mr. Peterson:

Enclosed is your Permit No. G-29358 and a so-called amended permit.

As explained in our letter of September 22nd, your permit is valid for only 2.0 c.f.s. and you cannot increase that amount of water.

You can file a new application for additional water which cannot be for over one cubic foot per second for each 50 acres of irrigable land. As your new form shows 202 acres of land, you can have a total of 4.04 c.f.s. The file fee for 2.0 c.f.s. is \$5.25 and for 2.04 c.f.s. is \$5.50.

Don't send your permits to this office, this one is getting worn out from so much handling. We have copies of all permits. This does not refer to applications for new permits which must be filed in this office.

Gentlemen:

At the request of Mr. S. Joel Peterson we have been asked to write you concerning Permit No. G-29358.

Mr. Peterson sold last year, the land located in NE1/4SE1/4, and SW1/4SE1/4 Section 22, Township 14 South, Range 38 East, Boise Meridian.

The water for this 22 acres that was being used there was transferred back to land he already owned and being located in SW1/4SW1/4 Section 22, Township 14 South, Range 39 East, Boise Meridian.

Therefore he is now irrigating as follows:

Dear Mr. Peterson:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Preston Citizen Preston, Idaho, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Peterson:

Our field examiner has been out and examined your proofs on your permit. He finds that the point of diversion as listed and published does not agree with the actual point of diversion. Therefore, this requires that an amendment be completed and the enclosed notice published in the newspaper in your county for two (2) consecutive weeks.

Please complete the amendment form to agree with the legal notice, which is enclosed, and return to our department along with \$1.00 for the recording fee. Next, take the legal notice to the newspaper and have it published. Upon completion of the publication return the publication affidavit from the newspaper office to this department and we will issue your license for this permit.

RE: Permit No. G-29358

Dear Mr. Peterson:

On August 18, 1966 you were notified that you would have to amend the point of diversion on the above numbered permit as our examiner found that it was in a different 40-acre subdivision and section than was shown on your permit and in the legal notice. You were also sent a legal notice that you were to take to the paper for publication. See the enclosed copy of our letter of August 18. We have had no answer from you.

Since the Attorney General's Office has ruled that the point of diversion and place of use on all permits must be advertised correctly, and since they must be correct before we can issue the final certificates of water right, we would suggest that you contact this office promptly if you want a license for this water.

Dear Sir:

Mr. S. Joel Peterson is selling his farm to Carl A. Mortensen. Our records indicate two permits have been issued to Mr. Peterson, Permit No. G 29358 issued on 30 January 1961, and we have in our possession permit No. G 31058 issued 1 April 1963. Would you please advise if both of these permits are in good standing or if one has been cancelled.

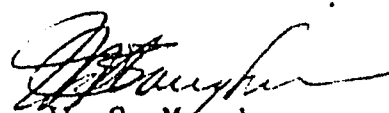

We would appreciate your forwarding the necessary forms and advise us how this permit can be transferred to Carl A. Mortensen. The Farmers Home Administration is making a loan to Mr. Mortensen to purchase the Peterson farm.

In reviewing the enclosed Application for Permit No. G31058, we find the well is located in Section 22 instead of Section 21 as the permit indicates. We have made this correction in red.

It is our understanding that Mr. Peterson has applied on Proof of Completion of Works. Would you please bring us up current on all matters concerning these permits.

Your speedy reply will be appreciated and would you please return the enclosed application.

Dear Mr. Maughan:

This is in reply to your letter of November 24, 1966, regarding the above numbered permits. Both of these permits are in good standing except that G-29358 has not been licensed because we cannot get the affidavit of publication which was mailed to Mr. Peterson on August 18th of this year. Upon receipt of this affidavit a license will be issued for this permit. It is possible to have both of these permits assigned to Mr. Mortensen and we are enclosing the forms. There is a 50¢ recording fee for each assignment.

It is noted that Permit G-31058 must be amended to correct the point of diversion and the form for changing the point of diversion is enclosed herewith. The fee for recording this amendment is \$1.00. This permit is due on March 26, 1968.

Hope this answers your questions and that these permits will be assigned and amended in order that a license can be issued.

Dear Sir:

I received your letter dated 29 November 1966, and it has given use to a few questions:

1. The enclosed permit #G31058 appears to be the permit that needs the point of diversion corrected.
2. Would you explain what the permit #G-29358 covers. I do not have a copy. As far as I know there was -only one well drilled. Should there be only one permit?
3. Would it be best to complete the proof of completion in S. Joel Peterson's name, then have the assignment completed to Carl A. Mortensen?
4. I have obtained the Affidavit of Publication from Mr. Peterson(enclosed). If you will review it and make any corrections, this will then be completed.

RE: Permits G-29358 and G-31058
Joel Peterson

W. C. Maughan
County Supervisor
Farmers Home Administration
Preston, Idaho

Dear Mr. Maughan:

In reply to your letter of December 2, there are two permits for the same area. The first permit was filed for 2.0 cubic feet per second to irrigate 101 acres. Then, the well was drilled and it was found that the well produced more water, therefore, he filed another permit to cover an additional 50 acres. If he wants to relinquish permit G-29358 he could do so for the present permit will give him all the land and water he will need. However, he will lose priority in his first permit of 101 inches of water. If this makes no difference the one permit will do.

It would be best to complete the proofs in Joel's name and then assign the permit or permits to Mr. Mortensen.

In August we forwarded an amendment form to Mr. Peterson along with the notice for publication. We requested that Mr. Peterson complete the amendment and upon doing so take the notice to the paper for publication. Permit G-29358 was found to be in error when our field engineer went out to check the works and beneficial use. State laws require that the legal notice be published and the actual land and point of diversion be correct otherwise a license cannot be issued.

This process is still required, however, we will not forward the notice of publication until we are in receipt of amendment and the \$1.00 recording fee. The notice will then be forwarded for correction. After the last date for protest has passed a license can then be issued.

Dear Mr. Maughan:

We are in receipt of the amendment to point of diversion on the above referenced permits, however, we are sorry to say you can use only one amendment to one permit. Enclosed find an amendment for Permit G-31058 which we have taken the liberty to fill out for you. If you would have the Petersons sign this amendment and return it with \$1.00 recording fee we will record the same.

Sorry for this misunderstanding and hope this hasn't inconvenienced you too much.

Dear Sir:

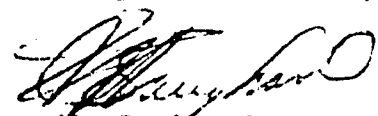

We received the completed Application for Amendment Point
of Diversion for Permit No. G-31058 and Permit No. G-29358.

According to your letter dated 7 December 1966, when you
were in receipt of the Amendment and the \$1.00 recording
fee, you would forward the Notice of Publication.

It is my understanding that legal notice must be published
showing the correct land and point of diversion (which would
include the amendment on the two permits described above).

Please send the Notice of Publication and advise what else
is required so that a license can be issued on these two
permits.

Dear Mr. Maughan:

The amendments to the above permits have been reported. On Permit G-29358 it is presently being re-advertised and upon the expiration of the protest date we will forward a fee letter and a license can be issued. On Permit G-31058 it is not due until 1968, however, it can be published and proofs taken at any time if the works are complete and the water used beneficially.

I hope this answers your question. If we can be of further assistance let us know.

Dear Mr. Peterson:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-29358 shows the well(s) is (~~are~~) capable of conveying 74 miner's inches, or 1.48 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 15.00, we will issue the Certificate of Completion of Works for 1.48 c.f.s. and the License and Certificate of Water Right for 1.48 c.f.s. confirming the right, with priority of January 28, 1961, to the use of subterranean water with the point of diversion in SW1/4 SW1/4, Sec. 22, T. 14 S, R. 38 E. for irrigation of 110 acres in E1/2 SE1/4, Sec. 21; W1/2 SW1/4, Sec. 22; NE1/4 NE1/4, Sec. 28, T. 14 S, R. 38 E, B.M.
