Dear Mr. Hymas:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29565 are due not later than March 20, 1966.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER

Enclosed herewith papers in connection with the proof of filing of the above Permit.

On paragraph 4 of permit the point of diversion is in error due to a typographical error. It now reads "in the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ " and it should read "in the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ ".

Could you please make this correction, or if necessary send me the papers so that I may make the correction.

Dear Mr. Hymas:

Returned herewith is your Notice of Publication for the above referenced permit. As you have indicated in your letter of January 13, 1966, the permit is in error, therefore, an amendment to the point of diversion will be required. The fee for each amendment is \$1.00 and the forms are enclosed. Due to this delay, a new date to appear before Notary Public Ted Blarson must be set. Please bear in mind this date must be 40 days subsequent to receipt of the Notice of Publication and amendment to the Point of Diversion, by this office. Please make the necessary corrections and/or amendment and return promptly.

Gentlemen:

In reference to Permit No. G-29565 belonging to Mr. Mack D. Hymas, we have been informed of the following information:

1. That there is a question as to the priority date. The Power Company shows that the power hook-up to the well was not made until May 18, 1962.

Would you advise us as to what date should be used, and if the second date is to be used, just what procedure do we go through to get it corrected.

Notice has been given our office that the Strongarm Irrigation District will protest this proof of use if we use the date that is now being advertised.

Dear Mr. Larsen:

This is in reply to your letter of February 16, 1966. Since Mr. Mack D. Hymas complied with the provisions of his permit; i.e. completion of 1/5 of the work by September 20, 1963 and final proof prior to March, 1966, his priority date will be March 14, 1961, the date his application was received in this office as set forth in the Idaho Code, Section 42-219.

If the Steungarn Irrigation District desires to protest this permit they must comply with the provisions of Section 42-224 of the Idaho Code in that they must file a statement with this department on or before the date set for such proof, stating the reason, for such protest and stating clearly the reason, if any, why a license should not be issued confirming the right claimed.

P R O T E S T

The undersigned, President of Strongarm Irrigation District, does hereby protest to the State Reclamation Engineer the granting of a permit as above named with date of priority as of March 14, 1961, for the following reasons:

1. The well supplying the water involved here was not even commenced by Ronald Durstellar until February 1962. Finish work was done by Andrews Drilling Company.

2. The power for the pump on this well was first furnished on May 18, 1962, according to information from Utah Power & Light Co.

3. From the observations and personal knowledge of the undersigned, I can state that beneficial use of the water claimed in this instance was not commenced until on or after May 18, 1962.

This Affidavit and Protest is made in support of a Protest of the priority date applied for and in support of the granting of a priority date not earlier than May 18, 1962, and subsequent to the priority date established by the Strongarm Irrigation District on its well.

Dear Mr. Hymas:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the PRESTON CITIZEN, all submitted in proof of completion of works and beneficial use on Permit No. G-29565.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,
