

APPLICATION FOR PERMIT To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 37712
Permit No. G- 29706
District No.

1. Name of Applicant: Virgil Archibald
Postoffice address: Dayton County: Franklin State: Idaho

2. Quantity of water claimed: 3.74 c.f.s.
(a) Rate of withdrawal in cubic feet per second or gallons per minute
Miners' inches
(b) Annual withdrawal in acre feet per annum

3. Source of water supply: subterranean
4. Location of point of diversion or well is in the NE SW
Twp. 15 S , Rge. 38 E. , B.M., County of Franklin 1/4 of the SW 1/4 of Section 23

5. Water is to be used for: Irrigation

6. If for municipal, industrial or recreational purposes, give:

(a) Point of use of water is in the 1/4 of the 1/4 of Section , Twp.
Rge. , B.M.
(b) Waste water or sewage effluent is to be returned to
at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.

7. Kind of works: Dug well and pond

8. Estimated cost of works: \$4500.00

9. (a) Is reservoir to be used? no
(b) Capacity of reservoir:

10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.

11. If applicant is a corporation, give:

I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:

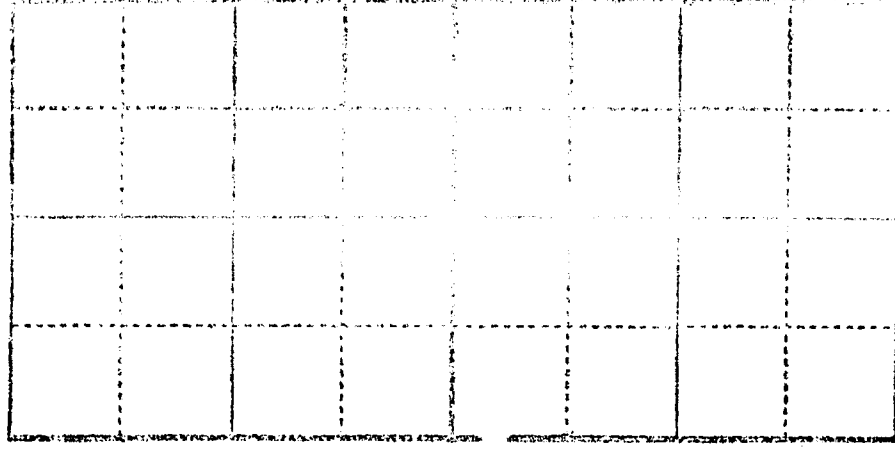

II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:

12. The land to be irrigated is described in the following tabulation:

13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

131 Twin Lakes Canal Co.

(a) 3.74 (cubic feet per second. ~~in excess of the water herein applied for is to be supplemental to the existing water rights.~~)
(b) (cubic feet per second, inches or gallons per minute) is for new lands.

May 5, 1961

Re: Application for Permit

Mr. Virgil Archibald
Dayton, Idaho

Dear Mr. Archibald:

Returned herewith is your application for permit with attached Postal Money Order for \$5.25. Also enclosed is Form No. 3, with instructions.

You are claiming water from a drain under No. 3 of the application and call it a pit under remarks. This office has administratively determined that a drain is an artificial channel which transports water away from the point where the water originated, and generally empties into a natural water course. Such water is treated as surface water and applications on form No. 1 are used. Water in a pit or ditch which has no surface outlet is considered as subterranean water and applications on Form No. 3 are used.

Your present application appears to be for underground water and Form No. 3 should be used.

You have Permit No. G-26277 for 187 miners inches of water from subterranean source to irrigate the same land. The proofs were due April 2, 1961, however it is still valid and we cannot issue a new permit for additional subterranean water until your present Permit is relinquished, cancelled or the amount of water claimed is reduced so the total amount of water claimed under the two rights is not over one miner's inch per acre.

Kindly see the fee charge in the instructions and remit the proper amount. The quantity of water claimed must be a definite amount.

Very truly yours,

GEO. W. CARTER
State Reclamation Engineer

Dayton, Idaho
May 6, 1961

Ralph W. Thomas Deputy
State Reclamation Engineer

Dear Mr. Thomas

This is under 6-26-77
In regards to our claims we are trying to file. Our first one we dug a well by hand to 55 ft and get 180 gal a minute we later tried to get a driller to set up over our hole and go 95 ft but they were unable to do this and wanted to drill a new hole but we are without money to do this right now so this well isn't finished. So to get water to keep fur crops from burning up we went down in the pasture and dug a drain and a pond about 8 ft deep below the ground level and pump from this we are just begining to work on this we tested today and run sprinkles but don't know how long they will run from the water in this pond.

More about the drains we have two dug and one goes north from

29706

our pond and the other one goes ~~East~~ West
each being 40 rods long.

We don't know what will develop but
we are hoping for the best so wanted
any help you could give us to know how
to file this claim.

We are going to continue digging on
the well we start so would like more
time to try and develop this one out
too.

We are send the filing paper back with
a few correction because we wondered
if we made our selves clear before.

Sincerely
Virgil Archibald

P.S. We will have to
~~lower~~ reduce the
total amount of
water claimed
we are returning
a Five dollar
money order we
still don't know
if this is right
but hope you
can set us straight
if it isn't.

Thank you

I am sending
both sets of filing papers
I hope one is right

RE: Permit No. G-26277
Application for Permit

Mr. Virgil Archibald
Dayton, Idaho

Dear Mr. Archibald:

Reviewing your case we find that proof on your Permit No. G-26277 was due April 2, 1961, and you were so notified on February 1, 1961. You returned this notice marked "not completed". Therefore, since this permit will be subject to cancellation in June, it seems that you should relinquish it, unless you wish to make proof on the small amount of water developed thus far, and also file a new application for the rest of the water needed.

The simplest and least costly procedure would, in our opinion, be to relinquish No. G-26277, then file a new application for 3.74 c.f.s. showing all the points of diversion as indicated in the attached application for irrigation of the entire 187 acres.

We are also enclosing the Postal Money Order for \$5.00 which you submitted, and a form for relinquishment of Permit No. G-26277 which, we believe, is the first action necessary. After you and your wife have signed the relinquishment send it back to this office with the corrected Application Form No. 3, if you agree to the changes. Attach to it the fee of \$5.75, which is the correct amount for 3.74 c.f.s.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-29706

Virgil Archibald
Dayton, Idaho

Dear Mr. Archibald:

Returned herewith is your permit with papers attached which you sent with your letter noting an error in your application. Also enclosed are two forms, one to amend the point of diversion and one to amend the land list.

Complete the amendment to the points of diversion showing the points described in the permit as described and then the corrected points.

Complete the amendment to the land list by showing only the correct description.

Return both amendments with the recording fee of \$1.00 per amendment, or \$2.00 total and the corrections will be approved.

Re: Permit No. G - 29706

March 1, 1966

Virgil Archibald
Dayton, Idaho

Dear Mr. Archibald:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29706 are due not later than May 19, 1966

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Tappan

Application for Amendment

POINT-OF DIVERSION

Permit No. G-29706

RECEIVED
APR 21 1966

Department of Reclamation

Comes now Virgil Archibald and
represent s to the State Reclamation Engineer of the State of Idaho:

That he is (are) the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G-29706.

That the point of diversion is described in said Permit as being located:
Well NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 23 Twp 15 SR 38 EBM, County of Franklin
NW $\frac{1}{4}$ SW $\frac{1}{4}$

That he now requests that the point of diversion be changed to a point
located: NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 22 Twp 15 SR 38 EBM for well, and NW $\frac{1}{4}$ SW $\frac{1}{4}$ sec 23
Twp 15 SR 38 EBM for pond.

That the reason for desiring to make such change is as follows:

An error of point of diversion was made on the original permit
application.

That no one will be injured by such change, and that such change will be made
at Permit Holder's own risk.

Signed at Preston, Idaho, this 18th day of April,
19 66.

Dear Mr. Archibald:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-29706. The proofs are to be made at ~~XXXXXXXXXXXXXXXXXXXX~~ on the 10th day of June, 1966, before Ted B. Larsen, 10 West Oneida, Preston, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Preston Citizen, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

and Completion of Works

DEPOSITION OF WITNESS

The deposition of two witnesses on this form, taken separately, required in each case.

Ques. 1 State your name, age, residence, occupation and postoffice address:

John Schwartz 74 Dayton, Idaho Farming

Ques. 2 Are you acquainted with Virgil Archibald, the holder of

Permit No. G-29706? How long have you known him and where does he reside?

20 years Dayton, Idaho

Ques. 3. Have you read or heard said Permit No. G-29706 read, and are you familiar with its provisions and conditions: Yes X No.

Ques. 4. State source of water supply: underground water from well and drain pond

Give location of place of diversion, showing subdivision, section, township and range
NE $\frac{1}{4}$ SE $\frac{1}{2}$ sec 22 twp 15 SR 38 EBM, where well is drilled, and NW $\frac{1}{4}$ SW $\frac{1}{4}$
S $\frac{1}{2}$ c 23, Twp 15 SR 38 EBM where pond is located.

Describe works for conveying water to place of use: sprinkler system

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use: 2.5 cfs How much water have you seen being so conveyed? 2.5 cfs

Ques. 6 If for irrigation, show number of acres irrigated in each subdivision, giving full legal description:

40 acres NE $\frac{1}{4}$ SE $\frac{1}{2}$ S $\frac{1}{2}$ c 22, 40 acres NW $\frac{1}{4}$ SW $\frac{1}{4}$ sec 23, all in Twp 15 SR 38
EBM.

29706

Ques. 7. If for other than irrigation purposes, show full legal description of place of use, and state purpose for which water is used.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Mountain loam to sandy loam

2.5 acre feet

Ques. 9. Have you any ownership interest in the works, water or lands above mentioned?

If so, in what way and to what extent? no

Ques. 10. When did you first see this water used? May 12, 1961

Other times you have seen such use: Each watering season thereafter

(Signed):

John Schwartz

NOTICE
OF PROOF OF
COMPLETION OF WORKS
and
APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that on the 10th day of June 1966, at Preston, County of Franklin, State of Idaho before Ted B. Larsen, Notary Public, at 10 West Oneida, Preston, Idaho, proof will be submitted of the completion of works for the diversion of 2.5 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-29706, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Virgil Archibald, Dayton, Idaho.

2. Said works of diversion will be fully completed on the date for such completion, and the amount of water which said works are capable of conveying to the place of use is 2.5 cubic feet per second.

3. The use to which said water has been applied is Irrigation purposes and the amount applied to beneficial use is 2.5 cubic feet per second.

4. The point of diversion of said water is NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 22 Twp 15 SR 38 EBM where the well is drilled, and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 23 Twp 15 SR 38 EBM where pond is located.

5. The place where said water is used is 40 acres NE $\frac{1}{4}$ SE $\frac{1}{4}$ section 22, and 40 acres NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 23, all in Twp 15 SR 38 EBM.

6. The date of priority which said user is prepared to establish is May 12, 1961.

CARL E TAPPAN
State Reclamation Engineer

BOISE, IDAHO
REPORT OF EXAMINER

Permit No. G-29706

This proof is for Completion of Works & Beneficial Use In Water District No.

1. Name of applicant Virgil Archibald

2. Source of water supply: a well & pond

3. Location of point of diversion: Is in the well NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 22; pond NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 23

T. 15 S. R. 38 E., B.M. County of Franklin

4. Describe works as they exist, giving dimensions and capacities of same: well - 4' x 55' hand dug. Concrete pipe & cement wall casing. F.M. Pump # PW 1756 with a 5 $\frac{1}{2}$ " x 9" flat belt Pulley driven from P.T.O. Pulley on a tractor. 8" x 15' discharging pipe reduced to 6" and 6" portable Main line. Pond: 15' deep x 20' x 50'. Natural drain with a low earthen dam 3' high x 25' long with a 12" G.I.P. spillway set in center. D2 Cat with PTO driving a F.M. Centrifugal Pump # 3" 5532 - 16433 to 6" portable Main line. 2- $\frac{1}{2}$ mile laterals. 16 nipples. double dead.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 22; NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 23, T. 15 S., R. 38 E., B.M.

showing 3.74 ac. for main

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

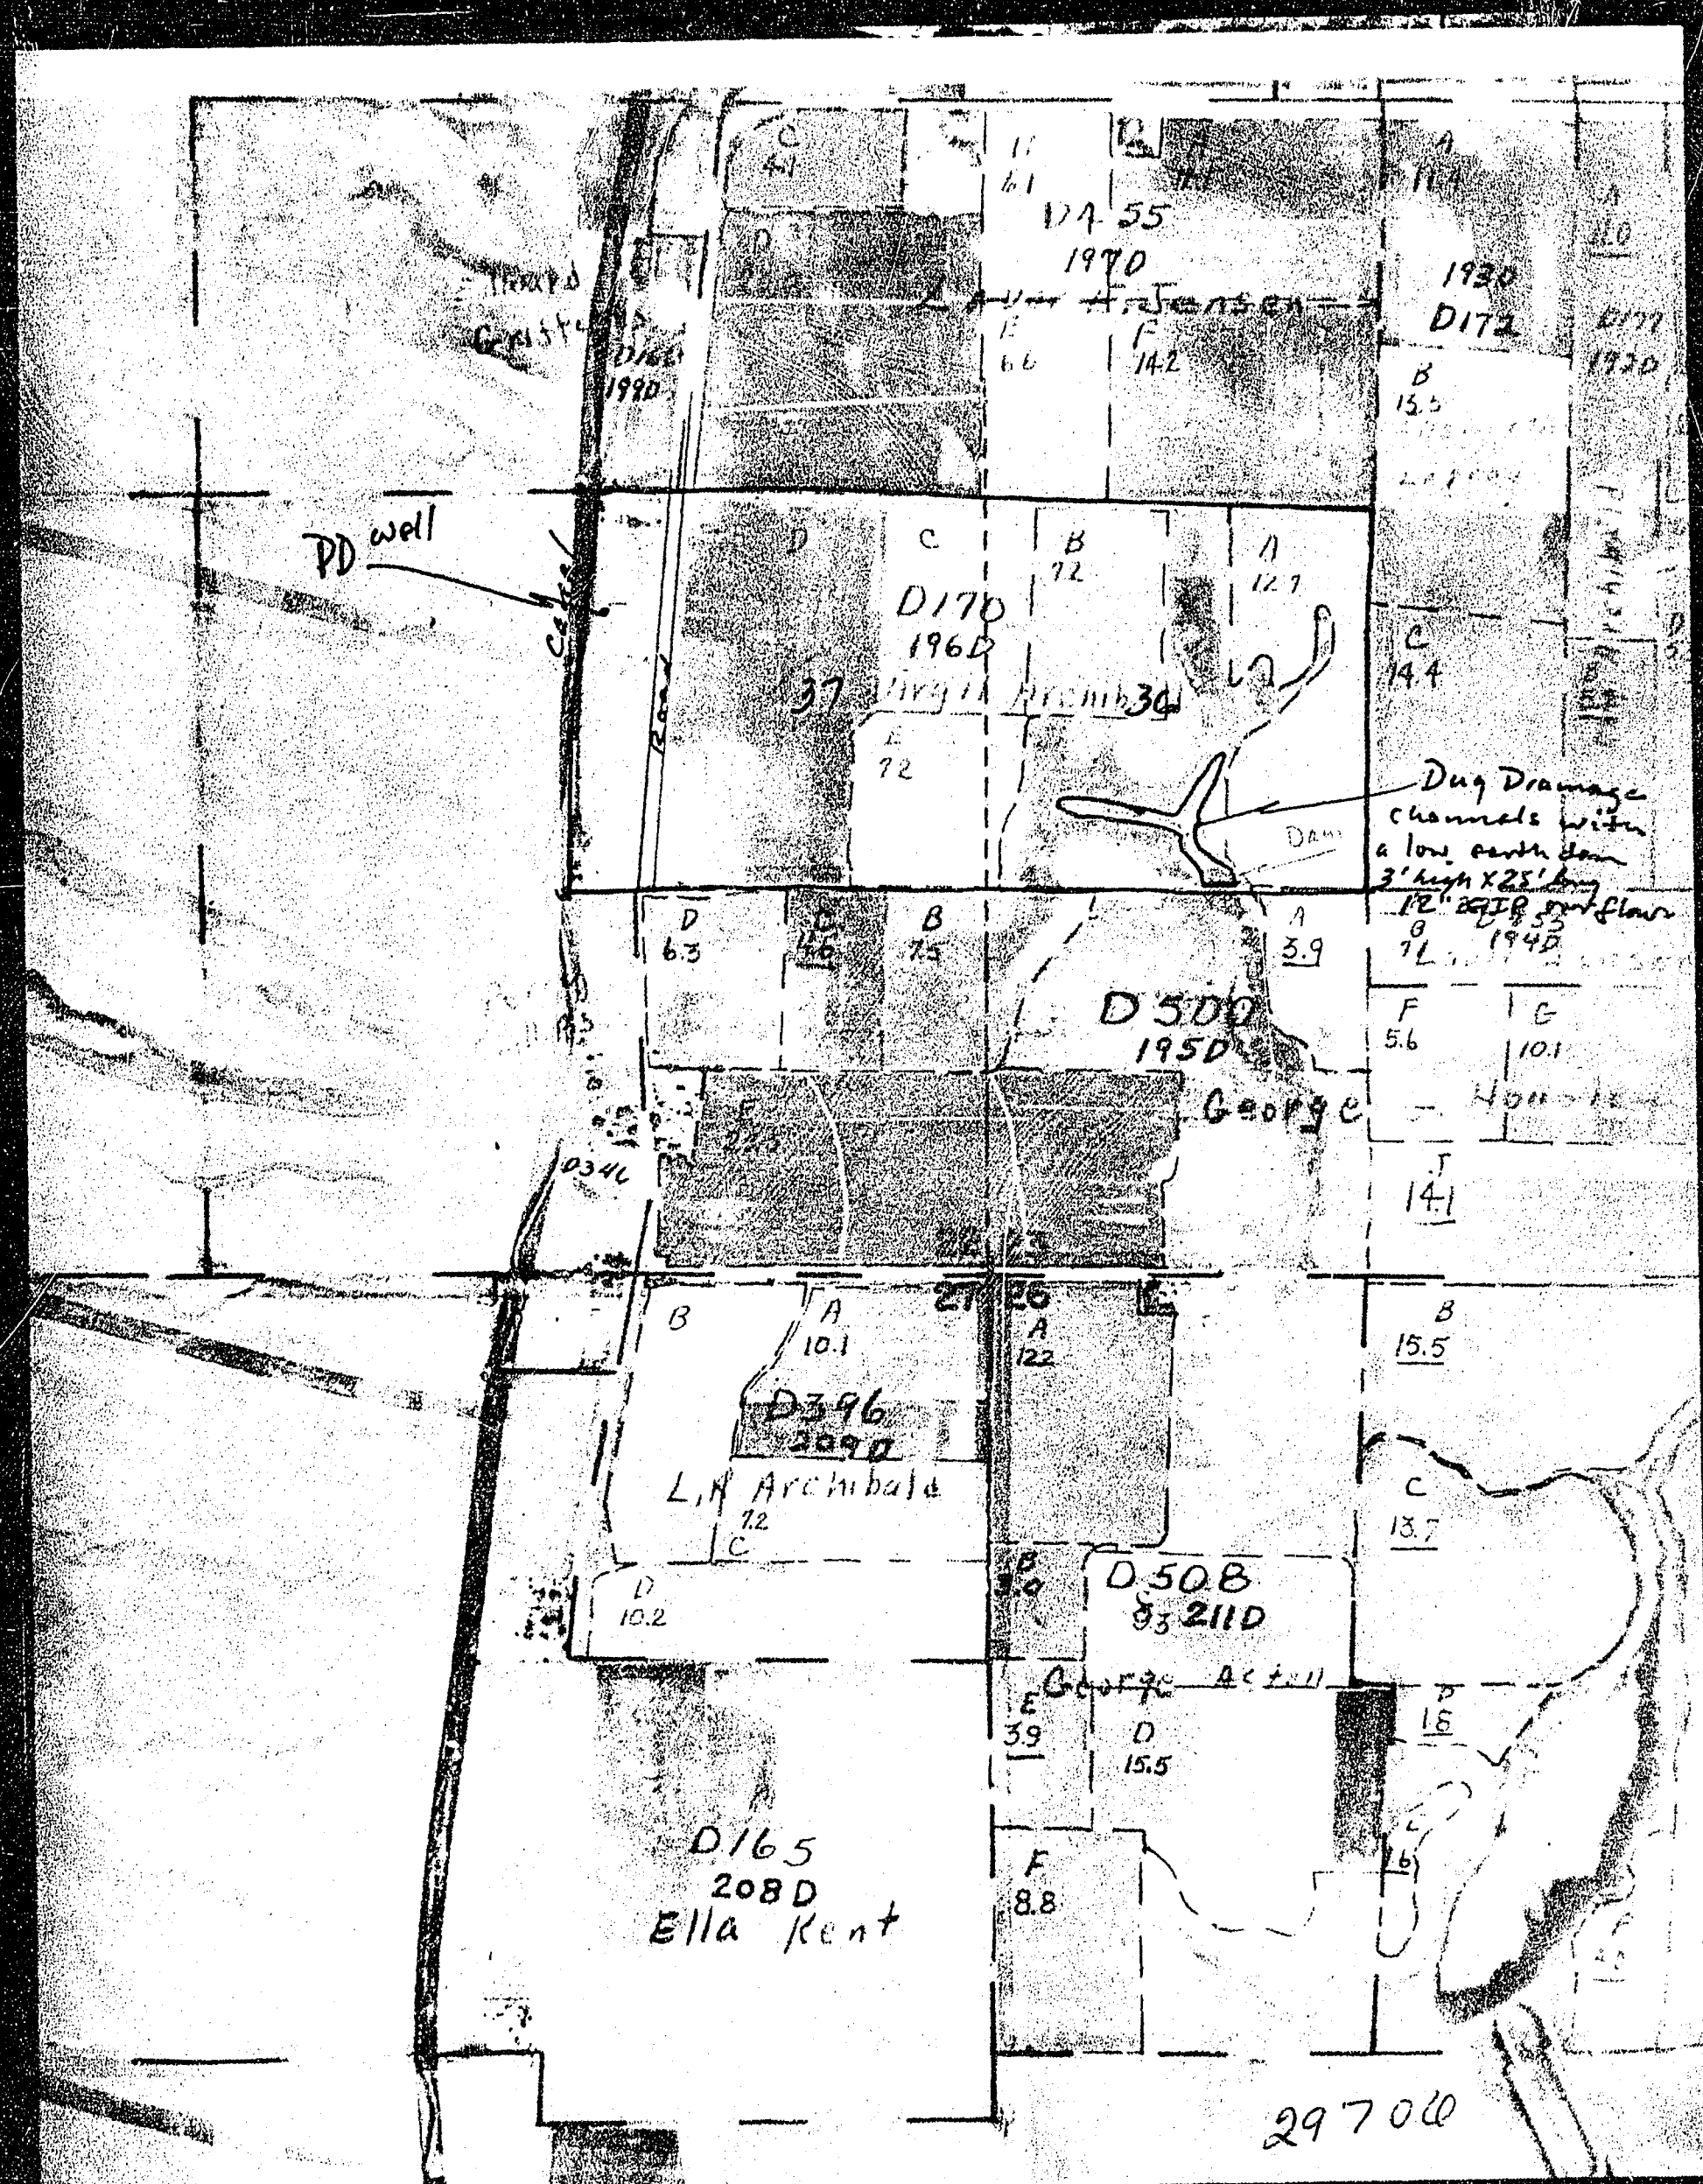

Remarks: Mr. and Mrs. Archibald along

Measured in 10 gal Can. 180 GPM. = 1.40 cfs.
by Catching Nipple drilling in 5 gal Can = $9.26 \text{ GPM} \times 57 = 1.18$
1.58 cfs.

This examination was made on the 17 day of July, 1966

RE: Permit No. G-29706

Virgil Archibald
Dayton, Idaho

Dear Mr. Archibald:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-29706 shows the well ~~(is)~~ is ~~(now)~~ capable of conveying 73 miner's inches, or 1.46 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

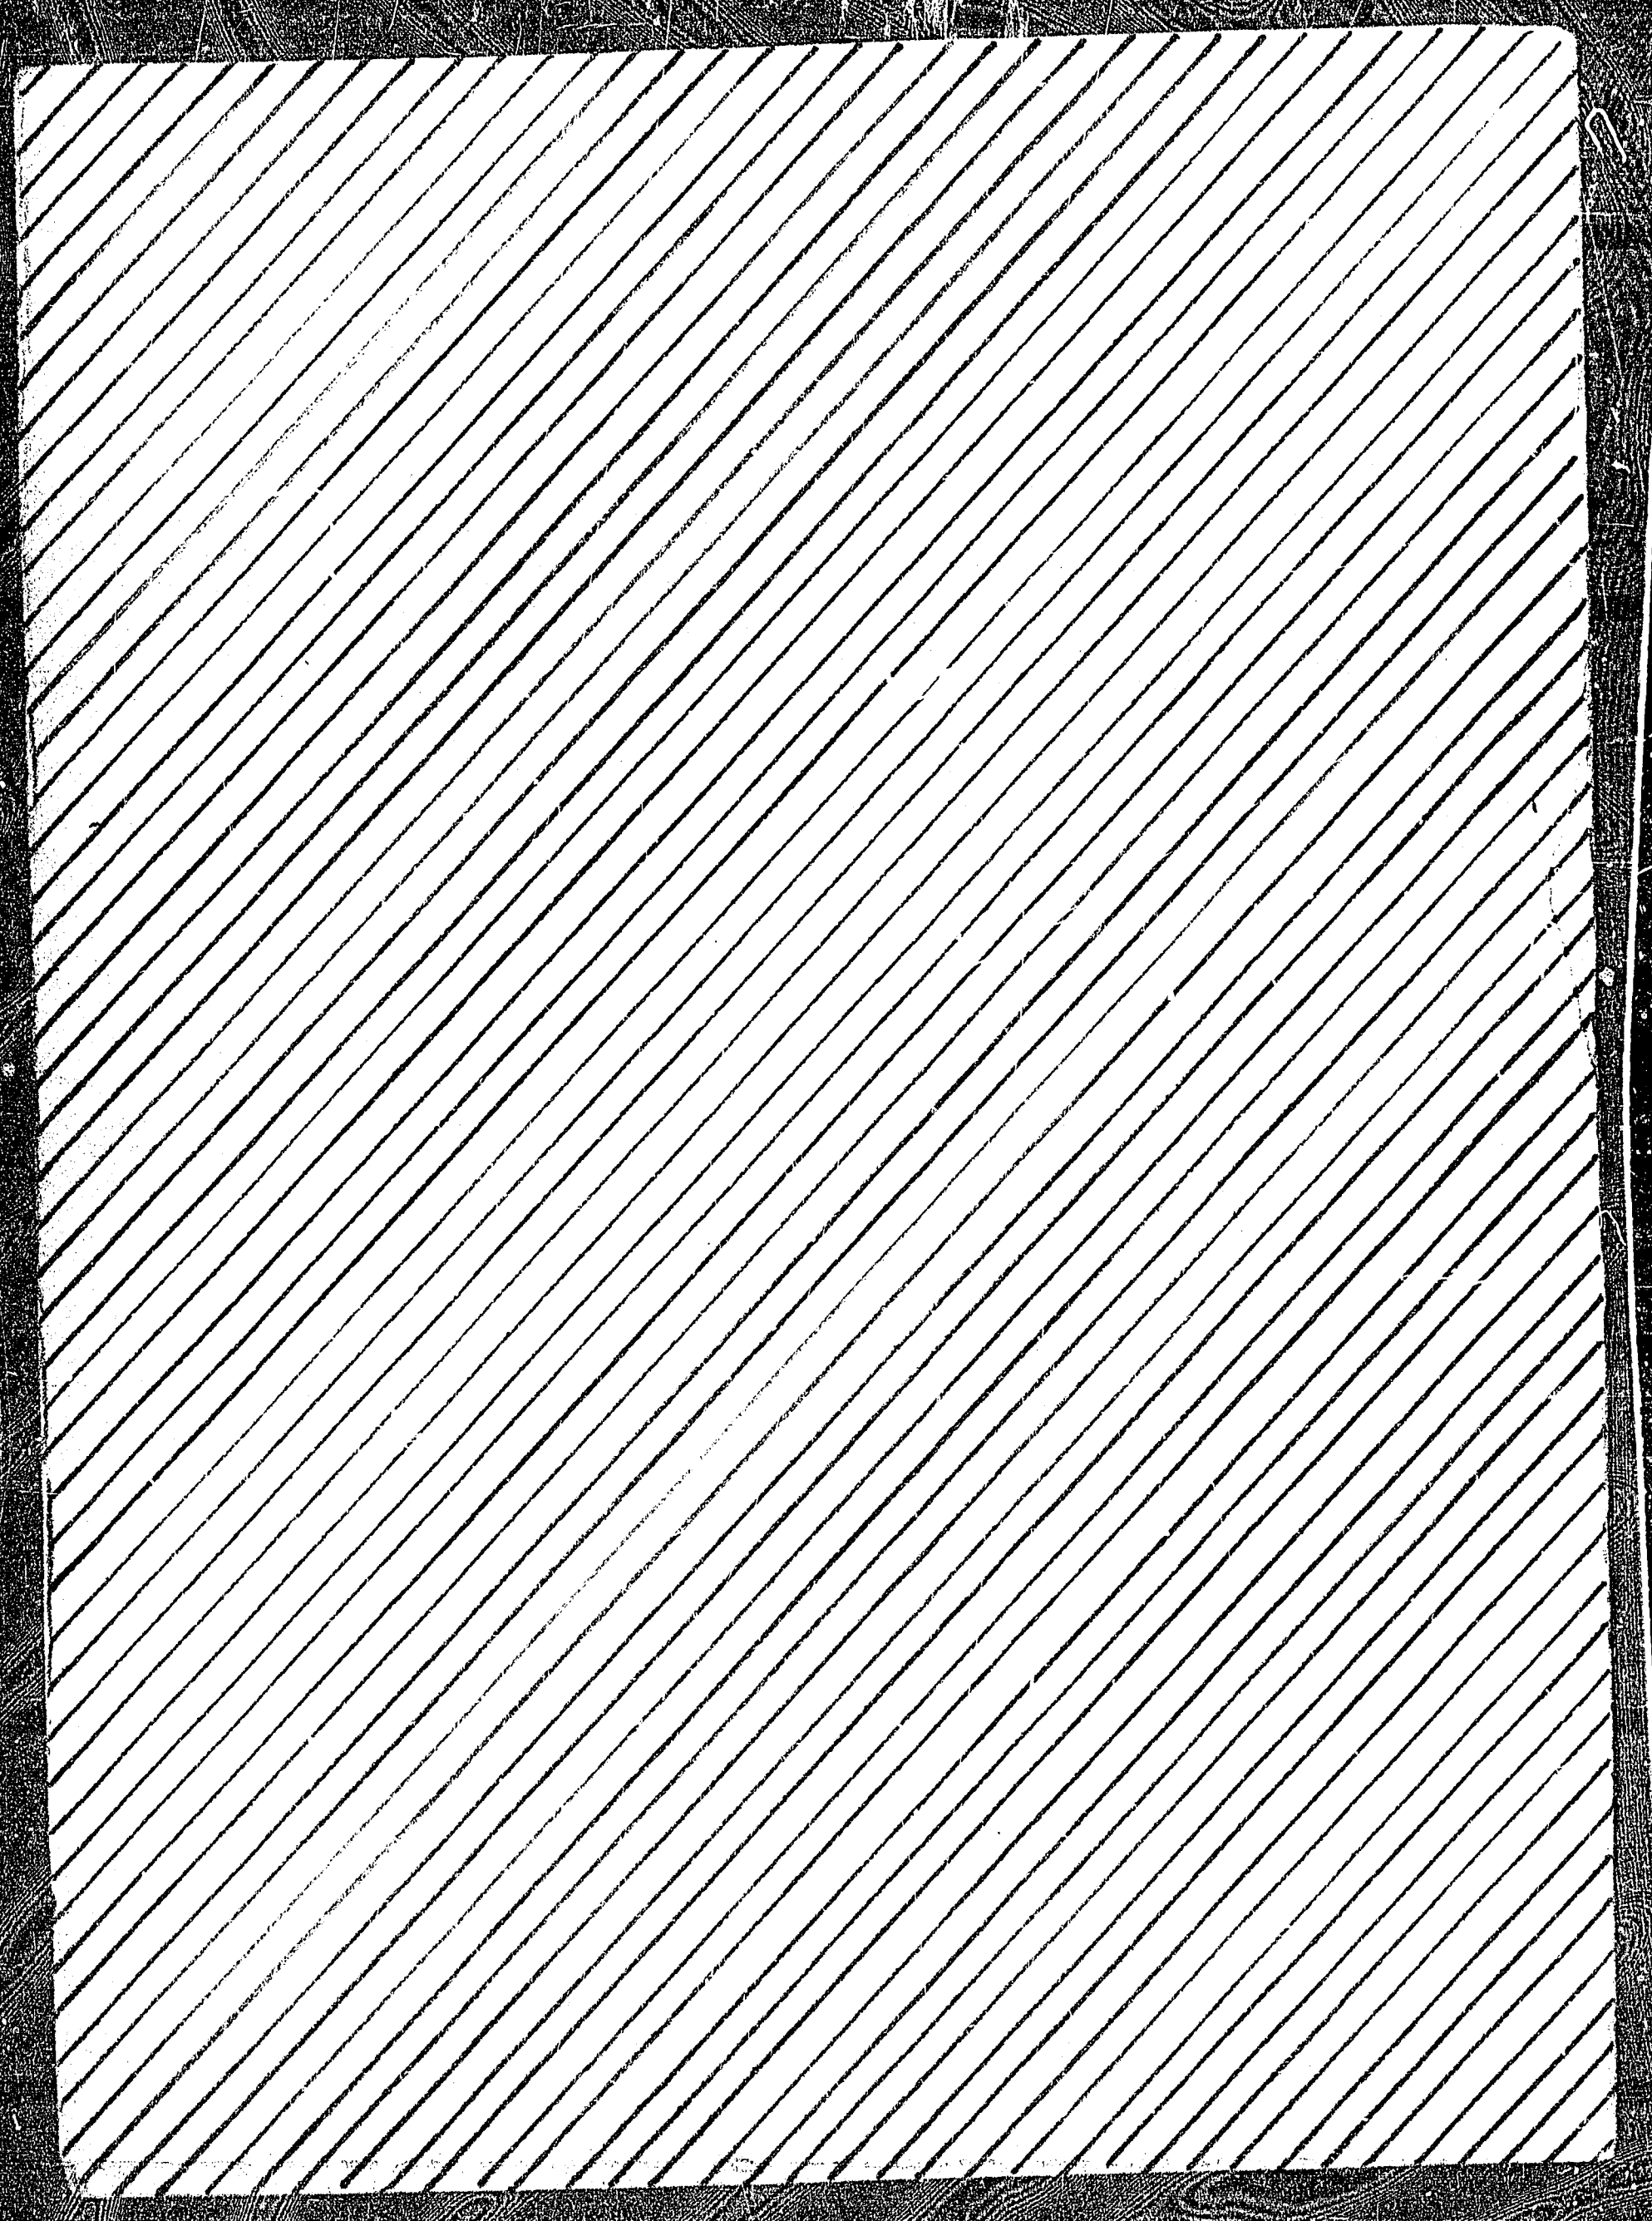

Upon receipt of the statutory fees, totaling \$ 9.00 , we will issue the Certificate of Completion of Works for 1.46 c.f.s. and the License and Certificate of Water Right for 1.46 c.f.s. confirming the right, with priority of June 3, 1961 , to the use of subterranean water with the point of diversion in NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 22, for irrigation of 73 acres in NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 22; NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 23, T. 15 S, R. 38 E, B.M.

Very Truly Yours,

M. Russell Bosch
Office Manager
