Mr. P. M. Condie,
Attorney at Law,
Preston, Idaho.

Dear Mr. Condie:

Enclosed are copies of the Water License and of the Permit noted above, as requested in your letter of July 12th.

The original map with Permit No. 14919 shows the springs about 700 feet south of the NE corner of Sec. 16 with diversion from the stream from the springs. The map of Mr. R. L. Sutcliffe, Examiner, does not show the location of the springs, just shows the stream with two points of diversion, one in NE1/4 and one in NE1/4, Sec. 16, and he also shows that some of the land irrigated extends into the south part of SE1/4, Sec. 9.

Permit No. G-29893 shows the point of diversion about 3/8 mile or more from the above location of the spring, however, it is the only record we have nearby.

The fee for the copies is \$2.50 which you may remit to this office.

Attention: Mr. Thomas

Gentlemen:

We refer you to the right of O. E. and Dale Ralphs
in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 9, Township 14 South, Range
38 E.B.M., Permit No. 29893 and, also, Permit No.
14919.

On the Ralphs' land there is a well which flows con-
tinuously throughout the year and when I refer to a well
I refer to an artesian well and I am only now referring
to the use of the water of that well in so far as your
office is concerned, during the non-irrigation season or
when the water is being wasted during irrigation season.
I refer you to your letter of July 13 addressed to Mr.
P. M. Condie who is associated with this office in represent-
ing a Mr. Wardell who owns some adjoining land. On this
adjoining land of Mr. Wardell's is a spring and after the
said well was dug by Mr. Ralphs the spring has virtually
dried up, or rather slowed down to such an extent there
is very little value left.

The irrigation season is just about over and what I would
like to do is to test what happens when the well is closed
down in so far as the spring is concerned. Would it be
possible for you to have a departmental man make an inspection
or assist us in a close-down pursuant to provisions of Section
42-1601, Idaho Code and, likewise, Section 42-237 (a). You
may advise.

I expect to be in Boise in a few days and I will drop in and
have a chat with you at that time but in the meantime, I would,
indeed, be glad to have some advice as to what authority the
Department has in the matter.

Dear Mr. Sant:

In the third paragraph of your letter of the 11th you do cite the authority under which this department operates in the matter of controlling flowing or artesian wells. This authority enables us to order the owner of a flowing well to cap and control said well in accordance with the statutes. Before issuing an order we must ascertain that the well is flowing water above the surface of the ground, the location and the owner of the well. At this writing we have no record of an uncapped flowing well in the area mentioned in your letter of the 11th.

In passing it is noticeable that additional control legislation will be enacted as a result of, or in connection with, one or more test cases. This office would indeed encourage such legislation.

Gentlemen:

In reference to Permit G-29893 issued in the name of O.E. Ralphs and Dale Ralphs, Clifton, Idaho, I am filing the following protest:

1. This well has never flowed 1.76 cfs. It is a flowing well, and has never been pumped.
2. If it is pumped it will dry up my well.
3. When it was originally drilled it dried up all of the springs on my farm. Culinary and Irrigation. For this reason I had to drill me a well.

My protest is based on the fact that if the above referred to well is pumped then my well will be dry. Since the well has dried up my springs I feel that this protest is in order.

Gentlemen:

It is my understanding that you have decided to not submit proof on your well until after you have installed a pump. I wish to remind you again that the proof is due July 3, 1966.

One matter which I neglected to call to the attention of you and Mr. Wardell has to do with the control of the flow of water from your wells. Both appeared to be flowing at their full capacity which is probably in excess of your present requirement for livestock water. Chapter 42-16 Idaho Code provides for control of such wells and it would be to the advantage of both well owners to close the valves so as to preserve the water.

TO BENEFICIAL USE

Notice is hereby given that on the 18th day of July, 1966, at Preston, County of Franklin, State of Idaho, before Ted B. Larsen, Notary Public, at 63 South State St., Preston, Idaho, proof will be submitted of the completion of works for the diversion of 1.76 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-29893, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is O. E. Ralphs and Dale Ralphs, Clifton, Idaho.

2. Said works of diversion will be fully completed on the date for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.76 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes and the amount applied to beneficial use is 1.76 cubic feet per second.

4. The point of diversion of said water is SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 9 Township 14 South, Range 38 East of the Boise Meridian.

5. The place where said water is used is 13 Acres SW $\frac{1}{4}$ SW $\frac{1}{4}$, 40 Acres SE $\frac{1}{4}$ SW $\frac{1}{4}$, 24 Acres SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 9 and 8 Acres NE $\frac{1}{4}$ NW $\frac{1}{4}$, 3 Acres NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 16, all in Township 14 South, Range 38 East of the Boise Meridian.

6. The date of priority which said user is prepared to establish is June 30, 1961.

Mr. O. E. Ralphs,
Clifton, Idaho.

Dear Mr. Ralphs:

Receipt is hereby acknowledged of the proof of completion of the works and application of the water to beneficial use.

It is noted under Question No. 6 that you have added the NE1/4SW1/4, Section 16, Twp. 14 S., Rge. 38 E.B.M. to your depositions. At present, we cannot issue you a license for this land as it was not within your original permit. If you wish, you may file an amendment to the land list, re-advertise the permit, and submit new depositions. However, you could also complete permit G-29893 as it now reads, and file a new permit to cover any additional land. Forms for amendment are enclosed, for which a \$1.00 recording fee is required.

Please advise us as to your intent.

Very truly yours,

Dear Mr. McEldowney:

In reference to your letter dated July 19th, we believe that we can clear up the additional 8 acres shown in NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 16 Twp 14 SR 38 EBM.

In checking a old form we still had here in the office, we find that in taking the deposition of holder and witnesses we showed the following as the full legal description:

"13 acres SW $\frac{1}{4}$ SW $\frac{1}{4}$, 40 acres SE $\frac{1}{4}$ SW $\frac{1}{4}$, 24 acres SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 9, and 8 acres NE $\frac{1}{4}$ NW $\frac{1}{4}$, 3 acres NW $\frac{1}{4}$ NW $\frac{1}{4}$, 8 acres NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 16, all in Twp 14 SR 38 EBM."

This above description has an additional 8 acres located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 16 which never should have been written in. There had been a change on the original permit, from where this description was copied, and it had been corrected on that permit, but the correction was overlooked, and inadvertently copied on the depositions.

The depositions should read: " 13 acres SW $\frac{1}{4}$ SW $\frac{1}{4}$, 40 acres SE $\frac{1}{4}$ SW $\frac{1}{4}$, 24 acres SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 9, and 8 acres NE $\frac{1}{4}$ NW $\frac{1}{4}$, 3 acres NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec 16 all in Twp 14 SR 38 EBM."

Gentlemen:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Preston Citizen all submitted in proof of completion of works and beneficial use on Permit No. G-29893.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

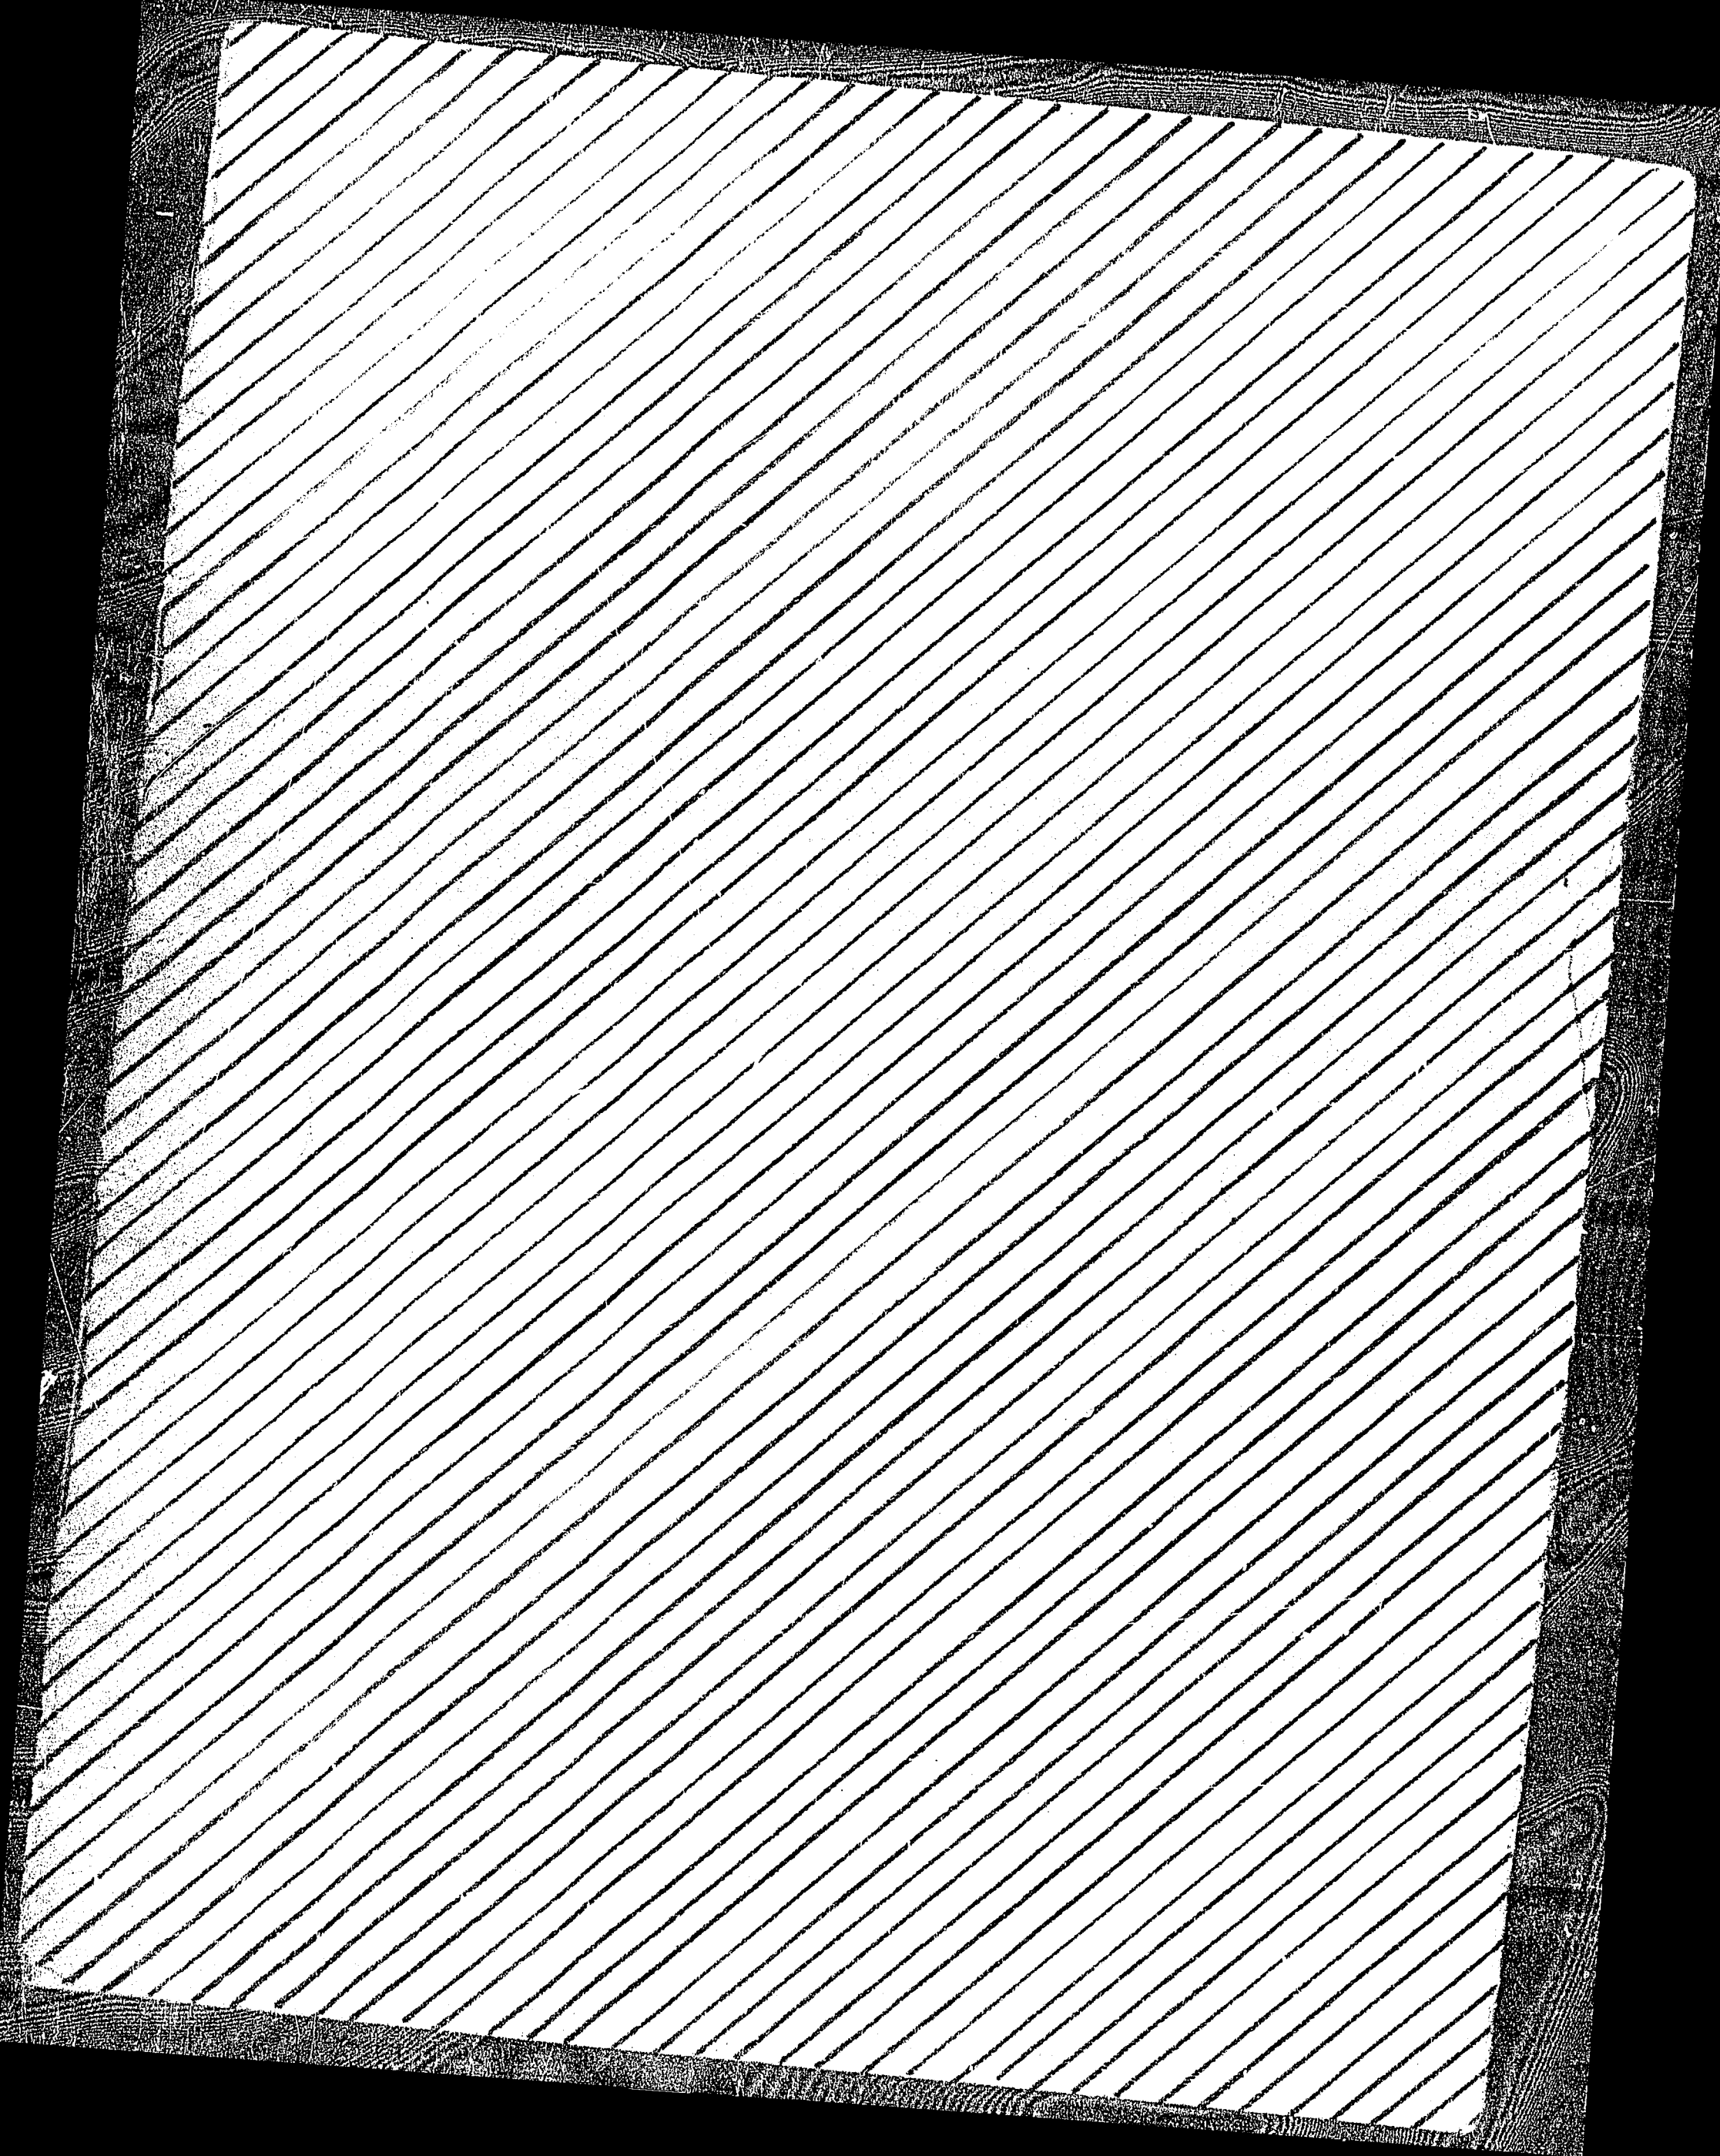

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.
