Dear Mr. Hollingsworth:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-29930 shows the well(s) is (are) capable of conveying 101 miner's inches, or 2.02 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.
