

8-300000

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 39046
Permit No. G- 30967
District No.

1. Name of Applicant: Pascual Martinez
Postoffice address: Clifton County: Franklin State: Idaho
2. Quantity of water claimed: 1.2 c.f.s.
(a) Rate of withdrawal in cubic feet per second or Idaho
Miners' inches or gallons per minute
(b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean
4. Location of point of diversion or well is in the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 15
Twp. 14 S , Rge. 38 E., B.M., County of Franklin
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
(a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
(b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , B.M.
7. Kind of works: Well and pump
8. Estimated cost of works: \$ 6,000.00
9. (a) Is reservoir to be used? No
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5
years.
11. If applicant is a corporation, give:
I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
11. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
(a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplied to the existing water rights.
(b) (cubic feet per second, inches or gallons per minute) is for new lands.
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: .80 cfs under existing well permit. Neighbors wells have dried it up, so at present I have no water.

I have a court decree allowing me .80 cfs of water under decree dated February 4, 1948, filed in Book 3 of judgments, Page 605, records of Franklin County, Idaho. The neighbors wells have dried my well up.

I intend to drill right next to the present well so as to set the pump down deeper. This water from the new well will not be supplemental water, but will be used to replace the water taken from me. Therefore, I request that my priority for .80 cfs remain as the stated in the decree hereinabove mentioned.

Remarks:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

HENDERSON,

Defendants

DECREE

RECEIVED

FEB 28 1938

Department of Reclamation

This cause came regularly on for trial on the day of
September, 1937, before the Hon. Jay L. Downing, Judge of the above en-
titled Court, sitting without a jury. P. M. Condie, Attorney at Law, and
Merrill & Merrill, Attorneys at Law, appeared for and on behalf of the
plaintiff, and P. J. Evans, Attorney at Law, appeared for and on behalf
of the defendants. Evidence was introduced upon the issues framed by
the Amended Complaint of the plaintiff and the Answer of the defendants
thereto. After the submission of said evidence, argument of said cause
and filing of briefs by the Attorneys for the respective parties, the
Court took said matter under advisement. The Court, being now fully ad-
vised in the law and the premises and having made and entered its written
Findings of Fact and Conclusions of Law:

NOW, THEREFORE, pursuant to said Findings and Conclusions of
Law and by reason of the law and the premises, IT IS HEREBY ORDERED, AD-
JUDGED AND DECREED:

1. That the plaintiff is the owner, in possession and entitled
to possession of 54 acres of land, situated in Section 15, Township 14,
South of Range 38, East of the Boise Meridian, in Idaho, and particularly
the Southeast quarter of the Southeast quarter of Section 15, Township
14, South of Range 38, East of the Boise Meridian, and is the owner of
the right to use .80 cubic feet per second of time of subterranean waters
for the irrigation of the tract of land last above described with a date
of priority of May 14, 1934; that the diversion of said subterranean waters
is by means of a well with a pump attached thereto, located in the South-
west corner of said Southeast quarter of the Southeast quarter of Section
15, Township 14 South, Range 38, East of the Boise Meridian, from which
well said subterranean waters are pumped and used for the irrigation of

30967

the lands above described.

2. That the right of the plaintiff to the use of said subterranean waters in the quantity heretofore mentioned is superior to any and all rights, claims or demands of the defendants or either of them and plaintiff's right thereto is hereby quieted against any claims of said defendants or either of them and that said defendants and each of them are hereby enjoined and restrained from any and all interference with the use by the plaintiff of .80 c.f.s. of said subterranean waters.

3. The Court being of the opinion that the evidence introduced in said cause with respect to interference by the defendants of the plaintiff's right to the use of the subterranean waters hereby quieted in him is insufficient to justify the court at this time in issuing an injunction restraining the defendants from operating their well, it is, therefore, ordered that such injunction, at this time, be denied.

4. That neither party shall recover costs against the other herein.

DATED, this 4th day of February, 1938.

Jay L. Downing
District Judge

Boise, Idaho

g 30967

Dear Sir:

I would like to have
you send me a well
permit application & forms.

The wells surrounding
my well has caused
my well to go dry and
in order to irrigate my
land I must dig another
well, as my old well
cannot be repaired, because

the casing is too old to
do anything with.

Is there anyway of
maintaining my previous
water rights with this
new well, which must
be drilled?

I would appreciate any
answers that you could
give.

Sincerely yours,
Pat Martinez
Clifton, Idaho

February 6, 1963

RE: Application for Permit

Pas Martinez
Clifton, Idaho

Dear Mr. Martinez:

Enclosed is form to apply for a permit to divert subterranean water, as requested.

This office has generally considered that a new well drilled adjacent to an old well will retain the rights obtained from use of the old well. As far as we know, the subject has not been settled in any court action in this state. You did not give the location of your well so we are not able to determine what water right you own.

You may complete the application and file it in this office, if you desire. The application may claim more water than your present right. The application would be considered as a new right, subject to your present right. The fact that you have a new permit, or if conditions of the permit are fulfilled, a new water license, would not prevent you from proving prior rights under your old well, if the matter ever comes before the District Court.

Very truly yours,

GEO. H. CARTER
State Reclamation Engineer

Re: Application for Permit

Pascual Martinez
Clifton, Idaho

Dear Mr. Martinez:

Returned herewith is your application for permit
with attached check for \$5.25 filing fee.

The decree in the case Hooker vs. Henderson and
Permit No. 17929, shows that the well mentioned in the decree
was located in the SW corner of SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 15, T. 14 S.,
R. 36 E., B. M., to irrigate the SE $\frac{1}{4}$ SE $\frac{1}{4}$, said Section 15.

The application shows your well in the SW corner
of SW $\frac{1}{4}$ SE $\frac{1}{4}$, said Section 15.

There appears to be an error in land description.
Kindly correct and return at your earliest convenience.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

PHONE 62 BOX 466

February 28, 1963

Mr. Ralph W. Thomas
Deputy State Reclamation Engineer
Department of Reclamation
State of Idaho
107 State House
Boise, Idaho

Dear Mr. Thomas:

In reference to your letter dated February 21st, concerning water permit No. G-30967, Pascual Martinez, we submit the following:

~~I had my secretary re-copy the decree as I was certain that there~~
must have been a typographical error in it due to the fact that
you cannot get 54 acres into the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of any section.

Since receiving your letter, I have checked the complete file and find that the whole proceedings, with the exception of the first filing, have used a incorrect description.

The letter was mailed to you from our office without my having a chance to check it. This accounts for no signature, and an error which I will have to take the blame for, because I have always tried to make it a policy that nothing is mailed without my going over it after it has been typed up.

However, it all boils down to the fact that I think our application is correct as to description, point of diversion, and land to be irrigated. I am enclosing a larger plat of the land that is owned, and how it shows on the plated areial maps in the assessors office.

I have this day called on one of the attorney's that handled the decree case, and he is out of town. I intend going over this matter with him as soon as he returns.

In the meantime we would appreciate anything you could do to help us get this application processed, as the applicant will be needing this water come spring, and due to the inadiquacey of the prsent well it is apparent that something has to be done.

Yours very truly,

J. N. LARSEN COMPANY

Re: Permit No. G-30967

December 1, 1967

Pascual Martinez
Clifton, Idaho

Dear Mr. Martinez:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than February 20, 1968.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

State Reclamation Engineer

RELINQUISHMENT

I hereby relinquish to the State of Idaho, all my right, title and interest in and to Permit to Appropriate the Public Waters of the State of Idaho, No. _____.

Re: Permit No. 30967

Pascual Martinez
Clifton, Idaho 83228

Dear Mr. Martinez:

This acknowledges receipt of the notice of intent to make proof of completion of works and application of water to beneficial use for permit 30967.

We have mailed the notice to the Preston Citizen
to be published once a week for four consecutive weeks prior to January 15,
1968, which is the hearing date when the permit holder Pascual Martinez

and two disinterested witnesses must appear before Ashby D. Nelson
, notary public, to complete the enclosed
depositions. The witnesses must be familiar with the works and permit.

After the hearing, the depositions and an affidavit of publication must be submitted to this office. The affidavit may be obtained from the newspaper when the advertising bill is paid by Pascual Martinez
. Be sure all the forms have the notary's seal and are signed.

Please feel free to contact us if we may be of any assistance.

Very truly yours,

Ques. 1. State your name, residence occupation and postoffice address: _____

Pascual Martinez Clifton, Idaho, Farmer, Clifton, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf: _____

Ques. 3. State number, approval date of permit, and date of priority: _____

30967 Feb 5, 1963 Feb 8, 1963

Ques. 4. State source of water supply: Well

Give location of point of diversion, showing subdivision, section, township and range

SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sect. 15, T. 14 S R 38 E B.M. Franklin County

Ques. 5. Describe your works of diversion: Well & electric Irrigation

Pump

; state amount of water they are capable of conveying from point of diversion to place of use: 1.2 CFS; Give name of canal or ditch

or other works by which water is conducted to such place of use: Open private ditch

; if a well, state depth of well 217 ft.; depth and size of

casing 217 ft. of 10" casing; depth to water 12 ft.; if pump is used,

state discharge of pump: 500 GPM; tell how it was measured or determined _____

Pump by well Tester; if sprinkler irrigation, give number and size

of nozzles and operating pressure: _____

Ques. 6. State for what purpose water is used: Irrigation

(If for irrigation, name each subdivision in which used and number of acres in each subdivision that have actually been irrigated with said water:

260 acres located in W $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 15 T 14 S,

R 38 E B.M.

Ant A. Hestlake

30967

State nature of all improvements which have been made as a direct result of said use:

Better crop production on land irrigated

Ques. 6-a: If this is a ground water permit, give name and address of person that drilled the well: Bert A. Westlake - Bonnington, Idaho

~~Ques. 7.~~ If for other than irrigation purposes, show full legal description of place of use and state purpose for which water is used:

Ques. 8: If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder:

Same

Quest. 9: State when and in what amount the water diverted under above mentioned permit has been first used: May 1963, 1.2 c.f.s. - Time used since first use:

IN USE each
irrigation season since May 1963

Ques. 10. Describe all other water rights appurtenant to same place of use: _____

None

Clifton, Idaho

Dear Mr. Martinez:

We acknowledge receipt of the depositions and affidavit of publication in the
Preston Citizen submitted as proof of com-
pletion of works and beneficial use on Permit G-30967.

Before a certificate and license of water right can be issued, a field examination must be made by a representative from this department. We cannot tell just when this examination will be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.

Very truly yours,

Donald W. McEldowney

Priority: February 8, 1963

well and electric irrigation
pump
217' x 10"
H - ~~217~~1/2'
Q - 500 gpm (well tester)
irrigation of 60 a cres

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

13-2254

January 24, 1972

Mr. Pascual Martinez
Clifton,
Idaho 83228

Dear Mr. Martinez:

A representative of this Department has made an examination of the works covered by your Permit No. 30967/13-2254 and has found the following:

Quantity of water diverted: 1.48 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.16 cfs

The maximum quantity of water diverted shall not exceed 203 acre feet per year.

Beneficial use: Irrigation of 58 acres within the NW $\frac{1}{4}$ SE $\frac{1}{4}$ (4), SW $\frac{1}{4}$ SE $\frac{1}{4}$ (34), SE $\frac{1}{4}$ SE $\frac{1}{4}$ (20), Sec. 15, Twp. 14 S, Rge. 38 E, B.M.

Point of diversion: SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 15 Source: ground water

The priority date established is: February 8, 1963

A fee totaling \$11.00 must be received within 30 days from the date of this letter in order that we can issue you a Water License as set forth above.

Our field examination also indicates that your rate of diversion exceeds that authorized by your permit. Unless you have another valid permit for other grounds to be irrigated from this same well, or other beneficial uses of this water, you must reduce your rate of diversion to that allowed by law. If you have any questions regarding this matter, please contact us.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

13 2254

Jan 27 - 1972

Dear Sir:

In regards to your letter of Jan 24, 1972 I believe that I understood that the water that can be recognized as beneficial, used on the 58 acres would be 1.16 cfs. The well pumps a little more than this but I do not pump the well at all times, and many times it is shut off for a period of time even during the summer. I am sure that the water diverted does not exceed the 203 acre feet allowed per year.

Is this satisfactory to continue to use this well as I am presently doing?

Yours truly,

Joe Matney

Re: Permit No. 30967/13-2254

Mr. Pascual Martinez
Clifton,
Idaho 83228

Dear Mr. Martinez:

Enclosed herewith is your Water License issued on the above referenced permit. Also enclosed is departmental receipt No. 8756 in the amount of \$11.00 covering the fee.

We received your recent inquiry concerning the operation of your well. Under the statutory procedure, the maximum amount of water that can be recognized as being beneficially used is 1-inch per acre or 1.16 cfs of water. The additional diversion of water cannot develop into a water right under the statutes and, therefore, if there is, in the future, any interference with other rights, your rate of diversion would have to be reduced.

You may continue your present operation as long as you do not interfere with other rights, but of course you must not exceed the withdrawal limit of 203 acre feet of water per year.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

State of Idaho
Department of Water Administration

LICENSE OF WATER RIGHT

License of Water Right No. 30967/13-2254 Priority Feb. 8, 1963 Amount 1.16 cfs

THIS IS TO CERTIFY, that Pascual Martinez
of Clifton, Idaho, has complied with the terms and conditions of Permit
No. 30967/13-2254 issued pursuant to Application for Permit dated February 8, 1963,
and has submitted proof to the Department of Water Administration on January 15, 1968,
that he has applied water to a beneficial use; an examination by the Department indicates that the
works have a capacity of 1.48 cfs, and that the water has in fact been applied to a
beneficial use; a right to the use of water from a ground water source
tributary of _____, is hereby confirmed in the following amounts:

Amount 1.16 cfs for irrigation from April 1 to Nov. 1 (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Subject, however, to the condition that no more than 1.16 cfs of water be diverted at
any one time, said waters to be diverted within the _____

SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 15, Twp. 14 S, Rge. 38 E, B. M.

in the county of Franklin; and that the amount of water so diverted and to which such
right is entitled and confirmed is for the purposes aforesaid and is limited to the amount which can
actually be beneficially used and shall not exceed 203 acre feet per year or _____
3.5 acre feet per acre.

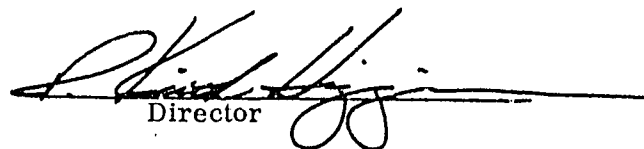

Description and location of place of use:
