Dear Mr. Taylor:

Be informed that the department attempted to conduct a field examination on the 22nd of May, 1964; however, due to an illness the exam was not completed. The department would like to verify the existence and use and location of the well at this time and issue a certificate and license of water right - provided the following is correct:

The examiner's report states that the well is equipped with a 1/4 h.p. G.E. electric motor, model #5KC45R9124, upon a Berkeley pump, model #M-V 5302121, 3/4" discharge pipe for lawn irrigation, stock, water, and culinary uses. The well is found within the SE 1/4, Sec. 6, T. 14 S, R. 39 E, S. 4.

If the above is a true accounting, please return \$7.00 for the certificate and license of water right within 30 days of the date of this letter.

Dear Mr. Taylor:

It appearing to the Department of Water Administration that the terms and conditions of Permit No. 29633/13-2230 to appropriate the public waters of the State of Idaho have not been complied with as to failure to submit licensing fee in the amount of \$7.00, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the Department of Water Administration on or before June 24, 1974, why said permit should not be cancelled.

Mrs. Nile N. Taylor

Dear Mrs. Taylor:

P
We have received your letter of February 8th regarding the above referenced license and permit.

The \$7.00 licensing fee receipted on June 11, 1969, covered Permit 31097/13-2257. As you will recall, a license was issued for 0.04 cfs from a well in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 6, Twp. 14 S, Rge. 39 E, B.M., Franklin County, for domestic purposes and the irrigation of one (1) acre in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 6.

Y
Our certified letter of May 15, 1974, pertained to Permit No. 29633/13-2230 which covered a well in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 6 for domestic purposes and the irrigation of 20 acres in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 6 (a micro-film copy of this permit is enclosed for your reference).

On January 31, 1963, the Department advised Mr. Taylor that a license could be issued under Permit 29633/13-2230 for domestic use and the irrigation of a garden. There was also a \$7.00 licensing fee due. As the fee was never paid and we did not receive a reply to our May, 1974, letter, the Department cancelled this permit and the file has been destroyed.

It appears that this second license would not be necessary as the domestic and irrigation use is apparently covered under License No. 31097/13-2257. We hope this explains the matter, however, if you should have further questions, please contact us.

Sincerely,

D. Darlene Reich
