Dear Sir:

I received your letter today stating that our check to your department had been returned because of insufficient funds. We were very upset since we knew that this was not the case and immediately called the bank, they assured us that no check of ours had been returned for this reason. They stated that if a check was returned it was because it was either sent to the wrong bank or had an improper or lack of endorsement.

I am sending another check as a money order would mean an extra trip some distance to the bank. I would appreciate it if you would send us back the first check so we can check further with the bank and find out why such a mistake was made.

Dear Mr. Christensen:

Thanks for your check and letter of August 25, 1965. We are enclosing the check returned to the Auditor's Office. The reason for returning the check could be that the amount in figures and the amount written are not the same. However, the new check should take care of this.
