Remarks: There is a dam used by Preston City and Mr. Eldon Tanner and John Bell which joins its water into the land of H.R. Bingham, one of the applicants which flows over his land. This system is designed to irrigate with a small catch reservoir and run through an old railroad grade where it is pumped and runs by gravity into springs to be irrigated in land.

Because of the unusual quantity of water in this stream, this additional water source is needed to insure adequate water for this land.

Total from this and license 24153 not to exceed 1" per acre

Dear Mr. Bingham:

Under the terms of your Permit No. 33429 you are required to complete your diversion works on or before Jan. 24, 1968. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the said permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

State Reclamation Engineer

Preston, Idaho 83263

Gentlemen:

One of the conditions of approval of your water Permit No. 33429/13-2279 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 24, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

H.R. Bingham & Eldon B. Bingham
R.R. #3 - Box 382
Preston, Idaho 83263

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof of beneficial use.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department. If you will complete and return the enclosed advertising authorization, we will cause the notice to be published.

You will also find enclosed a notice that proof of beneficial use of water is due on or before January 24, 1973. Attached to the notice is the Department's proof of beneficial use affidavit.

If you have any questions regarding the above matters, please do not hesitate to contact us.

WATER RIGHT LICENSE

License of Water Right No. 13-2279 Priority January 18, 1967 Amount 0.91 cfs

THIS IS TO CERTIFY, that H. R. Bingham & Eldon B. Bingham
of Preston, Idaho, has complied with the terms and conditions of Permit
No. 13-2279 issued pursuant to Application for Permit dated January 18, 1967,
and has submitted proof to the Department of Water Resources on January 18, 1973,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.91 cfs of water from Tanner & Bell Drain,
tributary to Bear River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

SYSTEM DESCRIPTION:

A buried perforated pipe drains excess water from lands owned by Theo Bell and Eldon Tanner. Excess water not used by Bell & Tanner drains 1/4 mi south to city county drain on North side of highway 91. The water flows west downhill to a small pond or slough approximately 3A ft in size. The water then enters 2 irrigation systems having their points of diversion in the same head tract. Pressure system - water is pumped from the pond by a 120 H.P. International

REMARKS: diesel tractor motor and by a Berkeley centrifugal pump #7377778 - Pressurized water is piped through a long flexible hose to a Rainbow Ram Gun #104C - nozzle diam - 1.6201" - This large single jet gun irrigates a large circle and is affixed to a portable trailer allowing it to be moved from one end of the field to the other. Gravity flow sprinkler - water from the pond passes thru a head box and into a 10" diam reduced to 5" diam buried gravity flow line which serves 1-26 jet wheel line and 1-14 jet wheel line.

From manufacturer's table of performance on page 22 of 1979-1980 Rainbird irrigation equipment catalog — This rain gun produces 226 gpm @ 60 psi @ the Elbow. Permutrol's rain gun was equipped with an elbow pressure gauge and a reading was taken @ 48 psi. The chart in catalog does not indicate rates for values less than 60 psi — therefore by ratio —

$$\frac{60 \text{ psi}}{226 \text{ gpm}} = \frac{48 \text{ psi}}{X} \quad 60X = 10,848$$

$$X = 10,848 \div 60$$
