RE: Application for Permit

Vern Hinckley
Rt. 1
Preston, Idaho

Dear Mr. Hinckley:

Returned herewith is your application for permit which you submitted to this office without the filing fee.

The fee for the application is \$5.00 and must accompany the application before it can be approved.

Some answers have been written in pencil where you did not answer and there are two check marks under 16 where you should show the size and length of pipe, also show cost of the diversion works which we believe is a portable sprinkler system.

Kindly check the answers we have shown, correct if necessary, answer questions you missed and return your application with the \$5.00 fee, and the application will be processed.

Very truly yours,

Dear Madam

I made a mistake on my application for permit to store water. The dam capacity should be shown as 33 acre foot and the diameter size of outlet pipe as 12 inches. But I hope to be able to fill dam at least twice during the summer from waste water.

Dear Mr. Hinckley:

Under the terms of your Permit No. R-1075 you are required to complete your diversion works on or before Sept. 1, 1965. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

Carl E. Tappan
State Reclamation Engineer

Note: Failure to pay \$5.00 statutory fee leaves permit subject to cancellation

Re: Permit No. R-1075

Mr. Vern Hinckley,
Rt. #1,
Preston, Idaho.

Dear Mr. Hinckley:

In reviewing your permit, I notice on your Affidavit of Holder for Proof of Completion of Works on your dam you show the point of diversion as being in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 23, Twp. 16 S., Rge. 39 E.

When I made the inspection of the unnamed stream Permit No. 32309 July 14, 1966, you had just installed a new 50 HP centrifugal pump in the SE corner of the NW $\frac{1}{4}$ NW $\frac{1}{4}$. This will actually be the point of diversion from which you will withdraw the water to irrigate the land.

I suggest you amend the point of diversion to read NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 23, T. 16 S., R. 39 E. The necessary forms are enclosed. There is a \$1.00 fee to accompany the amendment, if you are in agreement with this proposal.

Since this dam is over 10 ft. in height, we should have the plans from the Soil Conservation Service office showing details and capacity of reservoir. Maybe you could get a duplicate set and forward to us.

Dear Mr. Hinckley:

We acknowledge receipt of the depositions and affidavit of publication in the Preston Citizen submitted as proof of completion of works and beneficial use on Permit R-1075.

Before a certificate and license of water right can be issued, a field examination must be made by a representative from this department. We cannot tell just when this examination will be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.

Very truly yours,
