Strongarm Reservoir Irrigation District
Preston, Idaho 83263

Gentlemen:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than January 25, 1968.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

RE: Permit No. R-1144

Strongarm Reservoir Irrigation District
Preston
Idaho

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit ~~Strongarm Reservoir Irrigation District~~. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law;
and,

WHEREAS, these changes raised questions as to the procedures to be followed by
holders of permits issued prior to the effective date of the amendments, May 31, 1967;
and,

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice
and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. R-1144 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are
hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42,
Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:

- a. Notice of the issuance of the permit will be published at the permit
holders expense for two weekly issues in the official newspaper of
the county in which the point of diversion lies.
- b. The permittee will not be required to submit proof of completion
of works as originally specified, but will be required to submit
proof to the Department of Reclamation of the application of the
water to beneficial use on or before January 25, 1970. The per-
mit holder should be aware that failure to complete one-fifth
(1/5) of the works within one-half (1/2) of the time originally
set for Completion of Works may be grounds for cancellation at
the instance of the Department.

Gentlemen:

One of the conditions of the approval of your permit no. R-1144/13-2303 was that proof of application of the water to beneficial use be submitted to this office on or before January 25, 1970.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Hedin:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for permit R-1144/13-2303.

Before a license can be issued you must submit an affidavit of publication to this department. The affidavit of publication may be obtained from the Preston Citizen, Preston, Idaho, (after January 8) upon payment of the bill of publication.

Prior to the issuance of the license a field examination must also be made by a representative of this department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than yourself should be contacted by the examiner, please advise.

Very truly yours,

Donald W. McEldowney

Dear Mr. Anderson:

We are in receipt of your correspondence concerning the above referenced permit. The following are the only provisions which will be considered in the hearing and/or conference:

1. That the permit holder has failed to show the availability of unappropriated public water in such quantity to make his project feasible.
2. That the operation of the proposed water right under this permit has caused injury to a prior existing water right.
3. That the permit holder has not placed the water to beneficial use in accordance with the terms and conditions of his permit.
4. That the proposed licensing action of the Department of Reclamation is contrary to existing Idaho Statutory Law.

You will be notified at a later date as to the time and place of hearing. If we may be of further assistance, please contact us.

O
Dear Mr. Hedin:

P
Y
Enclosed you will find a copy of the protest filed against the issuance of a license pursuant to your permit No. R-1144/13-2303 by Fred H. Anderson of Cleveland Irrigation Company. The following are the only provisions which will be considered in the hearing and/or conference:

1. That the permit holder has failed to show the availability of unappropriated public water in such quantity as to make his project feasible.
2. That the operation of the proposed water right under this permit has caused injury to a prior existing water right.
3. That the permit holder has not placed the water to beneficial use in accordance with the terms and conditions of his permit.
4. That the proposed licensing action of the Department of Reclamation is contrary to existing Idaho Statutory Law.

Legal counsel is not mandatory, although you may desire to employ an attorney. You may also, if you so desire, submit a written answer to the protest within ten days.

You will be notified at a later date as to the time and place of hearing. If we may be of further assistance, please contact us.

BEFORE THE DIRECTOR
OF THE
IDAHO DEPARTMENT OF WATER ADMINISTRATION

In the Matter of Protest Against)
Licensing of Permit No. R-1144/13-2303)
in the name of STRONGARM RESERVOIR)
IRRIGATION DISTRICT)

NOTICE OF CONFERENCE
AND/OR HEARING

On January 18, 1963, Strongarm Reservoir Irrigation District, Preston, Idaho, filed with the Department of Water Administration an application to appropriate the public waters of the State of Idaho. On December 15, 1969, Strongarm Reservoir Irrigation District submitted Proof of Application of Water to Beneficial Use. On January 22, 1970, Cleveland Irrigation Company, by Fred H. Anderson, Director, Star Route, Preston, Idaho, submitted a protest, through their attorney Dell W. Smith, against licensing of this permit.

The Department has set the matter of protest for conference and/or hearing on October 8, 1970, at 1:30 p.m., in the Franklin County Courthouse (downstairs), 39 W Oneida, Preston, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Administration. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the permit holder or protestant may allow the Department without prejudice to dismiss the protest or the permit. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 2nd day of September, 1970

C. STEPHEN ALLRED
Deputy Director

Mailed this 8th day of September, 1970, to Strongarm Reservoir Irrigation Dist., Preston, Idaho, certified No. 22209 (copy of protest enclosed); Cleveland Irrigation Company, Mr. Fred H. 10-0845. Cottonwood Creek near Cleveland, Idaho

Location.--Lat 42°20', long 111°46', in SW $\frac{1}{4}$ sec.34, T.12 S., R.40 E., on right bank 500 ft upstream from Cleveland irrigation canal, 2.5 miles west of Cleveland, and 4 miles downstream from proposed Cottonwood Dam.

Drainage area.--61.7 sq mi.

Records available.--November 1938 to September 1968.

Gage.--Water-stage recorder and concrete control. Altitude of gage is 5,150 ft (from topographic map). Prior to Dec. 29, 1944, staff gage at same site and datum.

Average discharge.--29 years (1939-68), 29.2 cfs (21,140 acre-ft per year).

Extremes.--Maximum discharge during year, 195 cfs May 2 (gage height, 2.86 ft); minimum, 4.3 cfs Sept. 13. 1938-68: Maximum discharge, 773 cfs Apr. 27, 1952 (gage height, 3.83 ft); minimum, 0.1 cfs Aug. 11, 1961.

Remarks.--Records good except those for period of no gage-height record, which are fair. A few small diversions for irrigation of meadowland in Cottonwood Valley above station. Treasureton Canal diverts from Cottonwood Creek above station in SE $\frac{1}{4}$ sec.8, T.12 S., R.39 E., for irrigation in Battle Creek basin in vicinity of Treasureton.

Re: Permit No. 13-2303

A conference was held on October 8, 1970 at Preston, Idaho regarding the above-numbered permit.

The protestants, Cleveland Irrigation Company, were represented by Dell W. Smith, Attorney at Law, Preston. The applicants were represented by Merrill K. Gee, Attorney, Pocatello.

After discussion of the protest, it appeared that if the applicant recognized the prior decreed rights, the protestants would not object to the applicant taking water in excess of those rights. The protestants were concerned that there was no way of administering the rights. I explained that the watermaster of Water District 5A would have authority when he was on duty to distribute the waters of Cottonwood Creek to see that the prior rights were completely satisfied before water could be taken out by Strongarm Reservoir Irrigation District. The applicant stated that he recognized the decreed right of Cleveland Irrigation Company and intended to take only water over and above those rights when their reservoir failed to fill. In discussing the amount to be licensed by Strongarm Reservoir Irrigation District, they were unable to give this office any amounts of water that had been diverted from Cleveland Irrigation District into the Battle Creek drainage. Water is diverted out of the drainage by means of a canal belonging to the Banida Treasurton Irrigation Company, then into Battle Creek drainage and stored in two reservoirs. The diversion is not used all the time, only during years of short water supply in Battle Creek. I suggested that the company install measuring devices where water is turned out of Treasurton Canal to determine the amounts of water diverted into Strongarm Reservoir. I would suggest that we postpone licensing until they can give us the amounts being diverted into Battle Creek drainage. The applicants should be instructed to install measuring devices and supply the department with the amounts of water being diverted.

PROTEST BY CLEVELAND IRRIGATION COMPANY
STAR ROUTE, PRESTON, IDAHO

RECEIVED

JAN 22 1970

TO: R. Keith Higginson
State Reclamation Engineer
State Of Idaho
Boise, Idaho

Department of Reclamation

IN RE: Application - Strongarm Reservoir Irrigation
District, Preston, Idaho for the storage of 600 acre
feet per annum of water from Shingle and Cottonwood
Creeks, tributories of Bear River.

Your protestant, Cleveland Irrigation Company, as and for its
protest to the application as filed by the Strongarm Reservoir Irriga-
tion District, Preston, Idaho, states:

I.

That it is the owner of and the holder of and has utilized the
waters of and at all times has applied the waters of Cottonwood Creek
since the year 1885 and in addition thereto has utilized and applied
to beneficial use all the waters that arise in Cottonwood Creek and
that the use so made by your said protestant is based upon a decree
of Judge Frank S. Dietrich of the District Court of the United States
for the District of Idaho, Eastern Division in the case of Utah Power
and Light, plaintiff vs. Last Chance Canal Company bearing date of
July 14, 1920 to be diverted from said Cottonwood Creek through a
ditch diverting therefrom in the Southeast quarter of Section 33,
Township 12 South, Range 40 East of the Boise Meridian for the irri-
gation of 700 acres located in the precinct of Cleveland, Franklin
(formerly Bannock) County, Idaho.

II.

That all of the said waters that were decreed in the decree
dated the 14th day of July, 1920 in the case of Utah Power and Light
vs. Last Chance Canal Company, et al, has been utilized by the
Cleveland Irrigation Company to whom the waters were decreed and
that all of the waters of said Cottonwood Creek have been applied

beneficially and there is not now any amount of water that has not been used and applied beneficially and there is no water of any type or kind that is subject to be filed upon, nor particularly, 600 acre feet per annum of the waters of Cottonwood Creek under application no. R-1144.

III.

That your protestant is a corporation duly organized and existing under and by virtue of the laws of the State of Idaho and as such is an operating company and in good standing and entitled to be heard on its protest. That if the permit to store 600 acre feet per annum of the water of the Shingle and Cottonwood Creeks is granted to the Strongarm Reservoir Irrigation District, it would cause great and irreparable damage to the protestant, to its shareholders and also to the other users of the waters of Shingle and Cottonwood Creeks and there is not sufficient or adequate waters to fulfill the rights of the various users who have used and utilized the waters of said Cottonwood Creek for more than 90 years and that decree in favor of your said protestant awards an amount of water as of the year 1885, and at all times since that time your said protestant and its shareholders have utilized together with all the other prior users and all persons having a priority all of the waters of said Cottonwood Creek.

IV.

That in addition to the waters mentioned in the decree above the water as determined as spring run-off has been used to the extent of approximately 25 second feet of water of said flood waters of said stream and that said spring run-off has been applied beneficially and that the lands are arid in character and need the application of water for the production of crops.

V.

That there is no unappropriated waters flowing in said Cottonwood Creek, that is, taking the waters that have been decreed to the

various persons, corporations and associations and the waters that have been utilized by the various persons, corporations and associations, which includes your said protestant, utilize all of the waters of said Cottonwood Creek and there is now no water to be appropriated from said stream.

VI.

That the seasons somewhat vary but throughout all of the years as hereinbefore stated there has been a shortage of water in Cottonwood Creek and the rights of certain of the parties to receive and apply the waters to beneficial use have not been filled and that no water has been permitted to go to waste nor has been wasted and that the diversion works of your protestant is efficient and proper for the taking of said waters from said Cottonwood Creek.

WHEREFORE, Your petitioner prays that the application to appropriate the waters as set forth in said application no. R-1144 be denied and that your petitioner herein be allowed its water as heretofore appropriated and the water as heretofore applied to the land of its shareholders and to all flood waters used by said shareholders of said protestant as well as all new waters on said Cottonwood Creek and that any right granted to even the high flow or high water right would be junior and inferior to the rights of your said protestant herein.
