INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	May 18, 1871	amount:	0.8 c.f.s. or	_____	acre feet
	June 1, 1901	amount:	0.4 c.f.s. or	_____	acre feet
	Total claimed:		1.2 c.f.s. or	_____	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

Affidavit in support
of Contest of Water Right

MYRON DAY, being first duly sworn deposes and says that he lives next to the property (about 20 acres) owned by J. Harold Manning.

That this property is not farmed or cultivated and has not been in the past 20 years or more. That no one has lived on it in all of these years. It consists of two tracts of property. One tract is along a hollow on the west side of Highway 91 which has never been cultivated or irrigated. The other tract is along the ravine or hollow running east of Highway 91. And this ravine drains all of the area and all of the springs and water are used and have been used continuously for over forty years on the old Palmer ranch. This is one of the oldest ranches in Franklin County. The Palmer ranch is located in the NE $\frac{1}{4}$ of Section 17, Township 15 South, Range 39 East of the Boise Meridian, owns and uses all of the waters from drainage and springs arising in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ Section 16, Township 15 South, Range 39 East of the Boise Meridian and adjoining area. Mr. J. Harold Manning has not farmed, cultivated or irrigated this property in the past 20 years on the east side of highway. It grows sage brush and willows. The tract on the west side of the highway has never been farmed or cultivated or irrigated. There has never been any beneficial use of water on the Manning property in the past 20 years.

IN RE: Application - J. Harold Manning to appropriate .16 cubic foot per second or 115 acre feet per annum of water from unnamed springs with point of diversion in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 15; and SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 17, T. 15 S, R. 39 E, BM., Franklin County, the water is claimed to be used from April 1 to October 31 for irrigation and from January 1 to December 31 for stockwater with a priority of January 1, 1945 for .12 C.F.S. and January 1, 1945 for .04 C.F.S. or 1.5 acre feet per annum; the place of use is SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 16; SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 17, T. 15 S, R. 39 E, BM. Application No. 13-4000

Your protestants, Ben B. Johnson and J. Leo Palmer of Preston, Idaho as and for a protest to the application as filed by J. Harold Manning, states:

I.

That we are the owners of and holders of and have utilized the waters of and at all times applied the waters from the unnamed springs located in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 16, and springs in the NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 17 and the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 17, Township 15 South, Range 39 East of the Boise Meridian, as well as waters that run into said creek channel that are used on the NE $\frac{1}{4}$ of Section 17, Township 15 South, Range 39 East of the Boise Meridian, and that such waters therefrom have been utilized and applied to beneficial use on the protestants land and that the use so made by your said protestants is based upon their application and beneficial use on the lands of said protestants.

II.

That the lands of the protestants where said waters have been beneficially used for crops and pasture is located in the NE $\frac{1}{4}$ of Section 17, Township 15 South, Range 39 East, Boise Meridian. That all of said waters arises in said immediate area and that said water percolates or runs in said unnamed stream and has been utilized and used by the said protestants and their predecessors. That even high waters have been utilized as well as winter waters to irrigate meadow lands and pasture. That the waters in said unnamed stream are

limited in amount and there are no excess or nonappropriated waters therein, as all of said waters are beneficially used on the lands of the protestants. That all of said waters so used by the protestants which use is prior to any other users and your protestants are entitled to not only the waters so used by the protestants, but to all waters arising and percolating and seeping and running into said unnamed stream as said unnamed stream has been the source of irrigation water and stock water and domestic water for the lands of the protestants for over 40 years. That the lands where said waters are beneficially used are located on one of the oldest ranches in Franklin County, Idaho with a water location dated in 1883 in Book "A" of Water Locations at page 38 Original Oneida County Records. That one of the oldest orchards is located on said unnamed stream, located on the lands of the protestants which shows the early settlement and utilization of said waters. That the ranch owned by the protestants is known as the old Palmer place and prior thereto as the old Jenkins place and prior thereto as the old Winn place.

III.

That there is not now any amount of water that has not been used and applied beneficially on the lands of the protestants and there is no water of any type or kind that is subject to be filed upon under application no. 13-4000. That the land owned by the applicant, Mr. Manning consists of two hollows or gulleys and comprises less than 20 acres of land. That such land is non-cultivated, non-farmed, and no waters have been beneficially applied thereon, and if they have, they are junior and inferior to the rights of the protestants. That all waters and springs arising in the general area run downhill and into the lands owned by the protestants.

IV.

That your protestants allege that if the application no. 13-4000 is granted, it would cause great and irreparable damage to the protestants, as there is not sufficient nor adequate water to fill the rights and needs of the protestants, who have used and utilized all of said waters from said unnamed springs and unnamed creek on the ranch which has been farmed for more than 30 years.

V.

That if said applicant, J. Harold Manning ever had any right or claim of right, that the same has been abandoned from non-use for over

limited in amount and there are no excess or nonappropriated waters therein, as all of said waters are beneficially used on the lands of the protestants. That all of said waters so used by the protestants which use is prior to any other users and your protestants are entitled to not only the waters so used by the protestants, but to all waters arising and percolating and seeping and running into said unnamed stream as said unnamed stream has been the source of irrigation water and stock water and domestic water for the lands of the protestants for over 40 years. That the lands where said waters are beneficially used are located on one of the oldest ranches in Franklin County, Idaho with a water location dated in 1883 in Book "A" of Water Locations at page 38 Original Oneida County Records. That one of the oldest orchards is located on said unnamed streams located on the lands of the protestants which shows the early settlement and utilization of said waters. That the ranch owned by the protestants is known as the old Palmer place and prior thereto as the old Jenkins place and prior thereto as the old Winn place.

III.

That there is not now any amount of water that has not been used and applied beneficially on the lands of the protestants and there is no water of any type or kind that is subject to be filed upon under application no. 13-4000. That the land owned by the applicant, Mr. Manning consists of two hollows or gulleys and comprises less than 20 acres of land. That such land is non-cultivated, non-farmed, and no waters have been beneficially applied thereon, and if they have, they are junior and inferior to the rights of the protestants. That all waters and springs arising in the general area run downhill and into the lands owned by the protestants.

IV.

That your protestants allege that if the application no. 13-4010 is granted, it would cause great and irreparable damage to the protestants, as there is not sufficient nor adequate water to fill the rights and needs of the protestants, who have used and utilized all of said waters from said unnamed springs and unnamed creek on the ranch which has been farmed for more than 30 years.

V.

That if said applicant, J. Harold Manning ever had any right or claim of right, that the same has been abandoned from non-use for over

ten years, as the lands of the applicant have been non-cultivated, non-farmed and no waters have been beneficially applied thereon and the lands of the applicant, Manning, consists of two hollows or gulleys. That the Applicant, Mr. Manning, has lived in California for many years.

VI.

That the applicant, Manning, does not own the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 17, Township 15 South, Range 39 East of the Boise Meridian, but on the contrary, the same is owned by the protestants. The only land owned by the applicant, Manning, consists of two small tracts located in two hollows or gulleys in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 16, Township 15 South, Range 39 East, Boise Meridian, and is uphill and up stream from the lands of the protestants.

VII.

That in addition to the waters that arise from unnamed springs there is water that is termed spring runoff and your protestants have utilized the said spring runoff waters; that the water has been applied beneficially as the lands are arid in character and need the water for the production of crops and irrigated pasture. That the said waters are not only used for the production of crops, but are used and utilized for raising irrigated pasture and for the rearing of livestock and watering of the same.

VIII.

That seasons vary and there has been a shortage of water in these unnamed springs and from the seepage and drainage into the unnamed stream, but all of said waters and the whole thereof during the irrigation season and all times set forth herein have been applied to beneficial use upon the lands of the protestants and no water has been permitted to go to waste nor has been wasted and the headworks and diversion works of the protestants is efficient and proper for taking the waters from said unnamed stream and applying them to the lands of the protestants located in the NE $\frac{1}{4}$ of Section 17, Township 15 South, Range 39 East, Boise Meridian.

IX.

That the lands of the protestants are arid in character and have utilized all of said waters from said unnamed springs and

unnamed creek for over 40 years. That any claims of the applicant are junior and inferior to the rights of the protestants. That the said protestants claim all of said waters from said unnamed stream and from said unnamed springs and drainage area, and that even by using all of said waters beneficially upon the lands of the protestants are still not adequate for the needs of the lands of the protestants.

WHEREFORE, Your protestants pray that the application to appropriate the waters as set forth in the application of said J. Harold Manning be denied and that your petitioners herein be allowed its water as heretofore appropriated and the waters as heretofore applied to the lands of the protestants and declared to be the owners of said waters, as well as all new waters arising in said drainage area and running in said unnamed stream and from said unnamed springs as well as high water spring runoff and winter water as herein set forth and that any right granted to even the high flow or high water right to be junior and inferior to the rights of your said protestants herein.

Harold Manning to appropriate .16 cubic foot per second or 115 acre feet per annum of water from unnamed springs with point of diversion in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 15, and SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 17, T. 15 S, R. 39 E, BM., Franklin County, the water is claimed to be used from April 1 to October 31 for irrigation and from January 1 to December 31 for stockwater with a priority of January 1, 1945 for .12 C.F.S. and January 1, 1945 for .04 C.F.S. or 1.5 acre feet per annum; the place of use is SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 16; SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 17, T. 15 S, R. 39 E, BM. Application No. 13-4000

Your protestants, Ben B. Johnson and J. Leo Palmer of Preston, Idaho as and for a protest to the application as filed by J. Harold Manning, states:

I.

That we are the owners of and holders of and have utilized the waters of and at all times applied the waters from the unnamed springs located in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 16, and springs in the NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 17 and the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 17, Township 15 South, Range 39 East of the Boise Meridian, as well as waters that run into said creek channel that are used on the NE $\frac{1}{4}$ of Section 17, Township 15 South, Range 39 East of the Boise Meridian, and that such waters therefrom have been utilized and applied to beneficial use on the protestants land and that the use so made by your said protestants is based upon their application and beneficial use on the lands of said protestants.

II.

That the lands of the protestants where said waters have been beneficially used for crops and pasture is located in the NE $\frac{1}{4}$ of Section 17, Township 15 South, Range 39 East, Boise Meridian. That all of said waters arises in said immediate area and that said water percolates or runs in said unnamed stream and has been utilized and used by the said protestants and their predecessors. That even high waters have been utilized as well as winter waters to irrigate meadow lands and pasture. That the waters in said unnamed stream are

limited in amount and there are no excess or nonappropriated waters therein, as all of said waters are beneficially used on the lands of the protestants. That all of said waters so used by the protestants which use is prior to any other users and your protestants are entitled to not only the waters so used by the protestants, but to all waters arising and percolating and seeping and running into said unnamed stream as said unnamed stream has been the source of irrigation water and stock water and domestic water for the lands of the protestants for over 40 years. That the lands where said waters are beneficially used are located on one of the oldest ranches in Franklin County, Idaho with a water location dated in 1883 in Book "A" of Water Locations at page 38 Original Oneida County Records. That one of the oldest orchards is located on said unnamed streams located on the lands of the protestants which shows the early settlement and utilization of said waters. That the ranch owned by the protestants is known as the old Palmer place and prior thereto as the old Jenkins place and prior thereto as the old Winn place.

III.

That there is not now any amount of water that has not been used and applied beneficially on the lands of the protestants and there is no water of any type or kind that is subject to be filed upon under application no. 13-4000. That the land owned by the applicant, Mr. Manning consists of two hollows or gulleys and comprises less than 20 acres of land. That such land is non-cultivated, non-farmed, and no waters have been beneficially applied thereon, and if they have, they are junior and inferior to the rights of the protestants. That all waters and springs arising in the general area run downhill and into the lands owned by the protestants.

IV.

That your protestants allege that if the application no. 13-4000 is granted, it would cause great and irreparable damage to the protestants, as there is not sufficient nor adequate water to fill the rights and needs of the protestants, who have used and utilized all of said waters from said unnamed springs and unnamed creek on the ranch which has been farmed for more than 30 years.

V.

That if said applicant, J. Harold Manning ever had any right or claim of right, that the same has been abandoned from non-use for over

ten years, as the lands of the applicant have been non-cultivated, non-farmed and no waters have been beneficially applied thereon and the lands of the applicant, Manning, consists of two hollows or gulleys. That the Applicant, Mr. Manning, has lived in California for many years.

VI.

That the applicant, Manning, does not own the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 17, Township 15 South, Range 39 East of the Boise Meridian, but on the contrary, the same is owned by the protestants. The only land owned by the applicant, Manning, consists of two small tracts located in two hollows or gulleys in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 16, Township 15 South, Range 39 East, Boise Meridian, and is uphill and up stream from the lands of the protestants.

VII.

That in addition to the waters that arise from unnamed springs there is water that is termed spring runoff and your protestants have utilized the said spring runoff waters; that the water has been applied beneficially as the lands are arid in character and need the water for the production of crops and irrigated pasture. That the said waters are not only used for the production of crops, but are used and utilized for raising irrigated pasture and for the rearing of livestock and watering of the same.

VIII.

That seasons vary and there has been a shortage of water in these unnamed springs and from the seepage and drainage into the unnamed stream, but all of said waters and the whole thereof during the irrigation season and all times set forth herein have been applied to beneficial use upon the lands of the protestants and no water has been permitted to go to waste nor has been wasted and the headworks and diversion works of the protestants is efficient and proper for taking the waters from said unnamed stream and applying them to the lands of the protestants located in the NE $\frac{1}{4}$ of Section 17, Township 15 South, Range 39 East, Boise Meridian.

IX.

That the lands of the protestants are arid in character and have utilized all of said waters from said unnamed springs and

unnamed creek for over 40 years. That any claims of the applicant are junior and inferior to the rights of the protestants. That the said protestants claim all of said waters from said unnamed stream and from said unnamed springs and drainage area, and that even by using all of said waters beneficially upon the lands of the protestants are still not adequate for the needs of the lands of the protestants.

WHEREFORE, Your protestants pray that the application to appropriate the waters as set forth in the application of said J. Harold Manning be denied and that your petitioners herein be allowed its water as heretofore appropriated and the waters as heretofore applied to the lands of the protestants and declared to be the owners of said waters, as well as all new waters arising in said drainage area and running in said unnamed stream and from said unnamed springs as well as high water spring runoff and winter water as herein set forth and that any right granted to even the high flow or high water right to be junior and inferior to the rights of your said protestants herein.

Re: Claim to a Water Right No. 13-4000

Mr. J. Harold Manning
1200 Grand Ave., Box 94
Spring Valley, California

Dear Mr. Manning:

We wish to thank you for your response of August 21, 1969. As of this date we have no additional information in the matter. Mr. Johnson's original statement is the only thing we have. As you may be aware, under the claim provisions your claim no. 13-4000 is just that - your claim to a water right. Under the provisions of Section 42-225 a and b of the Idaho Code, claims are allowed to be filed as long as the notice is published stating what is claimed. This allows anybody who disagrees with the claim to file an exception. This exception is filed with your claim and a copy is forwarded to you. The legislature did not institute any further action other than those we have outlined. We cannot confirm your water right by means of a claim, nor disallow your claim. All you are doing is preparing a document that will eventually be submitted to court.

We hope that if things can be straightened out with Mr. Johnson, you can enter additional information in your claim withdrawing Mr. Johnson's exception. If not, it will be left on record and allow the courts of the State of Idaho to eventually evaluate the discrepancy.

Please feel free to contact us if you have any questions on the matter.

Very truly yours,

Dear Sir:

I received your letter of August 19, 1969, which was stamped by the local postoffice on August 30, 1969, the day it was delivered to me. It contains three exceptions to a water claim I am making to water THAT HEADS AND ORIGINATES ON MY PROPERTY IN IDAHO. This claim is on file at the Department of Reclamation in Boise, No. 13-4000.

The allegations made in part by one or all of these contestants are in error; however, I'm still hoping this matter can be resolved without legal involvement. I am also waiting patiently for an answer to a letter I wrote to Mr. Sen B. Johnson sometime ago offering a solution to the water question in point.

If you need any additional information from me or if I need to file anything in the way of amended claims, please let me know exactly what is needed.

I wish to thank you for your letter, I am,

Dear Sir:-

I received your letter dated Aug. 5, 1969 in regard to a protest filed by Ben B. Johnson & Leo Palmer against an application I had previously filed on water originating on my farm in Idaho. My property is located near the town of Preston Idaho.

I'm at a loss to know what further action I can take to establish this claim. I have written to both protestants and as yet have received no reply. Most of the water they are trying to claim is waste water and is finally run into Bear river. If there is further information you can furnish I shall appreciate it. If I need amended claim forms please send them to me, will you? Thanking you in advance I am

Dear Mr. Manning:

In reference to the above claim, the enclosed is a copy of an exception filed by Myron Day and a copy of an exception by Orin V. Fellows and an exception filed by Joseph R. Fellows in connection with the claim under the provisions of Chapter 2, Section 42-225b of the Idaho Code which states the following:

"At anytime after filing a claim under the provisions of this section, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the department of reclamation and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the department of reclamation. Such claims may be corrected by the claimant only by filing of an amended claim in the same form as the original which shall be recorded and numbered by the department the same as the original and for which no additional filing fee shall be required."

Dear Mr. Johnson:

Thank you for your letter of July 12, 1969.

Pursuant to your request, we are enclosing a copy of the Claim to A Water Right No. 13-4000 and supporting documents. As the claim has been filed under Section 42-225a of the Idaho Code, we wish to advise you that if you disagree with the contents and intent of the claim, you may file an exception to the claim as outlined under Section 42-225a and b of the Idaho Code. Upon receipt of the exception, we will forward a copy directly to Mr. Manning and file the original with the claim.

You may wish to file your own claim to a water right if you have a water right in connection with the springs and do not have a previous water right under the statutory method.

We are enclosing claim forms for your use in this matter. Please remit the fee of \$1.25 to the Department for the copies we are enclosing, and contact us if we may be of further assistance.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant

Very truly yours,

Donald W. McEldowney

Dear Mr. Jones:

The validity of the water right evidenced by Claim No. 13-4000 can only be determined by the District Court.

The information contained in that claim file is preserved by this office, until it is requested for use by the court in making a determination of the water rights. This file contains conflicting affidavits, as you can see from the copies we previously forwarded to you.

We can only say that if the water has been continuously used since May 20, 1971, then a water right would exist for the extent of that use.

We hope this will provide you with the information you requested in your telephone conversation.

Sincerely,

BOBBY D. FLEENOR
Assistant Director
