

Claim No. **13 4008**

STATE OF IDAHO
DEPARTMENT OF WATER ADMINISTRATION

Section 42-225a, Idaho Code

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that George G. Burbank
(name of claimant)

of Route 3, Preston, Id. 83263, claims a right to the diversion and beneficial use of

Dear Sir:

In reference to a public notice in The Preston Citizen No. 13-4008 a notice of claim to a water right by George G. Burbank, Preston Idaho; for 2.5 cu. ft. per sec. of water from Sugar Creek a definite and undisputed tributary to Cub River, with the right to use said water from April 1 to June 31 of each year.

We, the Franklin Cub River Pumping Co. (formerly Franklin Cub River Canal Co.) with a priority of 1882 for 5 cu. ft. per sec. to use for irrigation from April 1 to October 31, make exception to the above stated claim as follows:

We are totally unaware of any such diversion of water during said time of April 1 through June 31. This certainly is in conflict with our period of use, (April 1 through October 31) and our priority right of 1882. This diversion and water right if granted could affect our supply of water as much as thirty days in a year. The inflow of 2.5 cu. ft. per second from Sugar Creek into Cub River would certainly be a factor in maintaining the supply of water in Cub River. We are subject to the right of Cub River Irrigation Co. right of 24 cu. ft. per second filed in 1880, therefore, our right of 5 cu. ft. per second could be in jeopardy first.

Our experience of past years is certainly that there are no available waters in Cub River for new appropriations and especially the granting of this application.

Franklin Cub River Pumping Company

Sincerely yours, 13-4008

Attention: Mr. G. Ray Geddes, President

Dear Sirs:

V This office is in receipt of your letter of February 8, 1974, noting your exception to the above referenced claim. A Claim to a Water Right is filed by a water user developing a right by diversion and beneficial use under the constitutional method. Thus, the claim filed by George G. Burbank merely indicated that he claims to have used the water in the manner as advertised since the date listed. He is not applying for an Application for Permit and will not receive a recorded water right from this Department as a result of his filing a claim.

The Department of Water Administration does not hold a hearing when an exception is filed on a Claim to a Water Right. The exception is merely filed in the claim file with the claimant's documents for consideration during any further court determination. It is unlikely that the court will consider your exception unless it is filed in affidavit form with your signatures notarized. Although your letter will be included in the file in its present form, I would recommend that you follow the procedures as set forth in Section 42-225 of the Idaho Code and file your exception in affidavit form.

Enclosed please find a copy of the Water Users Handbook and Section 42-225, Idaho Code. If you have any questions concerning this matter, do not hesitate to contact this office.

Very truly yours,

NORMAN C. YOUNG

Exception

I, Alvaro Burbank, being first duly sworn,
deposes and says: in 1954 my brother George Burbank came to me and requested that I
allow him to divert some water from Sugar Creek through my ditch to water about 10 head
of beef cattle on his property. He agreed that if he could extend my existing ditch
through his property to water his livestock, he would help maintain my ditch. I allowed
him to use the ditch, and subsequently, he commenced using water when it was available
for the irrigation of about 20 acres of land. He has at no time beneficially used 2.5
c.f.s. of water or irrigated 150 acres as indicated by this claim to a water right.
I have included, to be made part of the record, an aerial photo marked exhibit #1,
