Dear Mr. Castelton:

The Department has reviewed the Claims to a Water Right submitted by your office on behalf of Richard D. Hobbs and Lois S. Hobbs of Preston, Idaho and finds it necessary to return them for additional information and changes. We are also returning your check No. 1584 in the amount of \$40.00.

Regarding both claims, it would probably be to your clients advantage if the priority in item #1 stated the month and possibly the day along with year when water was first put to beneficial use. Also, your client apparently wishes to claim culinary use for water from a spring in Ericksen Hollow. This usage should be described in item #6B by indicating the number of family dwellings to which the water was supplied. Furthermore, in item #5 of the claim for water from an unnamed spring tributary to the Bear River the legal description for the point of diversion is not consistent with the illustrated plat map in item #8. The legal description and the plat map should be corrected to reflect the same 40 acre subdivision of the point of diversion.

With action finalized on the above mentioned items, please resubmit the Claims to a Water Right accompanied by a check for \$40.00 in payment of the statutory filing fee.

If we can be of any assistance, please feel free to contact this office.

Respectfully submitted,

Dear Mr. Castleton:

Re: Claims to a Water Right - Hobbs

The Department has reviewed the claims to a water right submitted by your office on behalf of Richard D. Hobbs and Lois S. Hobbs of Preston, Idaho and finds it necessary to return them. We are also returning your check No. 1584 in the amount of \$40.00

Regarding the claim for water from a spring on Ericksen Hollow, since the culinary use is for a single family dwelling, the quantity of water claimed in Item 3 appears to be excessive. The 1/10 of a cubic foot per second indicates your client requires 65 thousand gallons a day for household use. The Department normally recommends 13 thousand gallons per day, which is equivalent to 0.02 c.f.s.

Furthermore, in Item 5 of the claim for water from an unnamed spring tributary to Bear River, the legal description is not consistent with the illustrated plat map in Item 8. The point of diversion in Item 5 specifies the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 21, Twp. 15S, Rge. 39E, while the plat map indicates the point of diversion to be in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 28, Twp. 15S, Rge. 39E. This should be corrected so that both items reflect the same legal description.

The Department will be glad to initiate processing of your clients' claims once you have taken action on the above referenced items and resubmitted the water rights to our office, accompanied by a check for \$40.00 in payment of the statutory filing fee.

Dear Mr. Sharp:

Re: Exception to Claims No. 13-4082 and 13-4083

On January 31, 1979, I received a note from you indicating you wish to file an exception to Claims to Water Rights No.'s 13-4082 and 13-4083 in the name of Richard and Lois Hobbs. I have included the exception in the files since it was signed in the presence of a notary public and is, therefore, in proper form. However, you should be aware that the purpose of an exception is to supply information to prove that the use described in the claim is incorrect. For example, if you know for a fact that no water had been used on the fifteen acres described in Claim No. 13-4082, then your exception should point out the knowledge you have.

The following is a quote from the provisions of the Idaho Code under which this claim has been filed:

42-225b. Recording of claims by department--Corrections...
At any time after filing a claim under the provisions of this section, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the Department of Water Administration (renamed Department of Water Resources, July 1, 1974) and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the Department of Water Resources. Such claims may be corrected by the claimant only by filing of an amended claim in the same form as the original which shall be recorded and numbered by the department the same as the original and for which no additional filing fee shall be required.

Only the above action has been contemplated by the Idaho Legislature

and we are not authorized to hold hearings or evaluate for conformation of final censorship of the described rights. Because the exception you submitted supplies no additional evidence for the court to consider if this right should ever be adjudicated, you may wish to submit additional evidence pointing out how the use of the water described in these claims is incorrect. 33 p.

AFFIDAVIT FOR RICHARD
D. HOBBS

RICHARD D. HOBBS deposes and says:

That he has made a claim to a water right dated the 18th of December 1978. That he is in receipt of an exception to the claim by Mr. John Sharp, 125 East First North, Wellsville, Utah 84339.

That your affiant in support of his claims alleges the following facts.

(1) That the exception filed by Mr. Sharp is deficient in several counts. The exception is very general and sets forth absolutely no proof as to the uses claimed.

(2) The exception seems to both claims Nos. 13-4082 and 13-4803 for the purpose of prior domestic and stock use. The two claims referred to are totally different in purpose of and place of use. Mr. Sharp has not set forth the exact nature of his exception.

(3) That Mr. Sharp claims a prior domestic use even though there has been no visable domestic use by any water in this area by anyone other than the affiant or his predecessors in title as long as can be remembered. That there is at the present time no house or other type of structure which would suggest any domestic use other than Mr. Hobbs. The affiant is of the belief that Mr. Sharp has no rights into the water in question. That this Affidavit is made for the purpose of supporting a Claim to a Water Right filed by your affiant.
