Dear Mr. Sparrow:

We are returning your application for permit and personal check #92-273 in the amount of \$35.00. In reviewing this application, we find there are several items that require some clarification before we can begin processing it.

Please note that the period of use under Item #4, that requested for stockwater purposes, does not extend an entire year.

In Item #8a, the place of use for stockwater purposes was omitted. Please indicate this location to the nearest 40-acre subdivision.

We will be most happy to begin processing your application as soon as we receive the corrected application from you.

Very truly yours,

Dear Mr. Sparrow:

We acknowledge receipt of the affidavit submitted as proof of beneficial use on the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season the exam will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

We cannot tell from the description of the measuring device on your proof of beneficial use whether this is a standard type of measuring device. We have enclosed a Water Measurement Manual which describes several different types of measuring devices which if you have not installed should be installed prior to the time our field examiner exams your project.

If you have any questions regarding the field exam, please contact our Regional Office in Idaho Falls.

Subwater is collected by a tile drain field and water flows via the force of gravity into a pond located in the SW 1/4 NW 1/4 Sec 32 T15S R9E. Water is then diverted from the pond by means of a 1000 gpm centrifugal pump. S/n - C-15P117280, Cat no. 110-50155-058200 & a Ford diesel tractor motor m/n - 300 GI-6008-0 opt 7A S/n - 302715-8HD.

REMARKS: Water is diverted into a portable surface mainline & the average is irrigated with 3-1/4 in wheel line sprinklers. System was shown & described by John Spanow Jr. 100 hd of dairy cattle drink water directly from the pond - no troughs exist.

Dear Mr. Sparrow:

We are returning your application for permit and personal check #92-273 in the amount of \$35.00. In reviewing this application, we find there are several items that require some clarification before we can begin processing it.

Please note that the period of use under Item #4, that requested for stockwater purposes, does not extend an entire year.

In Item #8a, the place of use for stockwater purposes was omitted. Please indicate this location to the nearest 40-acre subdivision.

We will be most happy to begin processing your application as soon as we receive the corrected application from you.
