COMMENTS: U.S.G.S. observation wells are not maintained in this area (W.B. #24).

Aquifer is recent alluvium overlying sedimentary bedrock. Yields are usually
good with moderate drawdown. (W.B. #13). Location of diversion & place of use

Dear Mr. Sorenson:

Your Application for Permit No. 13-7027 has been forwarded to this office for processing. During this processing, we noted that the point of diversion and place of use is shown on the United States Geological Survey 7½" Oxford Quadrangle Map and the Caribou National Forest Map as being on Caribou National Forest land.

We, therefore, would request that you provide us with copies showing proof of ownership or copies of agreements allowing you access to the land if you do not own it. We will continue processing your application, but a permit cannot be issued until we receive these copies.

Also, we noted that you have requested an irrigation season of March 15 to November 30. Unless you can justify the longer use period, we will reduce the time to from April 1 to November 1.

If you have any questions, please do not hesitate to contact this office.

Dear Mr. Sorensen:

One of the conditions of approval of your water Permit No. 13-7027 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

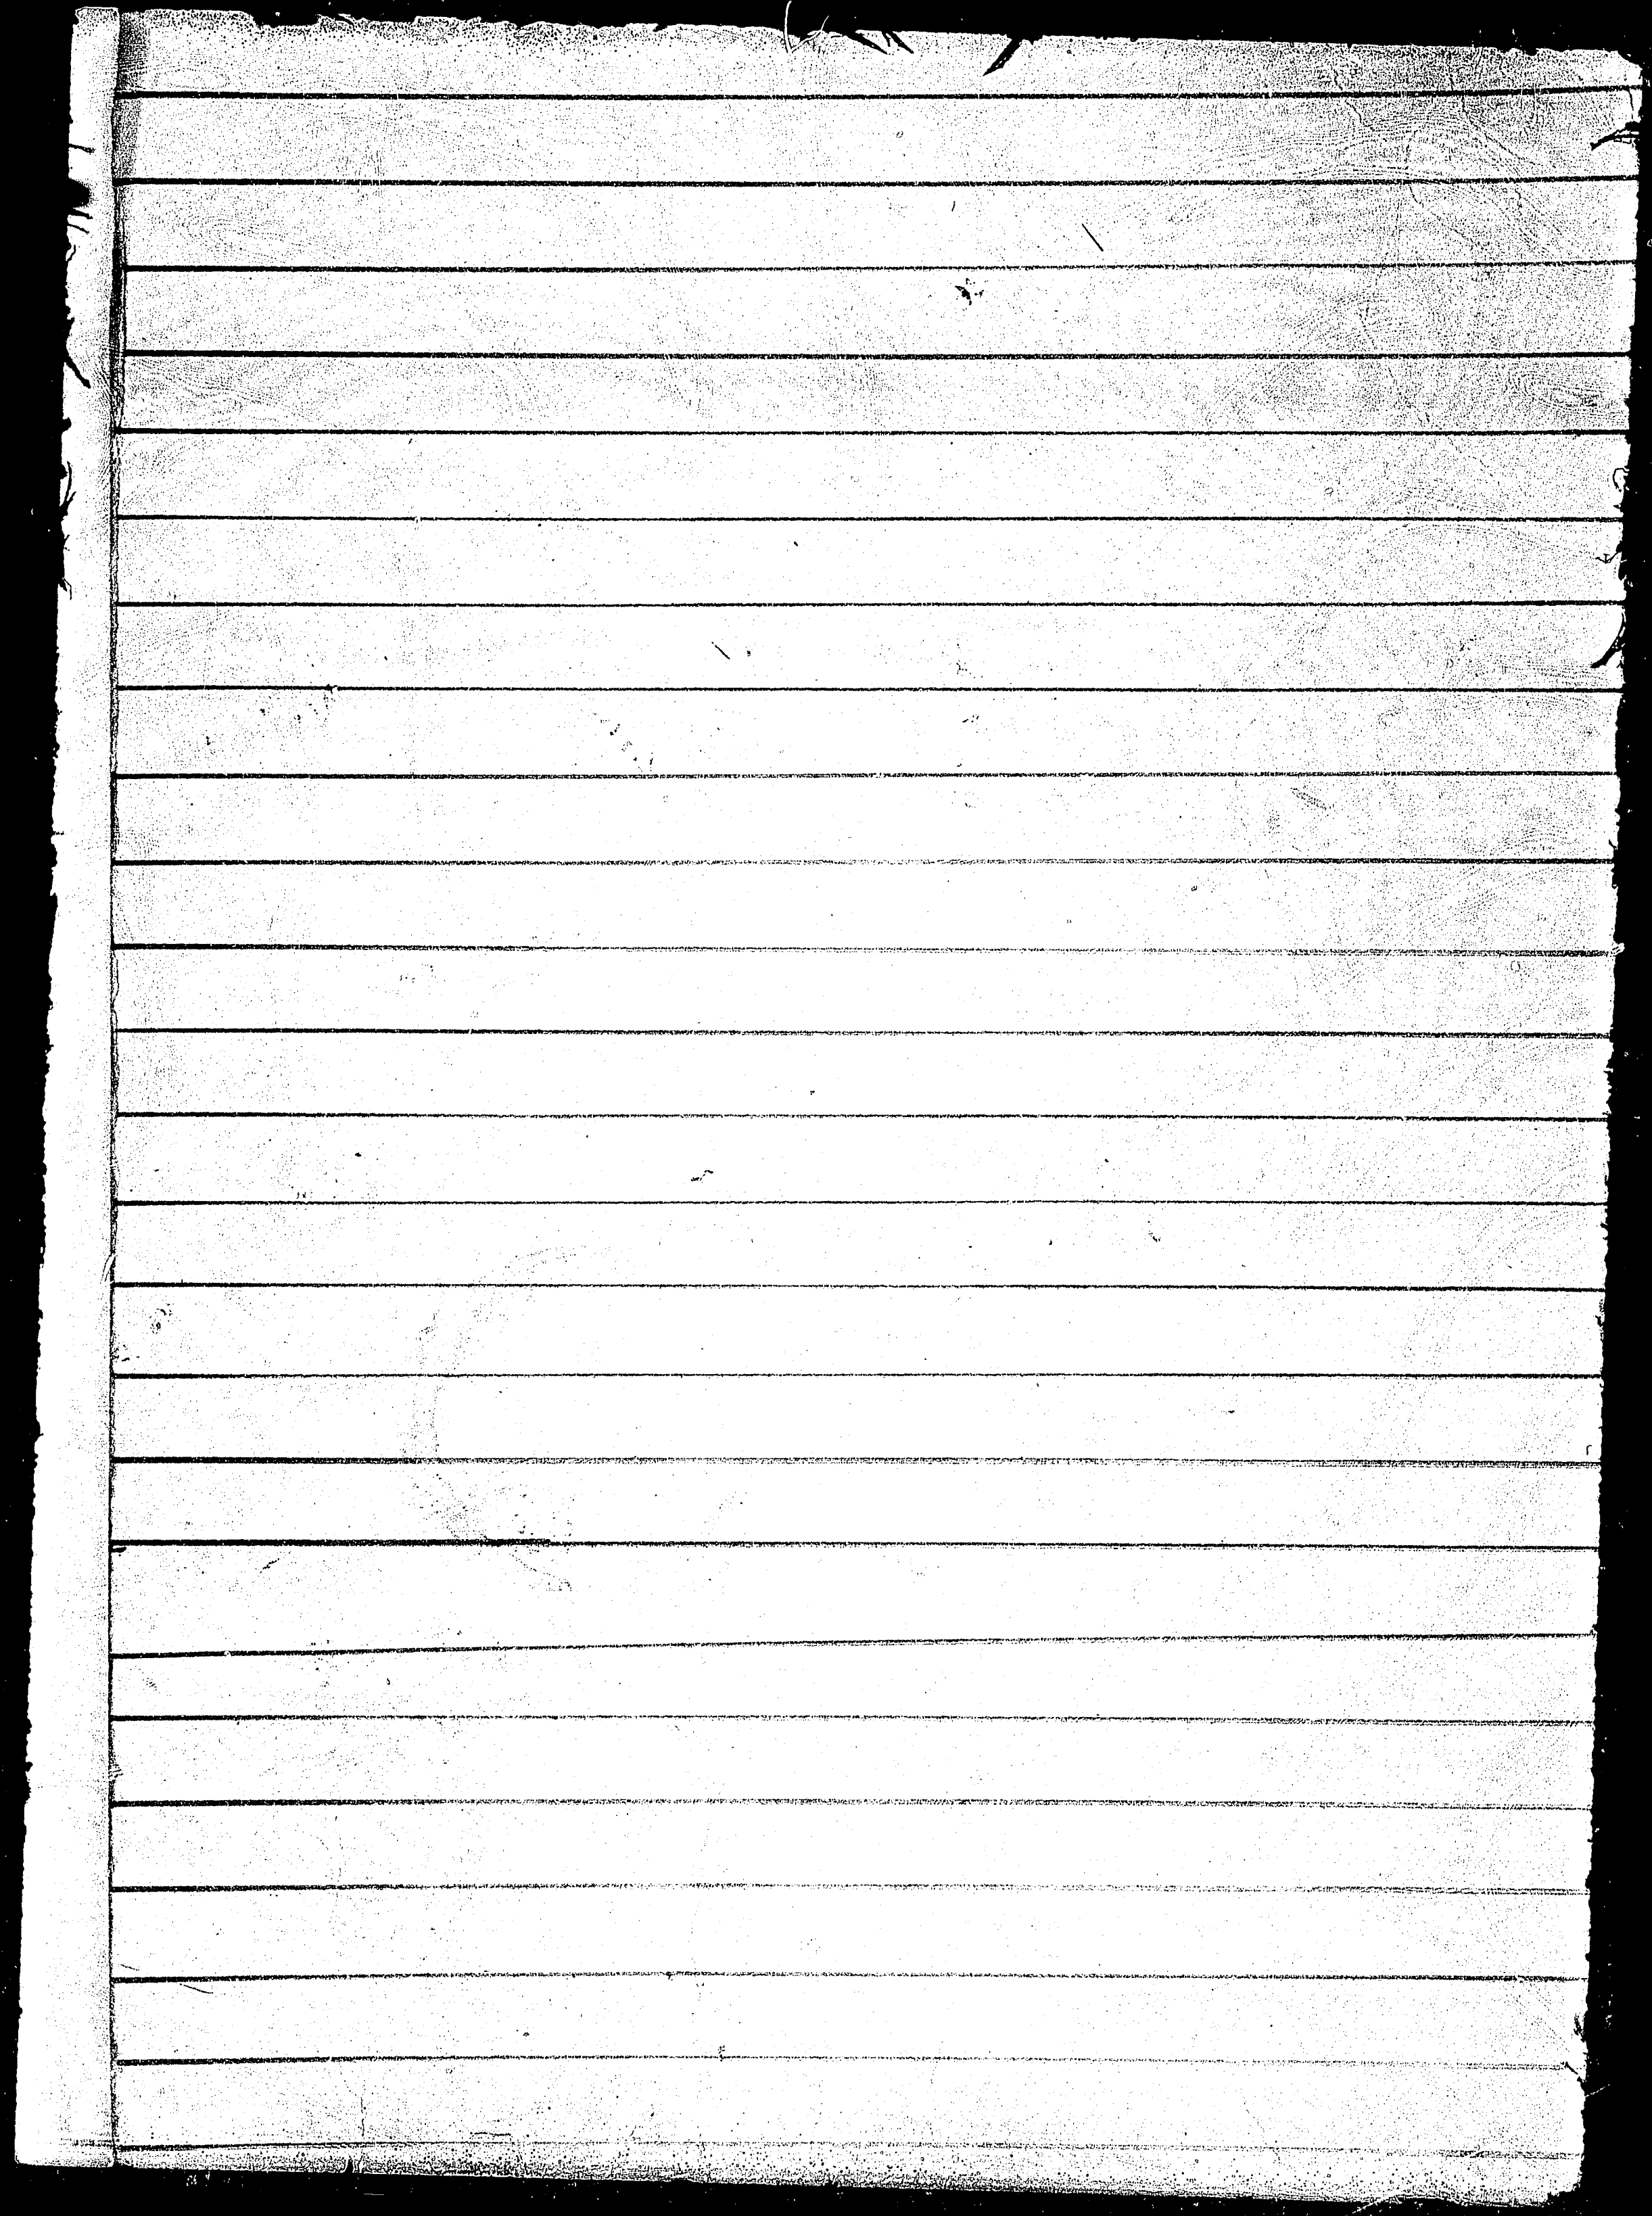

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Sir,

I am writing to you to request an extension of time for approval of my water permit No. 13-7027 for the following reasons. In the spring of 1972 I installed over 2,000' of 12" plastic mainline and over 2,000' of 10" plastic mainline. It is the gasket type, and during the summer of 1973, several gaskets were continually forced out by water pressure in the 12" line. I was without water for 26 days plus during the irrigation season. The companies involved replaced the 12" line late in the fall of 1973, and as yet I haven't had a chance to really get it tested out to know how much water I have. I would appreciate an extension of one year so that I can get my water on the land designated and to get the right kind of a weir installed.

Yours very truly,

Douglas Lorenson

Dear Mr. Sorensen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

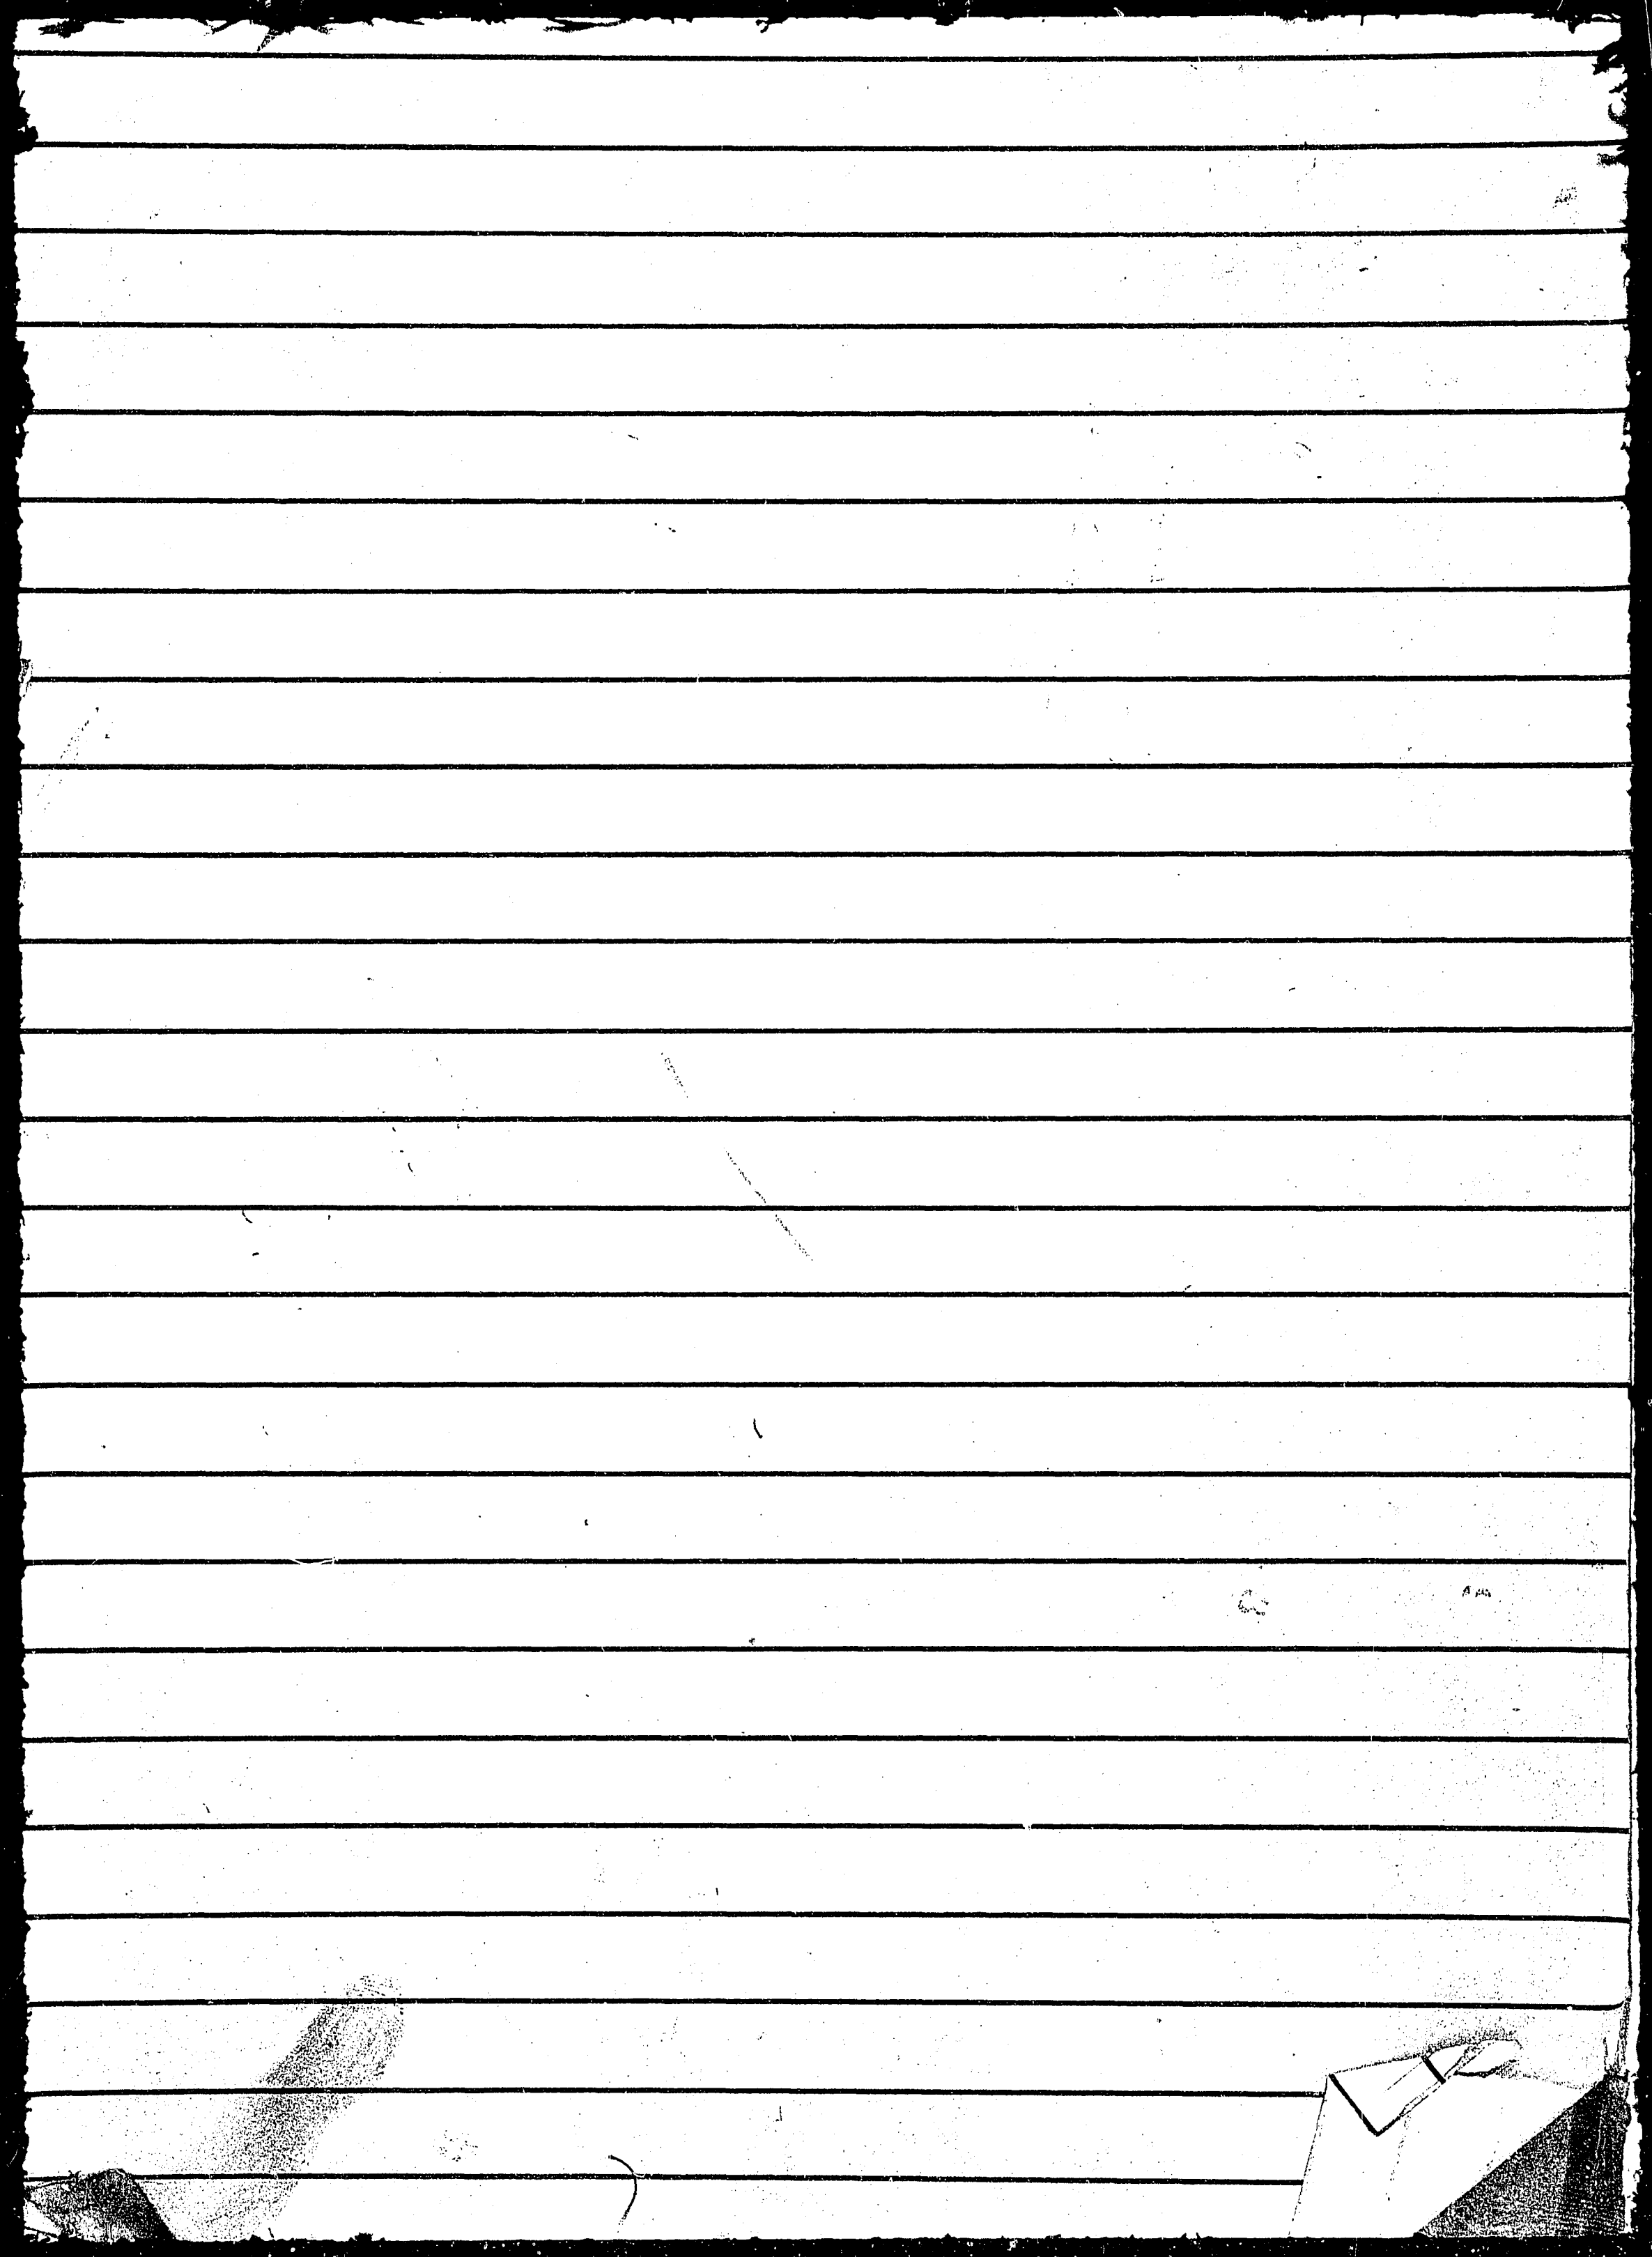

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Idaho Falls.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

WATER RIGHT LICENSE

License of Water Right No. 13-7027 Priority February 14, 1972 Amount 1.51 cfs

THIS IS TO CERTIFY, that DOUGLAS SORENSEN
of Swan Lake, Idaho, has complied with the terms and conditions of Permit
No. 13-7027 issued pursuant to Application for Permit dated February 14, 1972,
and has submitted proof to the Department of Water Resources on March 24, 1975,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 4.87 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct,
that the amount claimed is legally due, after allowing all just
credits, and that no part of the same has been paid."

(signature of claimant)

Very truly yours,

Norman C. Young

Dear Mr. Sorenson:

Your Application for Permit No. 13-7027 has been forwarded to this office for processing. During this processing, we noted that the point of diversion and place of use is shown on the United States Geological Survey 7½" Oxford Quadrangle Map and the Caribou National Forest Map as being on Caribou National Forest land.

We, therefore, would request that you provide us with copies showing proof of ownership or copies of agreements allowing you access to the land if you do not own it. We will continue processing your application, but a permit cannot be issued until we receive these copies.

Also, we noted that you have requested an irrigation season of March 15 to November 30. Unless you can justify the longer use period, we will reduce the time to from April 1 to November 1.

If you have any questions, please do not hesitate to contact this office.

Very truly yours,

NORMAN C. YOUNG
District Engineer

Dear Mr. Young,

I received a letter from you today about my application for Permit No. 13-7027 and you stated that my point of diversion is on Caribou National Forest land. I don't know what map you are using, but the Caribou National Forest is almost a mile due west of my property line. Douglas Fisher and Eugene Foreman each own one section of property between me and the forest land.

Yours very truly,

Douglas Foreman

Dear Mr. Sorensen:

One of the conditions of approval of your water Permit No. 13-7027 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Department of Water Administration

Dear Sir,

I am writing to you to request an extension of time for approval of my water permit No. 13-7027 for the following reasons. In the spring of 1972 I installed over 2,000' of 12" plastic mainline and over 2,000' of 10" plastic mainline. It is the gasket type, and during the summer of 1973, several gaskets were continually forced out by water pressure in the 12" line. I was without water for 26 days plus during the irrigation season. The companies involved replaced the 12" line late in the fall of 1973, and as yet I haven't had a chance to really get it tested out to know how much water I have. I would appreciate an extension of one year so that I can get my water on the land designated and to get the right kind of a weir installed.

Yours very truly,

Douglas Lorenson

Dear Mr. Sorensen,

A representative of this Department has made an examination of the works covered by your Permit No. 13-7027, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 4.87 cfs Source: groundwater

The maximum quantity diverted shall not exceed 1540 acre feet per year.

Point(s) of diversion: NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 18, Twp. 13S, Rge. 38E, B.M.

Beneficial use: Irrigation of 240 acres within the NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 7; 40 acres within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8; 105 acres within the W $\frac{1}{2}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 17 and 55 acres within the E $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 18, Twp. 13S, Rge. 38E.

Priority date established: February 4, 1972

Conditions (if any): This right when combined with Right No. 13-2222 shall provide no more than a total diversion of 4.87 cfs. ~~no more than~~
36 AFA PER ACRE FOR THE LANDS ABOVE.

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

Dear Mr. Sorensen,

RE: License No. 13-7027

Enclosed is a copy of the Water Right License issued on the above referenced Permit.

Please be advised that one of the conditions of your permit was, that a measuring device be installed as part of your diversion works. That requirement has been waived with issuance of the enclosed license. However, in the event that water supply shortages become a problem installation of measuring devices may be required.

Sincerely,

JIM JOHNSON
