STATE OF IDAHO
DEPARTMENT OF WATER ADMINISTRATION

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho
(TYPE OR PRINT IN INK)

APPROVED

1. Name of applicant Thomas Robinson 852-2962
post office address 154 N 2nd E Preston, Idaho 83263
2. Source of water supply spring which is a tributary of Litz Creek
3. a. Location of point of diversion is NE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 18 Township 15S
Range 41 E. B.M. Franklin County; additional points of diversion if any: None
- b. If water is not consumed, it will be discharged into Litz Creek at a point in NW $\frac{1}{4}$
of SE $\frac{1}{4}$ of Section 18 Township 15S Range 41 E. B.M. (1/4 mile down creek)
4. Water will be used for the following purposes:
Amount .24 for community supply purpose from Jan 1 to Dec 31 (both dates inclusive)
Amount .01 for livestock water purpose from April 1 to Oct 31 (both dates inclusive)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
5. Total quantity to be appropriated:
a. .24 cubic feet per second and/or
b. _____ acre feet per annum.
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. pipe from spring to culinary water reservoir, pipes to water trough, homes and campsites.
- b. Height of storage dam _____ feet, active reservoir capacity _____ acre feet; total reservoir capacity _____ acre feet, materials used in storage dam: _____
Period of year during which storage will occur _____ to _____ inclusive.
(Mo. Day) (Mo. Day)
- c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
7. a. Time required for the completion of the works and application of the water to the proposed beneficial use is 4 years.
b. Estimated construction cost is \$ 1,000.00.
8. Description of proposed uses:
a. If water is **not** for irrigation:
(1) Give the place of use of water: _____ $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 18 Township 15S
Range 41 E. B.M. also E $\frac{1}{2}$ of SW $\frac{1}{4}$ 18
(2) Amount of power to be generated: _____ hp under _____ feet of head. 2/24/72
(3) List number of each kind of livestock to be watered 25 - 50 head - cattle and horses telephone call
(4) Name of municipality to be served _____, or number of families to be supplied with domestic water 6 summer homes @ .02 c.f.s. and 12 campsites @ .01 c.f.s.
(5) If water is to be used for other purposes describe: Livestock

13 7028

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP.	RANGE	SEC.	NE1/4				NW1/4				SW1/4				SE1/4				TOTALS
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	

Total number of acres to be irrigated _____

c. Describe any other water rights used for the same purposes as described above. _____

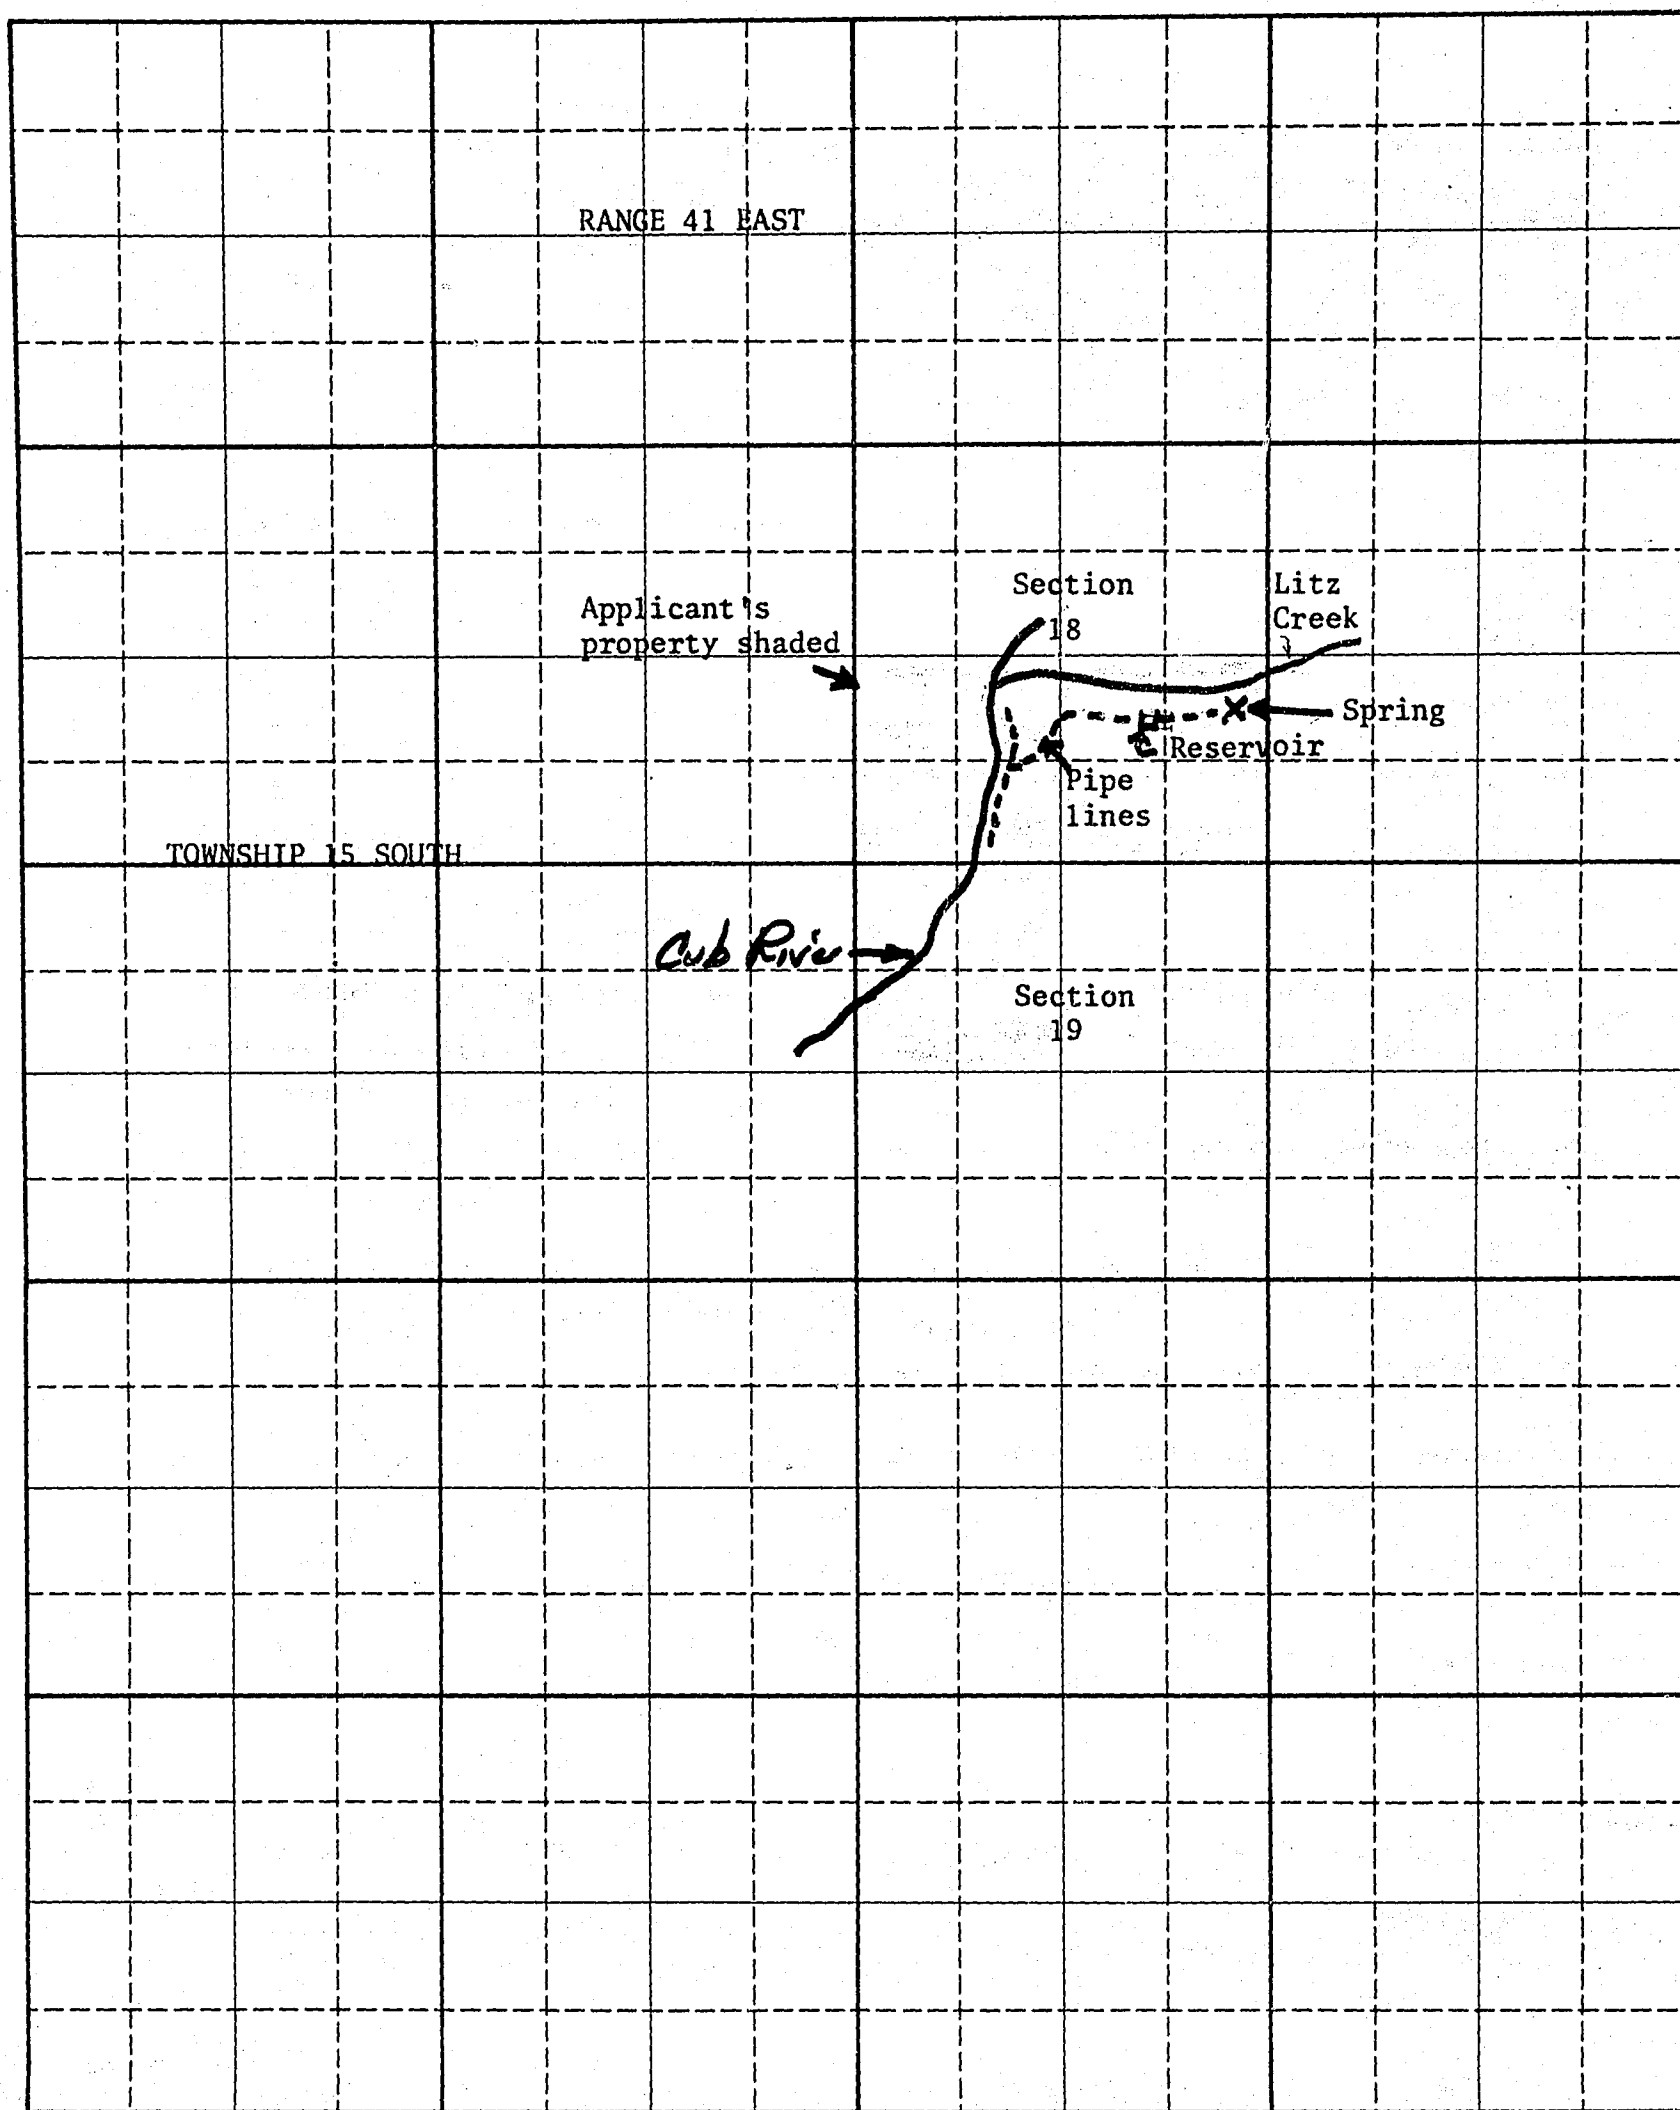

9. a. Who owns the property at the point of diversion applicant

b. Who owns the land to be irrigated or place of use applicant

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing _____

10. Remarks Water from the spring flows into Litz Creek and through applicant's property directly into the Cub River. Unused water will be returned into the Cub River or into the creek and almost all water used will be returned to the river eventually.

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

March 10, 1972

Re: Application for Permit No. 13-7028 - Thomas Robinson

Cub River Irrigation Co.
Lewiston, Utah

ATTN: Mr. Mervin J. Bodily, Secretary

Gentlemen:

We are in receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish right-of-ways over private or governmental lands. Right-of-ways or easements must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. If we may be of any assistance, please contact us.

Very truly yours,

NORMAN C. YOUNG
District Engineer

Re: Application for Permit No. 13-7028 - Thomas Robinson

Mr. Thomas Robinson
154 N. 2nd E
Preston, ID 83263

Dear Mr. Robinson:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 13-7028. You should be aware that the following are the items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The waters intended to be appropriated must be public water of the State of Idaho. If private waters, as defined under Section 42-212, Idaho Code, the applicant must have authority to divert the water from the owner of the land on which the water lies.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish right-of-ways over private or governmental lands. Right-of-ways or easements must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a hearing and/or conference to discuss the matters of protest. Legal counsel is not

NOTICE OF CONFERENCE
AND/OR HEARING

On February 23, 1972, Thomas Robinson of Preston, Idaho, filed with the Department of Water Administration an application to appropriate the public waters of the State of Idaho. On March 9, 1972, the Department received a protest against approval of this application from the Cub River Irrigation Company of Lewiston, Utah.

The Department has set the matter of protest for conference and/or hearing on Wednesday, April 19, 1972, at 3:30 p.m., in the Court Room of the Franklin County Court House at Preston, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Administration. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 4 day of April, 1972.

Mr. Bobby D. Fleenor, Assistant Director
State of Idaho - Dept. of Water Administration
Statehouse - Annex 2
Boise, Idaho 83707

Dear Mr. Fleenor:

In your form letter dated March 10, 1972, you informed me of a protest to my application for use of water from a spring on property I own in Franklin County, Idaho, by the Cub River Irrigation Company of Lewiston, Utah. On April 4, 1972, you notified me of a conference scheduled to review additional information related to this protest.

I have subsequently been in touch with Mr. Delbert Bodily, President of the Cub River Irrigation Company. He was most cooperative and agreed to look the site over and consider the situation with others prior to our scheduled conference.

I am pleased to inform you that the problem concerning my application as noted by the Cub River Irrigation Company may have a relatively easy solution.

In the first place, although a native of Southeast Idaho with three generations of parents on each side buried just over the Idaho line at Richmond, Utah, I certainly have no intention of denying the Cub River Irrigation Company any water on which they have rights dating back to 1880.

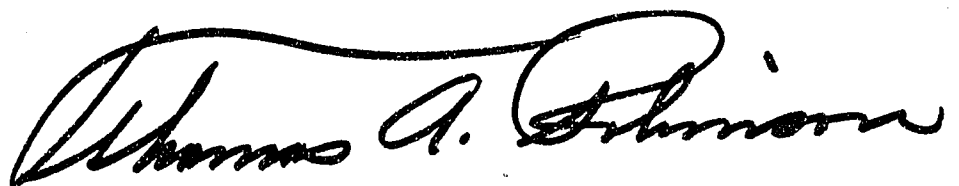

Actually, I intend to prove conclusively that in our swamp drainage efforts on the property we own, my son and I will be returning from our drain tile lines a net flow of water into the Cub River greater than the amount we would like to divert for culinary purposes from the spring involved.

Assuming the position of the Cub River Irrigation Company remains cooperative as our relations with Mr. Bodily indicate, I would simply request that our application be approved except during that part of the irrigation season when the Cub River Irrigation Company exercises its priority on available water. When we have, in fact, demonstrated through actual measurement or otherwise that we are making a net increase of as much of more water available to the Cub River Irrigation Company as we take from the spring, we would hope to have our application approved on a year around basis.

I appreciate the time and attention of both the Idaho Department of Water Administration and the Cub River Irrigation Company and the cooperation they have demonstrated in resolving this case.

Sincerely yours,

cc: Mr. Delbert Bodily

To: File # 13-7028

From: Bob Fleenor

Date: May 3, 1972

A conference was held on April 19, 1972, in Preston, Idaho, to determine the issues in the protest of the Cub River Irrigation Company against application for permit No. 13-7028 filed by Thomas Robinson.

The applicant represented himself and the protestant was represented by Vernon P. Cole, Mervin J. Bodily and L.D. Bodily.

The applicant is agreeable to drain his swamp so the water he takes from the spring will not deplete the amount of water available to Cub River Irrigation Company. The representatives of the Company will submit this proposal to the Company's Board at the next meeting. A letter from the Company should be received within 15 days to indicate their intentions in continuing with the protest.

ok to file

Dear Mr. Fleenor:

Replying to your request for a report at our meeting at Preston, Idaho, with members of your office and Mr. Thomas Robinson in regards to the Cub River Irrigation Company's protest against the approval of application for permit No. 13-7028, we make the following report:

There are a number of uncertainties as to the matter of exchange of the Spring water for water which may be produced from draining the swamps. The parties are attempting to agree and enter into an agreement to permit the applicant to put in a temporary pipe to the Spring with the understanding and agreement on his part that he will drain the swamps in the neighborhood and return to Cub River an amount in excess of the amount of water taken through the pipes for cullinary purposes during the irrigation season.

Accordingly request is made that action on the application and contest be postponed to permit time for an agreement to be prepared, measurements taken and a drain installed into the swamps, to determine the facts regarding what exchange waters, if any, can be agreed upon. Without this development and without satisfactory proof than an exchange of water is feasible we feel it would not be to the best interest of either party to attempt to agree to the terms of any Order which might be made in the premises.

It is the opinion of the Board that a year's time may be necessary to complete investigation. This is the kind of matter which should not be rushed.

Thanking you for your cooperation in this matter, we are

Yours very truly,

CUB RIVER IRRIGATION COMPANY

Re: App. No. 13-7028
Thomas Robinson

Dear Mr. Bodily:

We can understand your concern over uncertainties as expressed in your May 1, 1972, letter regarding Mr. Robinson's application for permit No. 13-7028. However, Mr. Robinson cannot proceed with his project to divert the water until this matter is resolved. A one-year delay would prevent the diversion and use of water by Mr. Robinson even during the non-irrigation season when there appears to be water available.

The doctrine of "first in time first in right" would afford some protection for the water rights of your company. If Mr. Robinson would not show an increase in the water available to you equal to the amount he diverted, then he could be required to cease his diversion during the periods of short water supply.

I feel it would be in the best interest of all if this matter were resolved as soon as possible; therefore, unless Mr. Robinson agrees to a delay or unless an agreement is reached we will set this matter for a hearing.

Please let us know within 30 days if a hearing will be necessary.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Re: Application No. 13-7028 - Thomas Robinson

C Mr. Mervin J. Bodily, Sec-Mgr.
Cub River Irrigation Company
Lewiston, Utah

O Dear Mr. Bodily:

O We received your letter of June 22, 1972, stating your agreement with Mr. Robinson's proposal of April 18th. We will now take final action on Application for Permit No. 13-7028.

P The diversion of water from Cub River is controlled by a state appointed watermaster. Therefore, any diversion by Mr. Robinson would be controlled by that watermaster and any illegal diversion could be cause for action between Mr. Robinson and the watermaster. However, the Department of Water Administration cannot guarantee that there will not be any expense incurred in protecting your water rights.

Sincerely,

Y BOBBY D. FLEENOR
Assistant Director

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF EXTENDING THE PROOF DUE
DATE IN CONNECTION WITH PERMIT NO. 13-7028
IN THE NAME OF THOMAS ROBINSON

ORDER

WHEREAS, on February 23, 1972, Thomas Robinson applied to the Department of Water Resources (formerly the Department of Water Administration) for a permit to appropriate 0.24 cubic feet per second of water from a spring, tributary to Litz Creek, to be diverted from a point within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 18, Twp. 15S, Rge. 41E, B.M., Franklin County, to be used for stockwater and community supply purposes; and,

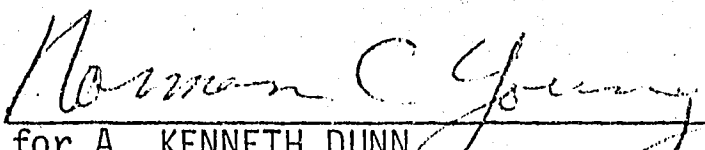

WHEREAS, on July 18, 1972, the Department approved said application and issued Permit No. 13-7028 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before August 1, 1976; and,

WHEREAS, on June 7, 1976, the permit holder submitted a request for an extension of time; and,

WHEREAS, it appears that under the circumstances, the permit holder has been proceeding with reasonable diligence and has given good cause for delay;

IT IS, THEREFORE, HEREBY ORDERED that the time within which to submit proof of beneficial use of water under Permit No. 13-7028 be extended to August 1, 1981.

Dated this 18th day of June, 1976.

Re: Permit No. 13-7028

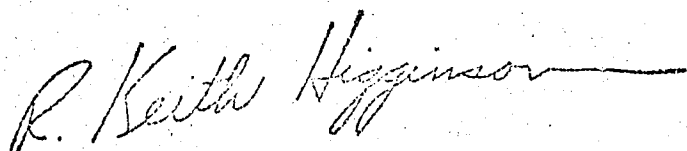

Thomas Robinson
154 North 2nd East
Preston, Idaho 83263

Dear Mr. Robinson:

One of the conditions of approval of your water Permit No. 13-7028 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before AUGUST 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

June 1, 1976

Mr. R. Keith Higginson
State of Idaho
Department of Water Resources
State House
Boise, Idaho 83720

Dear Mr. Higginson,

Your certified mail form letter dated June 1, 1973, concerning water permit No. 13-7028, forwarded an affidavit form to submit proof of beneficial use and requested either a completed form or a request for an extension of time to be submitted prior to August 1, 1976.

A review of your records will indicate that an application for exchange of water, identification No. 13-7021, approved February 12, 1974, authorized use of the water of the basic permit 13-7028 for domestic purposes for a recreational subdivision in Sections 18 and 19 of Township 15 South, Range 41 East of the Boise Meridian.

The culinary water system from the spring in permit 13-7028, although not completed, is currently operational. However, only 6 of the 25 permanent homes and 4 of 25 summer homes initially authorized, have been constructed and about 7 of 25 authorized campsites are actively used. Therefore, the amount of spring water used this past season from the reservoir, as measured by a Badger gallon reading water meter, has been less than the authorized amount. Practically all the spring water running into the reservoir overflows back into Litz Creek.

It would therefore appear logical to request an extension of time so that the installation can be completed, sufficient water hook ups made and factual water use data developed to support proof of full beneficial use as required by your office.

It is therefore respectfully requested that a five year extension of time from the August 1, 1976 date be authorized for this purpose.

Yours truly,

Thomas A. Robinson

IN THE MATTER OF PERMIT NO. 13-7028 }
IN THE NAME OF THOMAS ROBINSON }

ORDER OF REINSTATEMENT

WHEREAS, on February 23, 1972, Thomas Robinson applied to the Department of Water Resources for a permit to appropriate 0.24 cubic feet per second of water from a spring tributary to Litz Creek to be diverted from a point within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 18, Twp. 15S, Rge. 41E B.M., Franklin County, to be used for stockwater and community supply purposes; and,

WHEREAS, on July 18, 1972, the Department approved said application and issued Permit No. 13-7028 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before August 1, 1976; and,

WHEREAS, on June 18, 1976, the Department extended the time within which to submit the statement of beneficial use to August 1, 1981; and,

WHEREAS, on May 31, 1981, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder as to the steps to be taken to make said proof; and,

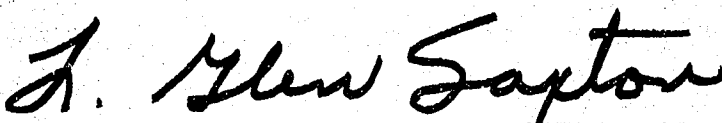

WHEREAS, on August 13, 1981, the Department notified the permit holder that Permit No. 13-7028 had lapsed for failure to submit proof of beneficial use of water; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days from the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing as to why said permit should be reinstated by submitting proof of beneficial use on September 2, 1981;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 13-7028 be REINSTATED and the priority advanced to March 27, 1972.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, R. Keith Higginson, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 13-07028 with the following;

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Whenever the flow in the Cub River Drainage is not sufficient to fill all rights prior in time to this right, groundwater must be pumped and diverted into Cub River under Right No. 13-07021 to allow the continued diversion from the spring.
6. Domestic use is for 6 homes and 12 campsites.

Witness my hand this 23rd day of APRIL, 1994.

Acting for R. Keith Higginson, Director

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

Dear Mr. Robinson:

Re: Permit No. 13-7028

This office acknowledges receipt of the statement of beneficial use postcard and the \$15.00 cash. Please be advised that we are returning the \$15.00 since there is no fee for submitting the postcard.

Enclosed also is a copy of the order reinstating your permit and advancing the priority date to March 27, 1972 since the postcard was submitted after the August 1, 1981 deadline.

Before a water right license can be issued, a field examination must be made by a representative of this department. We do not know at this time when he will be able to conduct the examination, however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you have any questions regarding the field examination, please contact the Eastern Regional office at 525-7161.

Sincerely,

RITA I. FLECK
Sr. Secretary

MEMORANDUM

TO: Skip
FROM: Jim *Jim*
DATE: May 1, 1987
RE: 13-7021 & 13-7028

RECEIVED

MAY 5 1987

Department of Water Resources
Eastern District Office

It appears to me that Rt. 13-7028 is definitely limited to a maximum of 0.24 cfs but a change in nature of use can be allowed to accomodate the uses found developed to the extent that no expansion will occur.

To do this, we would have to estimate maximum volume and maximum consumptive use which would occur on the original uses identified under the permit.

The permit shows 6 summer homes at 0.02 cfs/home and 12 camp sites at 0.01 cfs/camp site.

Volume used annually:

You may have a better handle on this. I am going to assume that summer home water use is $\frac{1}{2}$ of normal volume. Therefore, the AFA would be $0.6 \times 6 = 3.6$. Also assume camp site AFA at 0.6 per camp site. On consumptive use we normally assume in-house use as non-consumptive. For this case, I assume all domestic and camp site use to be so small that it can be considered as non-consumptive. Therefore, the amount available for change in nature of use is:

Rate: 0.24 cfs
Volume: 10.8 AFA
Consumptive use: 0

Actual water use found was 81 domestic units and 22 acres irrigated. Using the parameters described above, the 0.24 cfs with 10.8 AFA could supply 18 of the 81 units. Water could not be used on any of the irrigated lands because of the consumptive use restriction.

In conclusion, I agree with the assessment that 18 units could be recognized under 13-7028. I went to more detail than perhaps was necessary, but I wanted to address the change in nature of use option.

Hope this helps.

# 6	NA	1.5	NA	NA	

*Code with points of diversion, system diagram & photos on reverse side. Disregard if only one.

5. System Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)
This is an exchange whereby subdivision uses water from the spring which is stored in a 30,000 gallon tank with lines to 81 outlets (summer homes, trailer sites, etc.) 46 of which are in current use. The two functioning wells are to be used to provide exchange water to be injected into the Cub River so the spring water will not be cut off. (See exchange agreement)

10. Other water rights on these lands NA.

11. Other water right diverted from same p.d. NA.

12. **Diversion and Delivery System Diagram:** Indicate all major components and distances between components. Indicate ditch size/pipe i.d. as applicable. Indicate on systems with measurement port the distance between the port and the nearest component/pipe bend/restriction both upstream and downstream, and the inside pipe diameter at the measurement port. On multiple diversion systems indicate how diversion systems are connected.

13. ☐ Photo of Diversion & System Attached

☒ Aerial Photo of Place of Use Attached or Map of Irrigated Acreage Attached

14. Remarks As per memorandum from Jim Johnson rate of 0.20 cfs will be used on 18 sites as permit 13-7028 seems to limit use to this amt. via exchange. No irrigation use is recognized and this then leaves 28 sites now occupied and 35 unoccupied sites without a permit for any use. Lots selected for licensing are 18, 19, 20, 5, 9, 10, 51, 77, 78, 70, 72, 76, 106, 74, 44, 85, 87 and 119

15. Recommended Amendments

1. Measurement Calculations

a) Field Measurement Calculations (Include theoretical capacities and system capacity)

a/ Spring flow at overflow pipe in storage tank; by bucket + stopwatch
90 gpm or 0.20 cfs

b/ well #3 - open discharge to bucket + stopwatch; 60 gpm } total 90 gpm or
well #6 - " " " " ; 30 gpm } 0.20 cfs

allow 0.20 cfs for exchange

b) Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$ _____
 $V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$ _____
 $V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$ _____

c) Volume Calculations for Other Uses:

0.6 cfs x 18 allowable sites = 10.8 cfs

2. Overlap Review

a) Other water rights with same place of use: N.A.

b) Other water rights with same point of diversion: N.A.

c) Analysis:

RE: WATER RIGHT NO. 13-07028

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the places(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 14 days.

If you do not concur with this information, please contact me as soon as possible.

Sincerely,

A handwritten signature of Jim Johnson, consisting of a stylized 'J' and 'J' followed by a horizontal line.

RE: WATER RIGHT NO. 13-07028

Dear Water Right Holder(s):

Enclosed herewith is a copy of the Water Right License issued on the above referenced permit along with a copy of your approved Application for Amendment.

Should you have any questions regarding these documents, please feel free to contact this office.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Johnson', written over a horizontal line.
