WHEREAS

Cache Valley Council, Boy Scouts of America,
is entitled to a Land Patent pursuant to General Exchange
Act of March 20, 1922 (42 Stat. 465), as amended by the
act of February 28, 1925 (43 Stat. 1090), for the following
described lands:

Boise Meridian, Idaho

T. 14 S., R. 41 E., unsurveyed,
Tract 37

Containing 199.71 acres;

NOW KNOW YE, that there is, therefore, granted by the
UNITED STATES, unto the above named claimant the land above
described; TO HAVE AND TO HOLD the said land with all the
rights, privileges, immunities, and appurtenances, of what-
soever nature, thereunto belonging, unto the said claimant,
its successors and assigns, forever;

EXCEPTING AND RESERVING TO THE UNITED STATES:

1. A right-of-way thereon for ditches and canals
constructed by the authority of the United States.
Act of August 30, 1890, 26 Stat. 391; 43 U.S.C.
945;
2. All oil and gas, in or under said land, together
with the right to enter upon the land to drill
and remove the same, in accordance with the pro-
visions of the act of February 28, 1925 (43 Stat.
1090);
3. Reserving to the United States, and its assigns,
an easement for an existing road, No. 30007, over

lying equally on each side of the centerline with additional width for cuts and fills. The centerline of the road enters said Tract 37 approximately 14 chains N. 04°33'W., from corner No. 5 of H.E.S. No. 87; the said road traverses in an easterly and northerly direction over and across said Tract 37; the centerline of the road leaves Tract 37 approximately 2 chains S. 01°52'E., of corner No. 9 of Tract 37.

Provided, that if for a period of 5 years, the United States or its assigns, shall cease to use, or preserve for prospective future use, the above road, or any segment thereof, for the purposes reserved, or if at any time the United States of America determines that the road or any segment thereof, is no longer needed for the purposes reserved, the easement traversed thereby shall terminate. In the event of such non-use or of such determination by the United States of America, the United States of America shall furnish to the patentee, its successors or assigns, a statement in recordable form evidencing termination.

The foregoing reservation is in accordance with the provisions of the act of February 28, 1925 (43 Stat. 1090).

IN TESTIMONY WHEREOF, the undersigned authorized officer of the Bureau of Land Management, in accordance with the provisions of the Act of June 17, 1948 (62 Stat. 476), has, in the name of the United States, caused these letters to be made Patent, and the Seal of the Bureau to be hereunto affixed.

NOTICE OF APPLICATION
FOR WATER PERMIT

Notice is hereby given that Cache Valley Council, Boy Scouts of America, 199 Pioneer Avenue, Box 600, Logan, Utah, has on 6-28-72 submitted Application No. **13-7031** for a permit to appropriate 2.0 cubic feet per second of water from Carter Creek, tributary to Cub River by means of headbox and pipeline within the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 34, T. 14S, R. 41E, B.M. (unsurveyed), Franklin County; to be used from Jan. 1 to Dec. 31 for domestic purposes for 600 campers (0.40 c.f.s.), from Nov. 1 to Mar. 31 for diversion to storage for recreation (2.0 c.f.s.), and from Jan. 1 to Dec. 31 for storage for recreation (40 A-F), all uses within H.E.S. No. 87 and Land Patent No. 11-71-0116, (Sec. 34, T. 14S, R. 41E, B.M., unsurveyed).

If issued, this permit will be subject to all prior water rights. Protests against the granting of this permit must be filed with the Idaho Department of Water Administration, 240 South Holmes, Idaho Falls, Idaho, 83401, on or before July 24, 1972.

Dear Mr. Watkins:

We are returning your Application for Permit to appropriate water from Carter Creek (Spring), as we find that the information is insufficient to allow us to process it.

If you can arrange to visit this office, we would be most happy to help you with the water right problems involved with your development project. Enclosed is a booklet entitled "Guide to Idaho Water Users", and an instruction sheet for filing an application. These will be helpful to you if you are unable to visit this office.

Before we can give you any assistance, we would need to know at least the following information:

1. The maximum number of scouts expected at the camp at one time.
2. The number of staff families and other personnel.
3. The approximate area and depth of the reservoir.
4. The acreage to be irrigated and its location to the nearest 40-acre subdivision.

It may also be possible that you do not want an application for a new permit, but may wish only to transfer the existing water right that you listed. This is a subject worth exploring, because many new applications which are tributary to the Cub River have been protested.

This office would not be able to provide you with design information for the dam, other than that of general nature as listed in the enclosed booklet. We are required by State law to only review plans that have been prepared by a professional engineer for dams at least 20 feet in height or impounding a reservoir of at least 100 acre

feet or more. For dams smaller than this, it is not necessary to submit plans and pay fees, but it is necessary to provide this office with information on the physical details of the dam. The necessary forms for doing this are enclosed.

If you have any questions, please do not hesitate to contact this office.

Very truly yours,

Dear Mr. Young:

I am enclosing the signed copies of an application of transfer of water right, and an application for a permit for a reservoir along with the necessary fees to cover the cost of processing these applications.

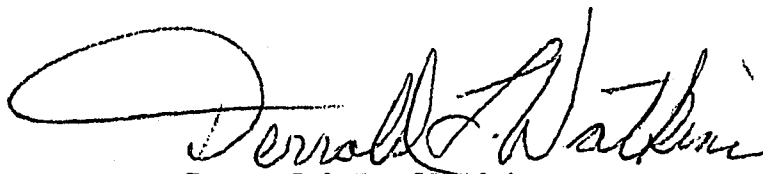

I would appreciate it very much if you would review these applications carefully, and make any adjustments you feel appropriate based upon our recent conservation in your office a few days ago.

On the application for transfer I have included a land description of the original homestead entry survey #87, and a copy of the land patent #11-71-0116 which we received from the United States Forest Service. Also included is a camp development lay-out map showing the approximate location of troop sites, road ways, water lines, and proposed reservoir. Also included are the lower troop sites which will be included as a part of the irrigation program of H.E.S. #87.

I have attached a similar map on the application for permit, to show the camp lay out including the proposed reservoir. The detailed plans for the reservoir will be prepared under the direction of Wendell Smith, Consulting Engineer of Preston, Idaho.

I certainly appreciate the help you have given to us with this application. If additional information is needed, please call me collect.

One of the conditions of approval of your water Permit No. 13-7031 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

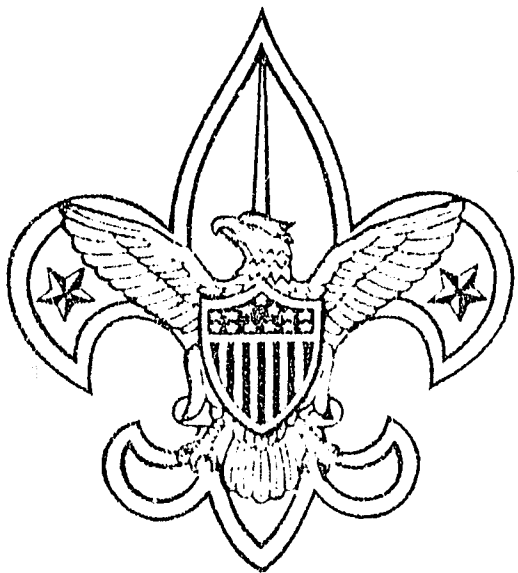

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

With due concern for water permit #13-7031 and the approval date of November 1, 1977, we are requesting an extension of time.

We thought we could have the project completed and the formal report ready for November 1. However, due to construction delays, we find ourselves at about 70% completion.

We thus turn to you with a request for an extension of time for permit #13-7031.

Very sincerely,

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 13-7031

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows:

"The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition is less restrictive and provides you the option to install an access port or have your system measured and certified by a professional engineer. Instructions for access port installation are also enclosed.

If you have questions regarding this matter, please contact the regional office nearest to you.

License of Water Right No. 13-7031 Priority June 28, 1972 Amount 0.31 cfs

THIS IS TO CERTIFY, that Cache Valley Council, Boy Scouts of America
of Logan, Utah, has complied with the terms and conditions of Permit
No. 13-7031 issued pursuant to Application for Permit dated June 28, 1972,
and has submitted proof to the Department of Water Resources on October 20, 1982,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.31 cfs of water from springs,
tributary to Carter Creek, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Domestic	from January 1 to December 31	at 0.27 cfs and	32.6 acre feet
Recreation	from January 1 to December 31	at N/A cfs and	5.5 acre feet
Storage	from November 1 to March 31	at 0.31 cfs and	5.5 acre feet

(both dates inclusive)

Subject, however, to the condition that no more than 0.31 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
38.1 acre feet per year, said waters to be diverted within the (2 Points) SE $\frac{1}{4}$ NE $\frac{1}{4}$,

CONDITIONS OF APPROVAL

a. Modifications to or variance from this license must be made within the limits of Section 42-222, **Idaho Code**, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.

c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.
