RE: Application for Permit No. 13-7094

Mr. Kirk Paskins
Star Route
Preston, ID 83263

Dear Mr. Paskins:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 13-7094. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required. (Section 42-202, Idaho Code)

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Very truly yours,

APPLICATION FOR WATER PERMIT

TO: IDAHO DEPARTMENT OF WATER RESOURCES

Strongarm Reservoir Irrigation District as protestant states
as follows:

1. The name and address of protestant is Strongarm Reservoir Irrigation District, c/o Joseph C. Hedin, President, Route #3, Preston, Idaho, 83266.

2. The Application protested is No. 13-7094 made by Kirk Paskins, Star Route, Preston, Idaho, for a permit to appropriate 0.06 cu. feet per second of water from an unnamed spring tributary of sinks by means of pump and holding tank within the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 36, T. 13S, R. 39 E, B.M., Franklin County, Idaho.

3. The objections to the approval of such application are as follows:

A. The unnamed spring is in fact a tributary to Battle Creek.

B. Strongarm Reservoir Irrigation District has a decreed water right to the waters of Battle Creek and all its tributaries.

C. That there are no waters of Battle Creek or any of its tributaries, including the waters to which said application is claimed to apply, which are not now adversely held and already covered by existing rights.

D. That the applicant has attempted to alter the course of a branch of Battle Creek so that the water naturally in said creek flows passed the claimed point of diversion and any diversion at that point would amount to diverting and using water necessary to fill the decreed rights of protestant.

Dear Mr. Hedin:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

IN THE MATTER OF PROTEST AGAINST
APPLICATION FOR PERMIT NO. 13-7094
IN THE NAME OF KIRK PASKINS

CONFERENCE MEMORANDUM

On July 8, 1975, a conference was held in Preston, Idaho to consider the protest filed against the granting of this permit. The applicant was present and represented by J. D. Williams, Attorney at Law. Joe Hedin and Robert E. Lindhardt of Strongarm Reservoir Irrigation District were present and represented by Robert M. Kerr, Attorney at Law.

Upon reviewing this application, the protestants agreed that the water used from this spring for domestic purposes would have no significant effect on their water right. It was agreed that if the applicant would eliminate the two acres that he had requested to irrigate from this source from his application, the protestants would then withdraw their protest. The application was amended and Robert M. Kerr, attorney for the protestants, agreed to prepare an appropriate document to withdraw their protest and submit it to this office.

WITHDRAWAL OF PROTEST TO
APPLICATION FOR WATER PERMIT

NO. 13-7094

TO: IDAHO DEPARTMENT OF WATER RESOURCES
1515 Lincoln Road
Idaho Falls, Idaho 83401

Comes now Strongarm Reservoir Irrigation District, which formerly filed a protest to application No. 13-7094 made by Kirk Paskins of Star Route, Preston, Idaho, for a permit to appropriate water from an unnamed spring and states as follows:

1. On July 8, 1975, the Applicant amended the Application for Permit to eliminate the principal objections made by protest and limit the use to domestic and livestock purposes including one-half acre of irrigation.

2. Protestant is informed that the unnamed spring is identified as one located in the vicinity of and Southwesterly of the residence of the applicant.

3. Strongarm Reservoir Irrigation District now formally withdraws its protest to the application as so amended.

4. By withdrawing this protest to the application as amended and limited to domestic water from the little unnamed spring, protestant takes the position that the reference to irrigation water, other than the half acre included in domestic use, is no longer relevant to the application. Protestant desires that it be clearly understood as a matter of record with reference to said application that protestant vigorously disputes any rights applicant may claim to other irrigation rights including the statements in paragraph 8 C and 10 of the application as amended.

Dear Mr. Paskins:

One of the conditions of approval of your water Permit No. 13-7094 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
