IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 13-7129

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

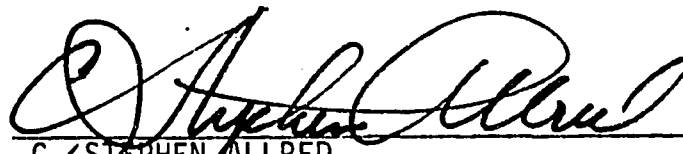

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

WHEREAS, on April 15, 1976, the Department approved said application and issued Permit No. 13-7129 with the condition that proof of construction of works and application of water to beneficial use be submitted on or before April 1, 1981; and,

WHEREAS, on January 31, 1981, the Department notified the permit holders by certified mail that proof was due and instructed the permit holders as to the steps to be taken to make said proof; and,

WHEREAS, on April 21, 1981, the Department notified the permit holders that Permit No. 13-7129 had lapsed for failure of the permit holders to submit proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days from the date of the notice of lapsing; and,

WHEREAS, the permit holders have provided a reasonable showing as to why said permit should be reinstated by submitting proof of beneficial use on April 30, 1981;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 13-7129 be REINSTATED and the priority advanced to April 10, 1976.

Gentlemen:

On April 30, 1981, this office received your statement of beneficial use card. We note from the card that you have completed development of a water system for irrigation of 90 acres.

We note that you requested on the card that the measuring device requirement be deleted. If we entirely remove the requirement the quantification of your right by our field examiner is difficult. Therefore, we direct your attention to an alternate measuring option - installation of an access port. The port, as described on the enclosed instructions, enables our examiners to quickly and easily measure your system at little cost to you.

Please install an access port on the mainline diverting from the drain per the instructions. When this has been completed, please contact a field examiner in our Eastern Region Office located at 150 Shoup, Idaho Falls. Personnel in the office will be happy to arrange a mutually acceptable time for the examination.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, R. Keith Higginson, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 13-07129 with the following;

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
