APPLICATION NO. 13-7174 :
:

COMES NOW the protestant UTAH POWER & LIGHT COMPANY (Utah Power) and protests the Application of Von O. Noyes.

1. Utah Power holds Water Rights decreed in the matter of Utah Power & Light Company vs. The Last Chance Canal Company, Limited, et al, In Equity No. 203, July 14, 1920, and Utah Power & Light Company vs. Richmond Irrigation Company, et al, February 21, 1922, as well as other rights in the Bear River.

2. The Bear River below Stewart Dam is fully appropriated.

3. Von O. Noyes filed an Application with the Office of the Idaho Department of Water Resources numbered 13-7174 seeking to appropriate 0.60 cubic feet per second of water at points of diversion specified in said Application.

4. The granting of the Application of Von O. Noyes for the appropriation of 0.60 cubic feet per second of water would adversely affect the aforementioned water rights of Utah Power & Light Company.

WHEREFORE, protestant prays that the Application of Von O. Noyes be denied inasmuch as there is no unappropriated water in the proposed source and the proposed use will impair existing rights.

RE: Application for Permit No. 13-7174 VON O. NOYES

Mr. Owen Casperson
Rt. #3, Box 33
Preston, Idaho 83263

Dear Mr. Casperson:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Dear Mr. Noyes:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 13-7174. You should be aware that the following are the principal items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 41-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

Gentlemen:

Upon an examination of the application which we submitted on behalf of Mr. Von O. Noyes, we would like to make amendments as indicated herein.

The place of use on page three of the application should be altered as indicated on the enclosed map of the proposed project. Page two of the application also needs to be changed to show the thirty acres being located in the SE1/4NW1/4 of Section 9, instead of the NE1/4SW1/4 of Section 9.

If you have any questions regarding these corrections, please feel free to contact me.

Dear Mr. Castleton:

On June 20, 1977, the Department received your letter requesting that application for permit 13-7174 be amended.

Since a tentative hearing date of July 21, 1977, has been set it would be impossible for us to complete processing of an amended application within this time frame. Therefore, we suggest you request the application be amended, changing the place of use, during the hearing. At this time we can then commence processing of the amended application.

Please find enclosed copies of the protests filed against the above referenced application. You should also be receiving a notice of hearing schedule shortly.

AND/OR HEARING

On May 2, 1977, Von O. Noyes, Preston, Idaho, filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On May 25, 1977, the Department received a protest from Owen Casperson. On May 31, 1977, an additional protest against said application was received from Utah Power and Light Company.

The Department has set the matter of protest for conference and/or hearing for Thursday, July 21, 1977, at 9:00 a.m., in the Courtroom of the Franklin County Courthouse, Preston, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 1st day of July, 1977.

Dear Mr. Carlson:

Enclosed please find Withdrawals of Protest concerning ground water applications previously filed with your Department. With regard to applications for other than ground water, I agree with your language in your June 16, 1977 letter in which you state, "If water is available, the statutes require the Department to issue a permit. If it is not available, then the permit must be denied or approved with conditions to protect prior existing water rights." I don't think there is any question but that the Bear River is fully appropriated and that there is no water which could be the subject of a new permit. As support for this conclusion, I would refer you to the Watermaster's Report on Flow and Diversion for Idaho District II. If you wish us to supply you with this report, we will be pleased to do so. In light of the above, we would respectfully submit that applications for surface water in the subject area be denied.

Thank you for your cooperation in this matter.

NOTICE OF AMENDED APPLICATION FOR PERMIT

Notice is hereby given that Application for Permit No. 13-7174 in the name of Von O. Noyes was filed for the diversion of 0.60 c.f.s. of water from a spring with point of diversion within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 9, T. 15S, R. 39E, B.M., Franklin County; to be used from Apr. 1 to Nov. 1 for the irrigation of 30 acres within the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 9, T. 15S, R. 39E, B.M.

The applicant now proposes to amend Application No. 13-7174 changing the place of use to the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 9, T. 15S, R. 39E, B.M.

Any protest to the proposed amending of the application must be filed with the Idaho Department of Water Resources, 1515 Lincoln Road, Idaho Falls, Idaho, on or before August 22, 1977.

RE: Pre-Permit Exam of Application for Permit No. 13-7174
DATE: May 9, 1978

In conducting this pre-permit examination, the proposed development was discussed with Von Noyes, the applicant. Mr. Noyes stated the springs being filed on were not normally tributary to the Bear River. To his knowledge water from the drainages in which springs are located reached the Bear River only during that period of spring runoff when flow in river is itself high. Water originating from springs during the remainder of the irrigation season sank at the base of the bluff as it flowed onto the proposed place of use. He further indicated it was his desire to appropriate water from three separate springs, all located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 9, T. 15S, R. 39E. This water would be piped to a cement lined storage reservoir with a volume of less than one acre foot. The reservoir will function to regulate flow and to keep fields below reservoir dry; the overflow will be piped into the Bear River.

Examination of the proposed points of diversion revealed the springs are located just below the rim of the bluff which borders the southern edge of the proposed place of use. Water from the springs flows down the face of the bluff onto portions of the proposed place of use. The soil is very porous due to high sand content and the water sinks before reaching the river.

It is this agent's observation that water to be appropriated under this permit is private and construction of the proposed project will result in additional water reaching the river in the form of overflow.

Based on these findings, the Department should consider approval of this application.

License of Water Right No. 13-7174 Priority May 2, 1977 Amount 0.22 cfs

THIS IS TO CERTIFY, that Von O. Hoyer
of Preston, Idaho, has complied with the terms and conditions of Permit
No. 13-7174 issued pursuant to Application for Permit dated May 2, 1977
and has submitted proof to the Department of Water Resources on May 29, 1980
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.22 cfs of water from spring
tributary to sinks, and that the permit holder has applied to a beneficial use and
established a right to use water as follows

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>November 1</u>	at <u>0.22</u> cfs and	<u>49.0</u> acre feet
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 0.22 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
49.0 acre feet per year, said waters to be diverted within the NE1/4SW1/4, Section 9, Twp.

RE: Permit No. 13-7174

Von O. Noyes
323 N. 8th W.
Preston, ID 83263

Dear Mr. Noyes:

A representative of this Department made an examination of the works covered by your Permit No. 13-7174 and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.22 ~~cfs~~ Source: spring

The maximum quantity diverted shall not exceed 49.0 acre feet
per year.

Point of diversion: NE $\frac{1}{4}$ Sec. 9, Twp. 15S, Rge. 39E, Franklin County

Beneficial use: Irrigation of 14 acres within the SE $\frac{1}{4}$ Sec. 9, Twp. 15S,
Rge. 39E

Priority date established: May 2, 1977

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

RE: Permit No. 13-7174

Von O. Hoyer
323 N. 8th W.
Preston, ID 83263

Dear Mr. Hoyer:

On January 18, 1982, we forwarded an amendment to you to be completed to amend this permit to correspond with the findings of the field examiner so that we could issue this license.

As of this date, we have not received this amendment. If we do not receive this amendment within fifteen (15) days, we will assume you no longer have any interest in this permit and cancellation proceedings will begin.

If you have any questions, please contact us.

Sincerely,

JIM JOHNSON
