(Franklin County)

Gentlemen:

We have reviewed the subject application for a permit to appropriate the public waters of the State of Idaho.

By definition, a public water supply is a supply for ten or more individuals and, therefore, the facility proposed does not qualify; however, if the number of connections are increased to exceed ten or more, then the plans and specifications for the facility must be submitted to our Department for review and approval prior to construction. The supply would then be required to meet the minimum standards for water quality, maintenance and operation, monitoring, and minimum construction for the facility.

If you have any questions, please do not hesitate to contact our office.

Yours very truly,

Henry L. Moran, P.E.

Dear Permit Holder:

On June 5, 1986, we forwarded to you an Amendment for Water Permit so that you could amend your permit to correspond with the findings of the Department's field examiner.

As of this date, we have not received this amendment.

If we do not receive the amendment within fifteen (15) days, we will issue a Water Right License which reduces the amount that could have been allowable to you.

Since the license will be a permanent water right your prompt attention to this matter will be appreciated.

If you have any questions please contact us as soon as possible.

Sincerely,

JIM JOHNSON
Water Rights Supervisor
