D. WARRICK)	PROPOSED DECISION

A. Kenneth Dunn, Director of the Department of Water Resources, having reviewed the attached proposed decision prepared by his appointee, Bobby D. Fleenor, who conducted the hearing or who has read the record in this case, hereby approves the same as a proposal for decision pursuant to Idaho Code, § 67-5211 and orders that said proposed decision and a copy of this order be served upon each of the parties to these proceedings who appeared at the hearing on September 15, 1981, of this matter or upon their attorneys in accordance with Rule 7.3 of the Rules of Practice and Procedure of this Department.

Each party to these proceedings who appeared at the hearing is hereby afforded the opportunity, pursuant to Idaho Code §§ 42-1701A and 67-5211, to file exceptions to the attached proposed decision and to present briefs and oral arguments in accordance with the provisions of this order. Exceptions may not be filed and briefs and oral arguments may not be presented by parties who did not appear at the hearing of this case. If no timely and proper exceptions are received, an order by the Director will be entered adopting and issuing the proposed decision as his final decision.

I.
EXCEPTIONS

A. To be considered by the Director, exceptions must:

1. be received by the Director on or before the 15th day following the day of service of this Order and the proposed decision, and
2. specifically identify the portions of the proposed decision to which exceptions are made and specifically state the grounds for those exceptions.

B. Exceptions not in compliance with the above stated requirements will not be considered and will be deemed an acceptance of the proposed decision.

II.
BRIEFS

A. Any briefs in support of exceptions to the proposed decision shall be filed with the Director at the same time that party's exceptions are filed with the Director.

B. Any party desiring to file a brief in response to any exceptions filed by any other party may do so by filing such brief with the Director on or before the 15th day following the last day any exceptions by any other party were served upon that party desiring to respond.

III.
ORAL ARGUMENTS

A. No oral arguments before the Director on the proposed decision will be held unless specifically requested by a party filing exceptions to the proposed decision and unless that request is filed with the Director concurrently with the filing of that party's exceptions.

B. If oral arguments have been properly requested by a party filing exceptions, any other party, upon reasonable notice to the Director, shall have the right to present oral arguments in response to the exceptions filed.

C. Oral arguments before the Director on exceptions to the proposal for decision shall be heard at the discretion of the Director, pursuant to Idaho Code § 42-1701A. After all exceptions, briefs and requests for oral arguments have been received, the Director will decide whether to hear oral arguments. If oral arguments are to be heard, the Director will, within a reasonable time, set the case for oral arguments and notify each party of the place, date and hour the oral arguments will take place and of the period of time allocated for the arguments of this case. Unless the Director orders otherwise, all oral arguments shall be heard in Boise, Idaho.

IV.
CERTIFICATION OF SERVICE

A. All exceptions, briefs, requests for oral arguments and other matters filed with the Director in connection with the proposed decision shall be served on all other parties to these proceedings in accordance with Rule 7.2.

V.
FINAL DECISION

A. Following the submission of all exceptions and briefs and oral arguments, if they are heard, the Director shall issue a final decision adopting, modifying or rejecting and replacing the proposed decision. Copies of the decision and order shall be served on all parties.

PERMIT NO. 13-7345 IN THE NAME OF LAVERN)

PROPOSED
MEMORANDUM DECISION
AND ORDER

On May 22, 1981, Lavern Talbot, Ivan Talbot, and D. Warrick filed with the Department of Water Resources Application No. 13-7345 for a permit to appropriate 0.06 cubic feet per second from an unnamed spring tributary of Battle Creek. This water would be diverted in the SW1/4NE1/4, Sec. 5, Twp. 15S, Rge. 39E, B.M., Franklin County; and was used to provide domestic water on a year-around basis for three homes in the SE1/4NW1/4, Sec. 5, Twp. 15S, Rge. 39E.

Notice of this application was published in the Preston Citizen, Preston, Idaho, on June 4 and 11, 1981 and was subsequently protested on June 18, 1981 by Ivan Jorgensen. The issue raised was that the proposed appropriation would interfere with existing water rights.

On July 16, 1981, the applicants amended Application No. 13-7345 increasing the quantity of water to be appropriated to 0.20 cubic feet per second for domestic water in seven homes located in the SW1/4NW1/4, Sec. 4, Twp. 15S, Rge. 39E, B.M.

Notice of the amended application was also published in the Preston Citizen, Preston, Idaho on August 13 and 20, 1981. On August 28, 1981, the Idaho Department of Water Resources received another letter from Ivan Jorgensen reaffirming his protest against the appropriation of any water from the unnamed spring.

A conference to consider this matter was conducted by the Idaho Department of Water Resources on September 15, 1981 in Preston, Idaho. The applicants, Lavern Talbot, Ivan M. Talbot, and Devon Warrick were present and represented themselves. Ivan Jorgensen, the protestant, was also present and represented himself.

During the conference, it was revealed that the spring in question is approximately 600 feet from Battle Creek and during most of a normal year, does not have sufficient flow to reach the creek. Mr. Ivan Jorgensen, protestant, stated he was the holder of a 1886 right out of Battle Creek for 0.50 cubic feet per second used to irrigate 25 acres. He indicated that in previous years, he

has had to supplement this right with water from the West Cache Canal. At the conclusion of the conference, it was agreed the Idaho Department of Water Resources should reach a decision based on the information presented and with information provided from a field examination to be conducted by the Idaho Department of Water Resources.

On April 22, 1982, an on-site inspection of the proposed source was conducted. This inspection revealed the spring was still undeveloped and there were no diversions between it and Battle Creek. Measurements taken with a pygmy meter indicated the spring was producing 0.14 cubic foot per second while Battle Creek was flowing in excess of 17.0 cubic feet per second.

The Hearing Officer having reviewed information presented at the conference and contained in the official records of the Department, along with the data collected during the field inspection, and based upon his understanding of the law proposes the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

1. The property at the proposed point of diversion is owned by Ivan H. Talbot and Lavern C. Talbot.
2. The protestant, Ivan Jorgensen, holds a portion of right No. 11-0878 decreed in the case of Utah Power and Light -vs- Last Chance Canal Company, dated July 14, 1920. This right originally decreed to William H. Carter with a priority of June 14, 1886, authorizes diversion of 0.50 cubic feet per second from Battle Creek in Sec. 4, Twp. 15S., Rge. 39E for the irrigation of 25 acres in the NW1/4NW1/4, Sec. 9, and the SW1/4, Sec. 4, Twp. 15S, Rge. 39E.
3. There are no other users of the unnamed spring until after it flows into Battle Creek.
4. The proposed source is not a major contributor to the flow of Battle Creek and is not a tributary during the summer months of the year.
5. A diversion rate of 0.12 cubic feet per second has been determined by the Department as an adequate rate of diversion necessary to provide domestic water for seven households.
6. Battle Creek and its tributaries are located in Water District 11-J, which is presently inactive.

CONCLUSIONS OF LAW

1. There is sufficient water at the proposed source to satisfy the

intended use.

2. When natural flow from the unnamed spring is sufficient to reach Battle Creek, diversion of water from the spring would be subject to control by the watermaster of Water District 11-J.

3. Diversion of water from the unnamed spring is not expected to reduce the amount of water available to fill the protestant's water right from Battle Creek but if the water from the unnamed spring would, if undiverted, reach Battle Creek during the time any prior water right, including that of the protestant, is not satisfied the diversion under this permit must cease.

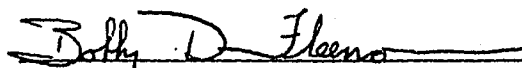

4. The applicants are entitled to a permit from the Idaho Department of Water Resources.

ORDER

IT IS, THEREFORE, HEREBY ORDERED That Application for Permit No. 13-7345 be and is APPROVED subject to the following conditions:

1. This permit is subject to all prior water rights.
2. Proof of construction of works and application of water to beneficial use shall be submitted on or before the date specified on the Order Adopting the Proposed Memorandum Decision and Order.
3. A lockable device subject to the approval of the Department shall be installed on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
4. Use of water under this permit is subject to the control by the watermaster of Water District 11-J, Battle Creek.
5. The rate of diversion under this permit shall not exceed 0.12 cubic feet per second.
6. The permit holders shall commence the excavation or construction of the diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Dated this 30 day of November, 1982.

Dear Sirs:

It has been published
in the Preston Citizen that Iwan
+ Lo Vern Talbot along with
Devon Warrick have made an
application for a water right on
a spring. (13-7345) Legal N.
137534L.

This spring has been
filed on as it runs into
Battle Creek in which I have
1/2" water right for 29 minor
inches. I purchased this water
right 20 years ago along with
the farm from Ernest Carter
who lived here and had

first. water right for a
good number of years.
Please advise as to my
next step and standing
Thank-you.

Ivan M. Jorgensen
Rt. #3, Box 69
Preston, Idaho 83263

Dear Mr. Jorgensen:

Your protest against the approval of the above referenced application has been received and a copy has been sent to the applicant. The Department suggests you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

If this office can be of further assistance, please contact us.

Very truly yours,

RONALD D. CARLSON

NOTICE OF AMENDED APPLICATION FOR WATER PERMIT

NO. 13-7345

Notice is hereby given that Application for Permit No. 13-7345 in the name of Lavern Talbot, Ivan Talbot &/or D. Warrick was filed for the diversion of 0.06 cfs of water from an unnamed spring tributary to Battle Creek, with the point of diversion located within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 5, Twp. 15S, Rge. 39E, Franklin County; to be used from January 1 to December 31 for domestic purposes within the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 5, Twp. 15S, Rge. 39E.

The applicants now propose to amend Application for Permit No. 13-7345, requesting 0.20 cfs of water for domestic purposes within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 4, Twp. 15S, Rge. 39E.

Any protest to the proposed amending of the application must be filed with the Idaho Department of Water Resources, 150 Shoup Ave., Idaho Falls, Idaho, 83402, on or before August 31, 1981.

Rt. 3

Dear Sirs:

Once again I am writing to protest against the filing for water, Permit No. 13-7345, by Ivan & Lavern Talbot and D. Warrick. This is still a decreed water right for Battle Creek, 29 miner inches, that I purchased with my property some years ago. I have sold Devon Warrick some land and along with it 6 miner inches of water from this decree. Now he and his friends are trying to file on more so they can sub-divide 90 acres of property, of which they have already sold 2 places with the promise of water.

I feel that it is not right for the State to take water that is decreed and give it to them for this purpose. I have agreed to let Devon use his water for culinary purposes, but this would leave him with little or no water for the irrigation of his lower place.

My previous letter goes with this protest, and all the statements that were in it stand also. Please advise.

Sincerely,

Ivan Jorgensen

Dear Sirs:

I would like to change my decreed water from irrigation to culinary or domestic use. This would use 6 of the 29 miner inches that I am decreed in Battle Creek.

There are six familys that have poor water here in the river bottoms. Some that have no drinking water at all. At the present time my own well is going dry.

So after giving it some thought and consideration, I feel that if this water is to be used for domestic use the older already established familys here in the river bottoms should be the ones to bebenefit from this water. Thank- you.

Please advise as to the proper way for me to get this set up.

Ivan Jorgensen

IN THE MATTER OF APPLICATION FOR)
PERMIT NO. 13-7345 IN THE NAME)
OF LAVERN TALBOT, IVAN TALBOT,)
&/OR D. WARRICK)

NOTICE OF HEARING
AND/OR CONFERENCE

On May 22, 1981, Lavern Talbot, Ivan Talbot, and D. Warrick filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On June 18, 1981, the Department received a protest against approval of said application from Ivan M. Jorgensen.

The Department has set the matter of protest for hearing for Tuesday, September 15, 1981, at 9:00 a.m. in the basement Meeting Room, Franklin County Courthouse, Preston, Idaho. The hearing will be held in accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved. A pre-hearing conference may be held beginning at the above set time and prior to the hearing.

In accordance with Idaho Code, Section 42-203, the following issues are involved in the consideration of the application and protest(s):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

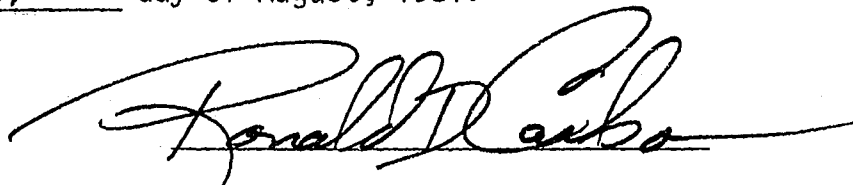

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes at the expense of the requesting party. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

If the hearing is conducted by a hearing officer appointed by the Director, rather than the Director himself, a proposed decision will be submitted to the parties and the parties may be afforded an opportunity to file exceptions to the proposed decision and present briefs and oral arguments to the Director prior to the issuance of a final decision by the Director. This procedure is required by Idaho Code, Section 42-1701A.

The parties by written stipulation may waive their right to a proposed decision, however, the failure of either party to waive a proposed decision will not prejudice the Director's review of a party's evidence and arguments. However, such a waiver will shorten the decision-making process and may expedite substantially the issuance of a final decision. Whether compliance with Section 42-1701A is waived will not affect a party's right to petition for a rehearing of the final decision pursuant to Rule 11 of the Department's Rules of Practice and Procedure or affect a party's right to appeal the final decision to the district court.

Failure to appear at the time and place set for hearing by the applicant or protestant(s) may allow the Department to dismiss without prejudice the protest(s) or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 31st day of August, 1981.

Dear Sirs;

Is this getting Old! I am writing about Case 13-7353, concerning one Steven Edwards filing for water on Battle creek. What he wants to do is dam the creek up, the way it sounds, and isn't there a law against damming up a water way? Also, I remind you that I have a decreed water right on Battle Creek. Please refer to Case 13-7345 and the amended application to that case. All my arguments still stand.

What happened to the decision on the Ivan Talbot case? Case 13-7345. The decision of the water board was to measure the water. We had hoped that this would be done before the fall ~~rain~~ rain and snow, so that there would be a good idea of whether or not the springs could handle my decreed water right and 7 homes. We have never been notified one way or the other. Now a second party, which involves another home plus irrigation, wants Battle Creek water. I think the way to handle this is when we run out of water, we will take the water board to court for damages.

Please inform me of your decision on both Ivan Talbot and Steven Edwards, so if need be I can get me a lawyer. I truly feel there is not enough water for all ~~the~~ of these needs.

Yours truly,

Ivan Jorgensen

REMARKS & OPINIONS: Based on observations I don't feel the spring in question is a major contributor to Battle Creek especially as summer progresses. With storage tank system we can stipulate that overflow system be piped directly back to creek. Domestic demand on 20,000 gallon storage tank should be minimal.

Mr. Jorgensen's Decreed right of 29(?) inches should not be in jeopardy with the domestic system as outlined.

Development of spring might even ~~enhance~~ enhance flow to creek.

Dear Mr. and Ms. Talbot and Mr. Warrick:

Re: Application for permit No. 13-7345

Enclosed is a copy of the approved Application for Permit No. 13-7345 along with a copy of the Proposed Memorandum Decision and Order and a copy of the Order Adopting the Proposal for Decision. We direct your attention to the conditions of approval as set forth in the Proposed Memorandum Decision and Order.

Be sure to note the special condition requiring you to install and maintain a lockable device at the point of diversion in a manner that will provide the watermaster suitable control of the diversion.

Any person who does not agree with the decision of the department may request a rehearing before the director within twenty days or may appeal directly to the district court within thirty days of the date the decision is mailed.

Sincerely,

PROOF DUE NOTICE

RE: Permit No. 13-7345

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1987. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK

LAPSE NOTICE

RE: Permit No. 13-7345

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218a, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper forms in our proof due notice to you dated September 30, 1987.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this Department within sixty days of the date of mailing of this lapse notice.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

Gentlemen:

Re: Permit No. 13-7345

Returned is the proof of beneficial use form submitted to this office on January 22, 1988 and again on February 29, 1988.

In my letter to you of February 8, 1988, I asked you to complete the proof form by writing in the amount of water being used and, if necessary, return the proof with a fee. Your proof form now indicates that you are using 25 inches or about 0.5 cfs. The permit was issued for the use of only 0.12 cfs. Since a license cannot be issued for an amount greater than the permit was applied for, the total amount of diversion authorized under this permit is 0.12 cfs for which a fee is required with the proof submittal. Please return the proof and \$50 fee soon if you wish to have this permit reinstated.

If you have any questions concerning this matter, please feel free to contact me.

Sincerely,

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, Karl J. Dreher, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 13-07345 with the following;

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
6. Use of water under this water right will be regulated by the watermaster of State Water District No. 13L.
7. Domestic use is for 4 homes.

Witness my hand this _____ day of _____, 19____.

RE: WATER RIGHT NO. 13-07345

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return it with the \$50 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen

RE: Water Right No. 13-07345

Dear Mr. Warrick:

Thank you for calling this afternoon to inquire about water right permit 13-07345, which was issued to you in 1982 for domestic use of water from a spring. As we discussed, the Department of Water Resources is preparing to license your water right. Issuing a license is the last step in the water appropriation process. A license serves as recognition that you have met all the requirements for establishing a water right.

When your permit was issued in 1982, the authorized place of use, which was based on information you provided, was the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 4, Township 15 South, Range 39 East. The Department's field examiner, who met with Mr. Ivan Talbot in February of 1995 to inspect your water development, reported that one of the four homes on the system is located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 4 and one is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 4. I have enclosed a copy of the examiner's map showing his findings.

The Department cannot issue a license with a place of use description that exceeds what was authorized on your permit. Therefore, in my previous letter to you I requested that you amend your permit to match the examiner's findings. Please look over the examiner's map and the amendment form I sent you previously. If you agree with the examiner's findings, please sign the amendment form and return it with the required \$50.00 amendment fee within fourteen days.

If you do not agree with the examiner's findings, or if you have any questions, please contact me at 208-327-7946.

Respectfully,

Shelley Walter Keen

RE: WATER RIGHT NO. 13-07345

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

Sincerely,

Shelley W. Keen
Water Rights Supervisor
