PROOF DUE NOTICE

RE: Permit No. 13-7373

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper forms in our proof due notice to you dated December 31, 1987.

Your permit cannot be reinstated unless you submit the proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal including the examination fee or a completed field examination report or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

Dear Mr. Bennett:

Re: Permit No. 13-7373

Returned is the proof of beneficial use form and check No. 215 (16-4/1220) in the amount of \$15 submitted to this office on April 25, 1988.

I believe that you wish to submit the request for extension of time instead of the proof of beneficial use form. An extension of time would allow you to continue with development of the project as proposed by this permit. Please complete and return the enclosed request form and your \$15 filing fee promptly since the permit lapsed.

Note that if an extension is granted, you will have several more years in which to develop the other nine domestic uses and irrigation. At sometime in the future, a amendment of the permit will be needed to reflect the change from a total of four to nine residences.

If you have any questions concerning this matter, please feel free to contact this office.

MEMORANDUM

TO: File 13-07373 / Douglas L. Bliss
FROM: Brenda Chapman
DATE: November 8, 1994
RE: Recommendation Adjustment

=====

The final licensing recommendations for the above referenced water right are based on the information below:

H. RECOMMENDATIONS

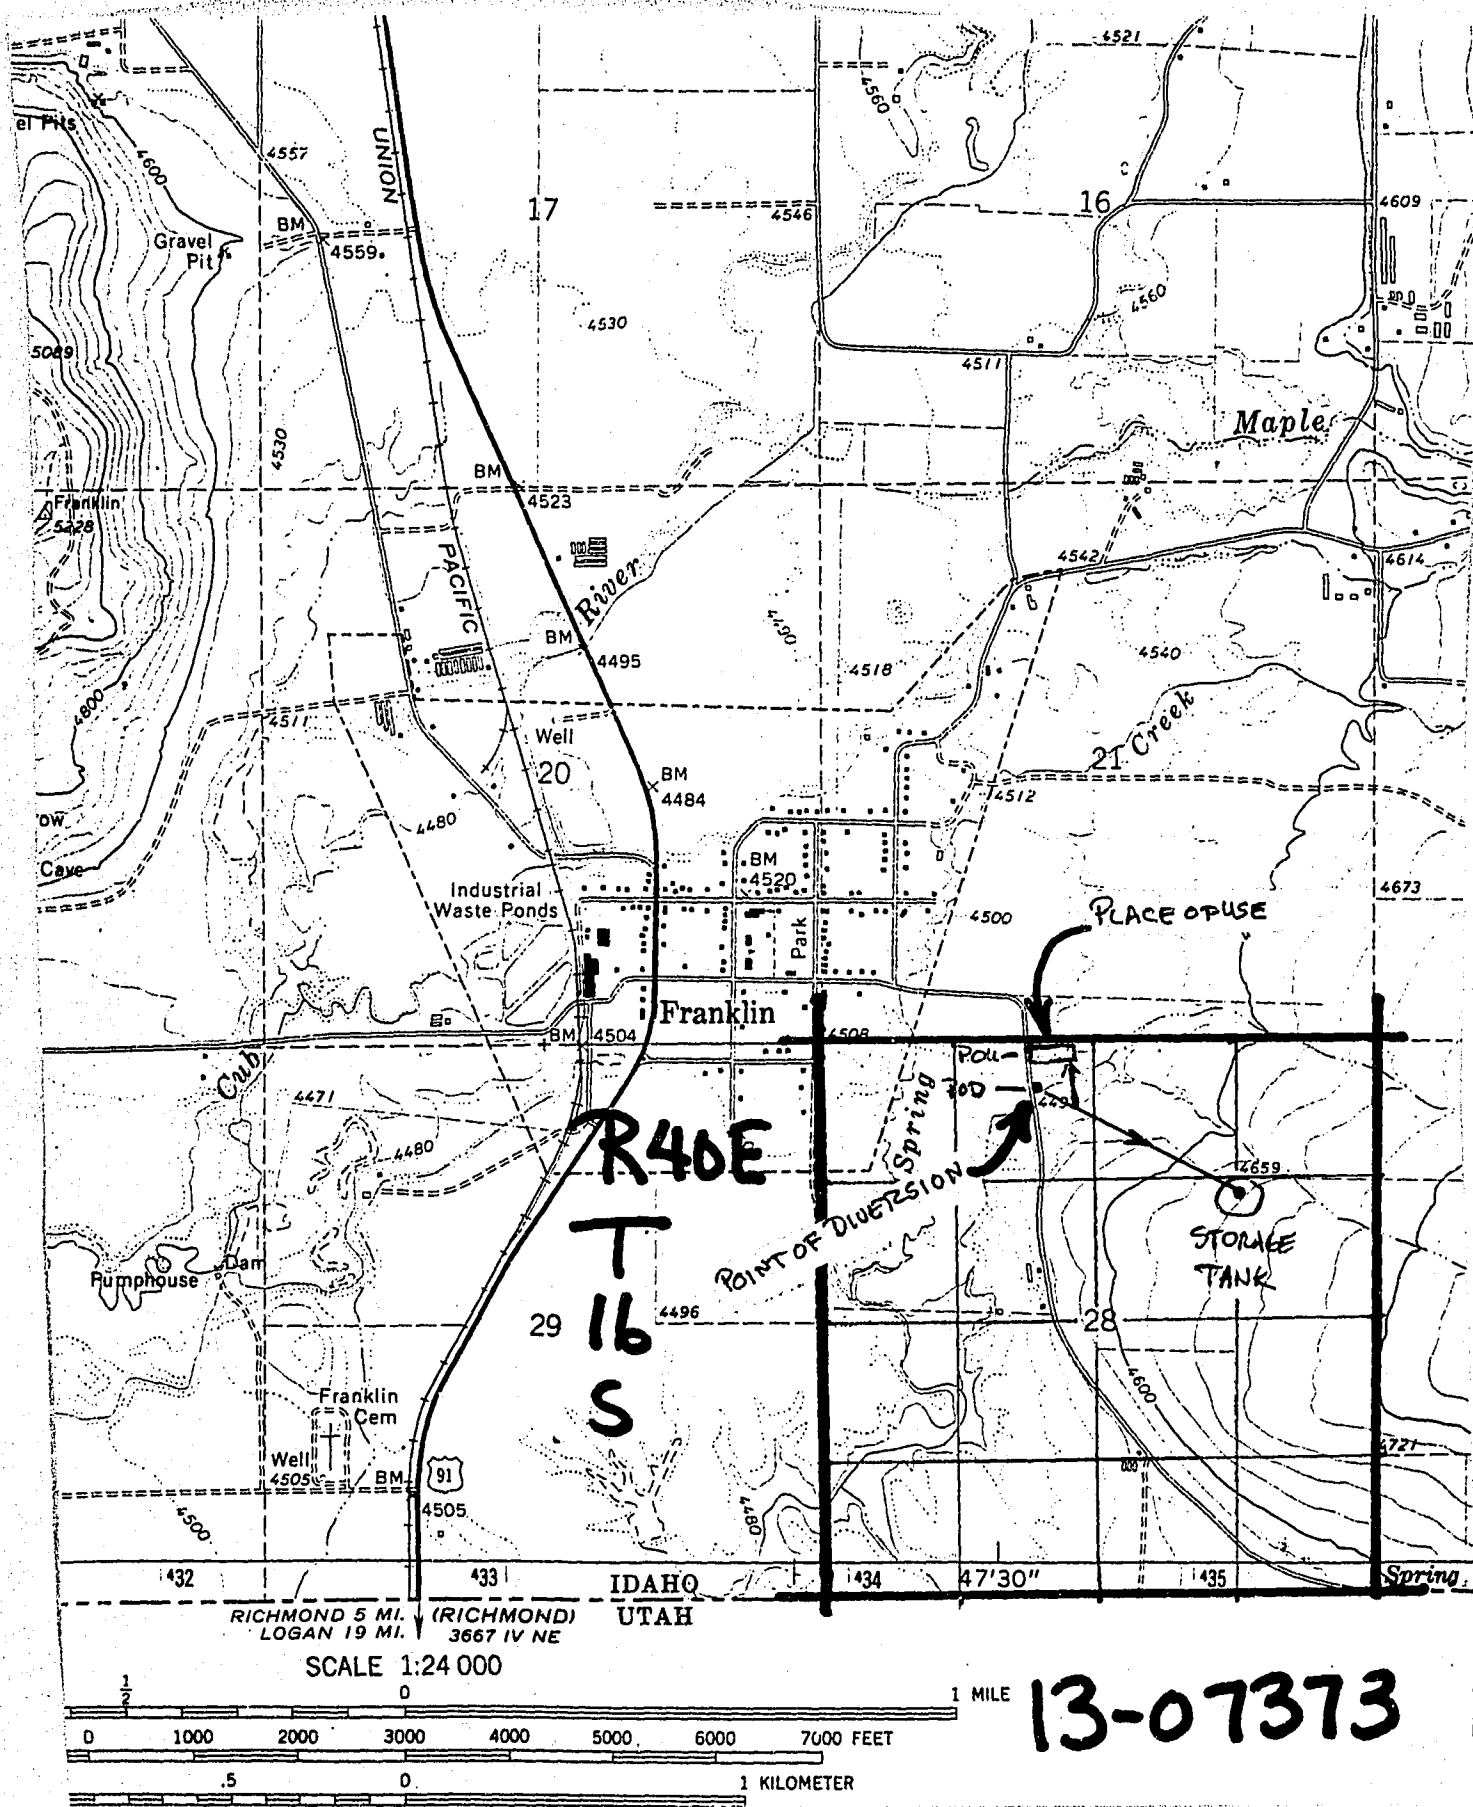

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	4-15 to 10-15	.02	3.5
Domestic	1-01 to 12-31	.02	.6

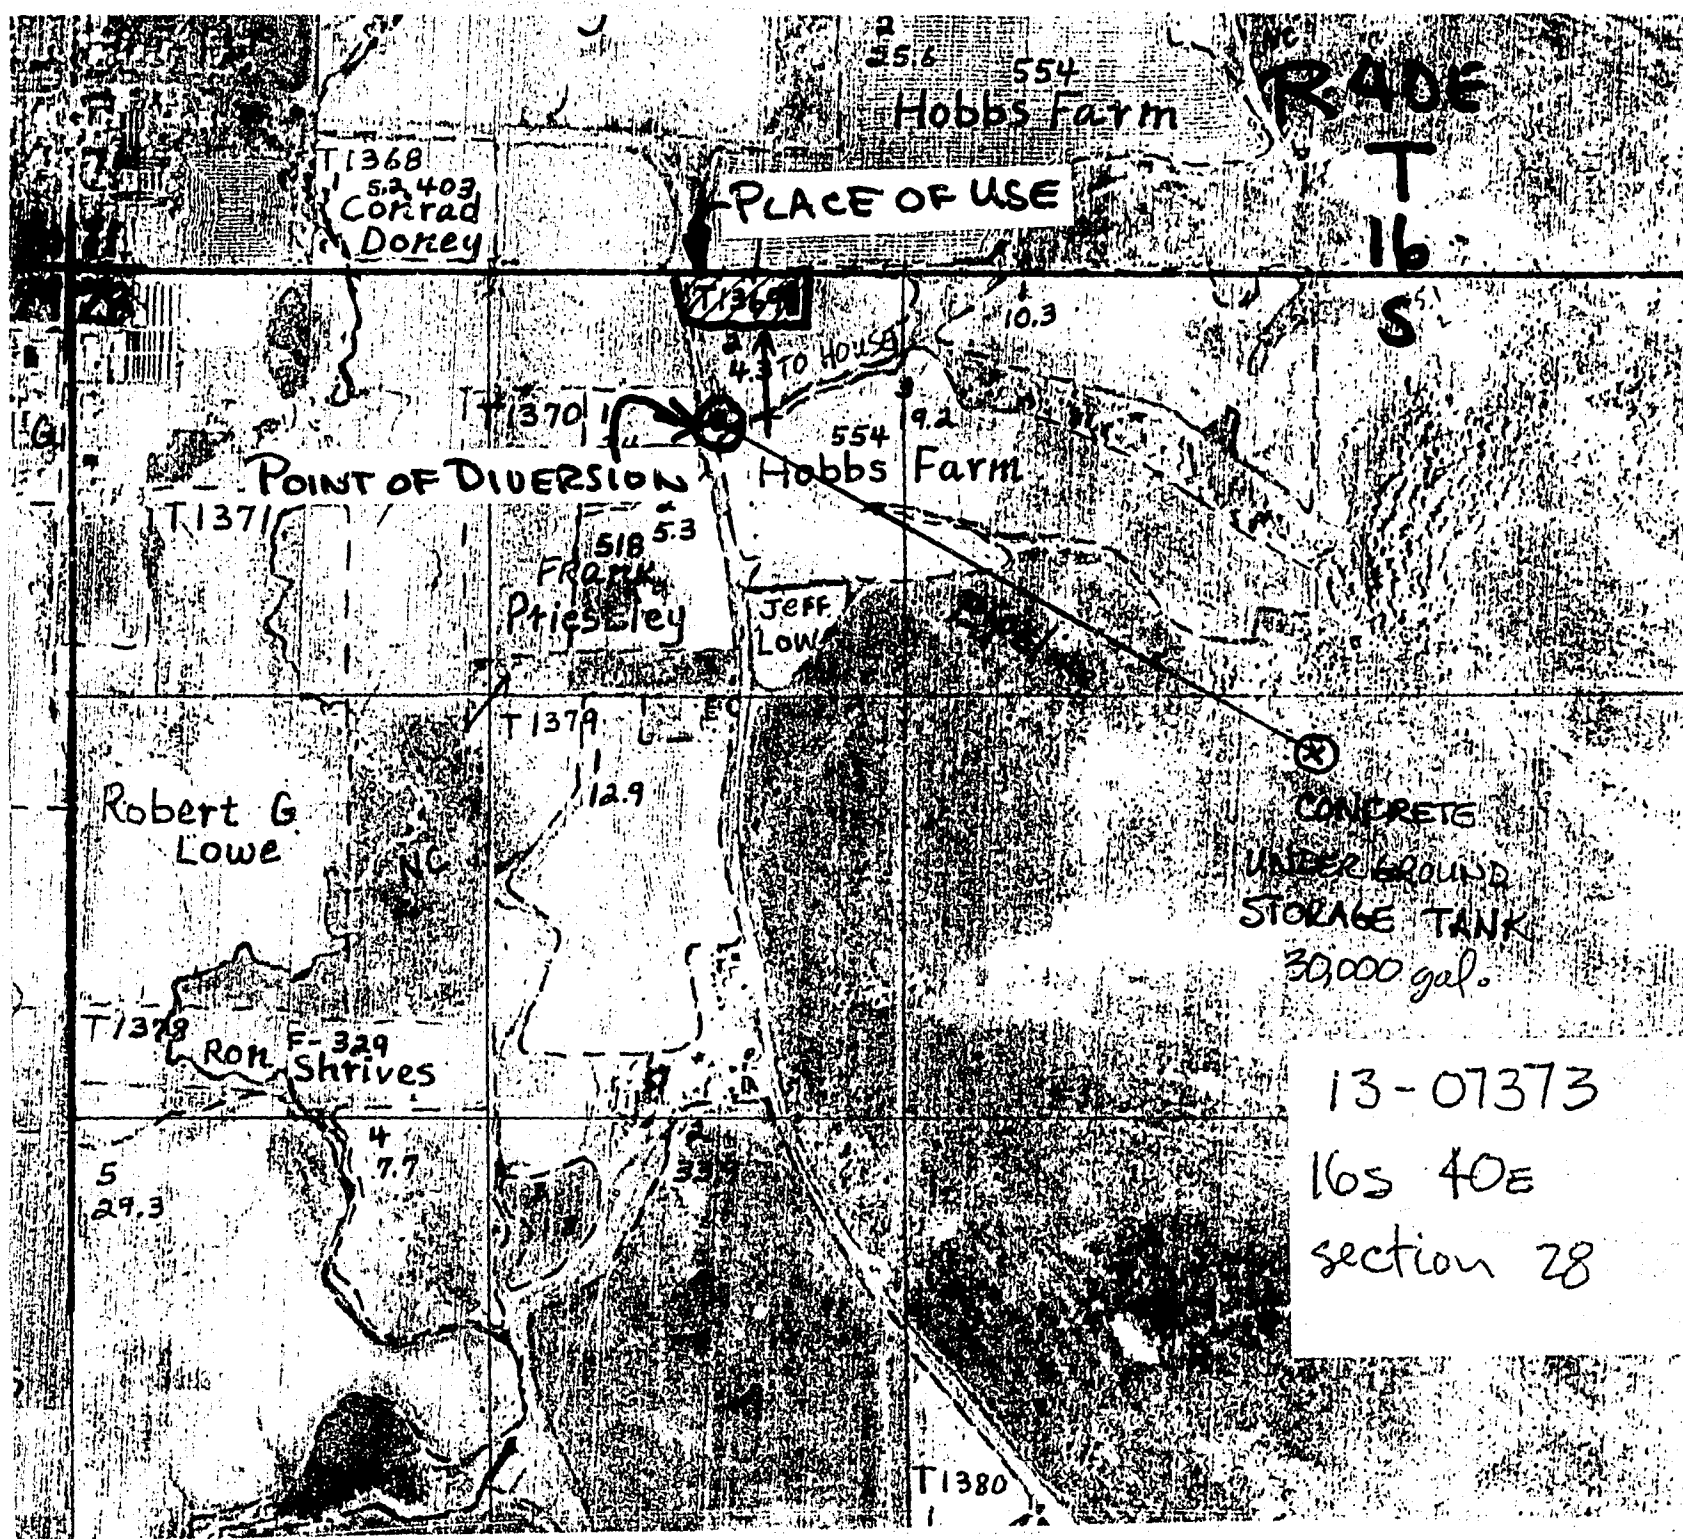

The domestic rate was reduced to coincide with the examiner's recommendation of an in-house only volume rate. This also concurs with the current preferred "in-house use only" for domestics when irrigation and domestic uses are both listed on a right (10/25/94).

NOTE: The B/U form was filed for only .04 cfs and we cannot exceed that amount without soliciting a fee; however, an additional rate is not needed in this situation.

The irrigation season dates were adjusted to the currently used Field Headgate Requirement and Season of Use chart.

RE: License 13-07373

Dear Mrs. Bliss:

Thank you for calling today. As we discussed, I have enclosed some information related to your water right license.

The first page is a photocopy of the approval page of permit 13-07373 that was issued to Mr. Bennett in 1983. As you can see, the development period was to end on March 1, 1988.

The second page is a copy of the Proof of Beneficial Use submitted by Mr. Bennett on May 13, 1988. On the form, he indicated that he developed a use of 0.04 cfs.

The third page is the Order of Reinstatement advancing the priority because of the late proof.

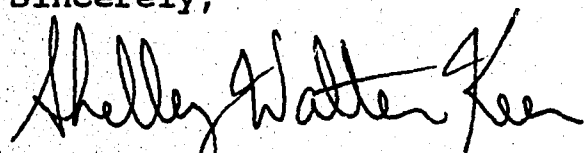

I have also enclosed some Application for Permit forms that you may use for new water developments occurring on your land. There is currently a moratorium on the processing of applications for consumptive water uses in your area. However, single domestic uses and multiple domestic uses not irrigating more than 1/2 - acre per unit or diverting more than 13,000 gallons per day per unit are exempted from the moratorium. Furthermore, single domestic uses from groundwater may establish a water right by withdrawal and use without filing an Application for Permit. Multiple ownership subdivisions, however, are required to file if the homes share a common diversion system, unless the entire use is less than .04 cfs and 2500 gallons per day.

As you requested, I also spoke with Greg Taylor in Idaho Falls about your letter to him. He said that one of our employees viewed the Lowe property in June and did not find any apparent water right violation. If you have additional information relating to a water right violation, you should send it with a written request for action to our Eastern Region office in Idaho Falls.
