ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 13-7376, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before March 1, 19 88.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
The issuance of this permit in no way grants any right-of-way or easement across the land of another.

Witness my hand this 23rd day of March, 1983.

RE: PERMIT NO. 13-7376

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

THE 1982 IDAHO LEGISLATURE ADDED A REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED INSTRUCTIONS ENTITLED "MAKING PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.

PROOF DUE NOTICE

RE: Permit No. 13-7376

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

Re: Permit no. 13-7376

Attn: Rita Fleck

Dear Mrs. Fleck,

This day I received via Certified Mail a communication from you (dated 31 Dec 87) discussing a PROOF DUE Notice on some sort of water permit.

You will find ~~to~~ me cooperative to the accomplishment of what ever it is that you need that we must supply. The only problem is that I don't know and can't figure out what it is that you are talking about! Please answer back being a bit more descriptive with respect to the permit (no. 13-7376). It might be helpful if I knew dates?, purpose of the water use, location etc!

Thank you

Sincerely,
David J. Boruck

Dear Mr. Bouck:

Re: Permit No. 13-7376

In answer to your letter dated January 2, 1988, enclosed is a copy of the above referenced permit along with the proof of beneficial use form and instructions and the request for extension of time form and instructions.

I understand that you received the certified letter mailed to you. This notification letter is part the requirement as set forth in the Idaho Code. Basically, what the letter is asking concerning this water right, is whether this proposed project (see permit) has been completed? That is, the permit proposes the use of water from a well for livestock and two domestic uses. If you have drilled a well and are diverting water for these uses, then complete and return the proof form. If you need additional time in which to complete this project, then you may want to make a request for additional time in which to complete this project. To do this, you would need to complete and return the request for extension of time form and \$15 fee.

When submitting the proof of beneficial use form, a fee becomes necessary when the uses of water are more than one domestic use and/or livestock or the total diversion of water is greater than 0.04 cfs (18 gpm). In your case, if you have one domestic use and livestock, no fee is required. If you have two domestic uses and livestock and your use of water is greater than 0.04 cfs, then a \$50 filing fee is required.

If you should decide to submit proof and, if necessary, fee; the then the department will conduct a field inspection to determine the extent of use and based on the findings of the field inspector, a water right license will be issued. If you should decide to submit the extension of time request, the department will review and determine if additional time can be granted based on the provisions set forth in the Idaho Code.

RE: Permit No. 13-07376

Dear Mr. Bouck:

In January of 1988, you filed a Proof of Beneficial Use statement for the above referenced permit in which you stated that there was only one home using groundwater for domestic and stockwater purposes. You further stated that one of the domestic locations originally identified on the application for permit had been eliminated.

In May of 1995 when the department's field examiner made his inspection, he found two homes diverting from a total of 3 wells. Before we issue a final license on this permit, could you please provide information as to when the second dwelling was constructed and began using water from a third well.

Once you provide the information so that we have a complete picture of development under the permit, we can issue a water right license. If you have any questions, give me a call at 327-5452.

Sincerely,

RE: WATER RIGHT NO. 13-07376

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen

RE: Water Right No. 13-07376

Dear Mr. Bouck:

Thank you for calling this morning to inquire about Water Right 13-07376. Your concern is that IDWR has proposed to issue your water right license for the domestic use in only one home.

As we discussed, the application filed in 1983 indicated domestic use for "two families." However, the Proof of Beneficial Use statement you submitted in 1988 indicated only one home. When our field examiner verified your use in May of 1995, he found groundwater being diverted and used in two homes.

A water right license cannot be issued for development that occurred after the Proof of Beneficial Use was submitted. The initial recommendation for your license was limited to domestic use for one home because your Proof of Beneficial Use indicated only one home. However, based on your statement that water was being used for two homes prior to 1988 and that there ensued only a brief period during which water was not used in two homes, I have revised the licensing recommendation to show domestic use for two homes.

A revised Application for Amendment form is enclosed. The amendment is required because of the addition of a third well. Please look over the form carefully and, if you concur with the information presented, sign and return the form with the \$50.00 amendment fee.

As we also discussed, an examination fee is required with the Proof of Beneficial Use statement for every groundwater appropriation of more than .04 cfs. You did not include an examination fee with your Proof of Beneficial Use. If you want a water right for 0.12 cfs as recommended by the field examiner, you must submit an examination fee of \$50.00 plus a \$25.00 late fee within 30 days. This is in addition to the amendment fee.

Please note that a water right filing is not required for the use of groundwater for domestic purposes for a single family as long as the use does not exceed 13,000 gallons per day and does

not exceed half an acre of irrigation. Therefore, your use of groundwater for a second home does not violate water appropriation statutes if you decide it should not be included as part of Water Right 13-07376.

If you have any questions, please contact me at 208-327-7946.

Respectfully,

Shelley Walter Keen

MEMORANDUM

RE: Phone call from David Bouck

David Bouck, holder of permit 13-07376, called me this afternoon to discuss the licensing of his permit. He needed to make three decisions before the license could be issued.

- Should the license include a third well?
- Should he pay an examination fee so that the right can be licensed for more than .04 cfs?
- Was a second house on the system when he submitted his proof of beneficial use statement?

Mr. Bouck explained to me that he has two diversion and distribution systems. The first diverts from the north well (NESE) and delivers to the dairy and one home. The second system diverts from the "domestic" well (SESE) and serves one home. The third well reported by the examiner, the "south" well (SESE), is not used. Mr. Bouck is not sure of the exact timing, but he believes that there may have been only one home prior to the date he submitted proof. Based on this information, Mr. Bouck requested that we issue a license for the first system for .04 cfs and that we view the second system as an exempt domestic use under the provision of Sections 42-113 and 42-227, Idaho Code. No amendment is necessary. No exam fee is required.
