Department of Water Resources To provide additional time in which to submit proof
of beneficial use for a water right permit

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of a water right under the provisions of Section 42-204, Idaho Code.

Permit No. 13-7377

Name(s) of Permit Holder: Koller, Evan O.

Post Office Address: P.O. Box 31 Cornish, Utah 84308

Telephone No. 801-563-5888

Date Proof Is Due: Jan-March 1988

Describe what work has been completed toward the development of this water right: Earthmoving construction

(This must be filled out! If no work has been completed, show "none".)

valued at \$11,040 has been done on this project to store water but this has been impaired by flooding from upstream. We have done much upstream flood control over the years with \$7,940

being done this fall. The whole area has developed swamps with cattails on portions of it.

New flows from as far away as 2 miles upstream have developed and run down through our dams.

After running for 4 years they dried up this year. The area we need to drain has increased

about 600 %. Cattails grew where there had been a homesite, barns and corrals since this area

was settled. The area started to dry up a little this year and we spent two days on it with a back hoe this fall but the weather shut us out.

Costing \$

The permit holder(s) has been unable to complete the remainder of the work for the following reasons: Much of the area we were going to irrigate turned into a swamp. A neighbor upstream with property in the middle of us, filed a law-suit against us over water running across his property and we spent 5 years in litigation over it. He lost the case but he has now diverted the drainage. The area started to dry up some this year. This has turned into a nightmare but we are still working at it.

A copy of the recorded lawsuit judgement is enclosed.

Permit holder(s) request an extension to Jan 20, 19 93.

PROOF DUE NOTICE

RE: Permit No. 13-7377

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK

Describe what work has been completed toward the development of this water right:

(This must be filled out! If no work has been completed, show "none".) Drains and storage ponds have been constructed, rebuilt and maintained from floods, a lawsuit was completed regarding drainage rights and another started last summer but put on hold due to political constraints, (The man's brother was on the county commission which was involved but he is no longer a commissioner and it is not expected they will be much involved hereafter). During October and November of 1992 additional work in the amount of \$18,760.37 was done on this project. Further work is necessary but the weather stopped it last fall.

Costing \$ _____

The permit holder(s) has been unable to complete the remainder of the work for the following reasons: 1. We don't know for sure what the extent of the problems and possibilities are. Areas that were always dry turned swampy and then dry again. flows changed dramatically. Evidence indicates another lawsuit with Mr. Buttars is required to resolve issues. A copy has been received of a protest by Mr. Charles Buttars of this application. The info contained therein is erroneous and apparently a lawsuit will be required and is contemplated to resolve the matter. This will have an impact on design. 2. My brother's family who own the property across the road are considering selling. If we purchase the property the design will change greatly. Permit holder(s) request an extension to March 1, 19 98.

CHARLES BUTTARS, WHO FIRST BEING SWORN DEPOSES AND SAYS:

Comes now CHARLES BUTTARS "Protestant" and pursuant to the provisions of Section 42-224, Idaho Code, protests the issuance of any water licenses in this matter on the grounds and for the reason that there is no water available for appropriation under this permit and the information furnished by the applicant to the Department on January 1, 1988 for an extension to March 1, 1993 to submit proof of beneficial use was not a sufficient reason to grant the extension because the lawsuit reviewed by the Department's staff on April 17, 1988 and used as the basis for the extension had no bearing on this matter since that case did not involve water rights but rather drainage from the applicant's real property.

Protestant also requests notice at his address in Weston, Idaho of all further proceedings in this matter.

Dated this 11 day of ^{December}~~November~~, 1992.

RE: PERMIT NO. 13-07377 PROOF DUE NOTICE

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

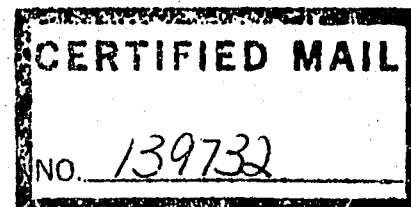

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

Dear Permit Holder:

I am returning the Proof of Beneficial Use form along with the fifty dollar (\$50.00) license exam fee you submitted for the irrigation of 3-5 acres and wildlife use. I have begun the process to refund the fifty dollar (\$50.00) exam fee for the returned proof. The refund should arrive within seven (7) to ten (10) days under separate cover.

If you have any questions or if I can be of any assistance, please do not hesitate to contact me at (208)327-7900.
