PROOF DUE NOTICE

RE: PERMIT NO. 13-07399

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Re: Permit No. 13-7399

Dear Mr. Coombs:

Returned is your proof of beneficial use form submitted to this office November 7, 1988 requesting water use at a rate of 0.11 cfs and/or 0.50 acre-feet.

If the water use is for single family domestic and/or stockwater use or the total maximum rate of diversion is 0.04 cfs, a license examination fee is not required to be submitted with the proof. Your permit includes one domestic use, storage for recreation and irrigation use (3 acres) with a maximum rate of diversion of 0.11 cfs. Therefore, a license examination fee based on a rate of flow of 0.11 cfs is \$50. The fee is based on the greater amount of water use.

Please remit your proof of beneficial use form and \$50 licensing fee as soon as possible to have your permit reinstated.

If you have any questions concerning this matter, feel free to contact this office.

Sincerely,

RE: Permit No. 13-7399

Dear Mr. Coombs:

This is to serve as a reminder to you of the letter sent December 6, 1988. Your proof of beneficial use form was returned and you were notified that before the department could accept the proof, a proper licensing exam fee is required.

Once again, if the water use is for single family domestic and/or stockwater use or the total maximum rate of diversion is 0.04 cfs, a license examination fee is not required to be submitted with the proof. Your permit was issued for one domestic use, storage for recreation and irrigation use (3 acres) with a maximum rate of diversion of 0.11 cfs. The proof indicates these uses were developed. Therefore, a license examination fee based on a rate of flow of 0.11 cfs is \$50. The fee is based on the greater amount of water use.

Please remit the proof of beneficial use form and required fee as soon as possible since an acceptable proof was due October 1, 1988.

If you have questions concerning your water right, please feel free to contact this office.

MEMORANDUM

March 7, 1989

TO: FILE 13-7399

FROM: RITA FLECK, *df*

RE: PROOF OF BENEFICIAL USE AND REINSTATEMENT ORDER

Proof was due on October 1, 1988. The department received no response so a lapse notice was sent. In response to the lapse notice the permit holder sent in a proof of beneficial use on November 7, 1988.

The proof indicated the use of water for one domestic and irrigation of four acres. The diversion rate is 0.11 cfs. No fee was received with the proof form.

On December 6, 1988, the department advised the permit holder that based on the rate of diversion of 0.11 cfs, a licensing exam fee of \$50 would be needed. At this time, the department also returned the proof form. On January 10, 1989, another letter reminding the permit holder that the proof and filing fee was required to keep the permit in good standing. No response was received to either letter.

On February 20, 1989, the department sent another lapse notice. In response to the lapse notice the permit holder submitted another proof. This proof indicates the use of water for domestic use only.

The action I propose the department to take is to reinstate the permit with an advance in priority the number of dates the first proof was late - October 1 to November 7. My reason for this is that the department can complete a field inspection and limit the diversion rate to 0.04 cfs, even though a licensing exam fee was not paid.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.
