ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 13-7447, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 19 90.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
If withdrawal of water under this permit is found to affect flows in Steves Creek, this right shall be subject to the control of the watermaster of State Water District No. 11, Bear River.

Witness my hand this 3rd day of August, 1988.

RE: Application for Permit No. 13-7447

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification no. 13-7447. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Caribou County Sun. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Ernest Carlsen

Prepermit Field Investigation

14 December 1987

INTERDEPARTMENT MEMO

From: Ernest Carlsen
To: File No. 13-7447, Shaw Land & Livestock Co.

Some of the factors that need to be evaluated in a recommendation of whether or not to approve this application necessitate performing a field investigation. Two of these are:

- A) The source of water
- B) Water Master Control

Though the application states the springs sink, their location on the plat map shows them to be in close proximity to Steves Creek. This creek is a part of the Bear River Decree and is the source of water for existing rights. Also if the amount of water requested on the application is an indication of what the springs are flowing, they could be tributary. An inspection of these springs is needed to confirm whether or not they are tributary to Steves Creek.

Watermaster regulation is required if the springs are tributary to Steves Creek. Use of the springs for domestic and stockwater might not require regulation because the consumptive use would be insignificant. But the irrigation use though comparatively small should be junior to existing rights, and regulated.

To insure there is no injury to existing water rights both the watermaster and parties holding water rights from Steves Creek should be interviewed. They can not protest the application, however, any concerns they have should be considered in making a recommendation on the application.

Dear Sirs:

Department policy normally requires a field investigation be conducted prior to recommending final action on applications seeking to appropriate surface water in the Bear River drainage. Available information reveals there are decreed rights from surface water sources in the same drainage containing the springs identified on the above captioned application. Consequently, to insure no water rights will be injured and sufficient water is available for the purposes listed on the application, it has been decided to defer further administrative action until an investigation can be conducted.

Ideally, this investigation will be performed next spring. However, we can attempt to conduct it before then provided we are advised of the reason for having to do it sooner and the weather conditions are suitable to allow access into the area.

If you have questions concerning this matter, feel free to contact me.

Respectfully submitted,

RE: PERMIT NO. 13-07447

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1990.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Re: Permit No. 13-07447

Dear Permit Holder:

Enclosed is a copy of the denied request for extension of time which you submitted to the department in connection with the above referenced permit. Section 42-204, Idaho Code, provides that the department can only grant one extension of time based on due diligence. Please note that the department has previously granted an extension of time in connection with this permit.

I suggest that you file the enclosed proof of beneficial use form for that portion of the development completed. If there has been no beneficial use of the water, I suggest you file a new application within one year of the time you actually intend to develop the water right. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

If you have any questions or if we can be of any further assistance, please feel free to contact us or any of our regional offices.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 13-07447

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager
