RE: WATER RIGHT NO. 13-07457

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion and the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

RE: Phone call from Kathy Jepsen

This morning I returned a call to Kathy Jepsen at 208-852-2885 and spoke to her about my request for a licensing amendment. Ms. Jepsen said that she would like some additional time to respond because she needs some help confirming the field examiner's finding that the point of diversion is in the NENESE of Section 7. I said that it would be okay for her to take a couple of extra weeks.
