RE: Application No. 13-7492

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Preston Citizen on 4-2 & 9-92. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES

Application No. 13-07492	)	
	)	

PacifiCorp, an Oregon Corporation, doing business in Idaho as PacifiCorp Electric Operations and Utah Power & Light Company ("PacifiCorp"), protests the above-referenced application of Douglas Beckstead to appropriate 0.05 c.f.s. of water, and states as follows:

1. Please send all correspondence and notices regarding the above-referenced application to:

Jody L. Williams, Attorney
Utah Power & Light Company
One Utah Center, Suite 2200
201 South Main Street
Salt Lake City, Utah 84140-0022
Telephone: (801) 220-2851

2. PacifiCorp holds Water Rights decreed in the matter of Utah Power & Light Company v. The Last Chance Canal Company, Limited, et al., in Equity No. 203, July 14, 1920, and Utah Power & Light Company v. Richmond Irrigation Company, et al., February 21, 1922, as well as other rights in the Bear River.

3. Douglas Beckstead has filed an Application with the Office of the Idaho Department of Water Resources numbered

13-07492 seeking to appropriate 0.05 cubic feet per second of groundwater, which PacifiCorp believes is tributary to the Bear River.

4. Granting the Application of Douglas Beckstead without assurance of adequate compensation to PacifiCorp may interfere with PacifiCorp's prior existing water rights in the Bear River. Granting the application of Douglas Beckstead and allowing additional diversion of the water would adversely affect PacifiCorp's water rights by decreasing the amount of water it could use for generation at its hydroelectric plants on the Bear River, interfere with PacifiCorp's ability to supply irrigation water stored in Bear Lake to Last Chance Canal Company, Bear River Canal Company, and many other contract users in Idaho and Utah, and have other adverse effects upon PacifiCorp.

5. In addition to diminishing the quantity of Bear River water available to satisfy existing water rights and contract demands, PacifiCorp believes that granting the above-referenced application would conflict with the local public interest in the three following areas by reducing groundwater inflow into the Bear River and increasing withdrawals from Bear Lake: First, increased reliance on supplemental irrigation water delivered from PacifiCorp's Bear Lake supply due to less available Bear River natural flow will result in additional costs to existing users with water rights to replace Bear River water with Bear Lake storage water. If the current drought continues, PacifiCorp will not be able to supply the full amount requested by its existing Idaho and Utah contract holders. Second, as the

level of Bear Lake drops, recreation around the lake is adversely affected. The new Idaho State Parks & Recreation boat launch has been unusable for several years; the new State park receives little use due to its distance from the water; facilities built with State funds are unusable, and visitor days and the attendant revenue they produce for the State plummet. Third, habitat for the five indigenous fish in Bear Lake is decreased, thus stressing their ability to survive and reproduce. Other wildlife species which depend on the lake will have similar problems due to habitat loss.

WHEREFORE, PacifiCorp respectfully requests the Idaho Department of Water Resources to deny the application of Douglas Beckstead.

IN THE MATTER OF THE APPLICATION)
TO APPROPRIATE WATER FILED BY)
DOUGLAS BECKSTEAD, APPLICATION)
NO. 13-07492)

**PETITION FOR INTERVENTION
AND PROTEST OF LAST CHANCE
CANAL COMPANY, LTD.**

COMES NOW Protestant, Last Chance Canal Company, an Idaho corporation with its principal place of business in Grace, Idaho, and in support of its Petition for Intervention and to protest the above-captioned application, states as follows:

1. Petitioner holds priority water rights decreed in the matter of Utah Power & Light Company v. Last Chance Canal Co., Ltd., et al., in Equity No. 203, July 14, 1920, more commonly known as the "Dietrich Decree".
2. The water of the Bear River and all of its tributaries were fully adjudicated in said Dietrich Decree. The Bear River below Stewart Dam was fully appropriated.
3. Petitioner believes that withdrawals of ground water such as that proposed by the Applicant will diminish the ground water inflow contribution to the surface flow of Bear River, to which Petitioner, many of the protestants and others have prior existing water rights.

**PETITION FOR INTERVENTION AND PROTEST OF
LAST CHANCE CANAL COMPANY, LTD. - 1**

4. It is Petitioner's practice to protest applications to appropriate water which may adversely affect its rights in the Bear River. The above-referenced Application was not brought to Petitioner's attention by its clipping service, and Petitioner, for that reason, did not file a timely protest to the Application.

5. Petitioner relies upon its decreed water rights in the Bear River described above, together with supplemental water in Bear Lake acquired from PacifiCorp Electric Operations, dba Utah Power & Light Company, pursuant to a contract to provide irrigation water to approximately 150 of its shareholders utilized to irrigate approximately 28,000 acres of fertile farm land in Caribou County, Idaho.

6. Due to drought conditions and the resulting high irrigation demands over the past several years, the level of Bear Lake has dropped significantly, endangering Petitioner's ability to continue to receive supplemental irrigation water pursuant to its contract. Petitioner's natural flow rights in the Bear River as described above are subsequent in time and therefore cut back to satisfy certain earlier priority right holders downstream in Utah. During the times that Petitioner's natural flow rights are curtailed, it must rely upon supplemental water from Bear Lake.

7. The Applicant's proposed appropriation would adversely affect the flows of the Bear River and consequently injure and impair the water rights of the Petitioner in the Bear River and its tributaries, as well as its contract right to receive supplemental water from Bear Lake.

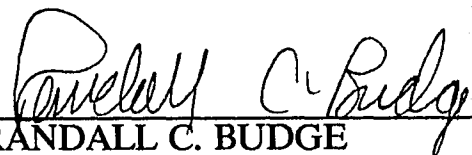

8. Additionally, the granting of the proposed Application would conflict with the

local public interest by reducing ground water inflow into the Bear River, by causing increased demand upon water stored in Bear Lake, and by reducing the storage water available in Bear Lake which adversely affects available water for irrigation, power production, recreation, wildlife and other recognized beneficial uses.

WHEREFORE, Petitioner respectfully requests leave to intervene in the above application and to thereafter be treated as a Protestant in subsequent proceedings in this case. Since Petitioner may be hiring the services of expert consultants, who may testify at the hearing on the Application, Petitioner respectfully requests input into setting the hearing date, should a hearing be convened, in order to accommodate its expert's schedule.

I received a call from Douglas Beckstead in reference to changing the cfs on application 13-07492. As a result of that call the cfs for stockwater from a spring tributary to the Bear River has been changed to 0.015 cfs.

Mr. Beckstead feels this would bring him into line with an amount that Utah Power would not protest. If so, I will anticipate a withdrawal of protest from your office. I have enclosed a copy of the modified application for your records.

Dear Mr. Jones:

Please withdraw the Protest of PacifiCorp to the above-referenced Water Rights Application. At this time, it is the Company's policy not to protest applications to appropriate for 0.015 cfs or less. When an Application for which a Protest has been filed reduces its amount to 0.015 cfs or less, it is PacifiCorp's policy to withdraw the Protest.

PROOF DUE NOTICE

RE: PERMIT NO. 13-07492

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

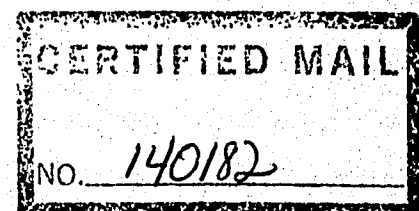

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Re: Permit No. 13-07492

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit. Unfortunately, it is unacceptable as filed.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

1. The water right must use a groundwater (well) source.
2. The rate of diversion must be .04 cfs or 4.0 AF or less.

As you can see, you do not meet requirement #1 since you use a spring (surface) for your source. Therefore, a license examination fee of \$50 applies to your permit. I have enclosed a copy of the Instructions for the Proof of Beneficial Use for your convenience.

Since your permit will lapse on August 2, 1993, it is imperative that you return the original proof and fee on or before that date.

If you have any questions or if I can be of any further assistance, please feel to contact me.

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated May 31, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

FINDINGS OF FACT

1. On July 27, 1992, the Department issued Permit No. 13-07492 in the name of Douglas Beckstead (permit holder) with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before August 2, 1993.
2. On May 31, 1993, the Department sent a proof due notice to the permit holder by certified mail stating that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use.
3. On July 26, 1993, the permit holder submitted the proof of beneficial use statement, however, it was not accompanied by the appropriate license examination fee. On August 4, 1993, the Department informed the permit holder by mail that the proof statement could not be accepted until the \$50.00 license examination fee was submitted.
4. On August 5, 1993, the Department sent a lapse notice to the permit holder since the Department had not received the license examination fee.
5. Section 42-218a.2., Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal

of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

6. On May 29, 1997, the permit holder submitted a proof of beneficial use statement along with a license examination fee of \$50.00 and a late fee of \$25.00. Additionally, the permit holder submitted receipts for equipment purchased to develop the spring as well as an affidavit from the contractor who assisted the permit holder in developing the spring. The permit holder further explained that he neglected to pay the license examination fee which caused the permit to lapse.

CONCLUSIONS OF LAW

1. The permit holder has submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used within the authorized development period.

2. The permit holder has shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

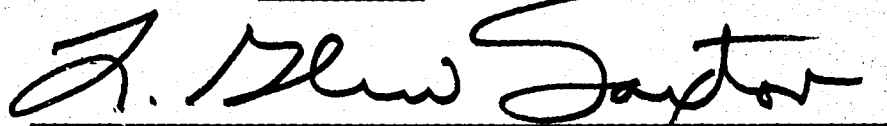

3. The department should reinstate the permit with the date of priority advanced to the date proof of beneficial use and supporting information was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit No. 13-07492 is REINSTATED.

IT IS FURTHER ORDERED that the priority date is advanced to May 29, 1997.

To Whom it May Concern, (Julie Jarborough)

I am writing this letter on behalf of my husband, Douglas Beckstead, who filed for a water permit in 1992 but did not pay the fee and the permit lapsed. We would like to have permit number 13-07492 reinstated.

I have previously spoken with a Cindy Zimmerman at the Idaho Falls Water Resources Office and she advised me to send you proof that the project was completed and the fee for the permit.

Enclosed are pictures, receipts, and affidavits from two people who assisted us on the project. There is proof that the project was completed before the August 1993 due date.

If you have any other questions or concerns our phone number is 208-852-2671.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 13-07492

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating your permit since proof was submitted after the proof due date of August 2, 1993. Please note that the priority date has been advanced to May 29, 1997.

Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have questions concerning the field examination, contact the **EASTERN** Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH

RE: ASSIGNMENT OF PERMIT 13-07492

Dear Water Right Holder(s):

We acknowledge receipt of the correspondence changing the ownership of the above referenced water right to R. Carl Swainston.

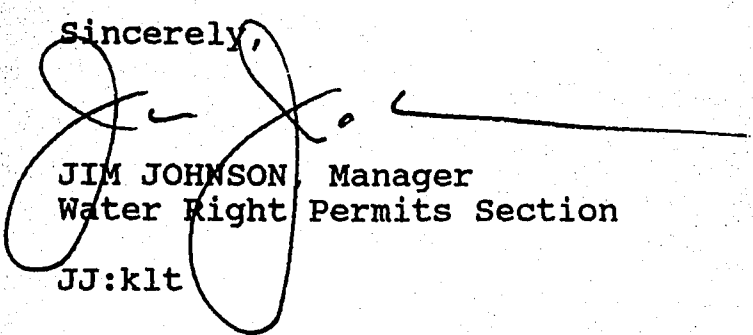

We have modified our computer records to reflect this change in ownership.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

If you have any questions, please feel free to contact us.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section
