

Form 202
6/85

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

137497

RECEIVED

JUL 13 1992

Department of Water Resources
Eastern District Office

To appropriate the public waters of the State of Idaho

1. Name of applicant Ben Forsgren Phone 427-6334
Post office address 15342 No Hwy 34 Thatcher, ID 83283
2. Source of water supply Spring Creek which is a tributary of Bear River
3. Location of point of diversion is 1/4 of SE 1/4 of NW 1/4 Govt. Lot _____
Sec. 18 Township 12S Range 41E B.M. Franklin County; additional
points of diversion if any: _____
4. Water will be used for the following purposes:
Amount 2.76 cfs for Fish Propagation purposes from 1-1 to 12-31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 2.76 cfs and/or (b) _____
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Description of ditches, flumes, pumps, headgates, etc. headgate in creek to
ditch to ponds + return flow to creek.
Pond sizes are 200'x50'x5' deep and 150'x100'x5' deep.
 - b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.
 - c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
 - d. Is ground water with a temperature of greater than 90°F being sought? NA
7. Time required for the completion of the works and application of the water to the proposed beneficial use is
3 years (minimum 1 year).

8. Description of proposed uses (if irrigation only, go to item 9):

- a. Hydropower; show total feet of head and proposed capacity in KW. _____
- b. Stockwatering; list number and kind of livestock. _____
- c. Municipal; show name of municipality. _____
- d. Domestic; show number of households. _____
- e. Other; describe fully. This is a non-consumptive use for fish ponds.

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
12S	41E	18									~~H~~		* H	H					

* change as per tele-con with applicant 9-29-92 HWS Total number of acres to be irrigated _____

10. Describe any other water rights used for the same purposes as described above. None

11. a. Who owns the property at the point of diversion? William Condie
- b. Who owns the land to be irrigated or place of use? Applicant
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. N/A.

12. Remarks: This is a non-consumptive application for water to raise fish. This is an existing ditch used for irrigation & stockwater.

13-7497

13. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Ben A. Wynn

Publication approved RB Date 9-3-92

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

The permit(s) will be subject to all prior water rights. Protests must be filed with the Director, Dept. of Water Resources, Eastern Region, 150 Shoup Avenue, Suite 15, Idaho Falls, Idaho 83402 on or before AUGUST 24, 1992.

R. KEITH HIGGINSON, Director

Legal No. 4594 — Publish July 29, Aug. 5, 1992.

State of Idaho
Department of Water Resources

Permit To Appropriate Water

NO. 13-07497

Proposed Priority: July 13, 1992 Maximum Diversion Rate: 2.76 CFS

This is to certify, that **BEN FORSGREN**
15342 N HWY 34
THATCHER ID 83283

has applied for a permit to appropriate water from:

SPRING CREEK tributary of **BEAR RIVER**

and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
FISH PROPAGATION	01/01 to 12/31	2.76 CFS

LOCATION OF POINT(S) OF DIVERSION: SENW , Sec. 18, Township 12S, Range 41E
FRANKLIN County

PLACE OF USE: FISH PROPAGATION
TWN RGE SEC

12S 41E 18 SWSW SESW

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before December 1, 1995.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Use of water under this water right will be regulated by the watermaster of State Water District No. 11.
5. Water used under this right if discharged into a natural channel or subsurface system shall meet Idaho Water Quality Standards.
6. The right holder shall be required to provide the Department, upon request, information showing volume changes per hour necessary to maintain an adequate environment for the fish propagation facility. Volume changes per hour shall be based upon actual fish production.
7. Measuring devices of a type approved by the Department shall be permanently installed and maintained at the point of diversion and the point of effluent discharge.
8. Use of water under this right shall be non-consumptive.
9. The issuance of this right in no way grants any right-of-way or easement across the land of another.

RE: Application No. 13-7497

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Preston Citizen on 8-6 & 13-92. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES *rb*
Water Rights Supervisor

STATE OF IDAHO

IN THE MATTER OF THE APPLICATION)
TO APPROPRIATE WATER FILED BY)
BEN FORSGREN, APPLICATION)
NO. 13-07497)

**PETITION FOR INTERVENTION
AND PROTEST OF LAST CHANCE
CANAL COMPANY, LTD.**

COMES NOW Protestant, Last Chance Canal Company, an Idaho corporation with its principal place of business in Grace, Idaho, and in support of its Petition for Intervention and to protest the above-captioned application, states as follows:

1. Petitioner holds priority water rights decreed in the matter of Utah Power & Light Company v. Last Chance Canal Co., Ltd., et al., in Equity No. 203, July 14, 1920, more commonly known as the "Dietrich Decree".
2. The water of the Bear River and all of its tributaries were fully adjudicated in said Dietrich Decree. The Bear River below Stewart Dam is fully appropriated and there is no additional water available for new diversions and use.
3. It is Petitioner's practice to protest applications to appropriate water which may adversely affect its rights in the Bear River.
4. Petitioner relies upon its decreed water rights in the Bear River described above, together with supplemental water in Bear Lake acquired from PacifiCorp Electric

Operations, dba Utah Power & Light Company, pursuant to a contract to provide irrigation water to approximately 150 of its shareholders utilized to irrigate approximately 29,000 acres of fertile farm land in Caribou County, Idaho.

5. Due to drought conditions, Petitioner's natural flow rights in the Bear River have in recent years and continue to be severely curtailed and cut back to satisfy certain earlier priority rightholders downstream in Idaho and Utah. As a result, Petitioner has been forced to increasingly rely upon supplemental irrigation stored in Bear Lake. Due to six consecutive years of drought conditions and the resulting high irrigation demands, the level of Bear Lake has dropped to near record low levels. Presently, there is inadequate storage water in Bear Lake to satisfy the existing irrigation demand. All irrigators, including Petitioner, have had their Bear Lake storage water rights curtailed considerably for the 1992 irrigation season. Should the drought continue, little or no supplemental irrigation water is expected to be available from Bear Lake next year.

6. The applicant's proposed appropriation is in Spring Creek, which is a tributary of the Bear River fully decreed in the Dietrich Decree.

7. The Applicant's proposed appropriation would adversely affect the flows of the Bear River and consequently injure and impair the water rights of the Petitioner and other decreed right holders in the Bear River and its tributaries, as well as the right of Petitioner and other contract rightholders to receive supplemental water from Bear Lake.

8. Additionally, the granting of the proposed Application would conflict with the local public interest by reducing ground water inflow into the Bear River, by causing increased demand upon water stored in Bear Lake, and by reducing the storage water

available in Bear Lake which adversely affects available water for irrigation, power production, recreation, wildlife and other recognized beneficial uses.

9. Additionally, the process and approval of this new application for permit is presently barred by a moratorium order issued and effective May 15, 1992 by R. Keith Higginson, Director, IDWR, which order canceled all applications filed to divert and use surface or ground water in the Bear River drainage in Idaho.

WHEREFORE, Petitioner respectfully requests as follows:

A. That Petitioner be granted leave to intervene in the above matter and be allowed to participate as a protestant in all subsequent hearings.

B. That the application be denied.

C. That Petitioner and its counsel be served with all filings and pleadings and be notified in advance of all hearings on the application. In this regard, Petitioner respectfully requests input with respect to scheduling of hearing dates to accommodate the schedules of interested parties and necessary witnesses.

DATED this 26 day of August, 1992.

RE: Application for Permit No. 11-07401, Terry J. Call
Application for Permit No. 13-07497, Ben Forsgren

Dear Mr. Jones:

Please file the enclosed Petitions for Intervention and Protests submitted on behalf of Last Chance Canal Company, Ltd., with respect to the captioned Applications.

Both of these new filings were observed from a review of IDWR's diskettes distributed under date of 8/4 and 8/18. With respect to No. 11-07401, we note in the remarks that the Application was being held pending withdrawal of the drought moratorium. As we assume that there will be no publication with respect to that Application, we nonetheless wish to submit our protest at this time so that it will be of record with IDWR when the moratorium is withdrawn and further processing begins.

Since processing appears to be proceeding with No. 13-07497, we assume that publication has or will be commenced, although we have no information on that, and that it is being treated as a non-consumptive application. If it is determined to be non-consumptive, we likely will withdraw the protest. However, to protect the record and our interests in the meantime we are submitting the protest for filing at this time. Please contact me if you have any questions. Thank you for your assistance.

Sincerely,

RANDALL C. BUDGE

Dear Mr. Budge:

I received your protest letter of August 26, 1992, on the Ben Forsgren application #13-07497. The protest date was up on August 24, 1992, and there has not been any other timely protests filed. I will include your protest letter in file #13-07497 when it is sent to Boise for considering since then will be no hearing held.

If you wish to send any data that you feel should be included in the file, please feel free to do so.

Sincerely,

Harold W. Jones
Water Right Supervisor

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 13-07497

Dear Permit Holder(s):

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under Condition No. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

Please be advised that your plans for fish propagation may be subject to regulations of the Idaho Department of Fish and Game. We suggest that you check with them before starting construction.

Sincerely,

Brenda L. Miller

PROOF DUE NOTICE

RE: PERMIT NO. 13-07497

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1995.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 13-07497

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that one of the conditions of your water right permit requires that the permit holder install and maintain measuring devices at the point of diversion and the point of discharge (refer to condition # 7 of your permit.) This condition must be complied with before the license examination, or you can request in writing, a waiver of the condition.

If you have questions concerning the field examination, please feel free to contact the EASTERN Regional Office in Idaho Falls, at (208) 525-7161.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary
