DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant FAIRVIEW WATER DISTRICT Phone 852-3445
Post office address 595 W 3200 S, Preston, ID 83263
2. Source of water supply GROUND WATER which is a tributary of NA
3. Location of point of diversion is SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of _____ $\frac{1}{4}$, Govt. Lot _____
Sec. 8 Township 16S Range 40E B.M. FRANKLIN County; additional
points of diversion if any: _____
4. Water will be used for the following purposes:
Amount .42 ^{cfs} for Domestic purposes from JAN 1 to DEC 31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) .42 _{cubic feet per second} and/or (b) _____ _{acre feet per annum}
6. Proposed diverting works:
 - a. Description of ditches, flumes, pumps, headgates, etc. WATER will be pumped into
A 8" PVC PIPE, & gravity Flow to A 80,000 gallon Concrete
Reserudir, Then distributed to the Community.
 - b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.
 - c. Proposed well diameter is 10" or 8" inches; proposed depth of well is 300 feet.
 - d. Is ground water with a temperature of greater than 90°F being sought? NO
7. Time required for the completion of the works and application of the water to the proposed beneficial use is
2 years (minimum 1 year).

8. Description of proposed uses (if irrigation only, go to item 9):

- a. Hydropower; show total feet of head and proposed capacity in KW. _____
- b. Stockwatering; list number and kind of livestock. * Approx 5,000 Holstein CATTLE
- c. Municipal; show name of municipality. _____
- d. Domestic; show number of households. Approx 200 Homes
- e. Other; describe fully. * HORSES & MILK ARE SERVICED WITH WATER & ALSO LAWN WATERING IS ALLOWED, NO ONE HOUSEHOLD WATER'S MORE THAN 1/3 OF AN ACRE OF LAWN.

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RANGE	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	

Total number of acres to be irrigated _____

10. Describe any other water rights used for the same purposes as described above. # 13-4053
13-4054 # 13-7201

11. a. Who owns the property at the point of diversion? LARRY BRADFORD
- b. Who owns the land to be irrigated or place of use? _____

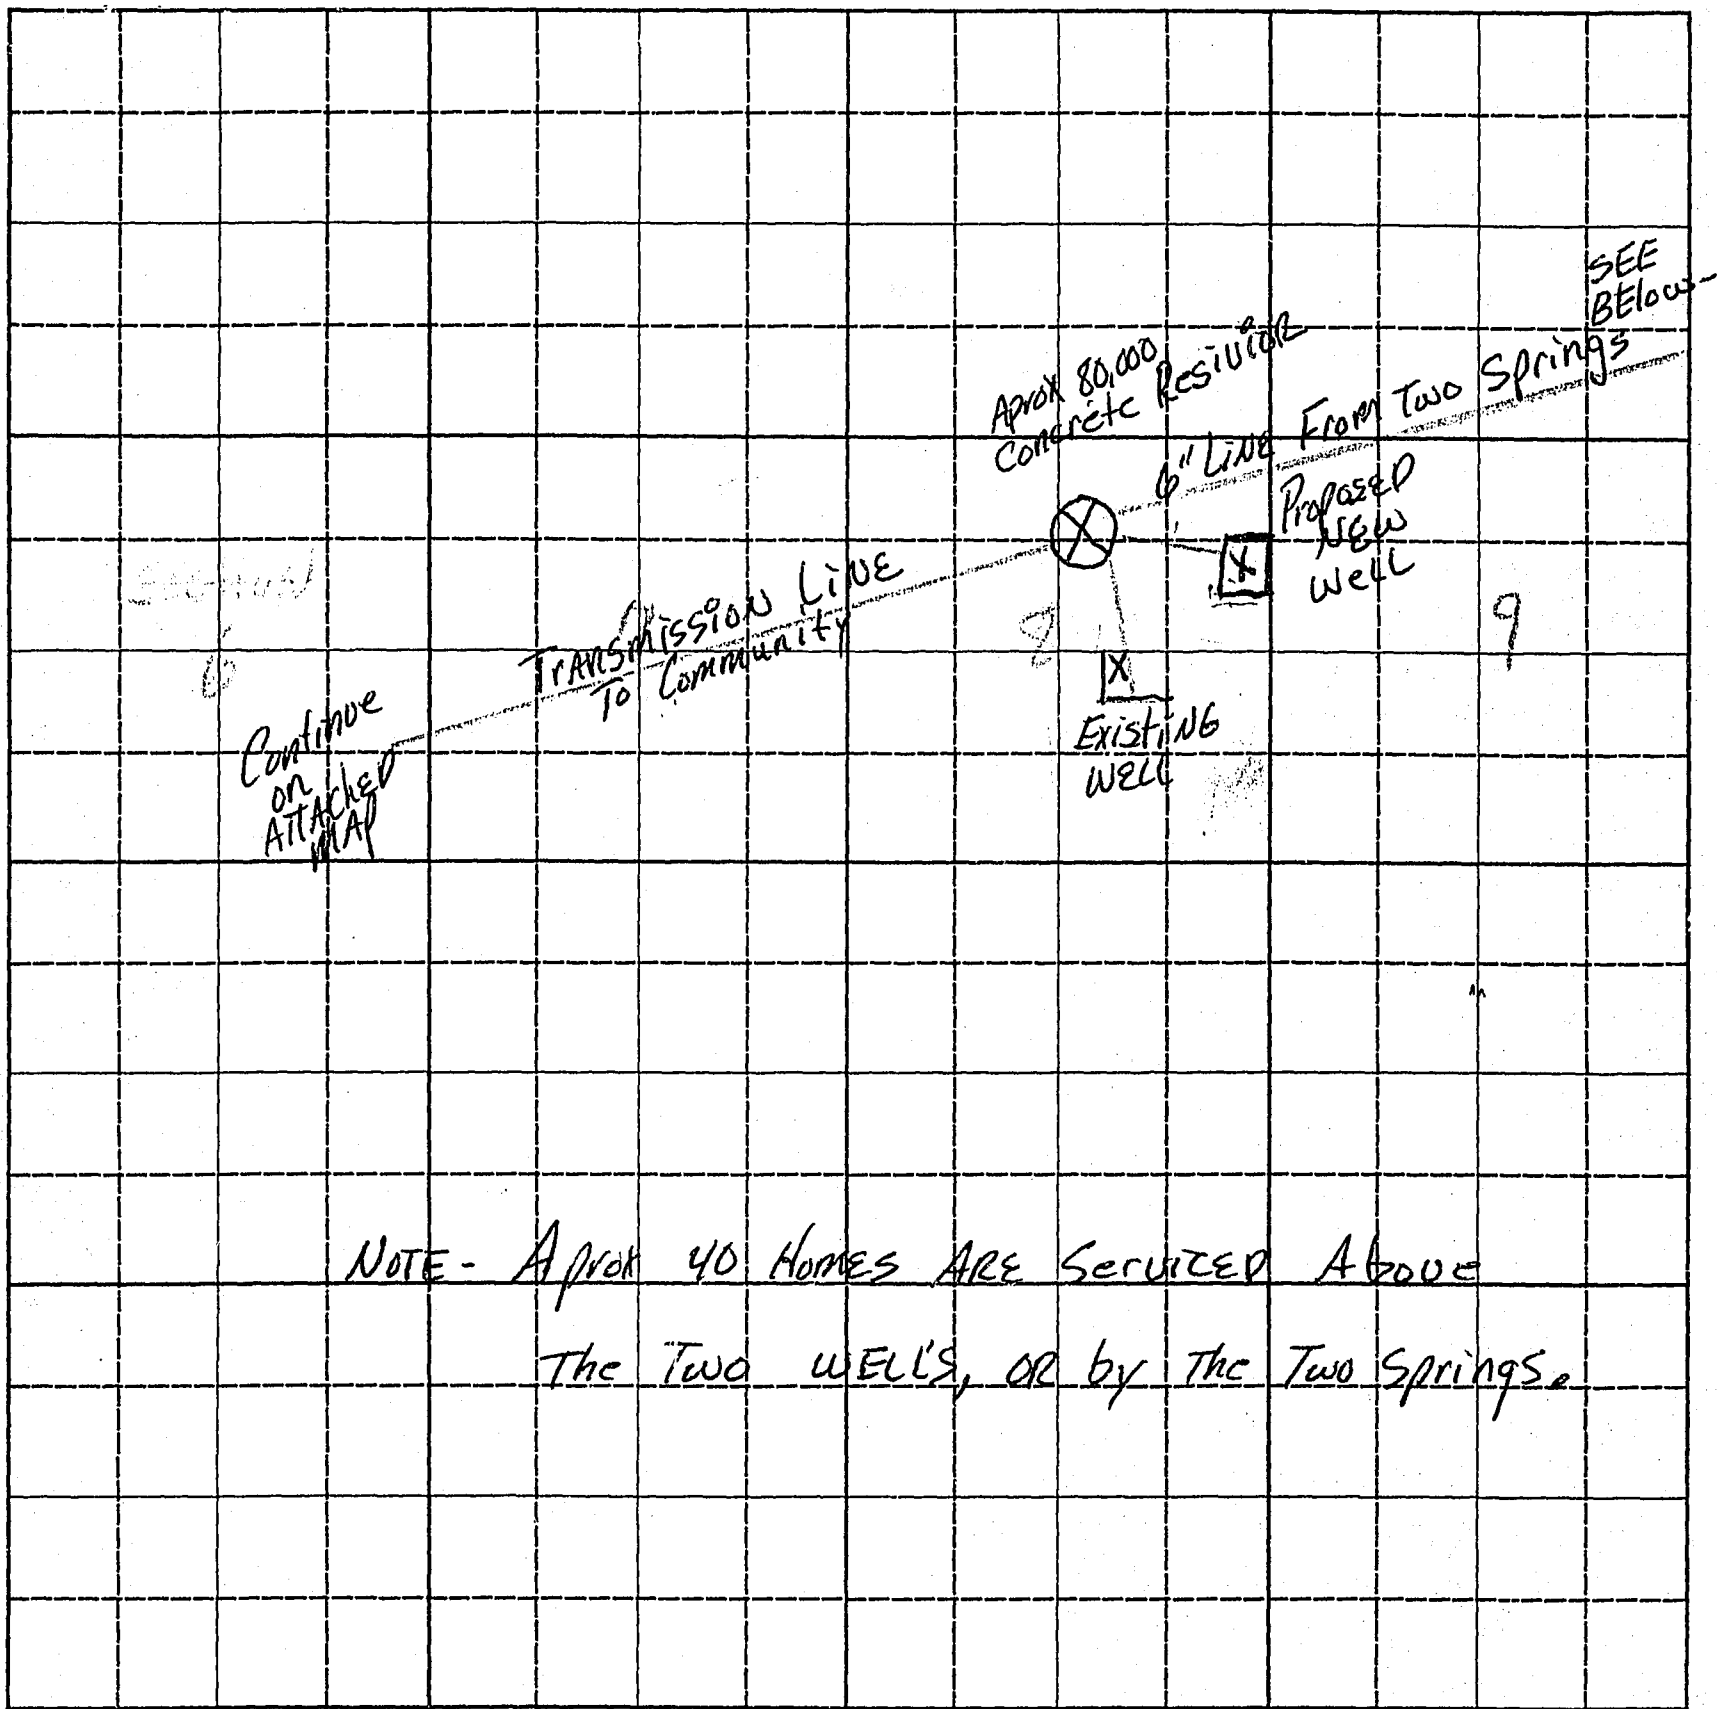

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. THE WATER DISTRICT IS TRADING USE OF WATER IN RETURN FOR PROPERTY & RIGHT OF WAY TO IT.

12. Remarks: Approx 40 Homes & SOME CATTLE ARE SERVICED ONLY BY THE TWO SPRINGS ABOVE OUR EXISTING WELL. THIS PROPOSED WELL WILL BE SUPPLEMENT FLOW TO OUR TWO SPRINGS & WELL. NO FARMLAND WATERING IS ALLOWED.

Place of use Legal Description for: DOMESTIC

[illegible]

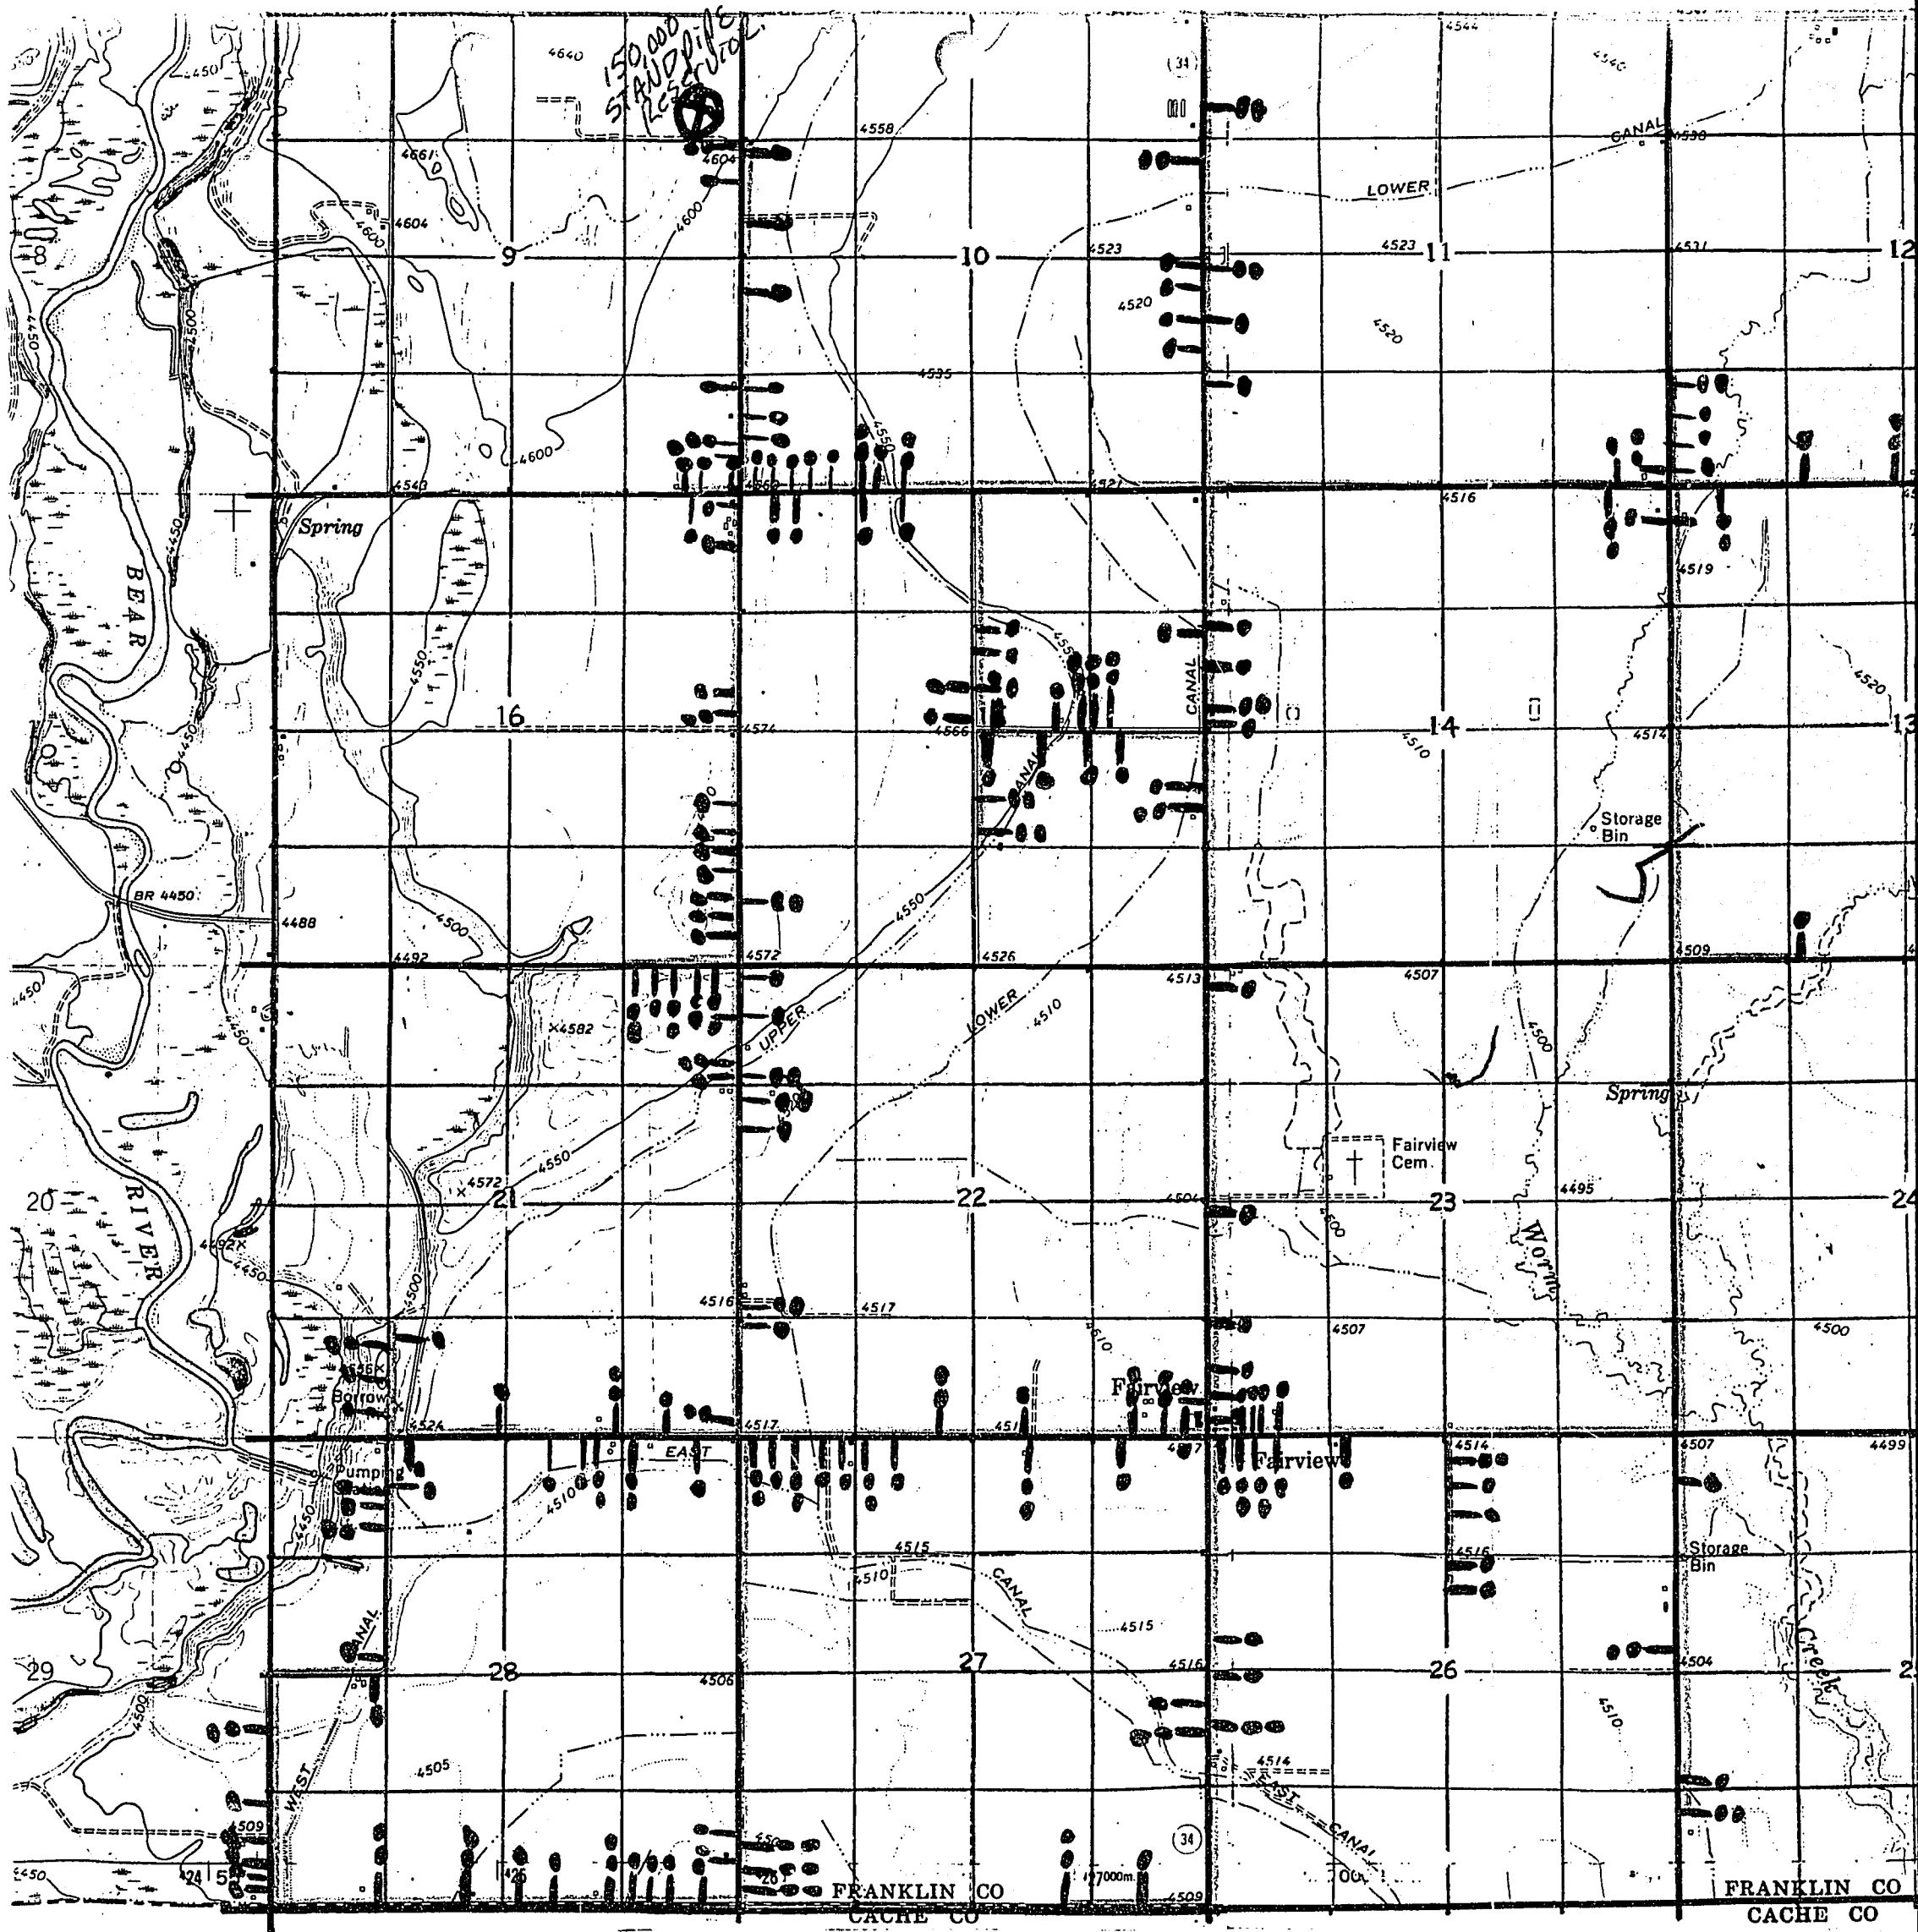

13. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

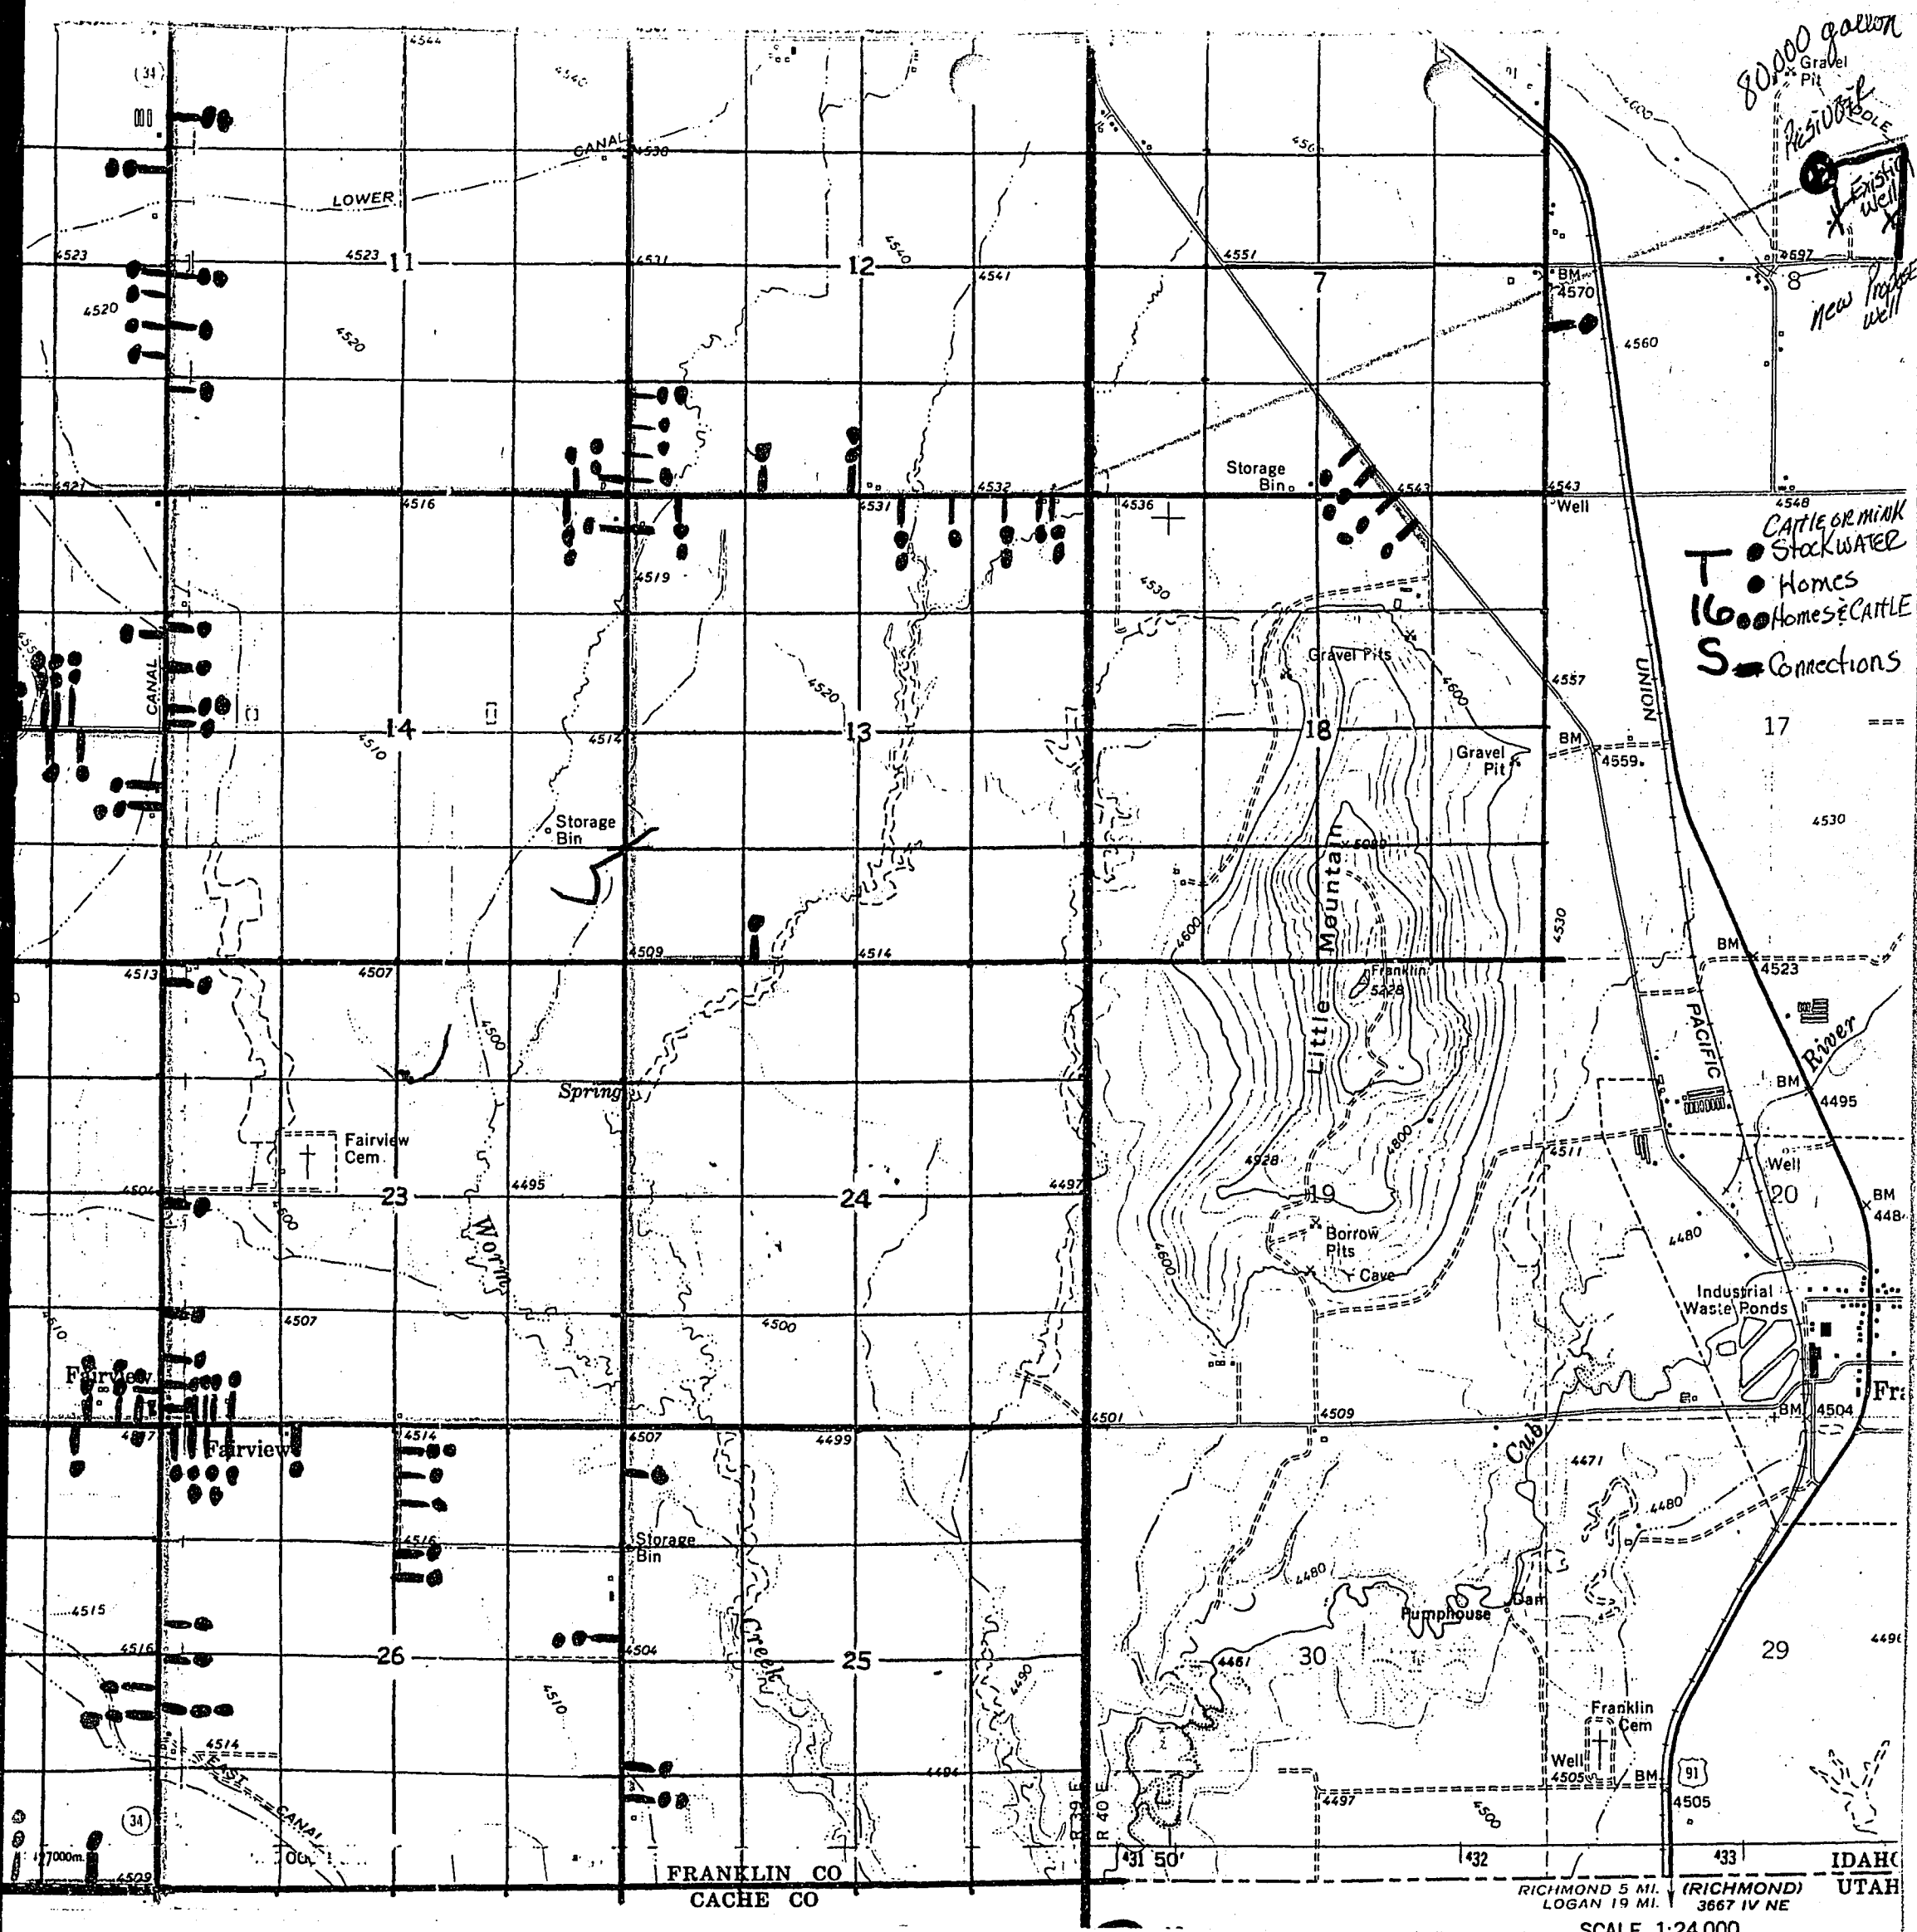

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

Permit To Appropriate Water

NO. 13-07510

PLACE OF USE: DOMESTIC
TWN RGE SEC

40E 7 SWSE
18 NWNE

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before September 1, 1995.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Prior to the diversion of water under this right a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
5. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
6. Construction of the well must comply with Idaho well construction standards.
7. Domestic use is for 200 homes.
8. The domestic use authorized under this permit shall not exceed 13,000 gallons per day per dwelling in accordance with Section 42-111, Idaho Code.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the signature of the Director, affixed at Boise, this

20th day of September, 1993.

RE: Application No. 13-07510

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Preston Citizen on August 6 & 13, 1993. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones ^{rb}
Water Right Supervisor

RE: Application No. 13-07510

Dear Sir:

We are enclosing a copy of the application(s) that may be of interest to your department. Please review the application(s) and submit any comments you may have to our Department as soon as possible. The last date of protest is August 23, 1993, and we are required to take final action shortly thereafter.

If we may be of further assistance, please feel free to contact us.

Respectfully submitted,

Harold W. Jones

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 13-07510

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

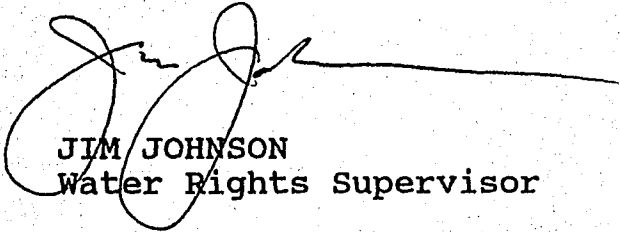

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well

so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

Sincerely,

A handwritten signature in dark ink, appearing to read "Jim Johnson", with a long horizontal line extending to the right.

JIM JOHNSON
Water Rights Supervisor

PROOF DUE NOTICE

RE: PERMIT NO. 13-07510

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1995. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

CONDITIONS OF APPROVAL AND REMARKS

1. Right 13-07201 is also diverted through the point of diversion located in the SENW, S8, T16S, R40E.
2. Place of use is within the service area of the Fairview Water District.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources. Signed and sealed this 30 day of MARCH, 2000.

Acting for KARL J. DREHER, Director

Total number of acres irrigated _____

THEORETICAL PUMP FLOW CALCULATIONS

Formula:

$$Q_{cfs} = [(Hp)(8.814)(Eff)] \div [Lift + (psi \times 2.308)]$$

Hp = Horsepower = 40
Eff = Efficiency = .7 (Usually 70%)
Lift: (Static Level + Assumed Draw down)
Static Water Level = 184 ft.
Assumed Draw down = + 10 ft.
Lift = 194

OR

Measured Dynamic Water Level = _____ ft.

psi = Operating Pressure = 80 psi

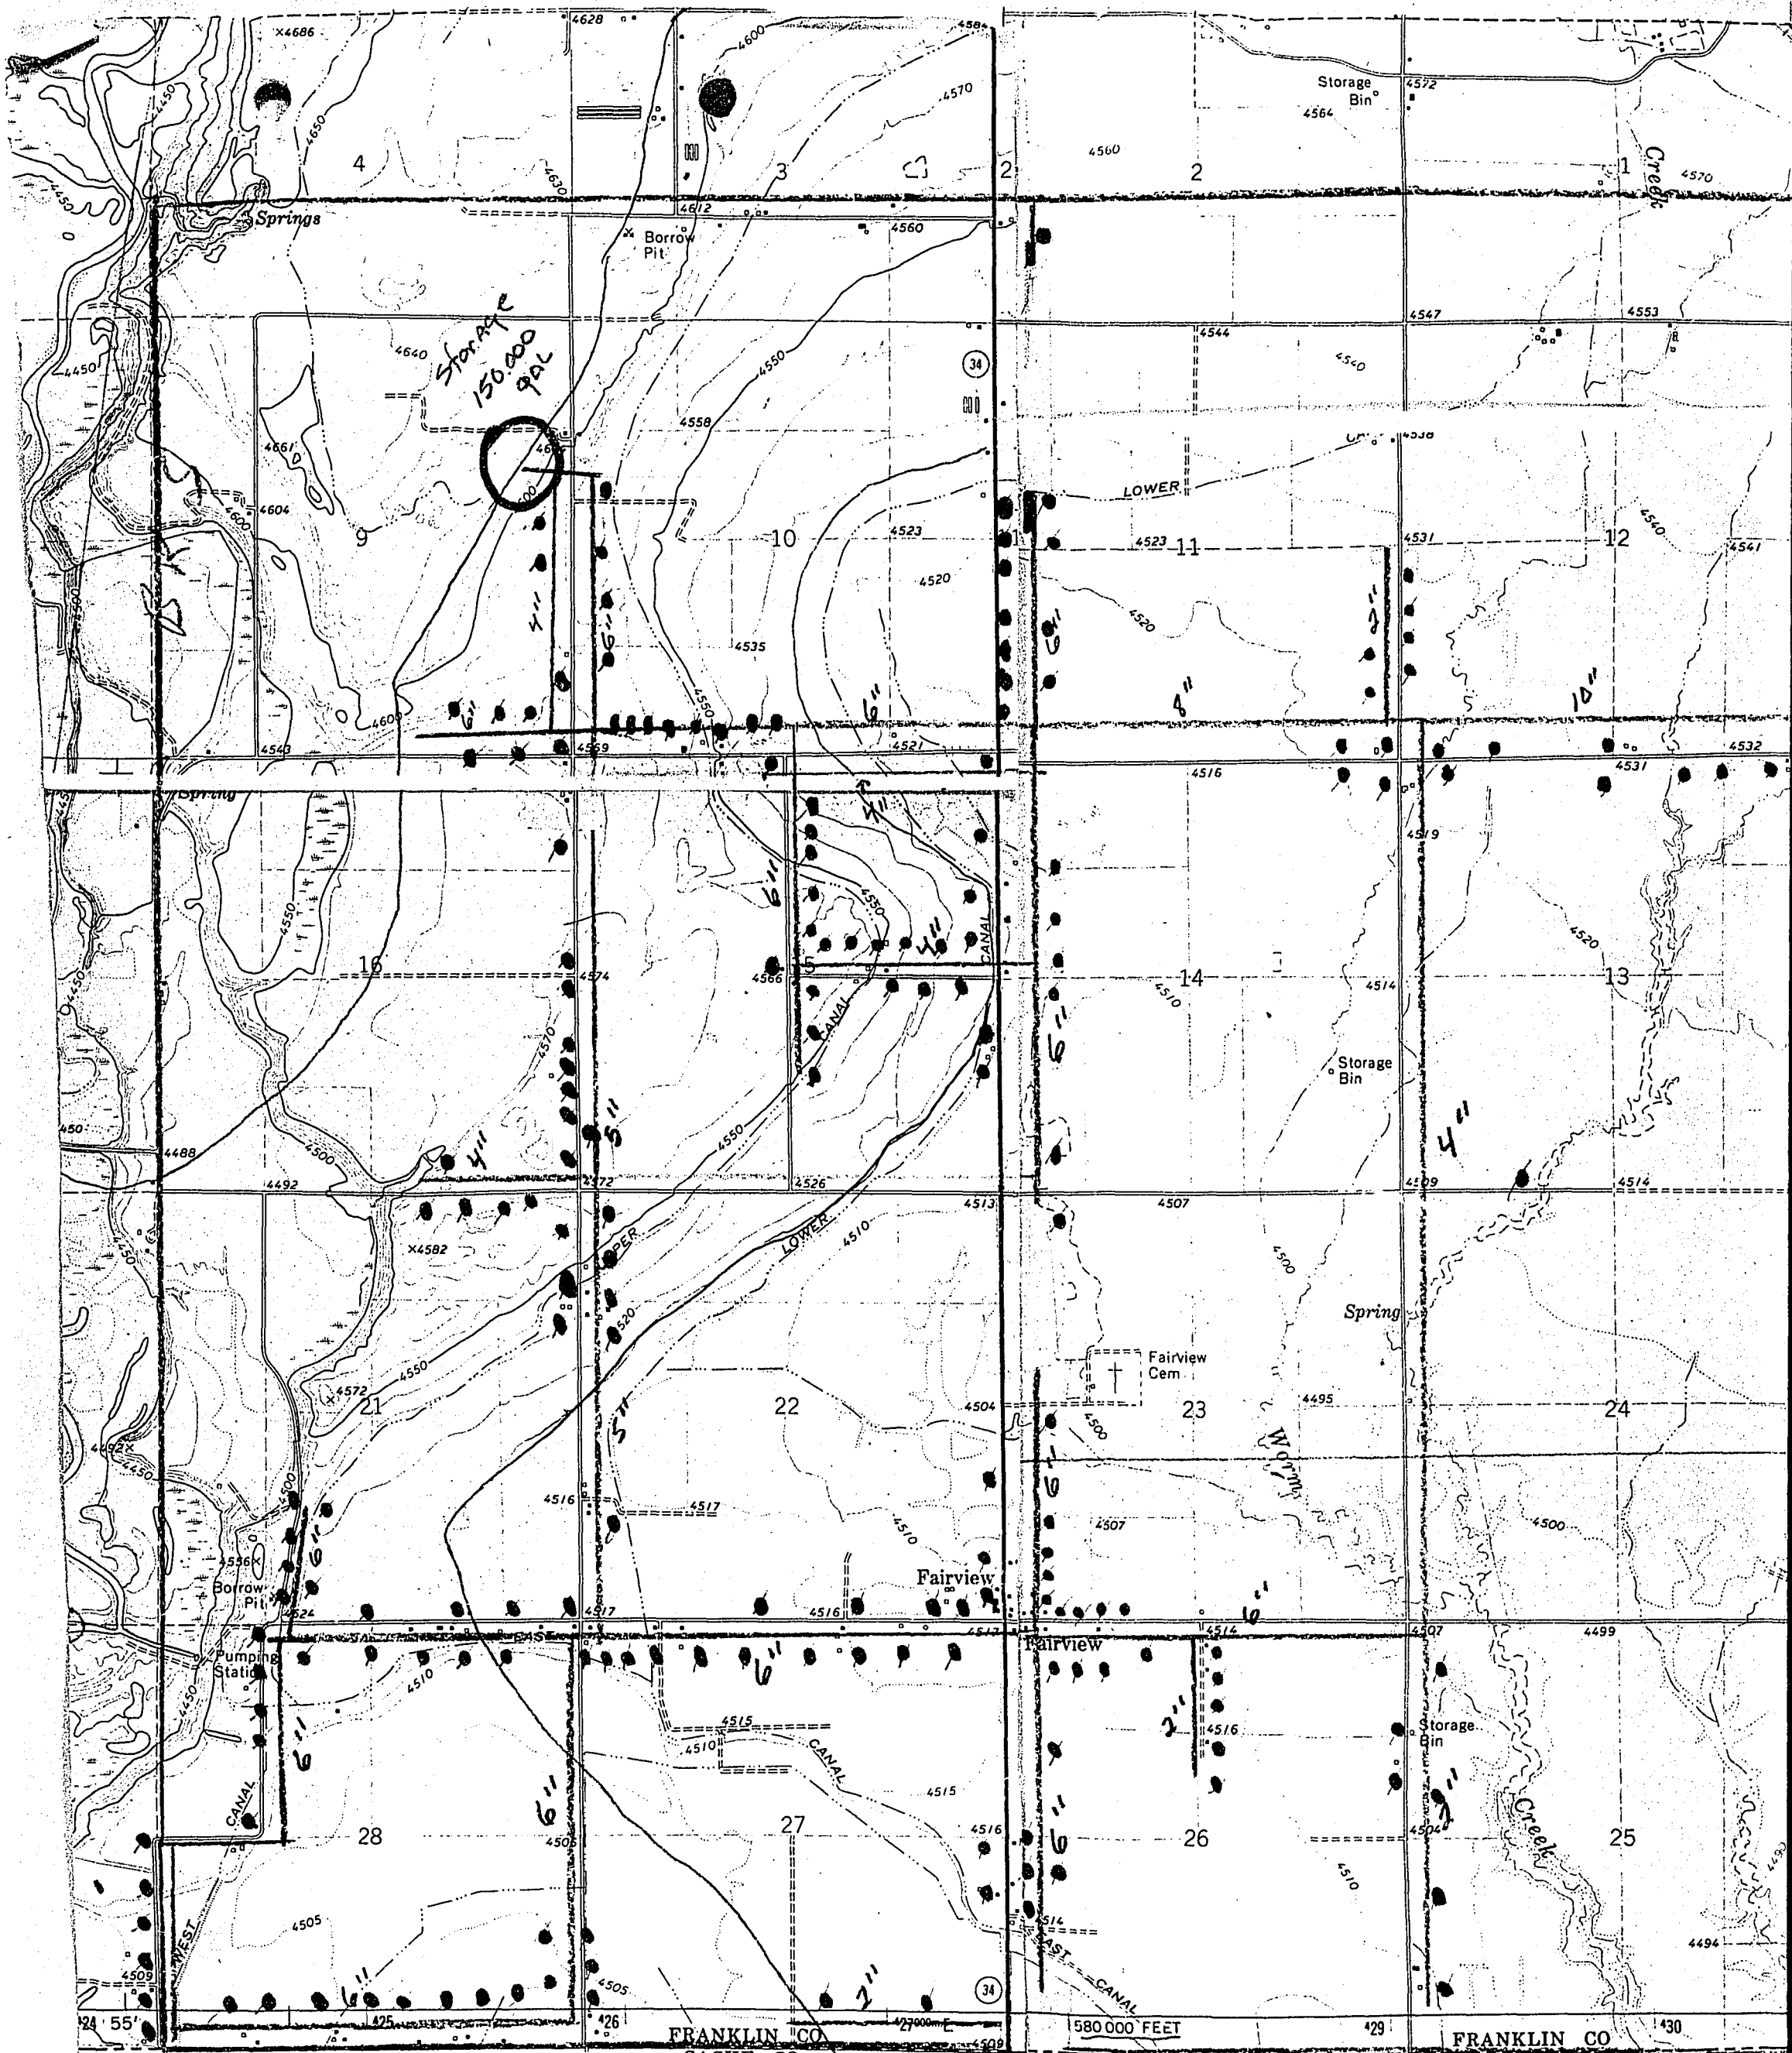

$$Q_{cfs} = \left[\frac{40}{Hp} \times 8.814 \times \frac{.7}{Eff} \right] \div \left[\frac{\text{Lift}}{\text{Lift}} + \left(\frac{\text{psi}}{\text{psi}} \times 2.308 \right) \right]$$

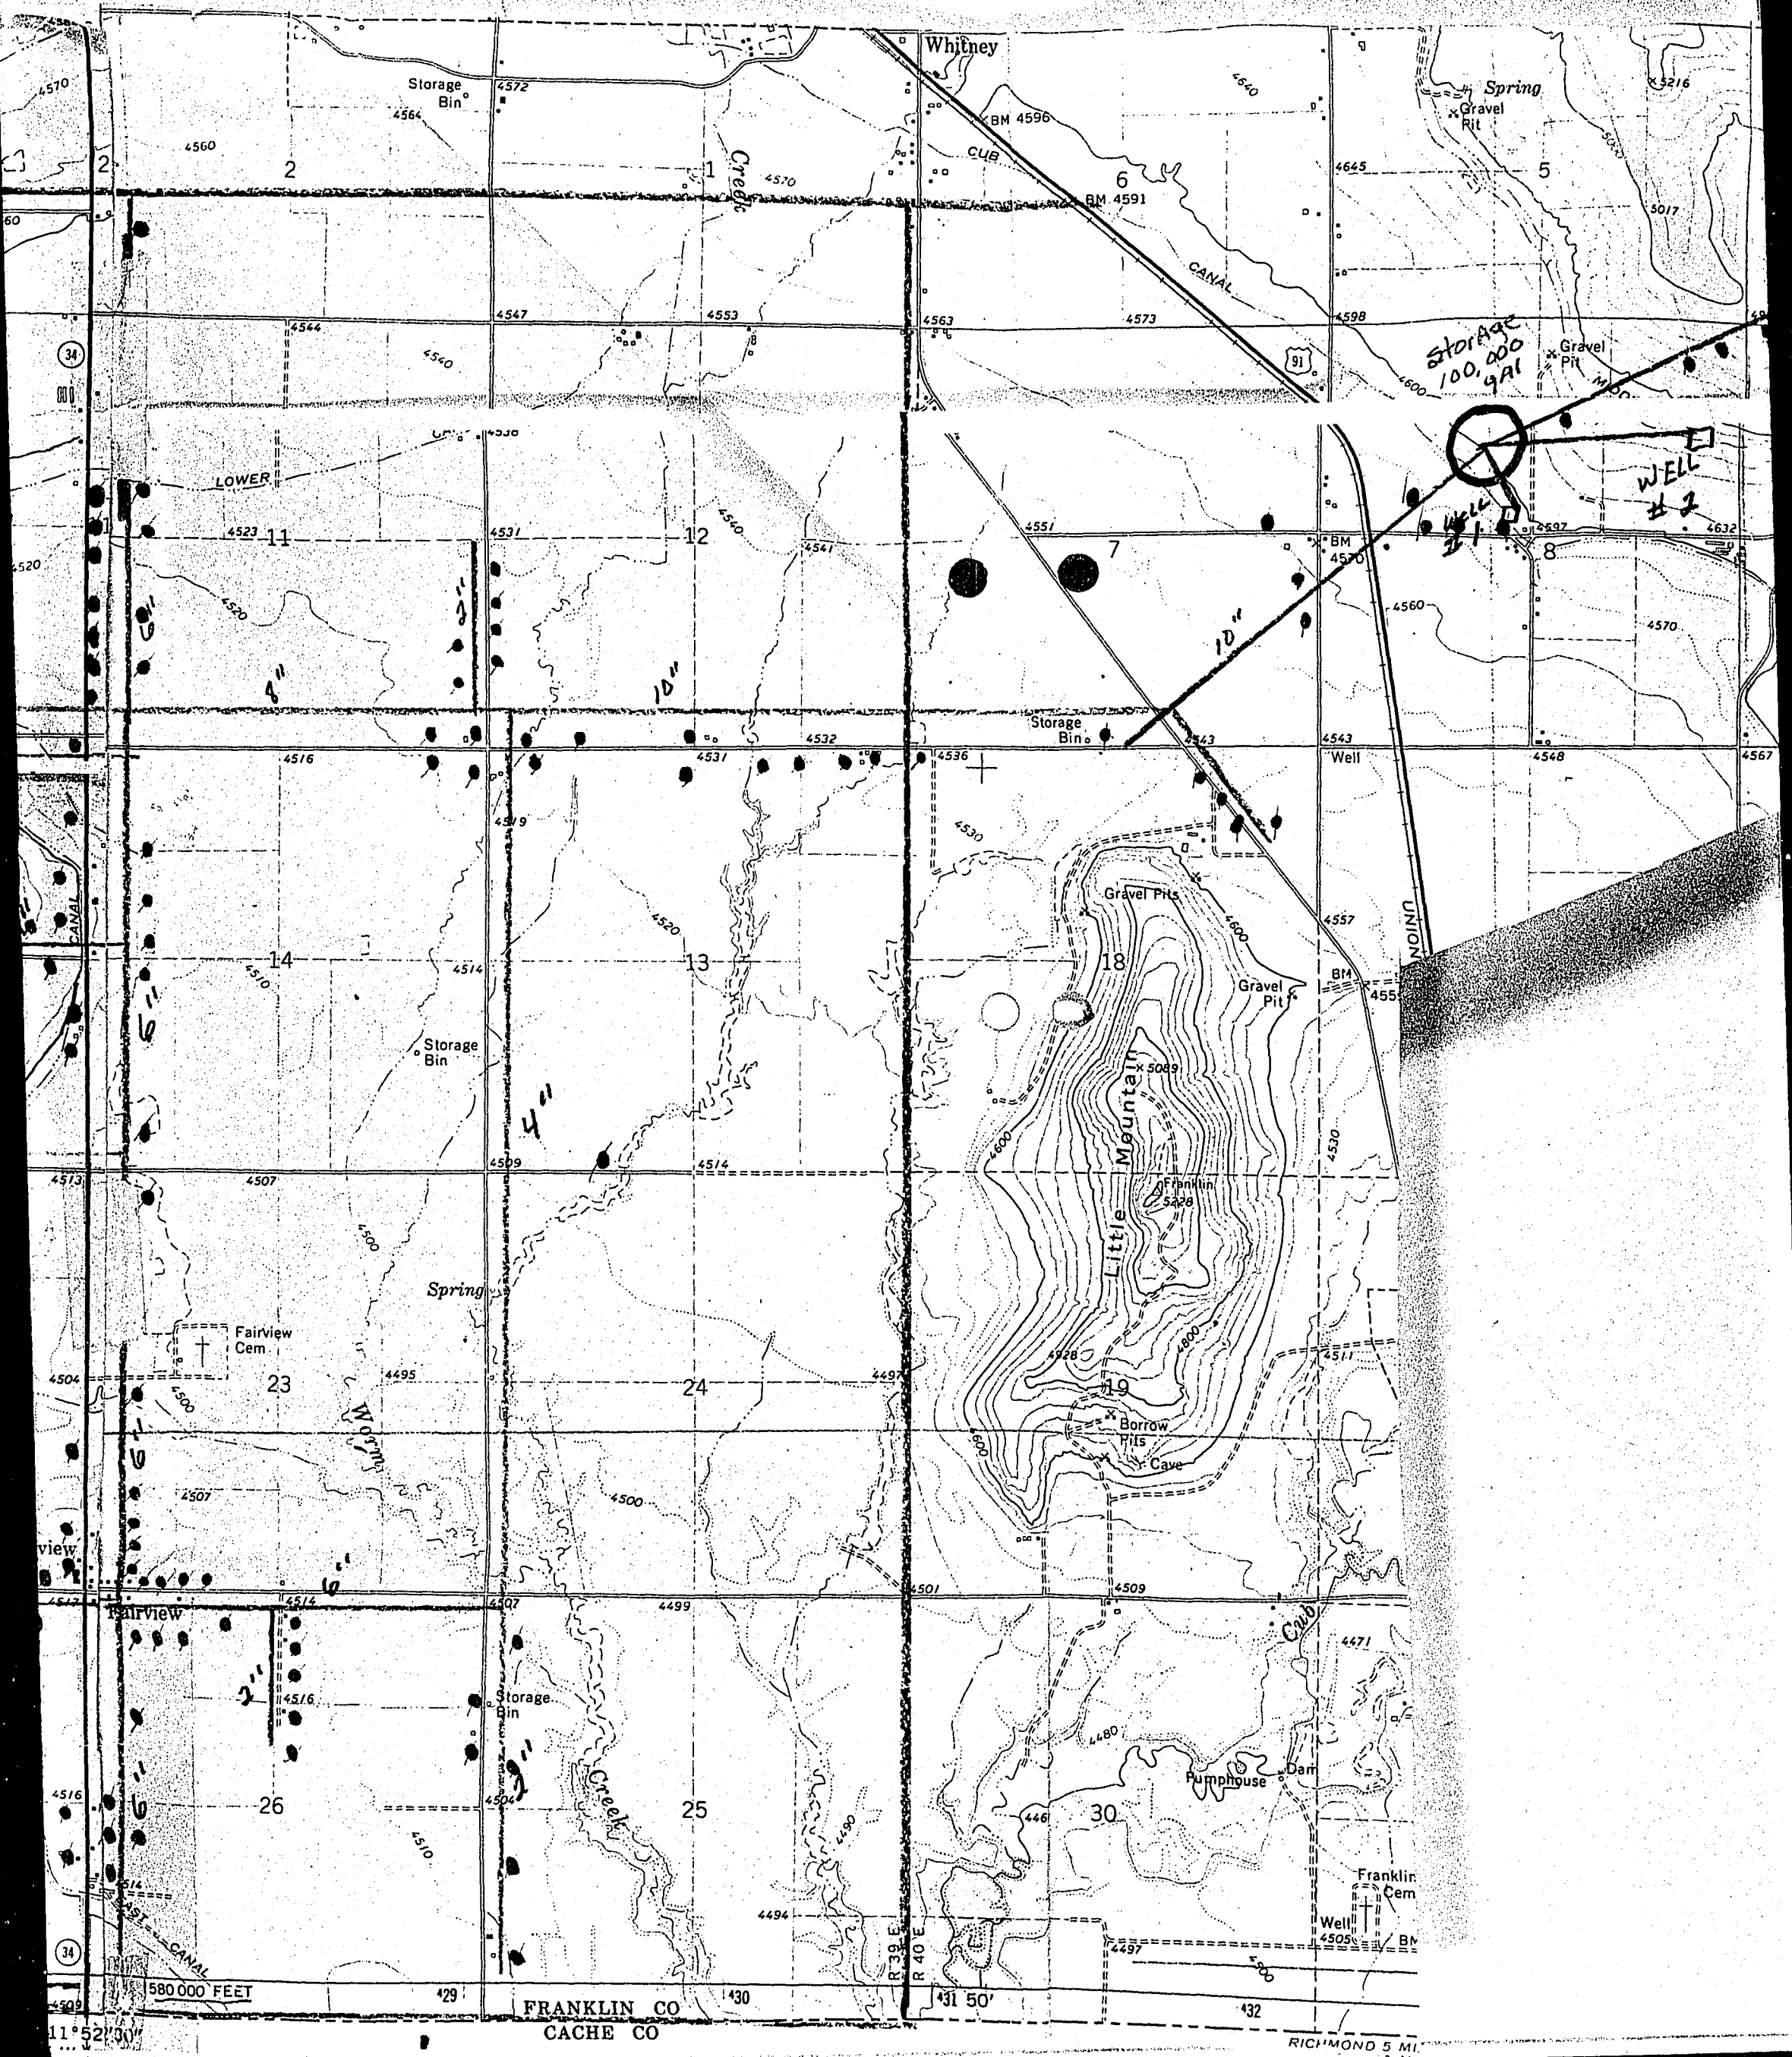

$$Q_{cfs} = \left[\frac{246.792}{\text{Lift}} \right] \div \left[\frac{254}{\text{Lift}} \right]$$

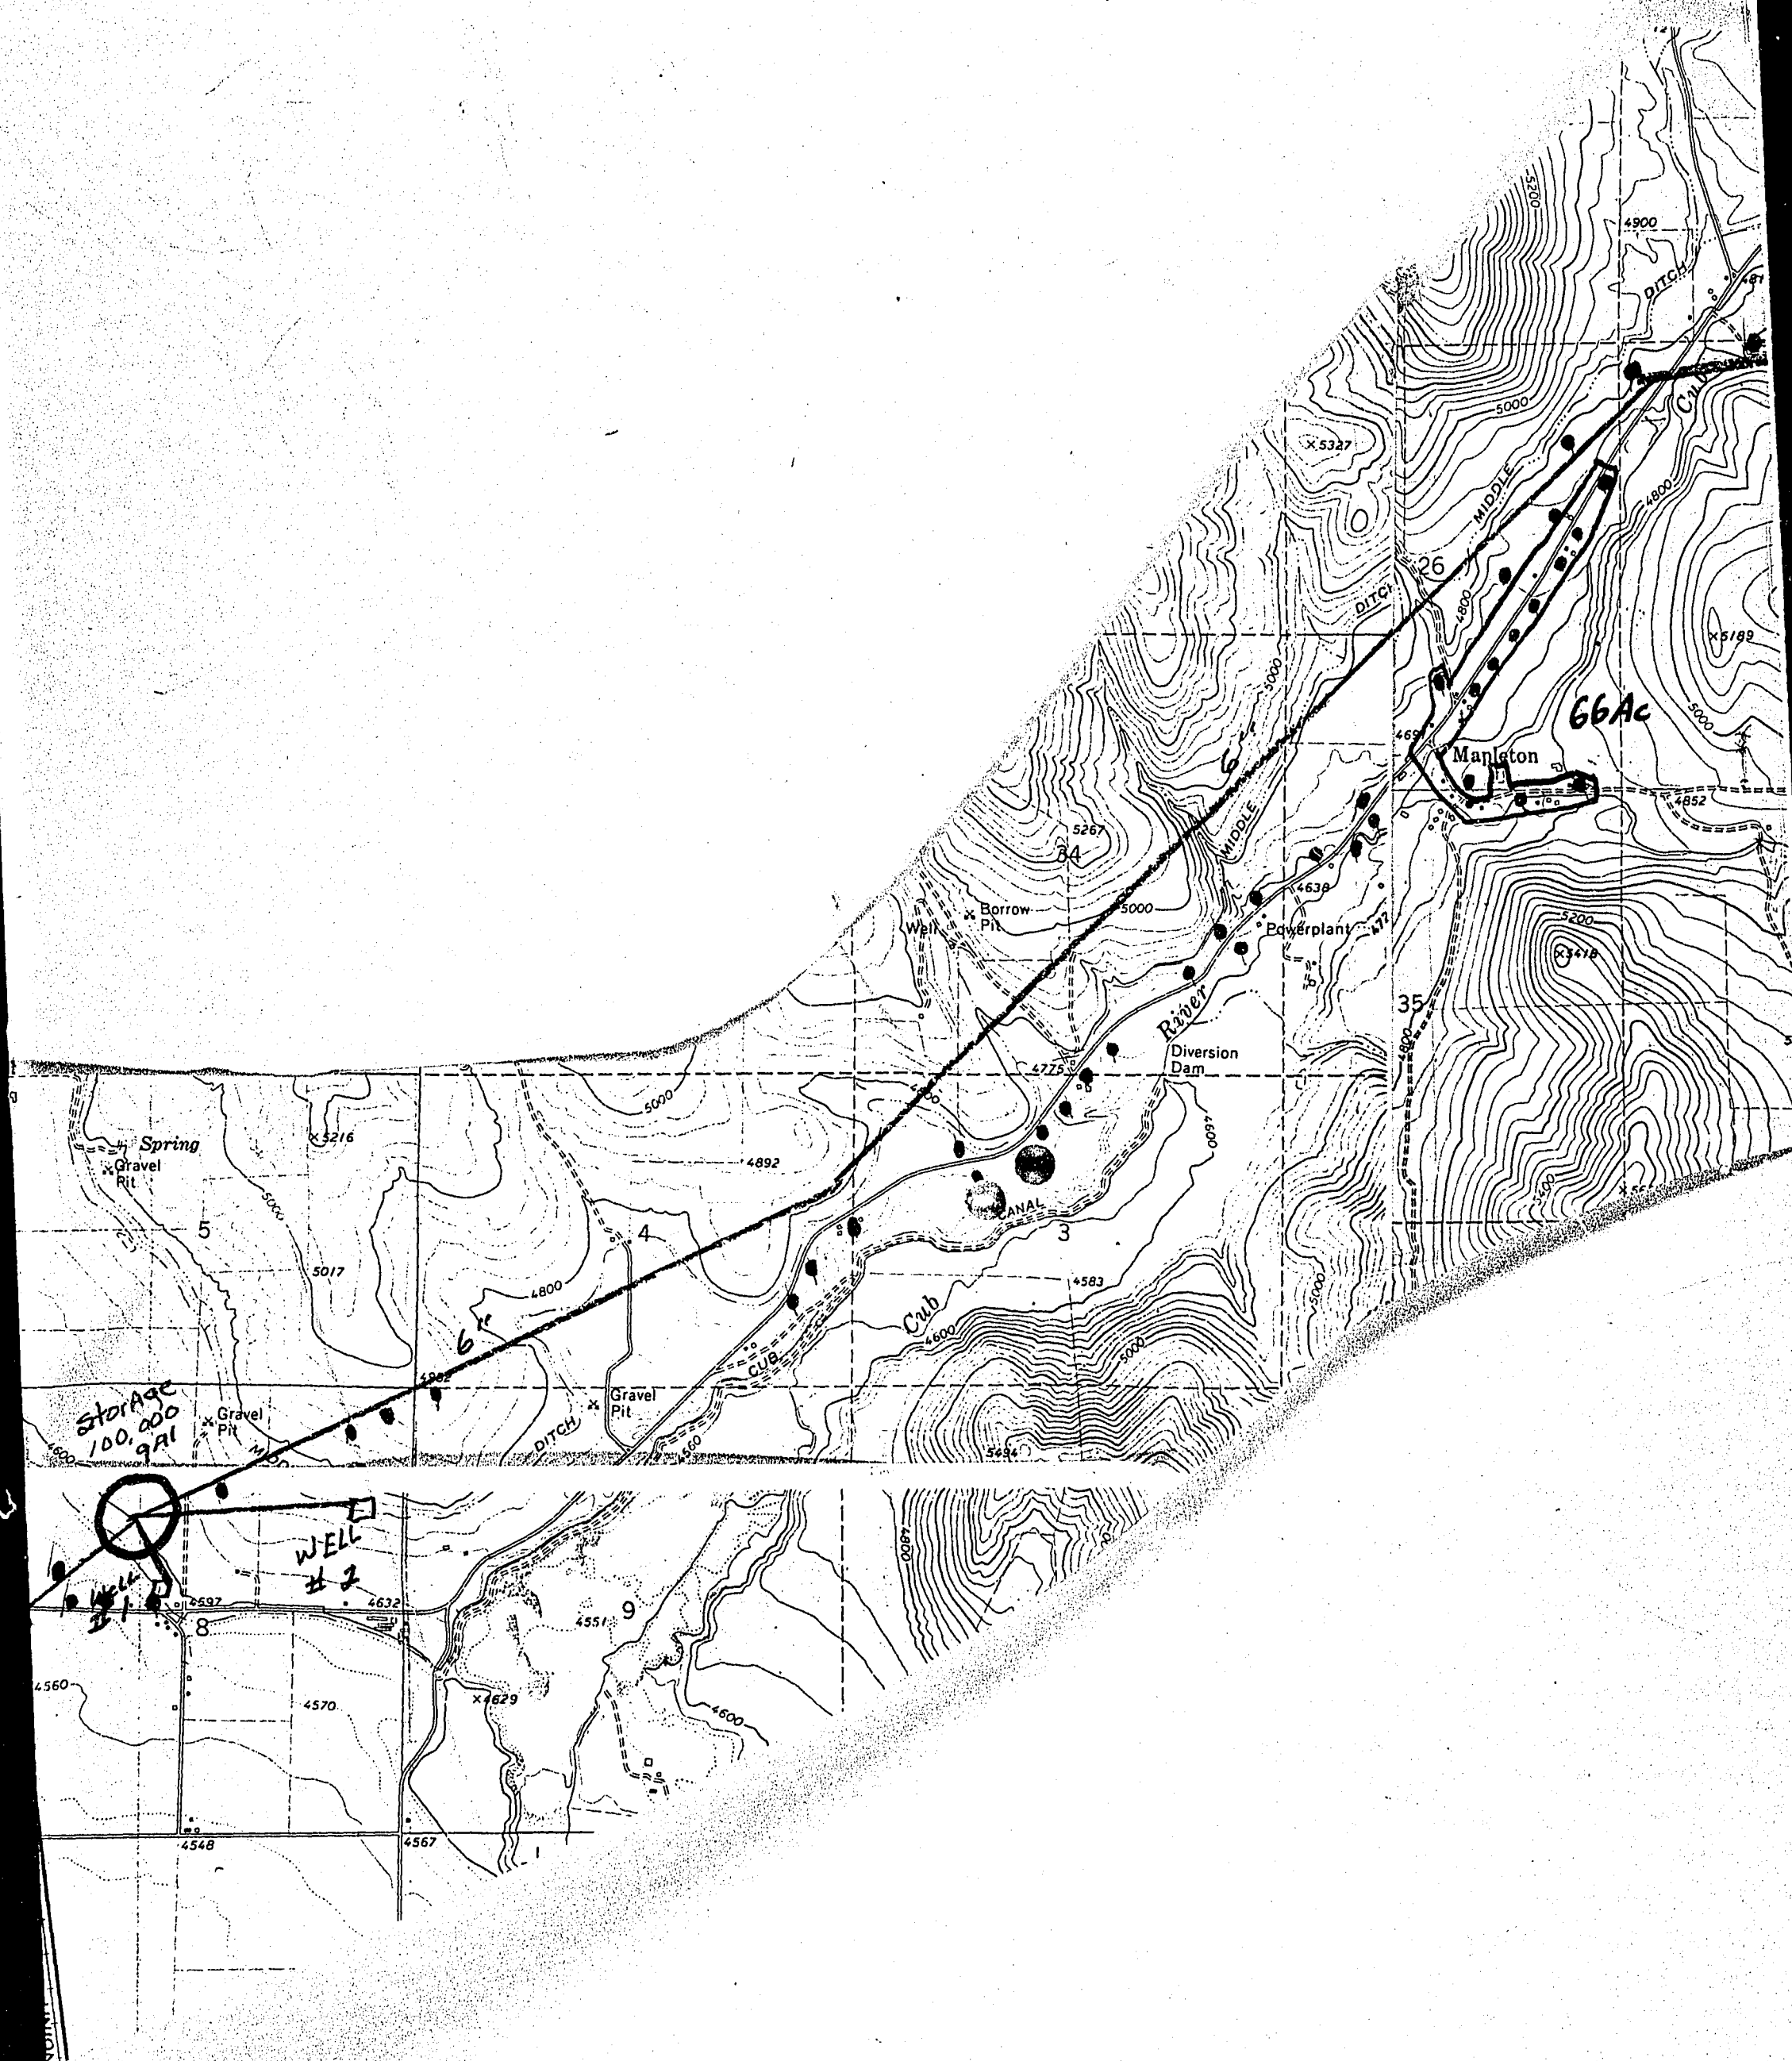

$$Q_{cfs} = \underline{0.971} \text{ cfs}$$

RE: Recommendation Adjustment(s)

The place of use was checked and double-checked for $\frac{1}{4}$ descriptions using the map provided by the examiner; where the map was taped together showing sections 26 and 35, a portion of the sections had been cut off. So for those two sections, I prepared another copy of the topo map and matched the "home" locations from the examiner's markings.

The number of connections were also counted twice and the total is 240 homes. This figure coincides with the number of homes identified on the proof of beneficial use statement. This permit was limited to 200 homes and the previous license covers 155 of the total homes with a volume of 93.0 af (155×0.6 af – internal use only). The volume to be licensed under 13-07510 is for the remainder of the homes ($240 - 155 = 85$ homes $\times 1.2$ af = 102 af and since this right is capable of picking up the external use for the homes previously licensed ($155 \times 0.6 = 93.0$ af) for a total of 195.0 af.

Exam Date: March 20, 1996
Examiner: Don Simpkins

Report

Analysis of System Capacity for Subdivisions

Operator: S. Curtis

Date: 5/18/99

Right No.: 13-07510

Existing or Proposed System

Storage capacity in gallons	150000 gal	
Pump horsepower	40 hp	
Dynamic lift	195 ft	
Pump discharge pressure	80 psi	
Theoretical pumping capacity	0.65 cfs	291.2 gpm
Measured pumping capacity	1.28 cfs	574.5 gpm

Requirements

Number of homes	240 homes
Gallons per day per home	1000 gal
Area irrigated	0 acres
Peak demand period	60 min

Calculations

Peak instantaneous demand	0.15 cfs	69.1 gpm
Suggested pump capacity	0.05 cfs	20.7 gpm
Peak demand volume	4147 gal	
Max potential daily diversion vol.	827228 gal	
Total daily volume required	240000 gal	0.7365 af
Time required to pump daily vol.	7.0 hr	418 min
Time required to refill storage	0.1 hr	7 min

Key Questions

Does existing storage capacity exceed peak demand volume?	Yes
Does existing pumping capacity meet or exceed the suggested pumping capacity?	Yes
Can the system produce the required daily volume in under 24 hours?	Yes

RE: WATER RIGHT NO. 13-07510

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms that a water right has been established in compliance with the terms of the permit. The examiner who verified your water use reported that the point(s) of diversion and place(s) of use developed are in locations other than what was described on your permit. Therefore, before a license can be issued, your permit must be amended to depict your water right as it was actually developed.

The enclosed Application for Amendment form depicts the point(s) of diversion and place(s) of use and other information as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

Also, please note that some of the proposed conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208)327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Re: Fairview Water District/Water Right No. 13-07510

Dear Mr. Keen:

Please find the enclosed copy of a map showing the boundaries of the Fairview Water District. The map was obtained from the County Clerk's office.

It is my understanding from our discussion that the Amendment to the Application for Permit enclosed with your letter of May 21, 1999, is to allow for a combined domestic water right between water rights - 13-07201 and 13-07510. This would allow the District to use the water in both wells as a joint water right, perhaps taking more water from one well as opposed to using both wells, as the need arises. I can see this as being an advantage to the Water District.

We also discussed the listed places of use. As I reviewed the previous filings and the boundaries of the Fairview Water District, the places of use denoted on the Application for Amendment do not coincide. Rather than pinpoint each area in which a home or dairy is located within the boundaries of the District, it seems to me to be more appropriate to allow for the District boundaries to constitute the place of use, as a whole.

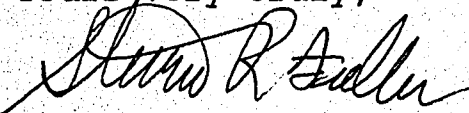

The District may need to request either through the amendment process or by separate Application for Transfer, that the Water District be treated as a municipal water provider under the Code. This would allow greater flexibility in marking the designated area of use and would allow for expansion of future usage. I will discuss this with the District to determine their intentions.

It is my understanding you will wait ninety (90) days before reinstituting the amendment process and moving towards a licensing of the water right to allow the District time to determine its intent.

RE: Fairview Water District Permit No. 13-07510

Dear Mr. Fuller:

Last June I wrote your client, Fairview Water District, to give them the opportunity to amend Water Appropriation Permit No. 13-07510 to conform to the findings of IDWR's field examiner before the right is licensed. You responded with a request for time to explore the possibility of changing the right from domestic purposes to municipal purposes in order to allow for more flexibility in the authorized place of use. The actual use of water developed under Permit No. 13-07510, as described by the field examiner, appears to be consistent with the definitions of "municipal purposes" and "service area" in §42-202B, *Idaho Code*. Because I have not heard from you since June, I have taken the initiative to revise the proposed amendment according to your suggestions. The revised amendment form is enclosed.

Please review the amendment form with your client. If you and your client concur with the information presented, sign the form and return it with the following items within fourteen days.

- The \$50.00 filing fee
- Documentation showing that Fairview Water District qualifies as a municipal provider as the term is defined in §42-202B(2), *Idaho Code*
- The legal description of the current boundaries of the Fairview Water District

If you have any questions, please contact me at 208-327-7946.

Respectfully,

Shelley Walter Keen

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: WATER RIGHT NO. 13-07510

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Shelley W. Keen'.
