PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 13-07531

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form and examination fee submitted for the above referenced permit. Enclosed is an order reinstating the permit advancing the priority since proof was submitted after the proof due date.

Upon review of your proof I found that you stated a use of irrigation for "20+" acres. The permit only allows ½ acre or less for irrigation under a domestic right. I suggest you review your permit and contact the Eastern region at the number below. A water right agent can help you determine if you need to apply for a second permit to irrigate the 20 acres.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. The regional office staff will contact you when that examination is to be conducted. If you have questions concerning the field examination, please contact the **Eastern Regional Office** of the department in Idaho Falls at (208) 525-7161.
