STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

Ident. No. 13-7532

Department of Water Resources

To appropriate the public waters of the State of Idaho

1. Name of applicant W. ELDEAN HOLLIDAY Phone 208 852-1763
Post office address P.O. BOX 84 PRESTON, IDAHO 83263
2. Source of water supply UNNAMED SPRING which is a tributary of Spring Creek
3. Location of point of diversion is NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of NW $\frac{1}{4}$, Govt. Lot _____
Sec. 30 Township 15S Range 40E B.M. Franklin County; additional
points of diversion if any: _____
4. Water will be used for the following purposes:
Amount 0.06 for DOMESTIC purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 0.06 and/or (b) _____
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Description of ditches, flumes, pumps, headgates, etc. Spring box, pump to storage tank with on demand pumps to two (2) single domestic homes
 - b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet; period of year when water will be diverted to storage: _____ to _____ inclusive.
 - c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
 - d. Is ground water with a temperature of greater than 85°F being sought? no
 - e. If well is already drilled, when? _____; Drilling firm _____;
Well was drilled for (well owner) _____
7. Time required for the completion of the works and application of the water to be proposed beneficial use is
1 YEAR years (minimum 1 year).

8. Description of proposed uses (if irrigation only, go to item 9):

- a. Hydropower; show total feet of head and proposed capacity in KW. _____
- b. Stockwatering; list number and kind of livestock. _____
- c. Municipal; show name of municipality. _____
- d. Domestic; show number of households. 2 (TWO) IN HOUSE ONLY - SECONDARY AVAILABLE
- e. Other; describe fully. _____

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
15S	40 EAST	30					D/2												

Total number of acres to be irrigated NONE

10. Describe any other water rights used for the same purposes as described above. _____

11. a. Who owns the property at the point of diversion? Applicant
- b. Who owns the land to be irrigated or place of use? "
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. _____

12. Remarks: THE PROPOSED SPRING IS SMALL AND HAS BEEN PIPED TO A DRAINAGE WASH (SPRING CREEK)
(RUNOFF). WE WANT TO OPEN AT ITS ^{Source} ~~Source~~ CAPTURE THE WATER IN AN UNDERGROUND
CONCRETE TANK 8X10X8 AND PUMP TO THE RESIDENCES. THE SPRING HAS BEEN TESTED
AND BEEN APPROVED FOR HUMAN CONSUMPTION.

13. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

W. C. Adams
(Applicant)

Assisted by _____
Received by Kaw Date 5/11/95 Time 1600hrs Preliminary check by _____

Publication prepared by LB Date 6-18-95 Published in Prairie Citizen
Publication approved LB Date 7-17-95

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other:

State of Idaho
Department of Water Resources
Permit To Appropriate Water

NO. 13-07532

Proposed Priority: May 11, 1995

Maximum Diversion Rate:

0.06 CFS

This is to certify, that W ELDON HOLLIDAY

PO BOX 84

PRESTON ID 83263-0084

has applied for a permit to appropriate water from:

SPRING

tributary of SPRING CREEK

and a permit is APPROVED for development of water as follows:

BENEFICIAL USE

PERIOD OF USE

RATE OF DIVERSION

DOMESTIC

01/01 to 12/31

0.06 CFS

LOCATION OF POINT(S) OF DIVERSION:

NWSWNW , Sec. 30, Township 15S, Range 40E
FRANKLIN County

PLACE OF USE: DOMESTIC

TWN RGE SEC

15S 40E 30

NWNW

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 1996.
2. Subject to all prior water rights.
3. Use of water under this right is subject to control by the watermaster of State Water District No. 13A.
4. Domestic use is for 2 homes.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the signature of the Director, affixed at Boise, this

25th day of July, 1995.

RE: Application for Permit No. 13-07532

Dear Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the News Examiner on June 1 & 8, 1995. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the applications and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones

Re: Protests to applications to appropriate water

Dear Idaho Department of Water Resources,

Enclosed for filing please find PacifiCorp's protests to the following applications to appropriate water in in the Bear River basin.

11-07403	Delvin & Toni Humble
11-07411	Vyron Randall Ostler
13-07500	Ralph B. Johnson, Kent B. Johnson, Steven A. Johnson
13-07505	Glen Merrill
13-07509	Wallingford Development
13-07511	Fairview Water District
13-07532	W. Eldon Holliday

PacifiCorp's check for \$175 (\$25 for each protest) is also enclosed.

We have mailed copies of the protests to the applicants.

If you have questions or need further information to process these protests, please contact me at the phone number listed on this letterhead.

Very truly yours,

KRUSE, LANDA & MAYCOCK

W. Eldon Holliday
P.O. Box 84
Preston, Idaho 83263

Department of Water Resources
Eastern District Office

Dear Mr. Holliday:

I am enclosing a copy of a protest to your application to appropriate ground water in the Bear River Basin in Idaho. After you filed your application, the State of Idaho issued a moratorium on further appropriation of water in the Bear River Basin. That moratorium was lifted on May 5, 1995 and applications which had been filed but were not yet approved when the moratorium was entered are now being processed by the Idaho Department of Water Resources. Yours is one of those applications.

The groundwater which you are attempting to appropriate in the Bear River Basin eventually flows to the Bear River and makes up the water rights for downstream water users. Thus, there is little hydrological difference between a withdrawal of groundwater or an appropriation of surface water if you are in the Bear River Basin. While most people look at the Bear River in summer and notice that it is bank full of water, that water is not the natural flow of the River. PacifiCorp has entered into contracts with irrigation users downstream on the Bear River to supplement their water rights as the summer proceeds with storage water released from Bear Lake. In the past, it was PacifiCorp's practice to offer contracts to Idaho water appropriators so that they could continue to pump water from their wells late into the season when their use would otherwise interfere with downstream water rights.

Prior to the moratorium, it was PacifiCorp's policy to protest each new application for water in the Bear River Basin over the amount of 0.015 cfs. The reason for the 0.015 cfs exception was to allow for a water supply for new single family homes being built in rural areas outside of community water supply systems. For applications to appropriate water in excess of 0.015 cfs, prior to the moratorium, PacifiCorp offered applicants an opportunity to replace the water which they were using which would flow into the Bear River by entering into a contract to release storage water from Bear Lake. However, over the past drought, it has become apparent to PacifiCorp that it no longer has storage water in Bear Lake which it can sell to downstream users to replace their depletion on the river system. Thus, PacifiCorp has reinstituted its practice of protesting applications above 0.015 cfs.

KRUSE, LANDA & MAYCOCK

W. Eldon Holliday

June 15, 1995

Page 2

If the Idaho Department of Water Resources does approve your application to appropriate water, PacifiCorp and the other water users with senior water rights in the Bear River Basin encourage you to seriously consider the amount of water you will be able to use without a storage water contract from Bear Lake and compare that to the costs you will incur in drilling your well. Except in very wet flood years, like 1984, PacifiCorp believes that there will only be water available for you to use, if at all, for a very short time in the spring. A water right with a 1990s priority date would have virtually no water available for diversion during the summer and early fall months to meet your likely water demands.

Should you decide to convert your application to a 0.015 cfs request for each of your two homes, or for a total diversion of 0.030, please notify PacifiCorp and pursuant to PacifiCorp's policy, it will withdraw the protest to your application to appropriate water. If you have any questions regarding this protest, you may telephone me at the number listed on this letterhead, or Carly Burton, PacifiCorp's Hydrological Supervisor, at (801) 220-2174.

Sincerely,

KRUSE, LANDA & MAYCOCK, L.L.C.

Re: Protests to applications to appropriate water

Dear Director:

On behalf of Bear Lake Watch, a citizens's group comprised of homeowners and recreationalists on Bear Lake, enclosed please find an original and one copy of seven (7) petitions to intervene and protest the following applications to appropriate water in the Bear River basin.

11-07403: Delvin Humble and Toni Humble
11-07411: Vyron Randall Ostler
13-07500: Ralph Johnson, Kent Johnson, Steven Johnson
13-07505: Glen Merrill
13-07509: Wallingford Development, Inc.
13-07511: Fairview Water District
13-07532: W. Eldon Holliday

Enclosed please also find our check in the amount of \$175 to cover the costs of our protests.

Kindly date stamp the copy of this letter and return in the enclosed, stamped envelope.

Please do not hesitate to contact me if I can be of assistance.

Very truly yours,

Randall M. Weiner

Dear Mr. Rose:

Your protest against approval of the above referenced applications have been received and a copy has been sent to the applicant. The Department suggests you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

Unless this office is advised that either the matter has been resolved or there exists extenuating circumstances, our objective is to schedule a conference and/or hearing in the near future to consider the protest. At such a conference and/or hearing, the following are the principle items the Department can consider in their approving or denying the application (Idaho Code § 42-203) the following are the principle items the Department can consider in either approving or denying the applications for (Idaho Code § 42-203):

1. Will the proposed use reduce the quantity of water under existing rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

D. Brent Styer
Page 2

5. Will the proposed use under this permit conflict with the local public interest?

6. Is the proposed use contrary to conservation of water resources within the State of Idaho?

The protestant must be prepared to present proof of allegations involving one or more of the six items.

In addition, Rule 302 of the Department's Rules of Procedure requires a protestant to send a copy of the protest to the applicant in question.

If this office can be of further assistance, please contact us.

Sincerely,

HAROLD W. JONES

)
)
)
)
)
)
**Protest of PacifiCorp,
an Oregon Corporation, dba
Utah Power & Light Company,
Protestant**

1. PacifiCorp Electric Operations, an Oregon corporation doing business in Idaho as Utah Power & Light Company ("Protestant"), Hydro Engineering 1407 West North Temple, Suite 270, Salt Lake City, Utah 84140, hereby files this protest before the Department of Water Resources in the above-referenced proceeding.

2. Protestant owns water rights in the Bear River decreed in the matter of *Utah Power & Light Company v. The Last Chance Canal Company, Limited, et al*, in Equity No. 203, July 14, 1920, and *Utah Power & Light Company v. Richmond Irrigation Company, et al*, February 21, 1922, as well as other rights in the Bear River above and below the applicant's proposed point of diversion.

3. Protestant believes that withdrawals of groundwater in Franklin County, Idaho, such as that proposed by the applicant, will diminish the groundwater inflow contribution to the surface flow of the Bear River, to which Protestant and many other Idaho and Utah water users have prior existing water rights.

4. Protestant has entered into many contracts with irrigators in Idaho and Utah along the Bear River, some of whom may be Protestants in this matter, for supply of supplemental storage water from Bear Lake when the natural flow of the Bear River is insufficient to satisfy existing water rights. However, due to the high irrigation demands throughout the past seven year drought, the level of Bear Lake has dropped significantly, endangering Protestant's ability to continue to deliver supplemental irrigation water pursuant to its contracts.

5. Granting the application of Applicant would adversely affect Protestant's water rights by decreasing the amount of Bear River natural flow water it could use for generation at its Bear River hydroelectric plants, as well as increase the already unsustainable demand on Protestant's Bear Lake storage water pursuant to the supplemental irrigation water contracts.

6. Protestant's supplemental storage water supply from Bear Lake is fully allocated, and Protestant will not offer a new supplemental storage water contract to Applicant. Even if some water is available from time to time to satisfy Applicant's proposed uses, the supply under such a late priority would be sporadic at best, probably usable for a short time only in the spring, and not adequate to sustain Applicant's needs throughout its requested annual period of use.

7. In addition to diminishing the quantity of Bear River water available to satisfy prior existing water rights, Protestant believes that granting the above-referenced application would conflict with the local public interest in the three following areas by reducing groundwater inflow into the Bear River: First, increased reliance by existing users on supplemental irrigation

water delivered from Bear Lake to make up the depletion from Bear River natural flow will stress Protestant's ability to supply the full amount of Bear Lake water already allocated to existing water users. Second, as the level of Bear Lake drops, recreation and other non-consumptive uses at the lake are adversely affected. The new Idaho State Parks & Recreation boat launch has been unusable for several years; the new State park receives little use due to its distance from the water; facilities built with State funds are unusable, and visitor days and the attendant revenue they produce for the State plummet. The local economy at the lake suffers. Third, traditional habitat for indigenous fish in Bear Lake is decreased. Other wildlife species which depend on the lake will have similar problems due to habitat loss. The spread of noxious weeds and tamarisk is accelerated along the lake shore.

WHEREFORE, Protestant respectfully protests the above-referenced application and requests that it be denied.

DATED this 15th day of June, 1995.

BEFORE THE DEPARTMENT OF WATER RESOURCES
STATE OF IDAHO

In the Matter of Application to
Appropriate Water No. 13-07532
Filed by: W. Eldon Holliday

PETITION TO INTERVENE AND
PROTEST OF BEAR RIVER
CANAL COMPANY

COMES NOW, Bear River Canal Company, a Utah non-profit mutual water company (the "Canal Company"), by and through its legal counsel above-named, who hereby files this Petition to Intervene and Protest in the above-captioned matter, and in support hereof states as follows:

1. The Canal Company is the owner of certain water rights judicially decreed to the Canal Company and its predecessors-in-interest in that certain case known and styled as *Utah Power & Light Company v. Richmond Irrigation Company, et al.*, dated February 21, 1922, commonly known as the "Kimball Decree," and other prior appropriated and certificated rights recognized by law in the State of Utah.

2. The Canal Company's right to the use of water diverted pursuant to its water rights described above is supplemented with water out of storage in Bear Lake pursuant to the terms of a contract entered into by and between Utah Power & Light

Company and Utah-Idaho Sugar Company, the Canal Company's predecessor-in-interest, dated December 30, 1912. The 1912 Agreement obligates Utah Power & Light Company to supplement the natural flow of the Bear River, in satisfaction of the Canal Company's rights thereunder, up to 900 c.f.s. of water during the irrigation season, May 1st through October 31st, and 150 c.f.s. of water during the non-irrigation season, November 1st through April 30. Water utilized by Utah Power & Light Company to satisfy its obligations to the Canal Company under the 1912 Agreement is stored in Bear Lake.

3. Water under the Canal Company's water rights as herein described serves 1,600 shareholders who collectively irrigate over 65,000 acres in Utah.

4. The Canal Company's water rights are an extremely important and valuable asset, not only to the Canal Company and its shareholders who depend upon the water delivered thereunder for their livelihood, but also to the economy of Box Elder County and the State of Utah. These rights must be protected and preserved inviolate from interference and impairment.

5. The water of the Bear River and its tributaries was fully adjudicated in the Kimball Decree, in Utah, and in the case known and styled as *Utah Power & Light Company v. Last Chance Canal Co, Ltd.*, in Equity No. 203, dated July 14, 1920, commonly known as the "Dietrich Decree," in Idaho.

6. The Bear River and its tributaries below Stewart Dam is fully appropriated. There is no water available for appropriation.

7. The source of Applicant's proposed appropriation is or may be tributary to the Bear River.

8. The diversion and use of water by the Applicant pursuant to the proposed appropriation will diminish the flow of the Bear River and, as a direct result, will interfere with and otherwise impair the prior vested rights of the Canal Company in and to the use of waters of the Bear River and its tributaries, and its contract right to the use of water in storage in Bear Lake.

9. Approval of the Application is in conflict with the local public interest. Any increase in demand for the use of water in the Bear River and its tributaries, as a result of any new appropriation in the Bear River Basin, will correspondingly increase the demand for delivery of Bear Lake storage water in satisfaction of Utah Power & Light Company's contract obligations to the Canal Company and other contract holders, thereby further depleting an already insufficient water supply in storage in the Lake. Moreover, any action which serves to decrease the supply of water in storage in Bear Lake is likewise severely detrimental to those having non-consumptive uses and interests in the Lake including recreation, wildlife and fish habitat.

WHEREFORE, Petitioner hereby respectfully requests:

A. that the Petitioner be granted leave to intervene and participate as a party in the above action;

B. that the Application be denied; and

C. that the Petitioner and its legal counsel be provided with copies of all pleadings, correspondence and other documents filed or served in the above matter, that it be duly notified, in advance, of all hearings on the Application and that counsel be afforded the opportunity of input with respect to the scheduling of hearing dates in order

to accommodate the Petitioner's scheduling of interested parties and other witnesses.

DATED this 15th day of June, 1995.

CLYDE. SNOW & SWENSON, P.C.

BEFORE THE DEPARTMENT OF WATER RESOURCES
STATE OF IDAHO

In the Matter of the	)	
Application for Permit	)	Petition to Intervene and
No. 13-07532	)	Protest of Bear Lake
W. Eldon Holliday,	)	Watch, Protestant
Applicant	)	

1. Bear Lake Watch, Inc. is a Utah nonprofit corporation which was organized in 1994 to protect and restore the environment and waters of Bear Lake. Bear Lake Watch is seeking to assure that the public interest is served when decisions are made that have an impact on the allocation and utilization of Bear Lake's water.

2. The approximately 150 members of Bear Lake Watch live and/or have businesses in the Bear River basin and have a direct and substantial interest in this proceeding.

3. Bear Lake Watch, Inc. believes that the requested groundwater withdrawals will affect it and its members by reducing the contribution of groundwater to the surface flow of the Bear River below Bear Lake.

4. Indeed, many of the members of Bear Lake Watch, Inc. have already been directly and negatively impacted by low water levels

in Bear Lake, which have resulted, in part, from the huge demand for water from those currently entitled to water in the Bear River basin. Should the requested groundwater withdrawals be permitted, there will likely be less water in the Bear River to meet the demands of those currently entitled to water. As a result, more water may be removed from Bear Lake to meet these downstream demands, thereby lowering Bear Lake further than it would have been without the proposed withdrawals.

5. Further lowering of Bear Lake will greatly impact the members of Bear Lake Watch. It will result in lower property values, reduced fishing opportunities, additional boating problems, and reduced business revenues derived from the tourists who flock to a stable and healthy lake environment but stay away from a marshy and mosquito infested waterfront.

WHEREFORE, Bear Lake Watch, Inc. respectfully moves to intervene and protests this application and requests that it be denied.

DATED this 19th day of June, 1995.

Respectfully submitted,

RE: PERMIT NO. 13-07532

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1999. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 13-07532

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **EASTERN** Regional Office of the department in Idaho Falls at (208)769-1450.

Sincerely,

JULIE L. YARBROUGH, Administrative Assistant
Water Allocation Bureau
