**Protest of PacifiCorp,
an Oregon Corporation, dba
Utah Power & Light Company,
Protestant**

2. Protestant owns water rights in the Bear River and Bear Lake decreed in the matter of *Utah Power & Light Company v. The Last Chance Canal Company, Limited, et al*, in Equity No. 203, July 14, 1920, and *Utah Power & Light Company v. Richmond Irrigation*

Company, et al, February 21, 1922, as well as other rights in the Bear River below Applicant's proposed point of diversion.

3. Applicant has filed 4 statutory claims and 11 new applications, each for the purpose of stockwatering of 1,000 head of livestock. Applicant also has filed an application for 1 domestic use, which Protestant is not protesting.

4. Applicant's proposed sources are close to the Bear River, or Cottonwood Creek, which contribute to the flow of the river. In total, Applicant's new applications would be a significant use of water which would interfere with the senior water rights of Applicant and others.

5. Protestant has entered into many contracts with irrigators in Idaho and Utah along the Bear River, some of whom may be Protestants in this matter, for supply of supplemental storage water from Bear Lake when the natural flow of the Bear River is insufficient to satisfy existing water rights. However, during drought periods, high irrigation demands cause the level of Bear Lake to drop significantly, endangering Protestant's ability to continue to deliver supplemental irrigation water pursuant to its contracts.

6. Granting the application of Applicant would adversely affect Protestant's water rights by decreasing the amount of Bear River natural flows used by PacifiCorp and its contract holders. When less water is available in Bear River, the contract holders must use more Bear Lake storage water.

7. If Applicant will state that all of its statutory claims and new applications are to water the same 1,000 head herd of livestock, and will limit its use from all sources under all applications and claims to the requirements of one 1,000 head herd, PacifiCorp will withdraw its protest. PacifiCorp will not offer a Bear Lake replacement water contract to Applicant.

8. In addition to diminishing the Bear River water available to satisfy prior existing water rights and contracts, Protestant believes that granting the above-referenced application would conflict with the local public interest in the three following areas by reducing requiring a greater use of Bear Lake: First, reliance by existing users on supplemental irrigation water delivered from Bear Lake will be impaired. Second, when the level of Bear Lake drops in extended droughts, recreation and other non-consumptive uses at the lake are adversely affected. The local economy at the lake suffers. Third, traditional habitat for indigenous fish in Bear Lake is decreased. Other wildlife species which depend on the lake will have similar problems due to habitat loss. The spread of noxious weeds and tamarisk is accelerated along the lake shore.

9. PacifiCorp encourages Applicant to consider acquisition of an existing water right in the vicinity of Bear Lake as replacement water.

WHEREFORE, Protestant respectfully protests the above-referenced application and requests that it be denied.

Dear Jody,

Pursuant to your filing of protest against the issuance of the above referenced applications for water rights and our subsequent telephone conversation concerning the applications we wish to confirm our intention as discussed.

With reference to item #7 on your protest, we wish to confirm that the applications as filed with the Department of Water Resources, State of Idaho are expressly intended to water the same 1,000 head herd of livestock as stated in the applications. Additionally, we confirm that the use of the water from all sources will be limited to the applications and claims to the requirements of the same 1,000 head herd.

As per our telephone conversation and item #7 in the protest as filed, we now understand that PacificCorp will withdraw its protest of our applications.

We thank you for your attention and now assume that your protest action will be withdrawn.

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

PROOF DUE NOTICE

RE: PERMIT NOS. 13-7564 through 13-7574

Dear Permit Holder:

One of the conditions of approval of the above referenced water permits was that proof of the extent of your beneficial use must be submitted to this office on or before October 01, 2001. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Admin. Asst.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NOS. 13-07564 THROUGH 13-07574

Dear Permit Holder: *Terry*

The department acknowledges receipt of the proofs of beneficial use forms submitted for the above referenced permits. The next step in the process of developing a water right is for the department to review the Field Reports that the Eastern Region prepared, and determine and confirm the use being made of the water for issuance of a license.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the Eastern Regional Office of the department in Idaho Falls at (208) 525-7161.

Sincerely,

Deborah J. Gibson
