

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

Ident. No. 13-7601

- VOID**
1. Name of Applicant Kent Clegg Phone 208-425-3071
Mailing address 550 Bench Lago Rd GRACE, Idaho 83241
 2. Source of water supply ~~the same~~ Spring which is a tributary of Sinks
 3. Location of point of diversion is Township 11S Range 41E Sec. 3, in the SE 1/4, SW 1/4, NW 1/4, Govt. Lot 5, B.M., Caribou County;
additional points of diversion if any: -
 4. Water will be used for the following purposes:
Amount 0.5 cfs for fish propagation purposes from Jan 1 to Dec 31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
 5. Total quantity to be appropriated is (a) 0.50 cfs and/or (b) _____
cubic feet per second acre feet per annum
 6. Proposed diverting works:
 - a. Describe type and size of devices used to divert water from the source 6" pipe connected to Domestic over-Flow system to fish tank (3600 gal)
 - b. Height of storage dam N/A feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet
 - c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet
 - d. Is ground water with a temperature of greater than 85°F being sought? N/A
 - e. If well is already drilled, when? _____; Drilling firm _____
Well was drilled for (well owner) _____; Drilling Permit No. _____
 7. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year)
 8. Description of proposed uses (if irrigation only, go to item 9):
 - a. Hydropower; show total feet of head and proposed capacity in kW.
 - b. Stockwatering; list number and kind of livestock.
 - c. Municipal; show name of municipality.
 - d. Domestic; show number of households.
 - e. Other; describe fully. fish propagation

9. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
11S	41E	4				H													

Total number of acres to be irrigated _____

10. Describe any other water rights used for the same purposes as described above. NONE

11. a. Who owns the property at the point of diversion? BLM

b. Who owns the land to be irrigated or place of use? Kent Clegg

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: Use Permit

12. Remarks: Domestic system already exist - Connecting 6" pipe to divert overflow through fish tank -

13. MAP OF PROPOSED PROJECT REQUIRED - Attach an 8 1/2"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before May 1, 2004.
2. Subject to all prior water rights.
3. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
4. Recreation use is for a fishing pond not to exceed a total of 1.0 acre feet in storage capacity.
5. Source is known locally as Cheatbeck Creek.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 1st day of May, 2003.

for KARL J DREHER, Director

The following application(s) have been filed to appropriate the public waters of the State of Idaho:

13-7601

KENT CLEGG
550 BENCH LAGO ROAD
GRACE ID 83241

Point(s) of Diversion: SESWNW S3 T11S R41E, CARIBOU County

Source SPRING, Tributary To SINKS

Use: FISH PROPAGATION 01/01 To 12/31 0.5 CFS

Total Diversion: 0.5 CFS

Date Filed: 10/01/2001

Place Of Use: FISH PROPAGATION

T11S R41E S4 SENE

Permits will be subject to all prior water rights. Protests may be submitted based on the criteria of Sec 42-203A, Idaho Code.

Any protest against the approval of this application must be filed with the Director, Dept. of Water Resource, Eastern Region, 900 N Skyline Dr Ste A, Idaho Falls ID 83402 together with a protest fee of \$25.00 for each application on or before November 5, 2001. The protestant must also send a copy of the protest to the applicant.

RE: Application for Permit No 13-7601

Dear Applicant(s):

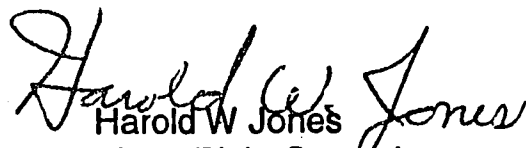

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Caribou County Sun on October 17 and 24, 2001. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

Please feel free to contact this office if you have any questions.

Sincerely,

Harold W. Jones
Water Right Supervisor

STATE OF IDAHO**

IN THE MATTER OF THE APPLICATION	)	PROTEST OF BEAR RIVER
FOR PERMIT FILED BY	)	WATER USERS' ASSOCIATION
KENT CLEGG, Applicant,	)	
Application No. 13-07601	)	
_____	)	

Bear River Water Users' Association, by and through its legal counsel, Randall C. Budge of Racine, Olson, Nye, Budge & Bailey, Chartered, and D. Brent Rose of the firm Clyde, Snow & Swenson, P.C., hereby protests the granting of the above-described Application for Permit (the "Application"). In support of its protest, the Association hereby states as follows:

1. Bear River Water Users' Association (the "Association") is a non-profit corporation and cooperative association organized in 1994 to represent Bear River Basin water users for the purpose, among other things, of monitoring, protecting and defending their respective decreed and appropriated water rights and other contract rights and common interests in and to the natural flow of water in the Bear River and its tributaries and irrigation storage water in Bear Lake. The prior vested rights of the Association's members must be protected and preserved inviolate from interference and impairment.

2. The Association's membership includes the Last Chance Canal Company, West Cache Canal Company and Cub River Irrigation Company and approximately 22 irrigation pumpers in Idaho, and Bear River Canal Company and approximately 81 irrigation pumpers in Utah. Collectively, the Association's members represent approximately 3000 family farms having a combined irrigated acreage of approximately 151,000 acres in Idaho and Utah.

3. Members of the Association hold decreed and other appropriated rights under the respective laws of the States of Idaho and Utah for the diversion and use of the natural flow of water in the Bear River and its tributaries, for irrigation, stockwatering and other purposes. The direct flow rights of the Association's members are all supplemented with water which is held in storage in Bear Lake and released to them for use pursuant to contracts executed by and between each of the individual members and Utah Power and Light Company, a subsidiary of PacifiCorp.

4. The diversion and use of water by the Applicant pursuant to the proposed Application will adversely impair the decreed and appropriated water rights of the Association's members by diminishing the amount of water flowing naturally in the Bear River and its tributaries to which the Association's members have the prior vested right.

5. Further, when the natural flow of the Bear River is insufficient to satisfy the water rights of the Association's members, the members of the Association depend upon the supplemental water supply delivered out of storage in Bear Lake by PacifiCorp in satisfaction of its contractual obligations. The diversion and use of water by the Applicant pursuant to the proposed Application thus adversely impairs the contractual rights of the Association's members. The decrease in the natural flow of the Bear River and its tributaries resulting from new appropriations in the Bear River Basin correspondingly increases the already unsustainable demand on Bear Lake storage water which PacifiCorp is obligated to deliver pursuant to its supplemental irrigation water contracts with the Association's members.

6. In light of the foregoing, authorizing the diversion and use of water as proposed in the Application is inconsistent with the best interest of the public. Any action which serves to decrease the supply of water in storage in Bear Lake is detrimental, not only on the irrigators who depend on the stored water supply in the lake for their livelihood, but it is likewise detrimental to

the local economy of the communities surrounding Bear Lake as well as those having non-consumptive uses and interests in Bear Lake including recreation, wildlife and fish habitat.

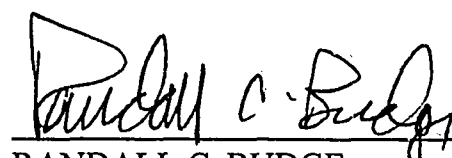

7. Finally, the Association asserts that the source of supply from which Applicant seeks a right as described in the Application is fully appropriated and has been applied to beneficial use by the members of the Association and others; and as such, there is no unappropriated water in the source.

WHEREFORE, in consideration of the foregoing, the Association respectfully protests the granting of the Application. In the event a hearing is scheduled in connection with the Application, the Association requests notice and an opportunity to participate as a party in the proceedings.

In the event the Idaho Department of Water Resources grants the Application, the Association alternatively requests that such approval be issued subject to appropriate conditions, including conditions clearly specifying that the right to divert and use water under the Application is subject to all prior rights to the use of groundwater and surface water hydrologically connected to the Applicant's source of supply, that the Department of Water Resources will conjunctively manage groundwater and surface water withdrawals in accordance with Idaho law which may require curtailment and/or mitigation by junior priority rights, in full or in part, as necessary to protect prior rights in times of shortage.

DATED this 17th day of October, 2001.

RACINE, OLSON, NYE, BUDGE &
BAILEY, CHARTERED

RANDALL C. BUDGE

Re: Application for Permit No. 13-07601

Dear Kent:

Enclosed please find a copy of the Protest filed on behalf of the Bear River Water Users Association ("BRWUA") to the recent Application for Permit No. 13-07601 you filed with the Idaho Department of Water Resources. You can expect that similar protests will be filed shortly by PacifiCorp and perhaps other groups seeking to protect their water rights in Bear Lake and/or Bear River.

I believe you will find the basis of this protest explained in the Protest document, but feel free to give me a call if you have any questions or wish to discuss it. I attempted to reach you by phone to give you advance notice and discuss this protest but was unable to get through. Generally speaking, the new appropriation would result in a depletion of Bear River water, either because the surface water springs or the ground water source which they contribute to are hydrologically connected to the Bear River. Accordingly any new depletions in the Bear River in Idaho and Utah would adversely affect prior and existing water right holders since the river is fully appropriated and there is no new water available for appropriation.

Additionally, the Idaho Department of Water Resources has recently established a new ground water management area on the Bear River and its tributaries which precludes new water right development unless mitigation is provided to protect senior surface water rights.

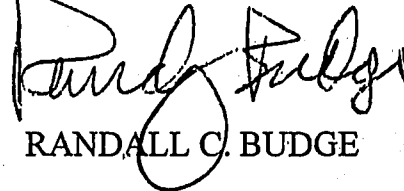

BRWUA, PacifiCorp and others do not protest domestic wells and other small uses that divert less than 0.04 cfs. Your Application seeks to use 0.5 cfs for fish propagation. However, I note

Kent Clegg
October 16, 2001
Page 2

that is a non-consumptive use. Given the fish tank system which you describe to be 3600 gallons, we would question that you would actually consume or utilize the 0.5 cfs you have applied for. This is because it would seem that the only consumptive nature of your water right is for evaporation. Evaporation would appear to be very minimal for a small fish tank of that size. I would suggest you call Senior Water Resource Agent Harold Jones at the Department's office in Idaho Falls, 525-7161, to further discuss this.

Feel free to contact me if you have any questions.

Sincerely,

RANDALL C. BUDGE

known or identified to me to be the person whose name subscribed to the within instrument, and being by me first duly sworn, declared that the statements therein are true, and acknowledged to me that he executed the same.

Notary Public for Idaho
Residing at Soda Springs, Idaho
My commission expires:

March 11, 2006

PUBLIC NOTICE

First Time Published

The following application(s) have been filed to appropriate the public waters of the State of Idaho:

13-7601

KENT CLEGG

550 BENCH LAGO ROAD

GRACE, ID 83241

Point(s) of Diversion:
SESWNW S3 T11S R41E, CARIBOU COUNTY

Source: SPRING, Tributary to SINKS

Use: FISH PROPAGATION
01/01 to 12/31 0.5 CFS

Total Diversion: 0.5 CFS

Date Filed: 10/01/2001

Place of Use: FISH PROPAGATION

T11S R41E S4 SENE

Permits will be subject to all prior water rights. Protests may be submitted based on the criteria of Sec. 42-203A, Idaho Code.

Any protest against the approval of this application must be filed with the Director, Dept. of Water Resource, Eastern Region, 900 N. Skyline Drive, Ste. A, Idaho Falls, ID 83402 together with a protest fee of \$25.00 for each application on or before November 5, 2001. The protestant must also send a copy of the protest to the applicant.

Motion to Intervene and
Protest of PacifiCorp,
an Oregon Corporation, dba
Utah Power & Light Company,
Protestant

1. PacifiCorp, an Oregon corporation doing business in Idaho as Utah Power & Light Company ("Protestant"), 1407 West North Temple, Suite 270, Salt Lake City, Utah 84140, hereby files this Motion to Intervene and Protest before the Department of Water Resources in the above-referenced proceeding. Please send notices and correspondence regarding this protest to

Jody L. Williams
Kruse, Landa & Maycock
50 West Broadway, #800
Post Office Box

2. Protestant owns water rights in the Bear River and Bear Lake decreed in the matter of *Utah Power & Light Company v. The Last Chance Canal Company, Limited, et al*, in Equity No. 203, July 14, 1920, and *Utah Power & Light Company v. Richmond Irrigation Company, et al*, February 21, 1922, as well as other rights in the Bear River below Applicant's proposed point of diversion.

3. The application is for a spring, tributary of the sinks, which is tributary to Bear River. Protestant believes that this use of surface water would interfere with the senior surface water rights of others downstream.

4. Protestant has entered into many contracts with irrigators in Idaho and Utah along the Bear River, some of whom may be Protestants in this matter, for supply of supplemental storage water from Bear Lake when the natural flow of the Bear River is insufficient to satisfy existing water rights. However, during drought periods, high irrigation demands cause the level of Bear Lake to drop significantly, endangering Protestant's ability to continue to deliver supplemental irrigation water pursuant to its contracts.

5. Granting the application of Applicant would adversely affect Protestant's water rights by decreasing the amount of Bear River natural flows used by PacifiCorp and its contract holders. When less water is available in Bear River, the contract holders must use more Bear Lake storage water.

6. In addition to diminishing the quantity of Bear River water available to satisfy prior existing water rights, Protestant believes that granting the above-referenced application could conflict with the local public interest in the three following areas by reducing groundwater inflow into the Bear River: First, increased reliance by existing users on supplemental irrigation water delivered from Bear Lake to make up the depletion from Bear River natural flow will

stress Protestant's ability to supply the full amount of Bear Lake water already allocated to existing water users. Second, when the level of Bear Lake drops, recreation and other non-consumptive uses at the lake are adversely affected. The Idaho State Parks & Recreation boat launch becomes unusable; the State park receives little use due to its distance from the water; facilities built with State funds are unusable, and visitor days and the attendant revenue they produce for the State plummet. The local economy at the lake suffers. Third, traditional habitat for indigenous fish in Bear Lake may be decreased. Other wildlife species which depend on the lake may have similar problems due to habitat loss. The spread of noxious weeds and tamarisk is accelerated along the lake shore.

WHEREFORE, Protestant respectfully protests the above-referenced application and requests that it be denied.

DATED this 14th day of November 2001.

PACIFICORP, dba
UTAH POWER & LIGHT COMPANY

RE: Application Number #13-07601

Dear Mr. Jones:

This office wishes to formally protest the water right application #13-07601 filed by Kent Clegg. The basis for this protest is that Mr. Clegg does not have a right-of-way for the diversion and pipeline across the public land and it is BLM policy not to authorize new diversions on public land. We also are concerned that his use of the water might diminish the U.S. Government's water right #13-7268.

We would withdraw this protest of Mr. Clegg constructed the diversion at the public land boundary on his property.

Please direct questions to Geoff Hogander at (208) 478-6345.

Sincerely,

Jeff S. Steele

RE: Application for Permit No. 13-07601 – Kent Clegg

Dear Protestant:

Your protest against approval of the above referenced application has been received and a copy has been sent to the applicant. The Department suggests you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

Unless this office is advised that either the matter has been resolved or there exists extenuating circumstances, our objective is to schedule a conference and/or hearing in the near future to consider the protest. At such a conference and/or hearing, the following are the principle items the Department can consider in their approving or denying the application (Idaho Code '42-203):

1. Will the proposed use reduce the quantity of water under existing rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Is the proposed use contrary to conservation of water resources within the State of Idaho?

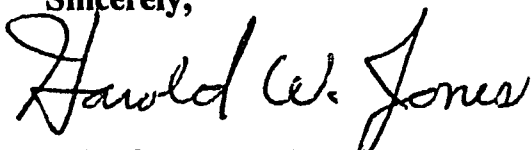

Page 2

The protestant must be prepared to present proof of allegations involving one or more of the six items.

In addition, Rule 302 of the Department's Rules of Procedure requires a protestant to send a copy of the protest to the applicant in question.

If this office can be of further assistance, please contact us.

Sincerely,

A handwritten signature in cursive script that reads "Harold W. Jones".

Re: *Application No. 13-07601 - Kent Clegg*

Dear Harold:

To confirm our phone conversation, on behalf of Protestant Bear River Water Users Association ("Association"), we have met with the applicant Kent Clegg for the purpose of reviewing Application No. 13-07601 and resolving the pending protest.

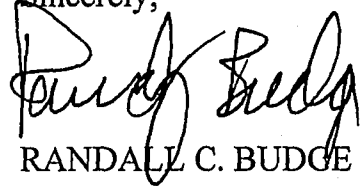

It is our understanding that the application is for 0.5 cfs of water in Cheapbeck Creek for fish propagation purposes. Further, that the use would be nonconsumptive with the diverting works consisting of a 3600 gallon fish tank with return flow to the creek. Accordingly, any evaporation would be minimal, with no measurable impact on prior rights.

Mr. Clegg has also represented that if a proposed Idaho Department of Fish & Game project materializes which could involve additional ponds up to 5 acres, that the water would be supplied by means of a transfer of other decreed water rights he owns in the North Fork of Trout Creek.

Harold Jones
January 14, 2002
Page 2

Based on the foregoing, the Association hereby withdraws its protest. By copy of this letter we are advising the other Protestants, PacifiCorp and the BLM of the foregoing for their information and so that they might also consider withdrawing their protests.

RE: Application for Permit No 13-7601

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Caribou County Sun on March 21 and March 28, 2002. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

Please feel free to contact this office if you have any questions.

Sincerely,

Harold W Jones
Water Right Supervisor

Mr. Hogander:

Enclosed is an amended version of application 13-7601. As you can see from the attached map, Mr. Clegg has changed the point of diversion to his property.

This should resolve the BLM protest of his application. I would need a written withdrawal from the BLM so I can continue processing Mr. Clegg's application.

Sincerely,

Harold W. Jones

RE: Application Number #13-07601

Dear Mr. Jones:

This office wishes to drop our protest to the water right application #13-07601 filed by Kent Clegg. Since he has changed the Point of Diversion to his own property, we no longer have a concern.

Please direct questions to Geoff Hogander at (208) 478-6345.

Sincerely,

Jeff S. Steele

RE: Application for Permit 13-7601

Dear Mr. Clegg:

The original application form you filed in September of last year identified a diversion system comprised of a 6" pipe connected to domestic overflow system to a 3600 gallon fish tank for fish propagation purposes; the source of water identified was a spring tributary to sinks.

The application was protested by several entities and those protests were eventually resolved after discussions between yourself and the protestants. In letters from the protestants, they state that their withdrawals of the protests were based on the use being non-consumptive with the diverting works consisting of the 3600 gallon fish tank with return flow to the creek. Further, the withdrawals were based on the assumption that any proposed Fish and Game project that materializes in the future involving additional ponds would be supplied water via an approved transfer of other decreed rights from the North Fork of Trout Creek.

In March of this year, you amended the application to identify the source as an unnamed stream tributary to sinks and the diversion system from the domestic overflow going to a 1/2 acre surface area fish pond. There is nothing in the file explaining why this amendment occurred nor is there anything indicative of the changes having been reviewed by the original protestants.

Please provide IN WRITING an explanation for the changes to the application and evidence of the protestants' knowledge and approval of the changes. I will hold the application for 30 days to allow you to respond to this request. If I have not received a written response within that time period, the department will initiate action to void the application for failure to submit requested additional information.

MEMORANDUM

To: File 13-7601

From: Sharla

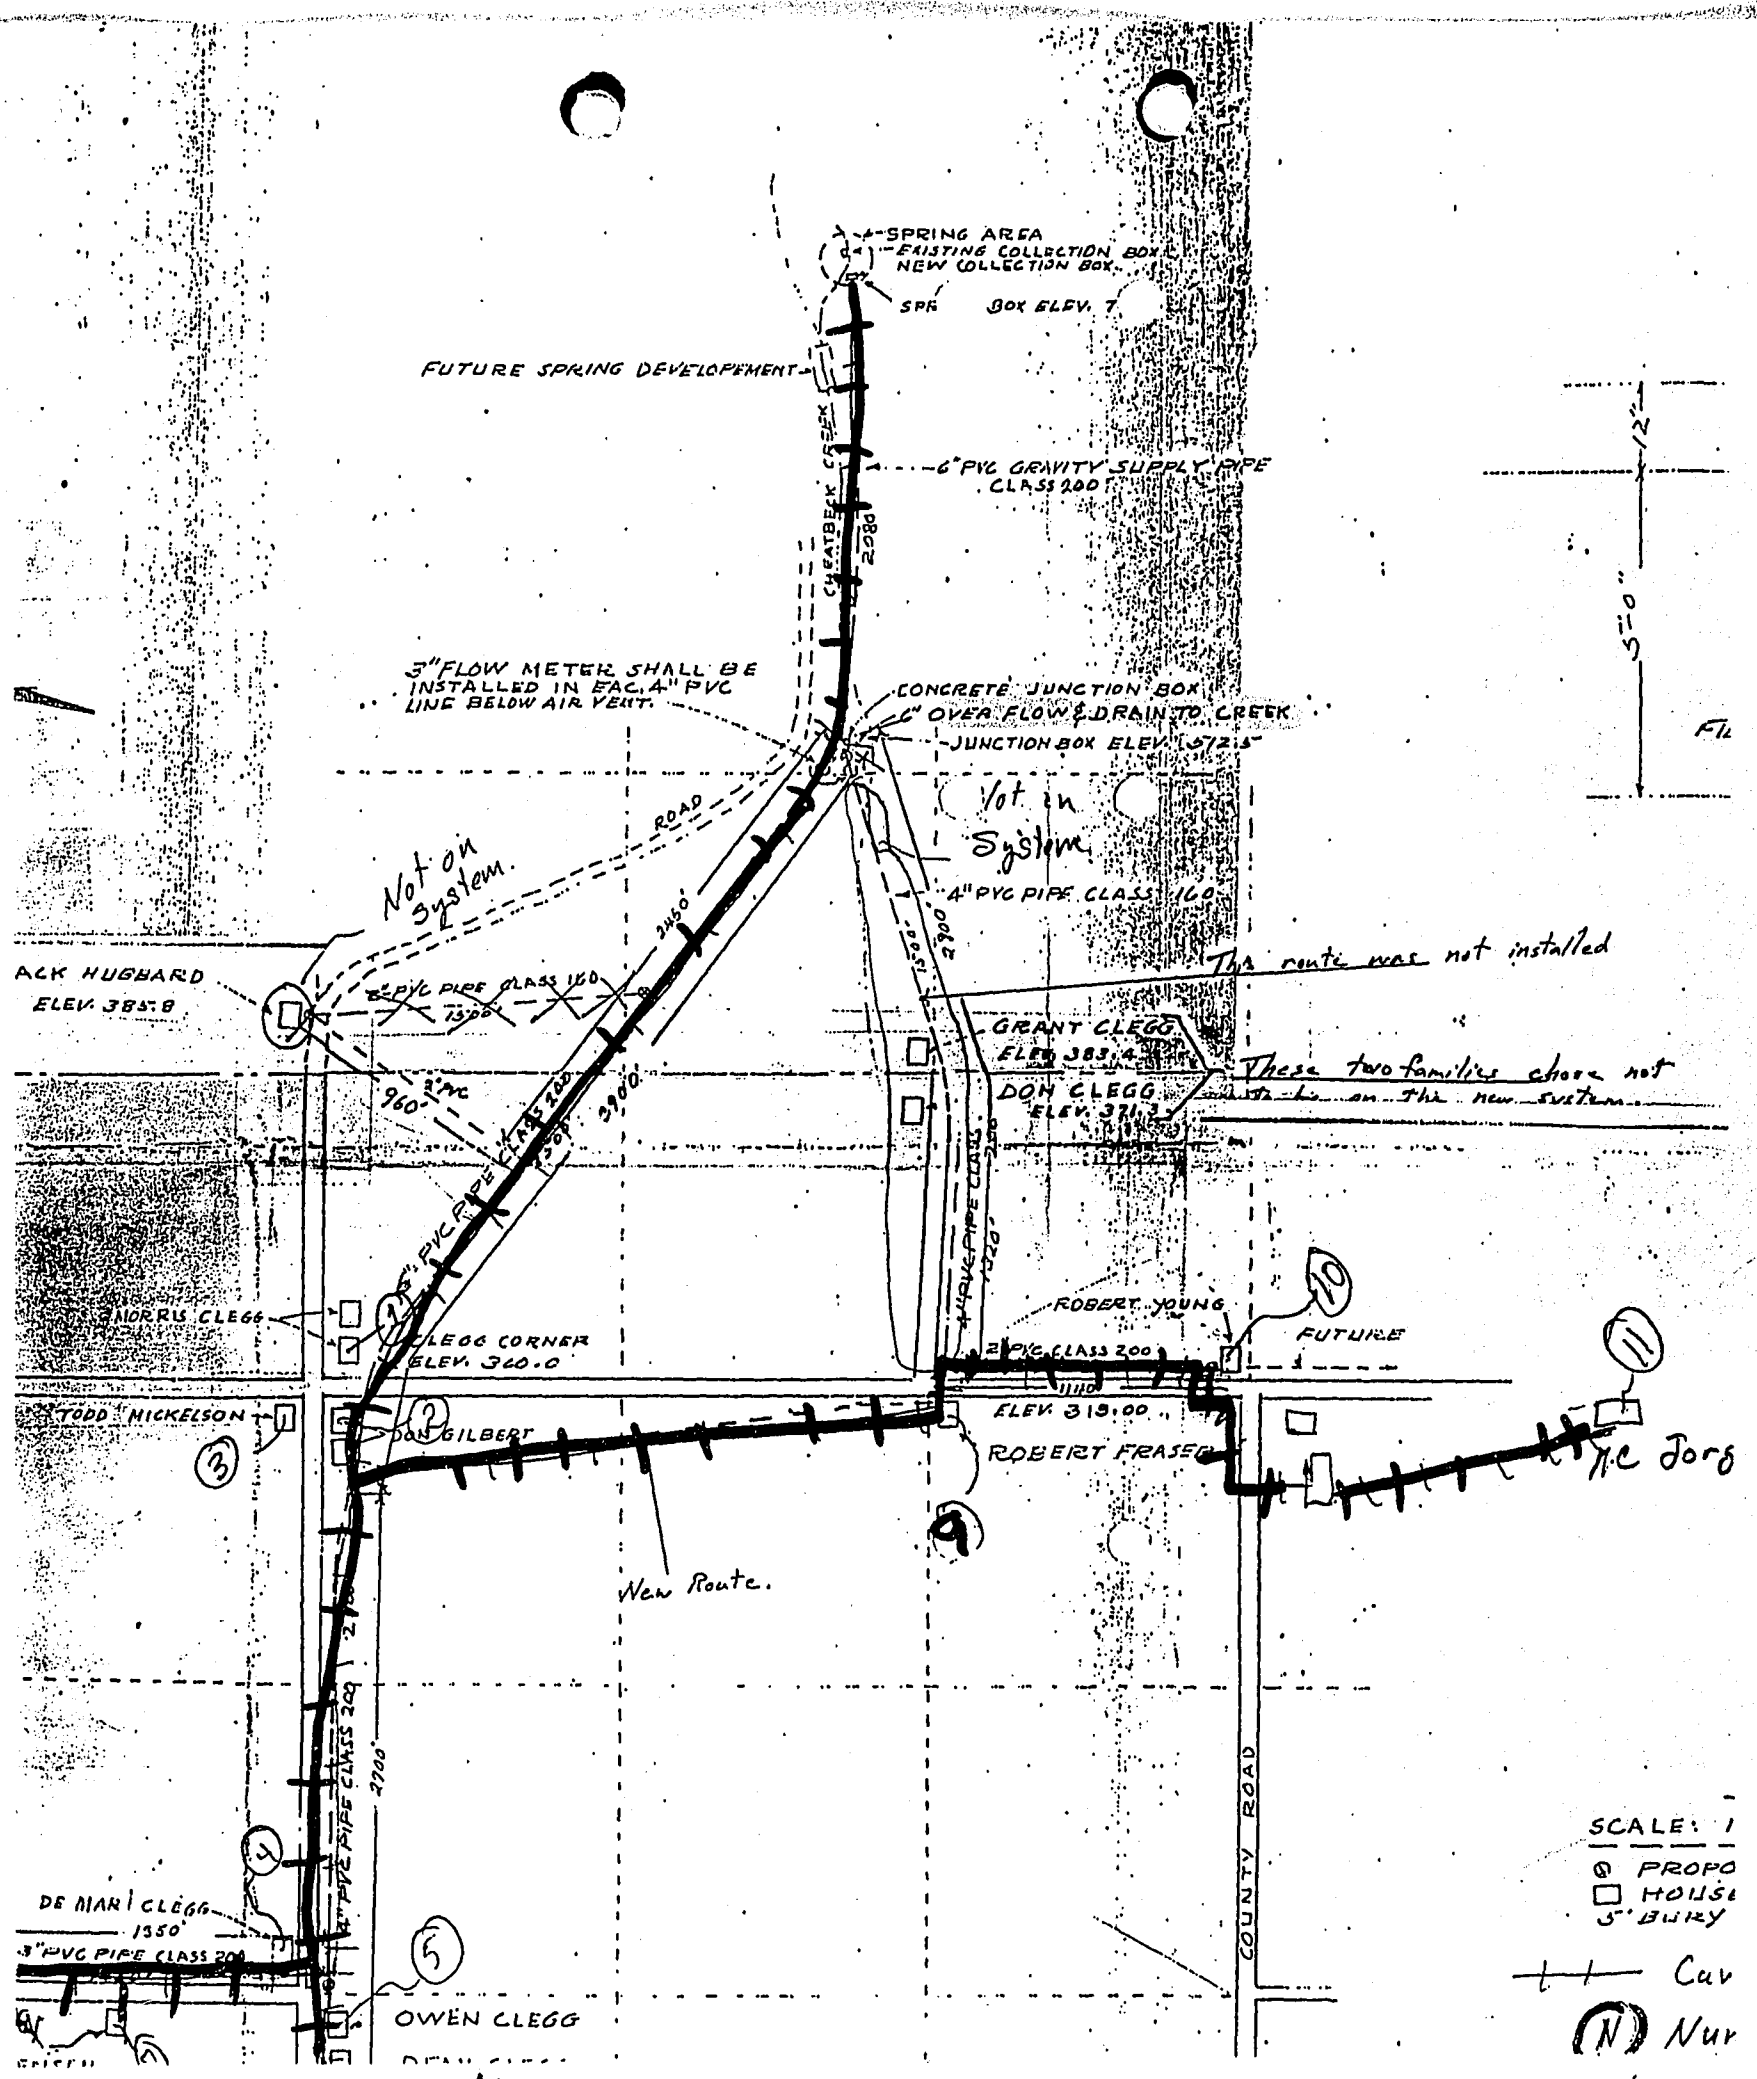

Date: September 27, 2002

Re: Tank v. Pond

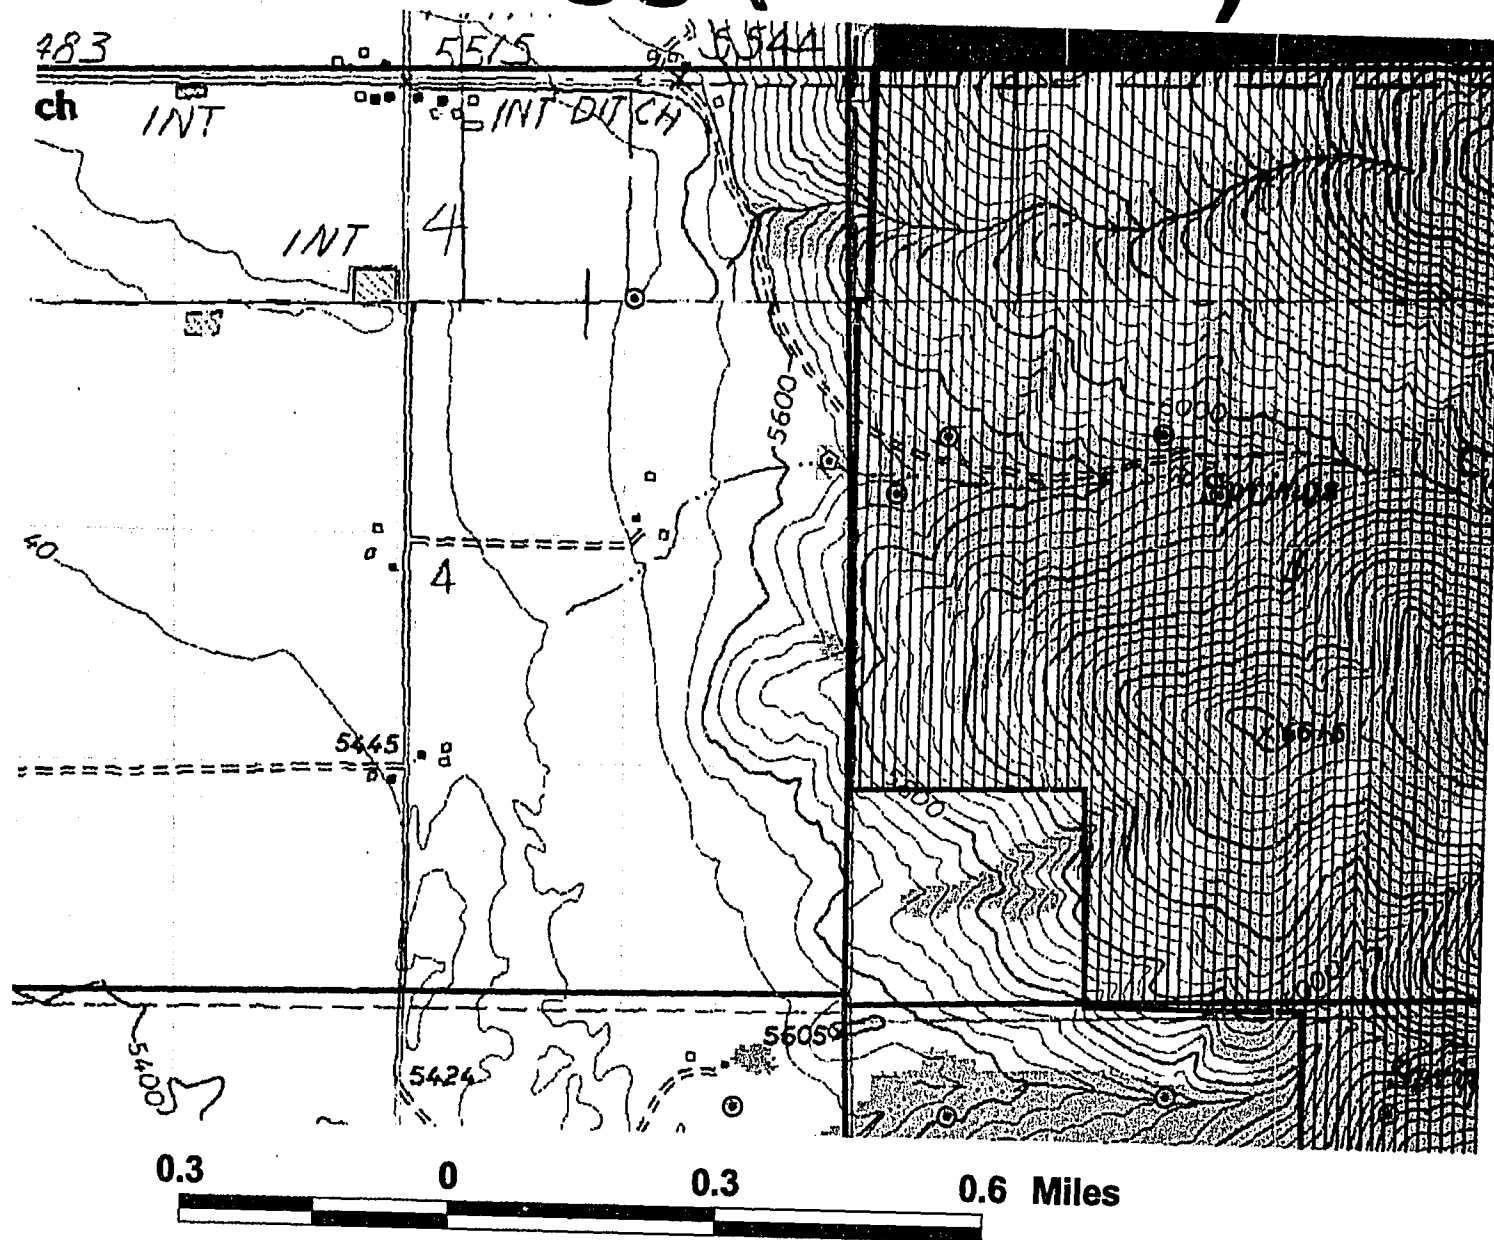

In response to my letter of 8/15, Mr. Clegg called me on September 9th and explained to me that BLM made him remove the 35' of pipe and the storage tank because they encroached on BLM lands. I told him I would need something from BLM showing their acceptance of the pond as the new proposed diversion works.

On September 20th, Becky Lazdauskas (Realty Specialist) from BLM called and told me that once Mr. Clegg moved his diversion works and delivery system off BLM lands, they had no further problems with whatever Mr. Clegg intended to use as a diversion and delivery system.

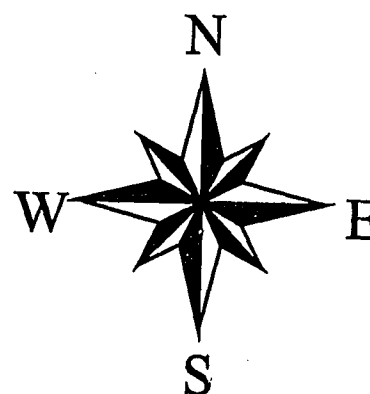

There were two other protestants, Bear River Water Users Assn. and PacifiCorp. Mr. Clegg told me in a phone conversation on September 26 that he had meetings with the protestant's attorneys and they were all informed about the pond proposal and had no further concerns about the approval of such.

Clegg (13-7601)

■ B.L.M.

MEMORANDUM

Date: April 30, 2003
To: Water Right File 13-7601
From: Sharla
Re: Permit Review

On March 19, 2003 I spoke with Mr. Clegg about his application. The use of water that he described on the application as fish propagation is actually for a recreational fish pond. Mr. Clegg had no problem with changing the use to recreation.

The amended application shows the point of diversion in the SENE, S3, but the map clearly shows the point of diversion and place of use within the SENE, S4 and the whole purpose of amending the application was to place the point of diversion on Mr. Cleggs property which is in Section 4, not Section 3. The permit will be issued accordingly.

Information in the file states that the diversion works consist of a pipeline connected to a domestic overflow system. The domestic system refers to a license (13-7347) and a statutory claim (13-4348) in the name of Cheapbeck Water Co. The claim contains exactly the same figures as the license except there is an added irrigation component and the point of diversion descriptions are different for each right. A photo submitted with the field exam for 13-7347 shows the collection box emptying into the "overflow" channel and it is this source (called an unnamed stream by this point) that Mr. Clegg has tapped into at the edge of his property. GIS data confirms that all of Section 3 is BLM owned, with the exception of the SWSW and a small portion of the SESW, S3. Because of BLMs insistence on the point of diversion being on his own property, Mr. Cleggs identification of the pod in Section 4 is appropriate.

The pond is a flow-through system and a condition limiting the pond size to 1.0 af in storage capacity will be included on the permit since the diversion rate is only capable of producing 1 af in 24 hrs.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Permit No. 13-7601

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

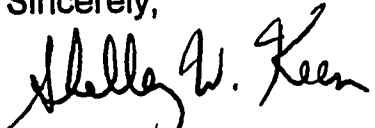

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed a least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script, appearing to read "Shelley W. Keen".

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 13-7601

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.state.id.us.

If you have questions, please contact the Eastern Regional Office of the department in Idaho Falls (208) 525-7161.

Sincerely,

Deborah J. Gibson
