INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Byram W. Jones
Malad, Idaho

Boise, Idaho, **October 8, 1937**

Dear Sir:—

Under the terms of your permit No.....**18219**.....you are required to complete your diversion works on or before.....**Dec. 23, 1937**..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARRIS

Dear Madam:

This will acknowledge receipt of notice in duplicate for publication in connection with beneficial use proof, and also your authorization to have the notice published in the Idaho Enterprise, Malad, Idaho, all in connection with Permit No. 18219.

A copy of the notice has been mailed to the newspaper with instructions to publish it once a week for four consecutive weeks prior to December 23rd, 1937. About ten days prior to this date depositions consisting of one for the holder and one each for two witnesses will be mailed to J. F. Fredrickson, Notary Public, Malad, Idaho, so that he will have them in ample time for the proof.

On the date designated you should appear at Mr. Fredrickson's office with two disinterested witnesses who are familiar with the terms of the permit and the works constructed thereunder, for the purpose of executing the depositions.

Permit No. 18219 H.W. Jones

Permit No. 18403 J.F. Fredrickson

Dear Mr. Ferris;

Mr. Wm. M. Jones a son of Hyrum W. Jones
of this place called at my office to day in regard to a
final proof on Permit No. 18219 dated Dec. 19th. 1935

Mr. Jones states your letter of Oct. 8th. addressed to his
father was received.

Mr. Hyrum W. Jones died Mar. 22nd. of this year, and his
son now asks that you advise him how he and his mother
can complete the final proof on this flowing well, which
you state must be done on or before Dec. 23, 1937 or within
days thereafter.

Mr. Jones has the affidavit of proof of completion of works
and the Notice for publication of Notice of proof appl
of water in duplicate, with letter that Notice must
accompany.

On the Notice of Proof, the last question asks " The date
of priority which said user is prepared to establish "is"

Please advise if answer of this said question may go farther
back than the date of the filing of his permit, and is so
is additional affidavit of witness required.

Please advise me on the above, and if Notary Public may
take this proof, or the Proof made before a Notary here.

Then, if you will, I will ask you to also inclose me the
necessary proof papers for proof on my permit No. 18403
for the 4 flows I made application for. Also if I get the
required 24 inches of water out of 3 of my wells can I
leave out the 4th. as I am using this for house and stock
as well as irrigation, as the 4 wells produce more water
than you say I can make proof upon, as I have only 24 acres
to irrigate. I have large lambing yards nearby and can use
the water for livestock during the winter months.
Please advise me fully on this.

Re: Permits 18219 & 18403.

Mr. J. F. Fredrickson
Malad, Idaho

Dear Sir:

In answer to your letter of October 16th, kindly be advised that the priority under any permit cannot go beyond the date of the filing of the application with this department.

The priority date under Permit 18219 is December 19, 1935. I happen to know the water from this well has been used for a good deal longer than that, but if the priority is recognized as of its true date, it will have to be established in a court action, since this department has no authority to fix matters of that kind.

Mr. Jones may offer his proof of completion of works before any notary public; likewise, beneficial use proof may be offered before any notary public at Malad or elsewhere. Kindly have him fill out the notice in duplicate for publication and return both copies to this office with his authorization to have the notice published in a paper in Oneida County. After a four weeks publication has been completed, we shall furnish the notary designated in Mr. Jones's notice three depositions, consisting of one for the holder and one for each of two witnesses, which must be completed on the date set forth in the notice. These papers should then be forwarded to this office with an affidavit of publication from the newspaper.

Proof of completion of works will not be due under your permit No. 18403 until January 23, 1938, and final proof will not be due until January 23, 1939. You may, however, make these proofs at any time you wish, and the necessary papers for both proofs are herewith enclosed for your convenience.

It will be quite permissible for you to offer proof merely on three of your wells and be allowed the total quantity of water which is authorized by your permit, provided that the three wells will produce that much.

Very truly yours,

Deputy Commissioner of Reclamation

Deposition of Holder

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Margaret M. Jones; 67 yrs; Malad, Idaho R.D. No. 1

Occupation: Farming; P.O. Address Malad, Idaho R.D. No. 1

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. None.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 18219; Dec. 19th, 1935; Used this well continuously since 1906 on this land.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Flowing Well; In NW corner of Lot 2; Sec. 2 T₁ S. R. 35 E. B. 1₁ in Oneida County, Idaho; and exact point of diversion is at Well

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Earth ditch and a 2 in Gal Pipe of about 300 feet long; both Earth ditch and pipe line leaving and taking the water at the well to South part of Land irrigated that is all adjacent to the well, and pipe line runs to Correls. Water taken from well also to and on the land joining the well. The 5 acres on which this water is used joins the well. At least 6.1 second feet of water.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for domestic use, and for irrigation. Land irrigated is cultivated land of 5 acres in NW corner Lot 2 Sec. 2-T₁ S. R. 35 E. B. 1₁ and is adjacent to improvements on this tract of land of farm residence and out farm buildings and barns and sheds. Said flowing well is cased with a 2 inch iron pipe. Said water and its said use made it possible to establish a Home on said tract of land, on which this well is located.

Ques. 7. If for other than for irrigation purposes: state how applied, amount of horse power generated, etc.

Ans. This water is used for domestic purposes; other than irrigation and has always been used for domestic purposes and for irrigation purposes for the irrigation on said 5 acres of cultivated land adjacent to said well. --

18219

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 0.1 second feet of water

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the widow; of the original Permit holder Byron Jones, deceased and am present holder of said permit as owner of said lands.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Used at all times; for domestic and irrigation purposes; and in amount of 0.1 second feet of water; diverted to adjoining 5 acres and used on the same, during irrigation season each and every year.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. In 1936 and 1937 I was compelled to use some water from Samaria Water & Irrigation Co. of this locality, by shares owned in said Company to save the crops of said 5 acres of lands.

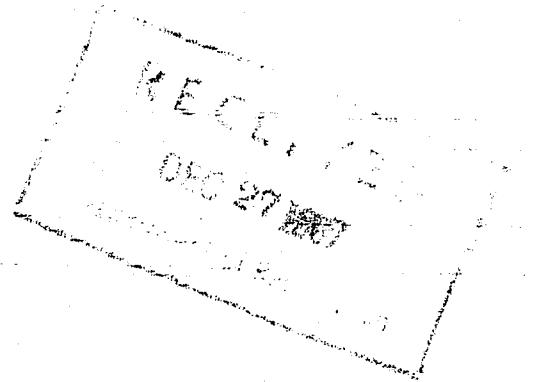

this was caused by another big 14 inch pipe well dug in this vicinity about one mile North of this property, with an electric pump applied to same and when these men used this big well in irrigation season of said years of about 5 months from April to 20th. of Oct., my said flowing well receded to a very small stream, and then in Oct. the same full stream would come back, and I hereby ask (Sign) Margaret M. Jones this protection against this big well (known as the Hill & Illium Well)

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Malad, County of Oneida State of Idaho, on this 23rd. day of December A. Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. R.B. Davis; age 6/ ; Residence Malad, Idaho; Merchant-Druggist and farming.

Ques. 2. Are you acquainted with Margaret H. Jones, the holder of Permit No. 18219? How long have you known him and where does he reside?

Ans. I have known Holder about 30 years last past; and she resides on her Farm lands at Pleasantview, in Oneida County, Idaho; where this well is located; owning the lands thereon.

Ques. 3. Have you read or heard read said Permit No. 18219, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Flowing well; Diversion is at the Well; Works: Earth ditch and 2 in pipe line to yards, as well as to and on lands adjoining well.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use and how much water have you seen being so conveyed?

Ans. I estimate conduct at least 0.1 second feet, and I have seen this well many times, and safe to say it runs all the water applied

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic and irrigation purposes; place of use on lands adjacent to this well. and land is cultivated land of black loam character. Improvements made are the Farm residence Home and farm outbuildings. And this well has made it possible to establish a Home on these lands

18219

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Used for Irrigation and domestic purposes.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Black loam is character of land; and the water flowing from this well has taken well care of these 5 acres of lands. There is a good orchard on these 5 acres of land joining this well.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None whatever.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. intimate acquaintaince with family. Been on the place often; I pass the property during summer seasons on way to my own property, and have witnessed its use yearly for past 30 years.

During the last few years these early wells like this one have receded some; which is due to other big wells being dug in this locality and electric pumps applied to same. But I believe and am satisfied that this well now produces the water asked for today under this permit.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for domestic & irrigation use; and is used on about 5 acres of cultivated land in NW corner of Lot 2 Sec. 2 T. 13 S.R. 35 E. B.M. And this land is adjacent to said flowing well. The pipe line also runs to corals of this party for stock watering use also.

18219

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Used only for domestic and irrigation purposes.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is a black loam character; I helped clean this well in 1913 or about that year, and we tested it and there was about 60 gals per. minute running from same. And this well has been well taking care of this 5 acres of land. And flow at present time will take care of same.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest what ever in this water or the lands, or any part of same.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I live in same locality and see this water all the time; by Observation; During the last few years these early wells have receded some owing to other big wells being dug in this locality. But the water asked for in this permit is flowing and running out of this well today, and I believe more.

Re: Permit No. 18219.

Mrs. Hyrum W. Jones
Malad, Idaho

Dear Madam:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his report is on file in this office, you will be further notified as to fees due before the issuance of your license.

Very truly yours,

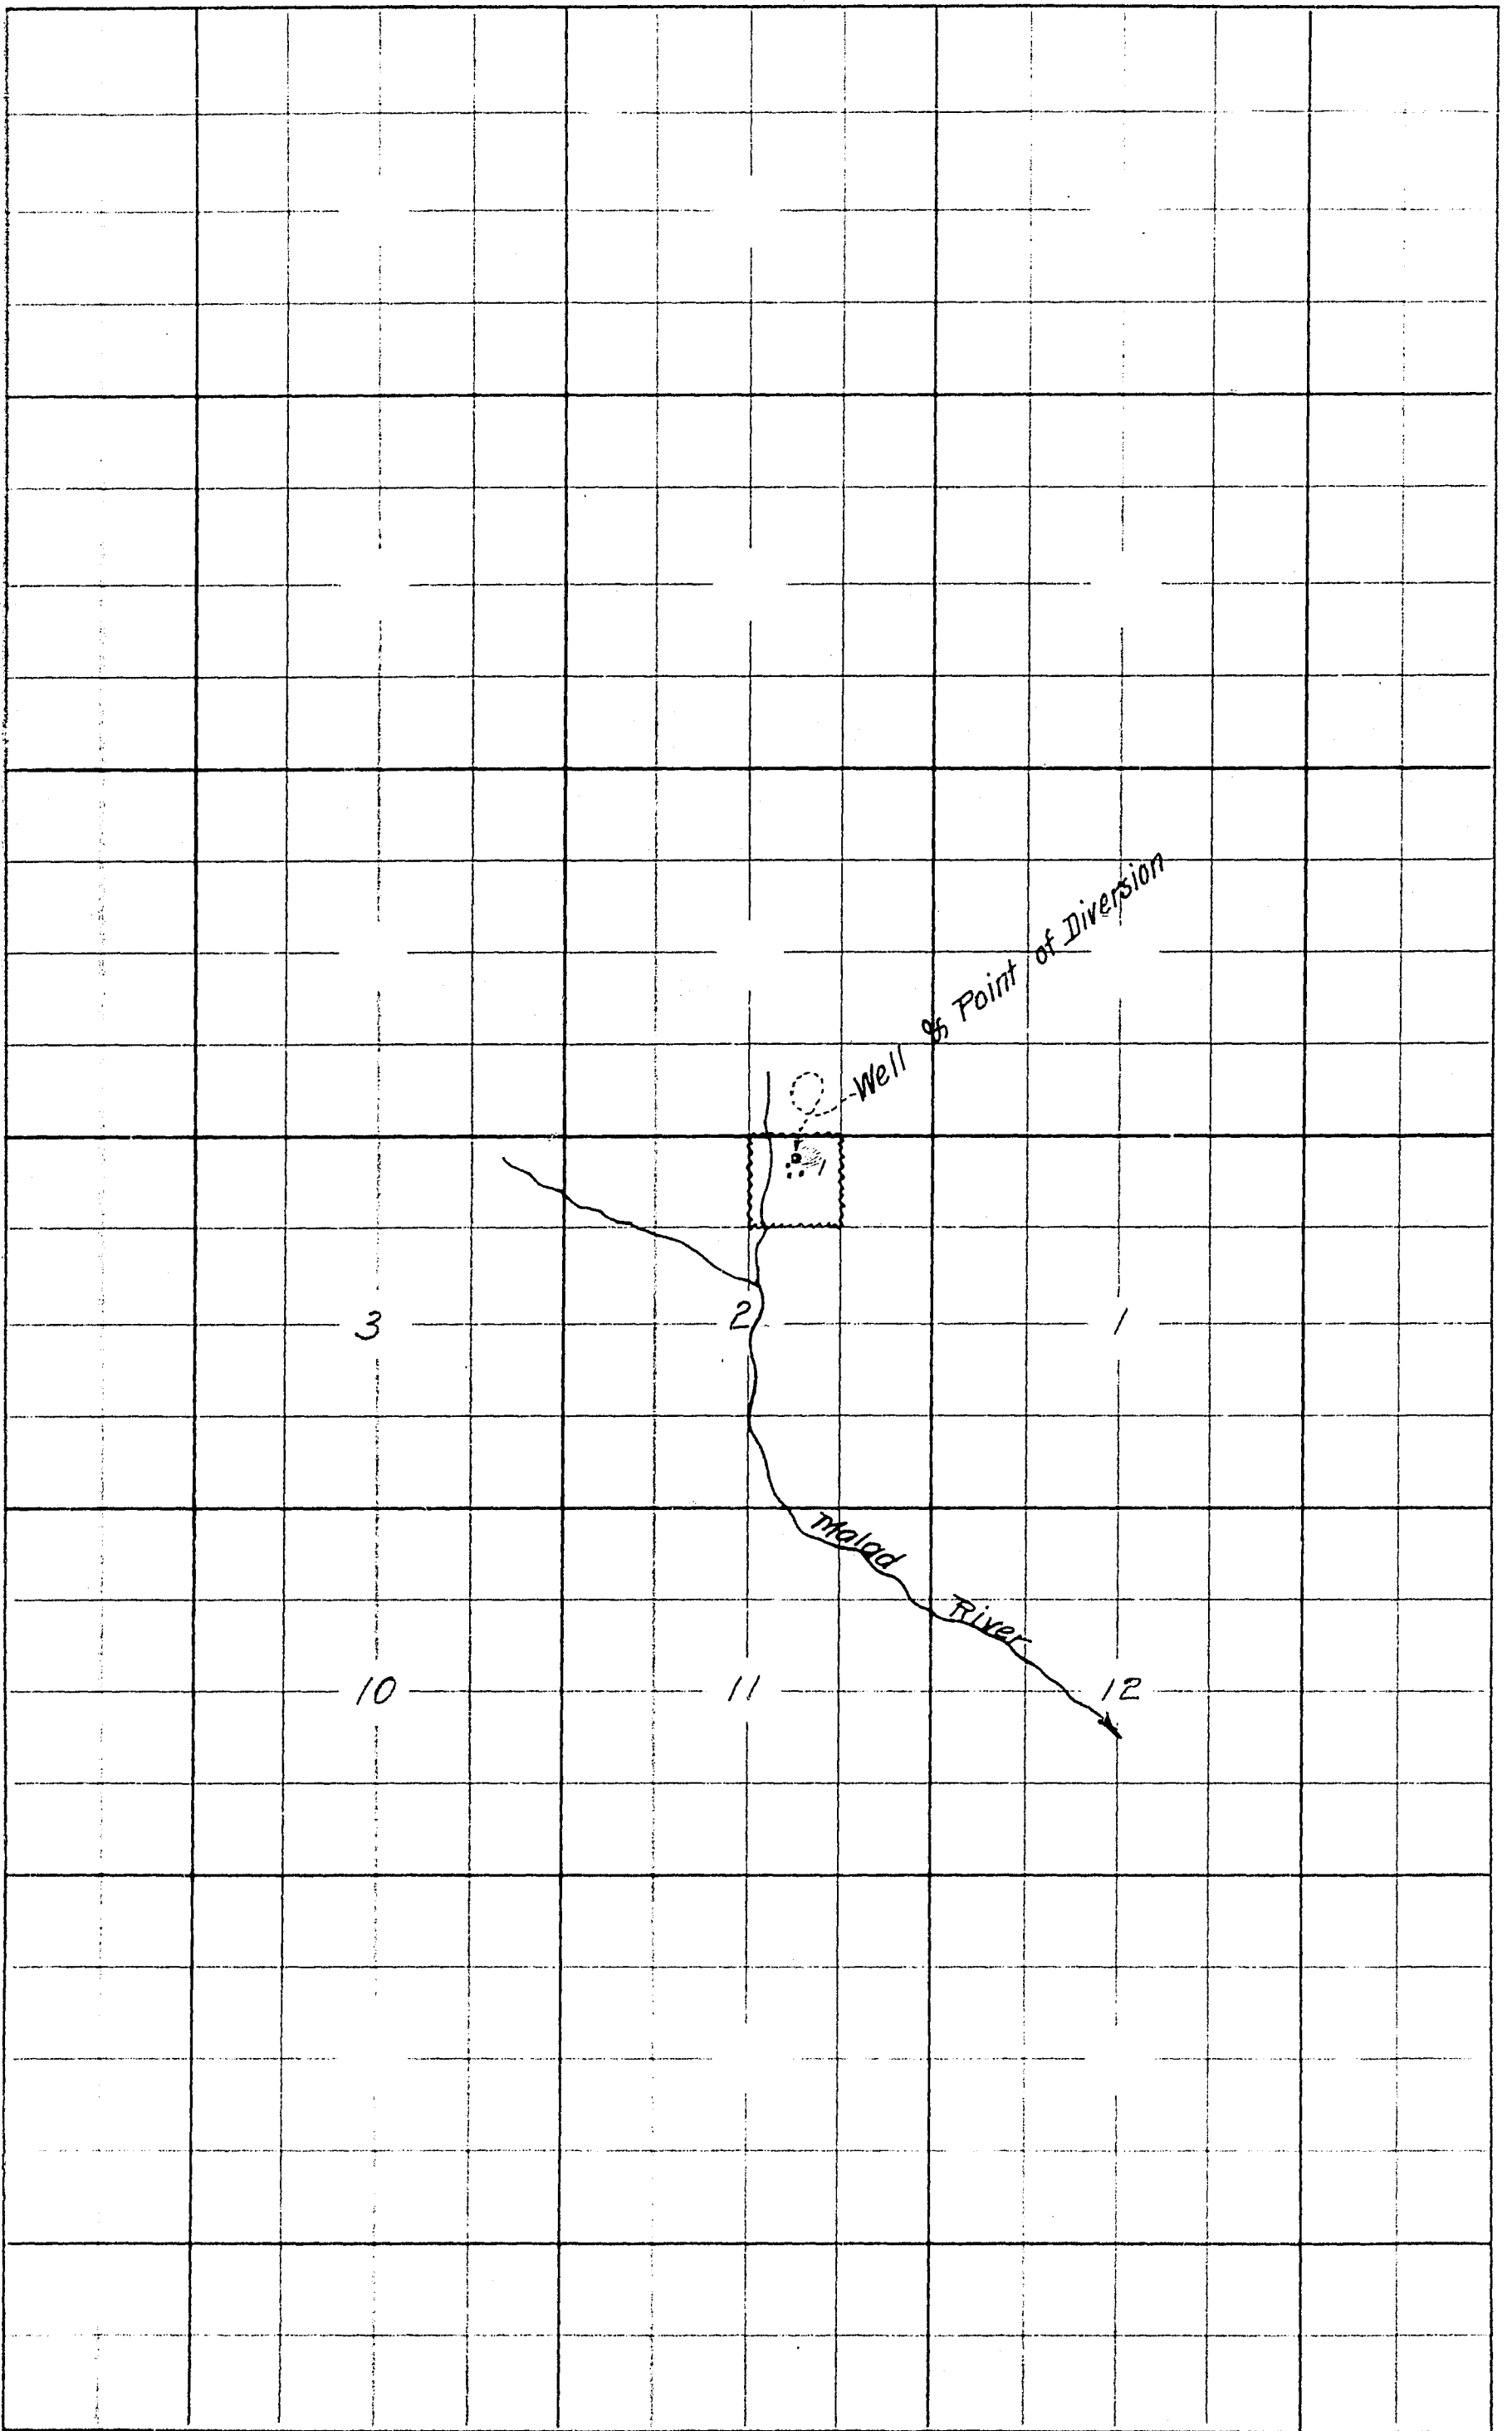

R. W. FARIS
