

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Application No. 26472
Permit No. 19072
District No.

1. Name of Applicant: **SAMARIA WATER & IRRIGATION COMPANY**
Postoffice address: **Samaria** County: **Oneida** State: **Idaho**
 - I. If applicant is a corporation, give:
 - (a) Date and place of incorporation: **March 12th, 1924; Samaria, Idaho, renewal of second 50 year period**
 - (b) Amount of capital stock: **\$20,000.00**
 - (c) Amount paid in: **\$14,400.00**
 - (d) Names and addresses of directors: **David Hughes; Alf Atkinson; Charles E. Thomas; Levi G. Waldron; Lewis Hughes; Walter M. Davis; & Thomas M. Hughes**
 - II. The financial resources of the applicant are:
 - (a) Cash on hand: **\$50.00**
 - (b) Treasury stock: **None**
 - (c) Bonds to be issued: **None**
 - (d) Other resources: **Assessment privileges**
2. Quantity of water claimed: **and used 22** cubic feet per second.
3. Source of water supply: **Big Malad River** which is a tributary of **Northerly**
4. Location of point of diversion: **About 500** feet distant from the **S W** corner of the **SE $\frac{1}{4}$ NW $\frac{1}{4}$** of Section **22**, T. **14 S.**, R. **35 E.**, B. M., and is the **in the SE $\frac{1}{4}$ NW $\frac{1}{4}$** of Section **22**, T. **14 S.**, R. **35 E.**, B. M., County of **Oneida**
5. Water is to be used for: **Irrigation and domestic purposes**
6. If for mining, milling, power or manufacturing purposes, give:
 - (a) Point of use of water: feet distant from corner of Section T. , R. , B. M., in the of Section , T. , R. , B. M.
 - (b) Amount of power generated: H. P., under feet head.
 - (c) Water is to be returned to at a point feet distant from the corner of Section , T. , R. , B. M., in the of Section , T. , R. , B. M.
7. Estimated cost of works: \$ **Dam and point of diversion now completed**
8. Kind of works: **Earth dam rip-rapped with rock, Ditch**
9. Height of dam **40** feet; length of dam at top **400** feet; length of dam at bottom **260** feet; material used in dam: **Earth, rock rip-rap**
10. Size of headgate: Width feet; height feet.
11. Ditch: Width at bottom **12** feet; width at water line **15** feet; depth of water **2** feet; dimensions of flume: Diameter of pipe inches; length of conduit **7** miles. Average grade per mile **3** feet.
12. The time required for the completion of such work is **six months** years.
13. The time required for the complete application of the water to the proposed use is **None** additional years.
14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? If so, fill in (b) and (c) below.
(b) Name of Reservoir and number of Storage Permit:
(c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

SAMARIA WATER & IRRIGATION CO.

Applicant.

By C. E. Thomas

Agent.

Director

Date of first receipt at Department of Reclamation: 11:30 A.M. August 27, 1940

Returned to applicant for correction: August 30, 1940

Corrected application received: October 29, 1940

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

Boise, Idaho,
May 12, 1941.

Re: 19072
Samarla Water & Irrig. Co.

Probate Judge of Oneida Co.
Maled, Idaho

Dear Sir:

Completion of works &
of

I enclose herewith the following forms to be used in connection with proof of /beneficial use of water under Permit No. 19072.

Deposition of Permit Holder,
Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On May 14, 1941, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Maled, Idaho before Probate Judge of Oneida Co.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

E. V. BERG.

Commissioner of Reclamation.

19072

PERMIT NO. 19072

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Samaria Water and Irrigation Company
Samaria, Oneida County, Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Samaria Water and Irrigation Company
Samaria, Oneida County, Idaho
William W. Jones, Secretary; Malad, Idaho. R.#1 Box #100

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. G. L. Jenkins, Malad City, Idaho 50 years.

Banker.

Ques. 2. Are you acquainted with Samaria Water and Irrigation Co., the holder of Permit No. 19072.? How long have you known him and where does he reside?

Ans. During my entire life time.

Ques. 3. Have you read or heard read said Permit No. 19072, and are you familiar with its provisions and conditions? Yes

Ans. _____

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Big Malad River- At the Dam or reservoir- by laterals.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being ^{Miners} conveyed?

Ans. 6 to 11 streams from the reservoir with 100 inches from each stream, the amount of water varies according to the seasons.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Irrigation and domestic purposes-/irrigate over six thousand acres.
if there was sufficient water. as amount of water varies according to seasons.

19072

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. None

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Fertile black loam-^{1/3 acre foot to 1 1/2 acre feet per acre}~~2 acres & feet~~ of water would cultivate and irrigate this section

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I own one share of the water in this company.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have lived here all my life- have seen the reservoir many times each season- Have seen the water used on many of the best farms on this area- and am thoroughly familiar with the operation of the Company and its officers and stockholders.

(Signed) *E. J. Perkins*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Malad, County of Oneida, State of Idaho, on this day of 14th. day of May, A. D. 19 41.

Re: 19072

Samaria Water & Irrigation Co.
Samaria, Idaho

Gentlemen:

This will acknowledge receipt of the depositions of the holder, depositions of two witnesses, for proof of completion of works and beneficial use, and the affidavit of publication from the Idaho Enterprise all in connection with the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, field engineer for the department, will try and contact you at the time set for examination, so that you may arrange to show him over the grounds.

The statutory fee in connection with Beneficial Use proof amounts to \$1.00 for each 40-acre tract or fraction thereof or a total of \$184.00. You may send your check for this amount at your convenience, and when the engineer's report is filed a license will be issued to you.

Very truly yours,

E. V. BERG.
Commissioner of Reclamation

Re: Permit No. 19072

Samaris Water & Irrigation Company
Samaris, Idaho

Gentlemen:

We have received the report of our field engineer on examination for completion of works and beneficial use proofs under the above numbered permit.

This report shows that the works are capable of diverting and conveying to the place of intended use twenty-two (22) second feet of water from Big Malad River for the irrigation of land in Sections 22, 23, 26, 34, 35 36 and 27, Twp. 14 South, Range 35 East, and Sections 1, 2, 3, 10, 11, 12, 13, 14, 23, 24 and 25, Twp. 15 South, Range 35 East.

The statutory fee for completion of works proof amounts to \$8.60- being at the rate of \$5.00 for the first 10 second feet, and 30 cents for each additional second foot.

The statutory fee for beneficial use proof, at the rate of \$2.00 for each 40-acre legal subdivision in which the land is situated amounts to \$368.00- the land being in 184 legal subdivisions.

Upon receipt of these fees, a Certificate of Completion of Works, and License will be issued.

Re: Permit Numbers:

19072; R-637; R-791

Samaria Water and Irrigation Company
Rt. # 1
Malad City, Idaho

Attention: Nephí R. Ipsen

Dear Mr. Ipsen:

Enclosed is a map as it appears to Mr. Price of your district where the water in above permits is used. It is being sent to you for your inspection and checking. In as much as, you said the water belonged to individuals rather than to land it would be well for each individual concerned to check the map and see if he has land within the area of this map.

If there are other forties that use the water, please indicate them with an "x". If the number of acres in any forty is wrong, please write in with red pencil the correct acres.

Also, if any ditches are wrong or additional ditches should have been included, please put them in with a red pencil.

As soon as you have returned this map duly corrected, I will turn in a report and we will then recheck everything after which you will hear from this office again.

Very truly yours,

Dear Sir; We feel as a board of directors, of Samaria Water & Irrigation Company, that we should present this problem of lisencc for our dam to the stockholders

special Therefore we have called a Meeting for April 13 1959 to present this problem to them

We would like it very much if you would write a full explanation of the value and benefits of a lisencc and any other information you feel like we might need, that we might read to the stock holders and get their reactions. After we have done this we will answer your letter of Mar. 14

We feel that you will be able to explain this better than Mr. Price or I would.

Sincerely yours

N. R. Ipsen Pres.

Re: Permit R-791 - R-637
19072

Samaria Water & Irrigation Co.
N. E. Ipsen
R. F. D. #1
Malad, Idaho

Gentlemen:

This is in reply to your letter of April 1, requesting information regarding the value of a license.

If you were to ask me "Just what is a water license?" I would say it is a legal document put out by the Idaho State Department of Reclamation that bears the seal of the State Department of Reclamation and is signed by the State Reclamation Engineer. It states that there is a given amount of water from a given source of supply with a specified priority and a specified point of diversion, and listing the lands irrigated giving the number of acres irrigated in each 40-acre subdivision.

You could ask "What is the value of a license?" and it could be summed up as follows:

1. It is a legal document that sets out all of the conditions of a given water right.
2. When one has such a license it is no longer necessary to make proofs of the right by witnesses or notarized statements; all that is necessary is to show the license.
3. It is a legal document that shows right to use water, a right that can be transferred from one piece of land to another.
4. It is a legal document that can be used to transfer a right from one individual to another individual.
5. It is a legal document that is acceptable in court as proof that a right exists.
6. It is a legal document that is accepted without question regarding the facts covered in the document.
7. It is a document of which there is a copy in the State House and if the original is lost or destroyed a duplicate may be obtained by payment of a fee for copying and certification.

19072

April 6, 1959

Page Two - Continued - Sanaria Water & Irrigation Co.

8. Usually a right of record such as a license is required by loan companies throughout all of South Idaho before making a loan on a given piece of land.

9. Licensed rights on a decreed stream are recognized by the State Supervisor of Water Distribution and delivery on same is made according to their priority.

10. A license is paid for but once. It is valid at all times thereafter.

11. It does not give this department or any other agency in the State any authority over you or the right without your consent.

12. A licensed right is never considered abandoned merely by reason of non-use. There are some of the values that come to mind at this time, and undoubtedly others exist.

In case you wish to know the difference between a license and a permit it is as follows:

A permit sets out the facts concerning anticipated use of water. It is in effect a contract between the person owning it and the State of Idaho. It is the intent of the law that a permit shortly matures into a license. Its sole value exists only during the limited life it has that is set out in the terms of the permit. If a permit is carried through only the proof of completion of works stage and not through the beneficial use proof stage it will lose priority day by day and thus actually lose its value. In contrast to the permit the license is a finished and completed document beyond which nothing else is required.

The only other "right of record" regarding usage of water that is equal to a license is the right obtained by court decree.

Perhaps a short statement regarding a use right should be made at this time. A use right may be as good and as valid as a right of record but one must always be prepared to go into court and prove that he has a valid use

19072

Page Three - Continued - Samaria Water & Irrigation Co.

right in case validity is ever questioned. In case of the old use right, such becomes very difficult or perhaps even impossible to substantiate due to the fact, those who can testify move away from the region or perhaps are dead and gone, thus it is a "record right" is much easier to sustain than a use right.

Now a word regarding your dams. The state law definitely requires that the State Reclamation Engineer approve the plans and specifications for any dam in the State of Idaho over 10 feet in height or impounding 100 acre feet or more of water. I am enclosing a leaflet that quotes the state law regarding this.

I hope this gives you some of the information you desired, and thank you for your inquiry.

Yours truly,

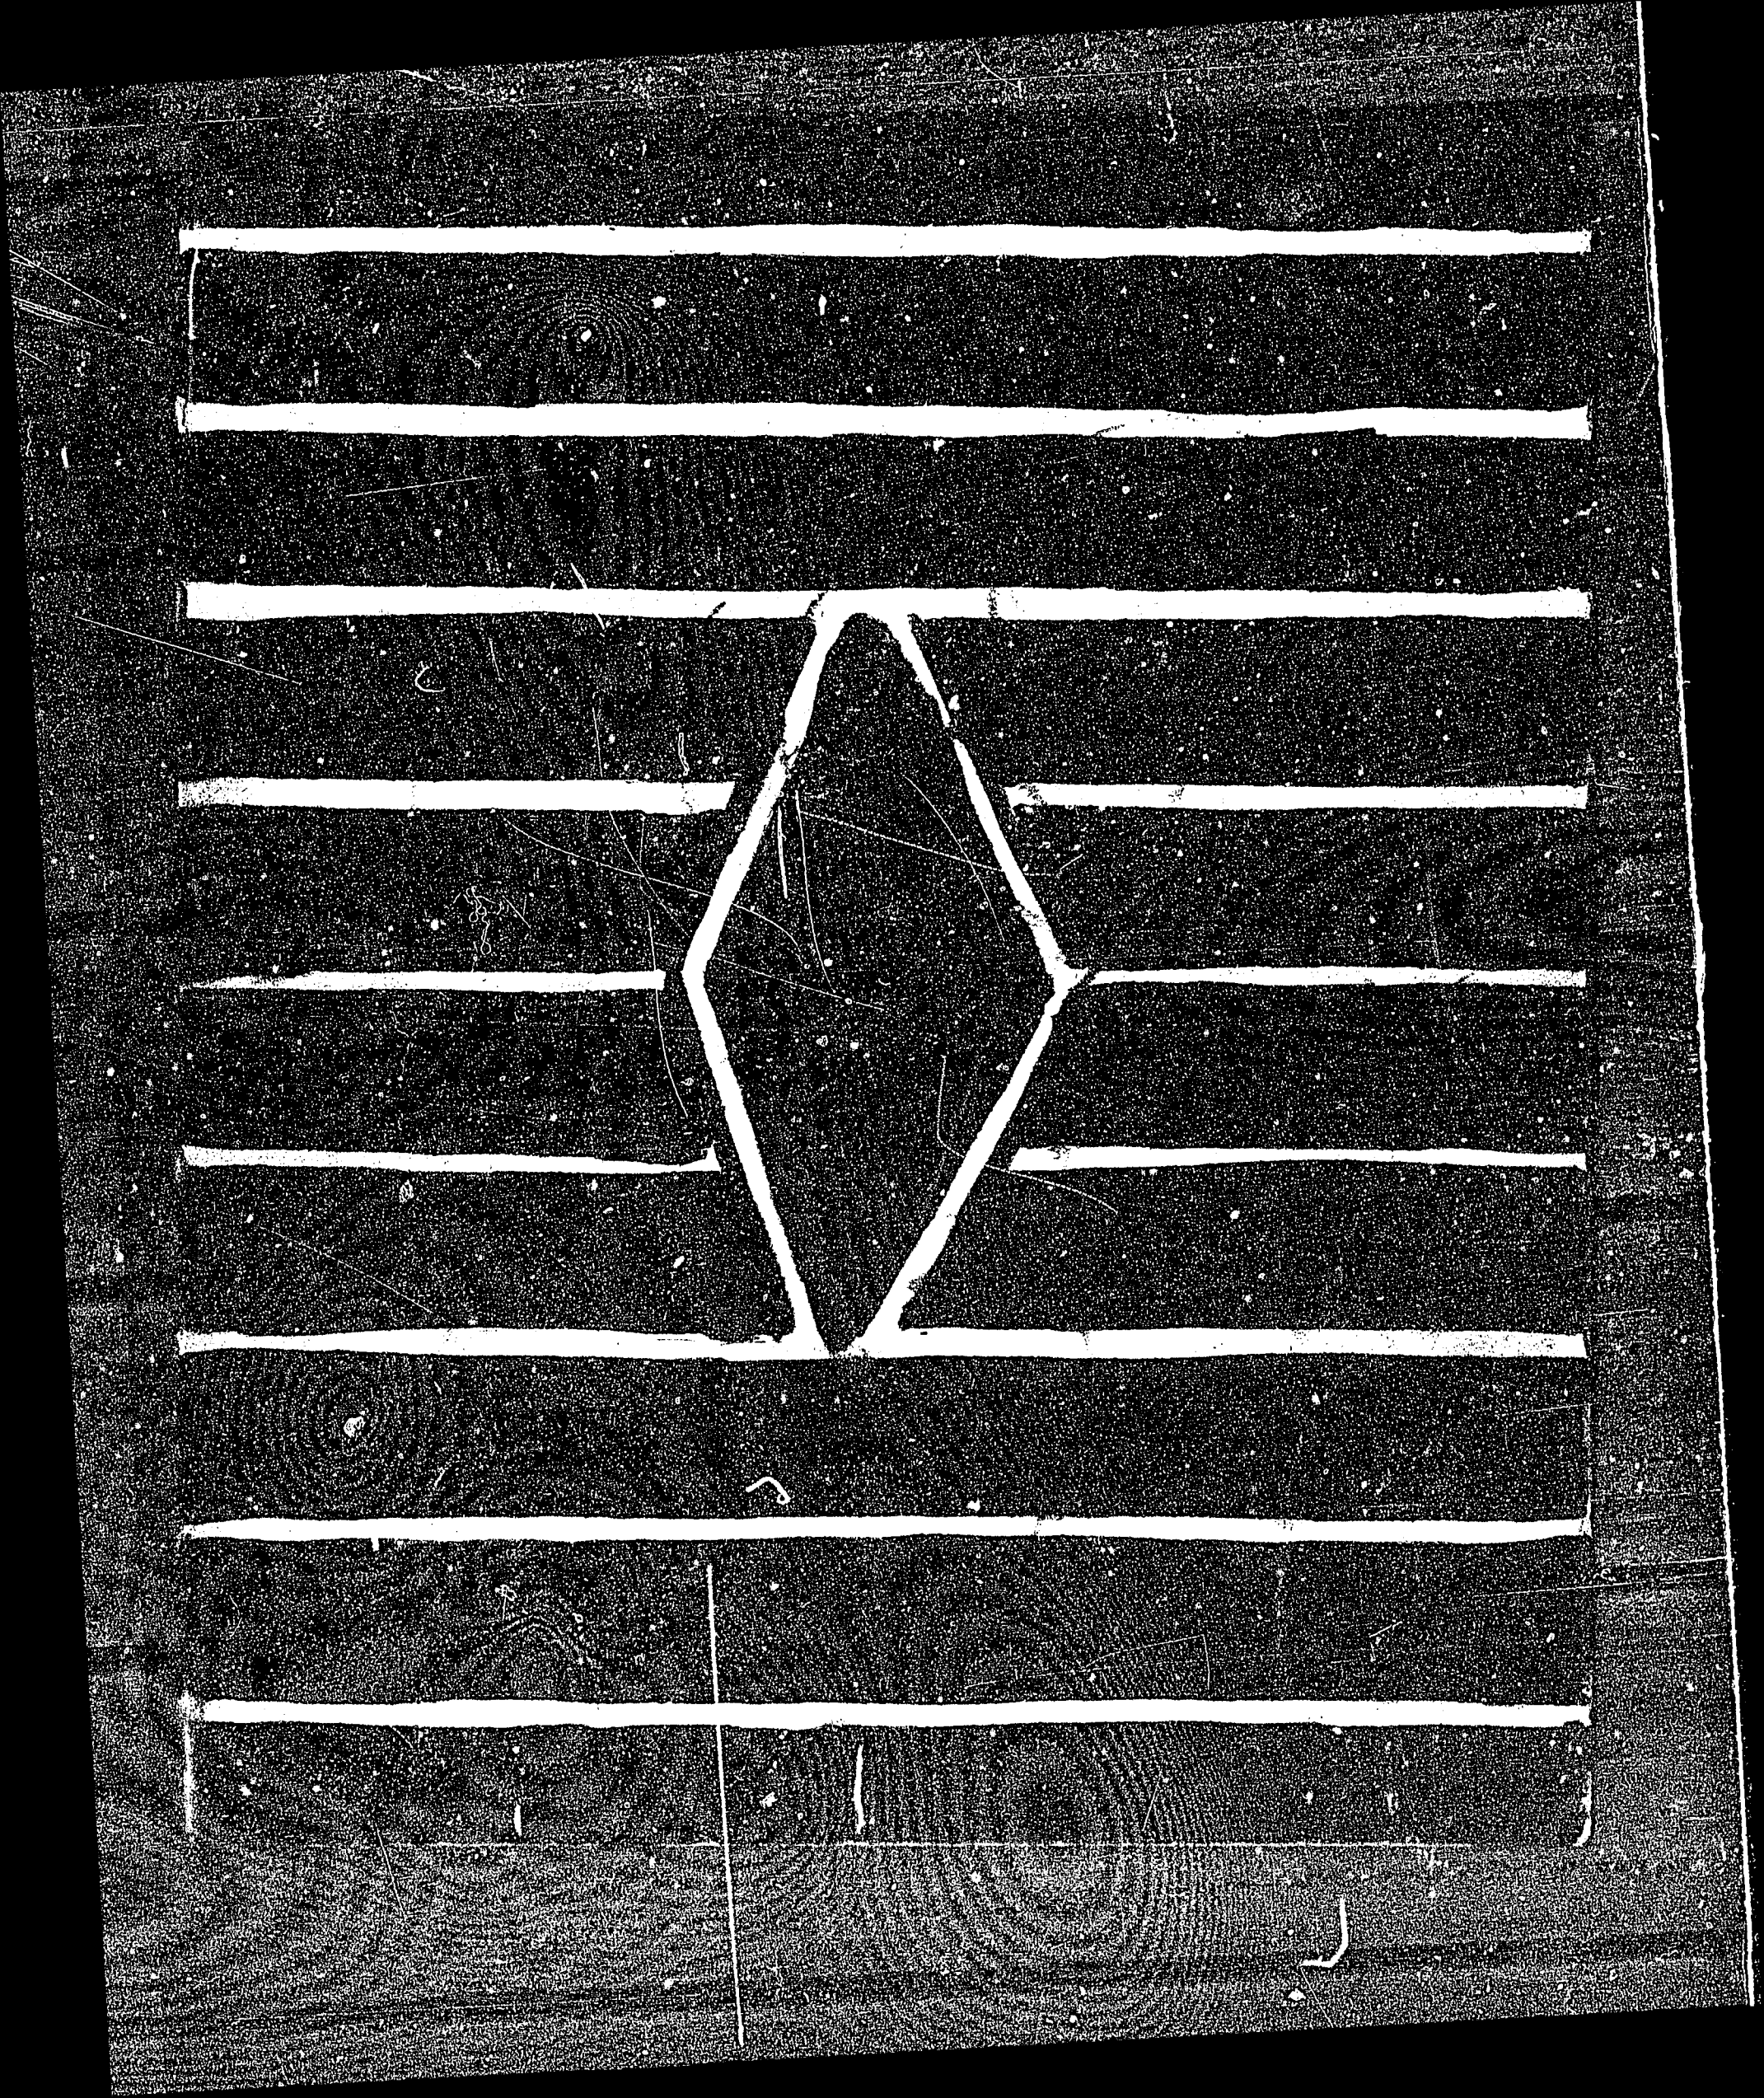

GEO. W. CARTER
State Reclamation Engineer

Samaria Water & Irrigation Company
Samaria,
Idaho 83252

Gentlemen:

We are taking this opportunity to advise you that this office is currently in the process of clearing the Department's files of all old permits on which the statutory requirements have not been completed.

In reviewing our records, we find that the licensing fees have not been paid in connection with the above referenced permits. Therefore, upon receipt of licensing fees in the amount of \$224.60, the Department is prepared to issue water right licenses on the above numbered permits as follows:

Permit 18948/15-2023

Quantity: 3.0 cfs Source: Warm Springs
Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 3, Twp. 15 S, Rge. 35 E, B.M.
Beneficial use: Irrigation of 3,215 acres (see enclosed land list)
Priority date established: March 1, 1940

Permit 19071/15-2024

Quantity: 3.5 cfs Source: Warm Springs
Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 3, Twp. 15 S, Rge. 35 E, B.M.
Beneficial use: Irrigation of 3,215 acres (see enclosed land list)
Priority date established: August 28, 1940

15-2025

Samaria Water & Irrigation Company

May 1, 1974

Permitt 19072/15-2025

Quantity: 22.0 cfs

Source: Big Malad River

Point of diversion: SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 22, Twp. 14 S, Rge. 35 E, B.M.

Beneficial use: Irrigation of 6,735 acres (see enclosed land list)

Priority date established: Sept. 6, 1940

Permit R-637/15-2074

Quantity: 500 acre feet

Source: Big Malad River

Point of diversion: SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 22, Twp. 14 S, Rge. 35 E, B. M.

Beneficial use: Storage for irrigation of 4,410 acres (see enclosed land list)

Priority date established: Sept. 27, 1937

The licensing fee is based on \$2.00 for each 40-acre legal subdivision. We found 197 subdivisions, however, 89 of these subdivisions were covered by the fee paid under License No. R-791/15-2075. Also, under Permit 19072/15-2074 there is a \$8.60 completion of works fee due at the rate of \$5.00 for the first 10 second feet and 30¢ for each additional second foot.

Please submit the required \$224.60 licensing fee within 30 days of the date of this letter in order that we may issue the licenses as set forth herein. If the fee is not received within the 30-day period, the Department will proceed to cancell these permits.

If you should have any questions regarding this matter, please do not hesitate to contact us.

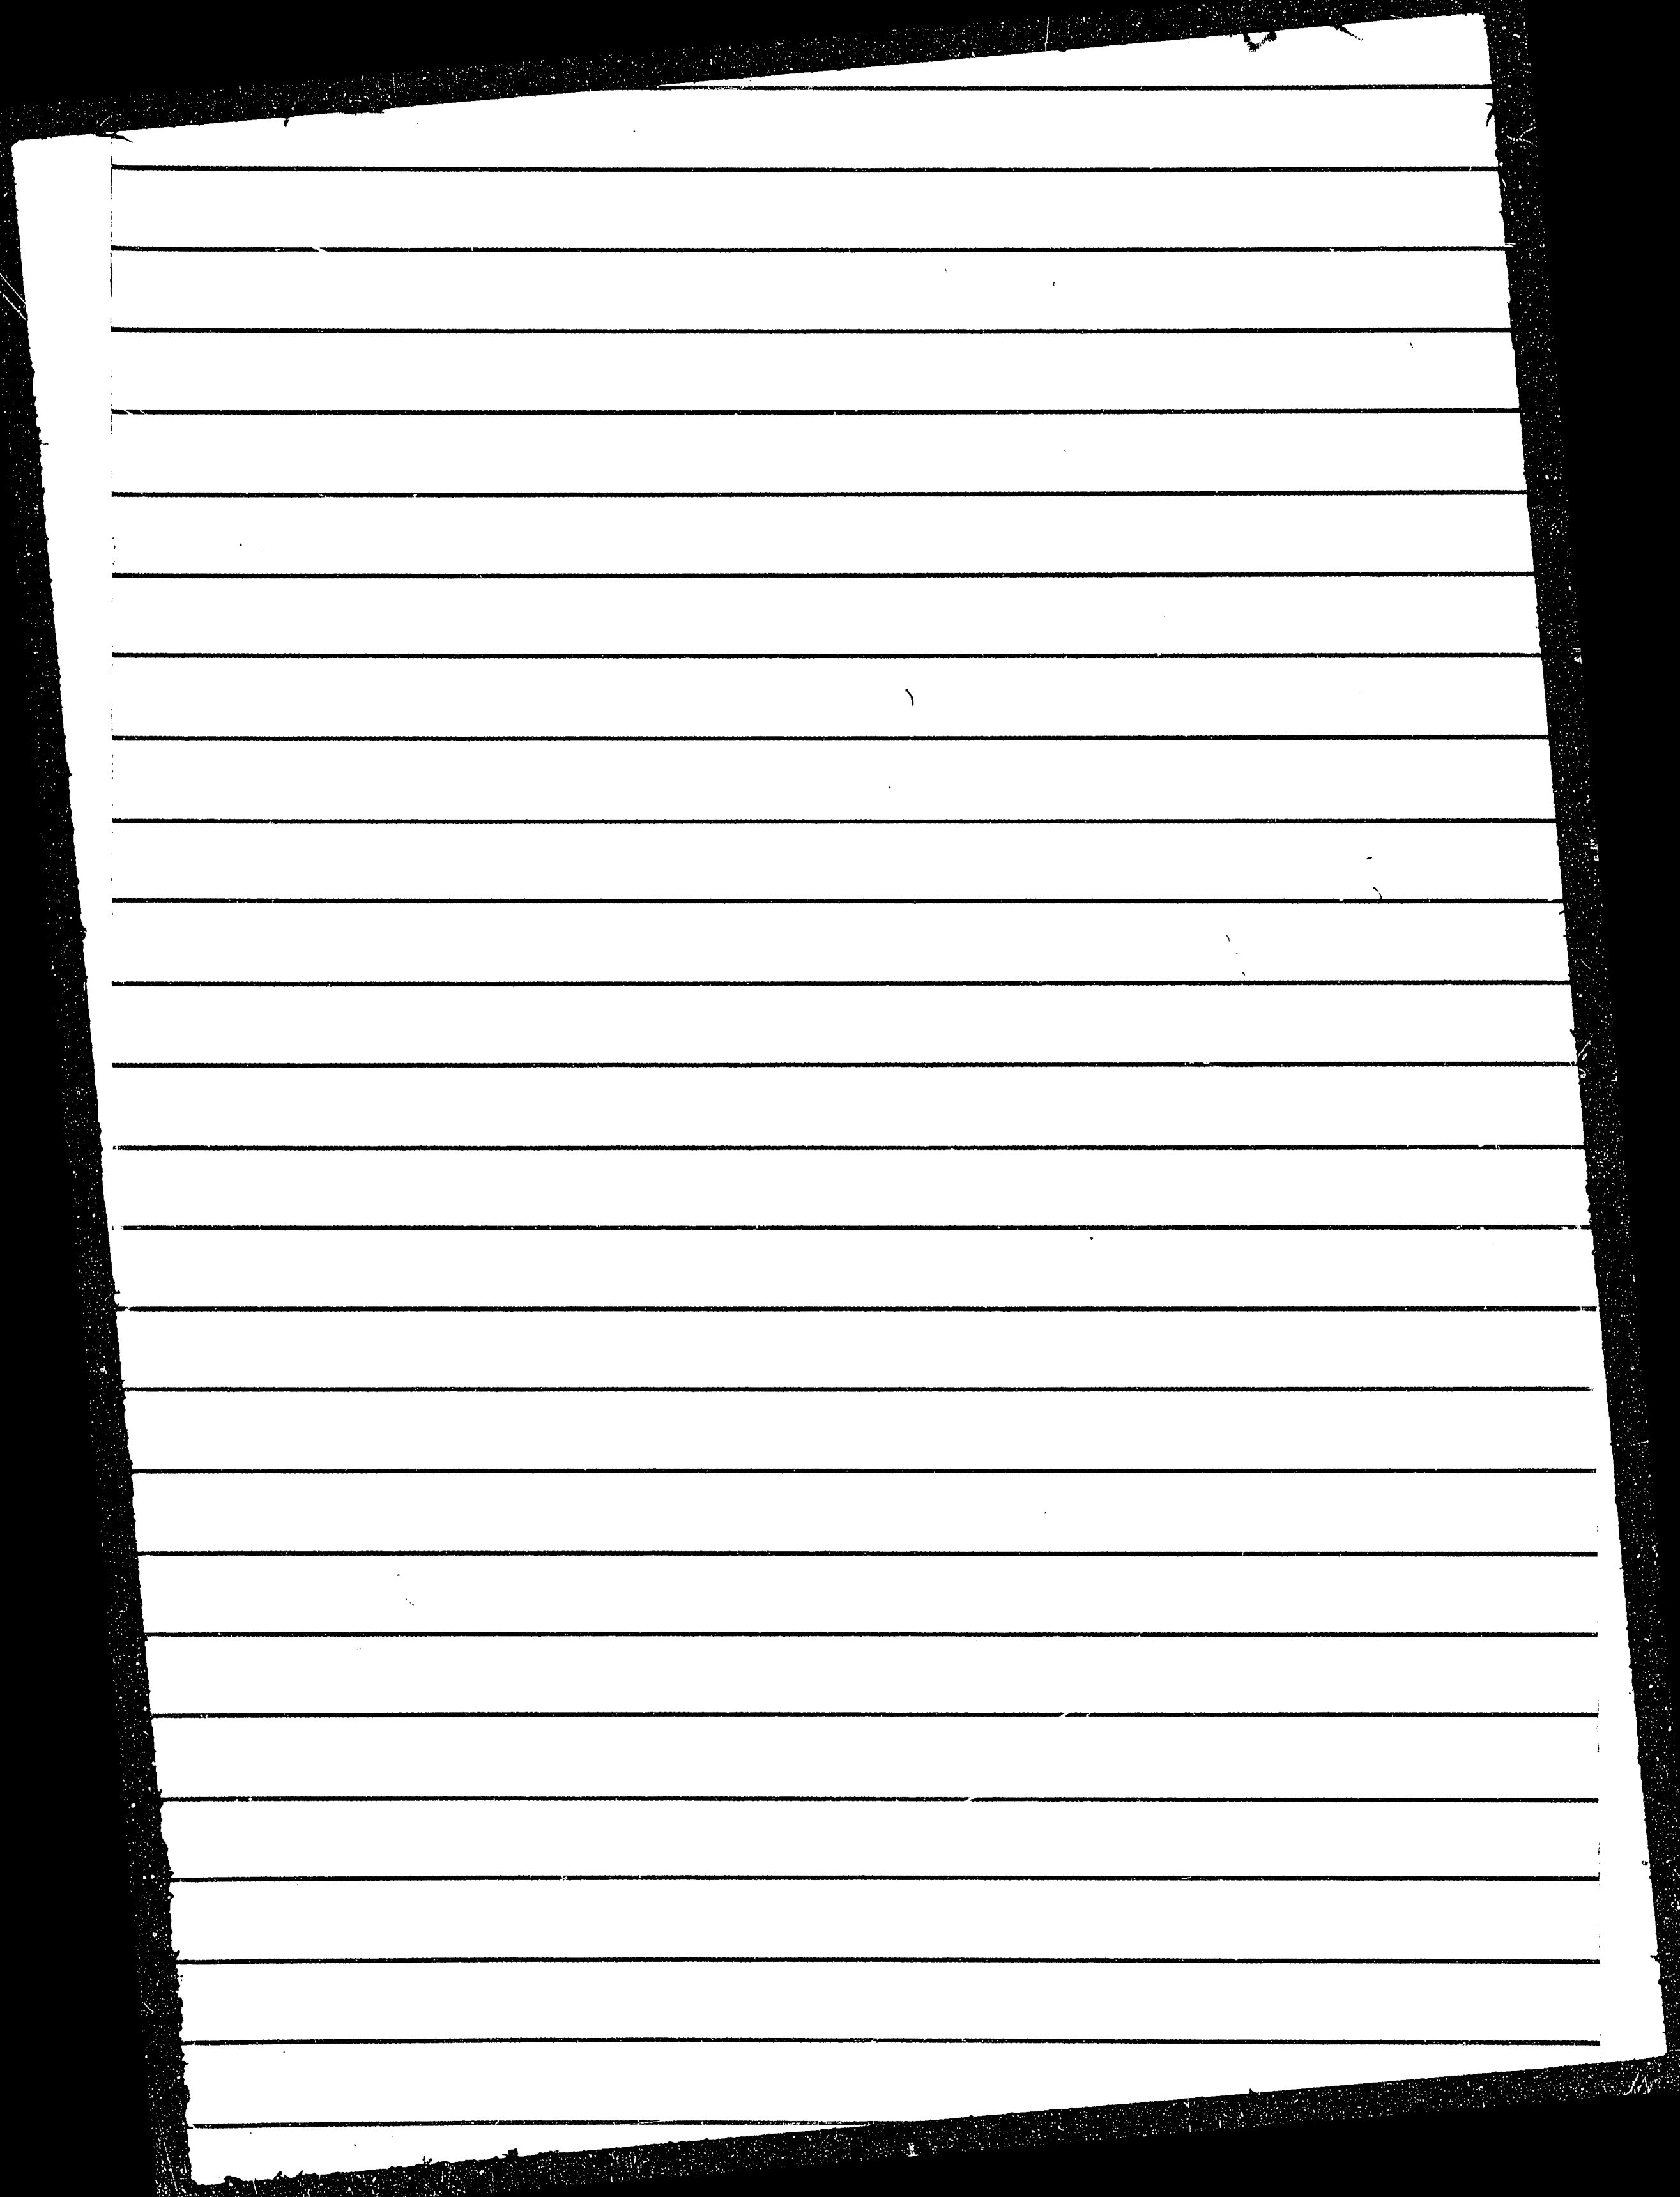

Sincerely,

BOBBY D. FLEENOR
Assistant Director

WATER RIGHT LICENSE

License of Water Right No. 19072/15-2025 Priority Sept. 6, 1940 Amount 22.0 cfs

THIS IS TO CERTIFY, that Samaria Water & Irrigation Company
of Samaria, Idaho, has complied with the terms and conditions of Permit
No. 19072/15-2025 issued pursuant to Application for Permit dated August 27, 1940,
and has submitted proof to the Department of Water Administration on May 14, 1941 (late proof),
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 22.0 cfs of water from Big Malad River,
tributary to _____, and that the permit holder has applied to a beneficial use &
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>Nov. 1</u>	at <u>22.0</u> cfs and	<u>9,322</u> acre feet
_____	from _____ to _____	at _____ cfs and	_____
_____	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 22.0 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
* 9,322 acre feet per year, said waters to be diverted within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 22,
Twp. 14 S, Rge. 35 E, B.M. in the County of Oneida

Description and location of place of use:

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	
See	Land	List	Attachment																

Total number of acres irrigated _____

* Subject to the condition that the maximum volume per year shall not exceed
3.5 acre feet per acre when combined with all other rights with the same
purpose and place of use.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 17 day of
May, 19 74.

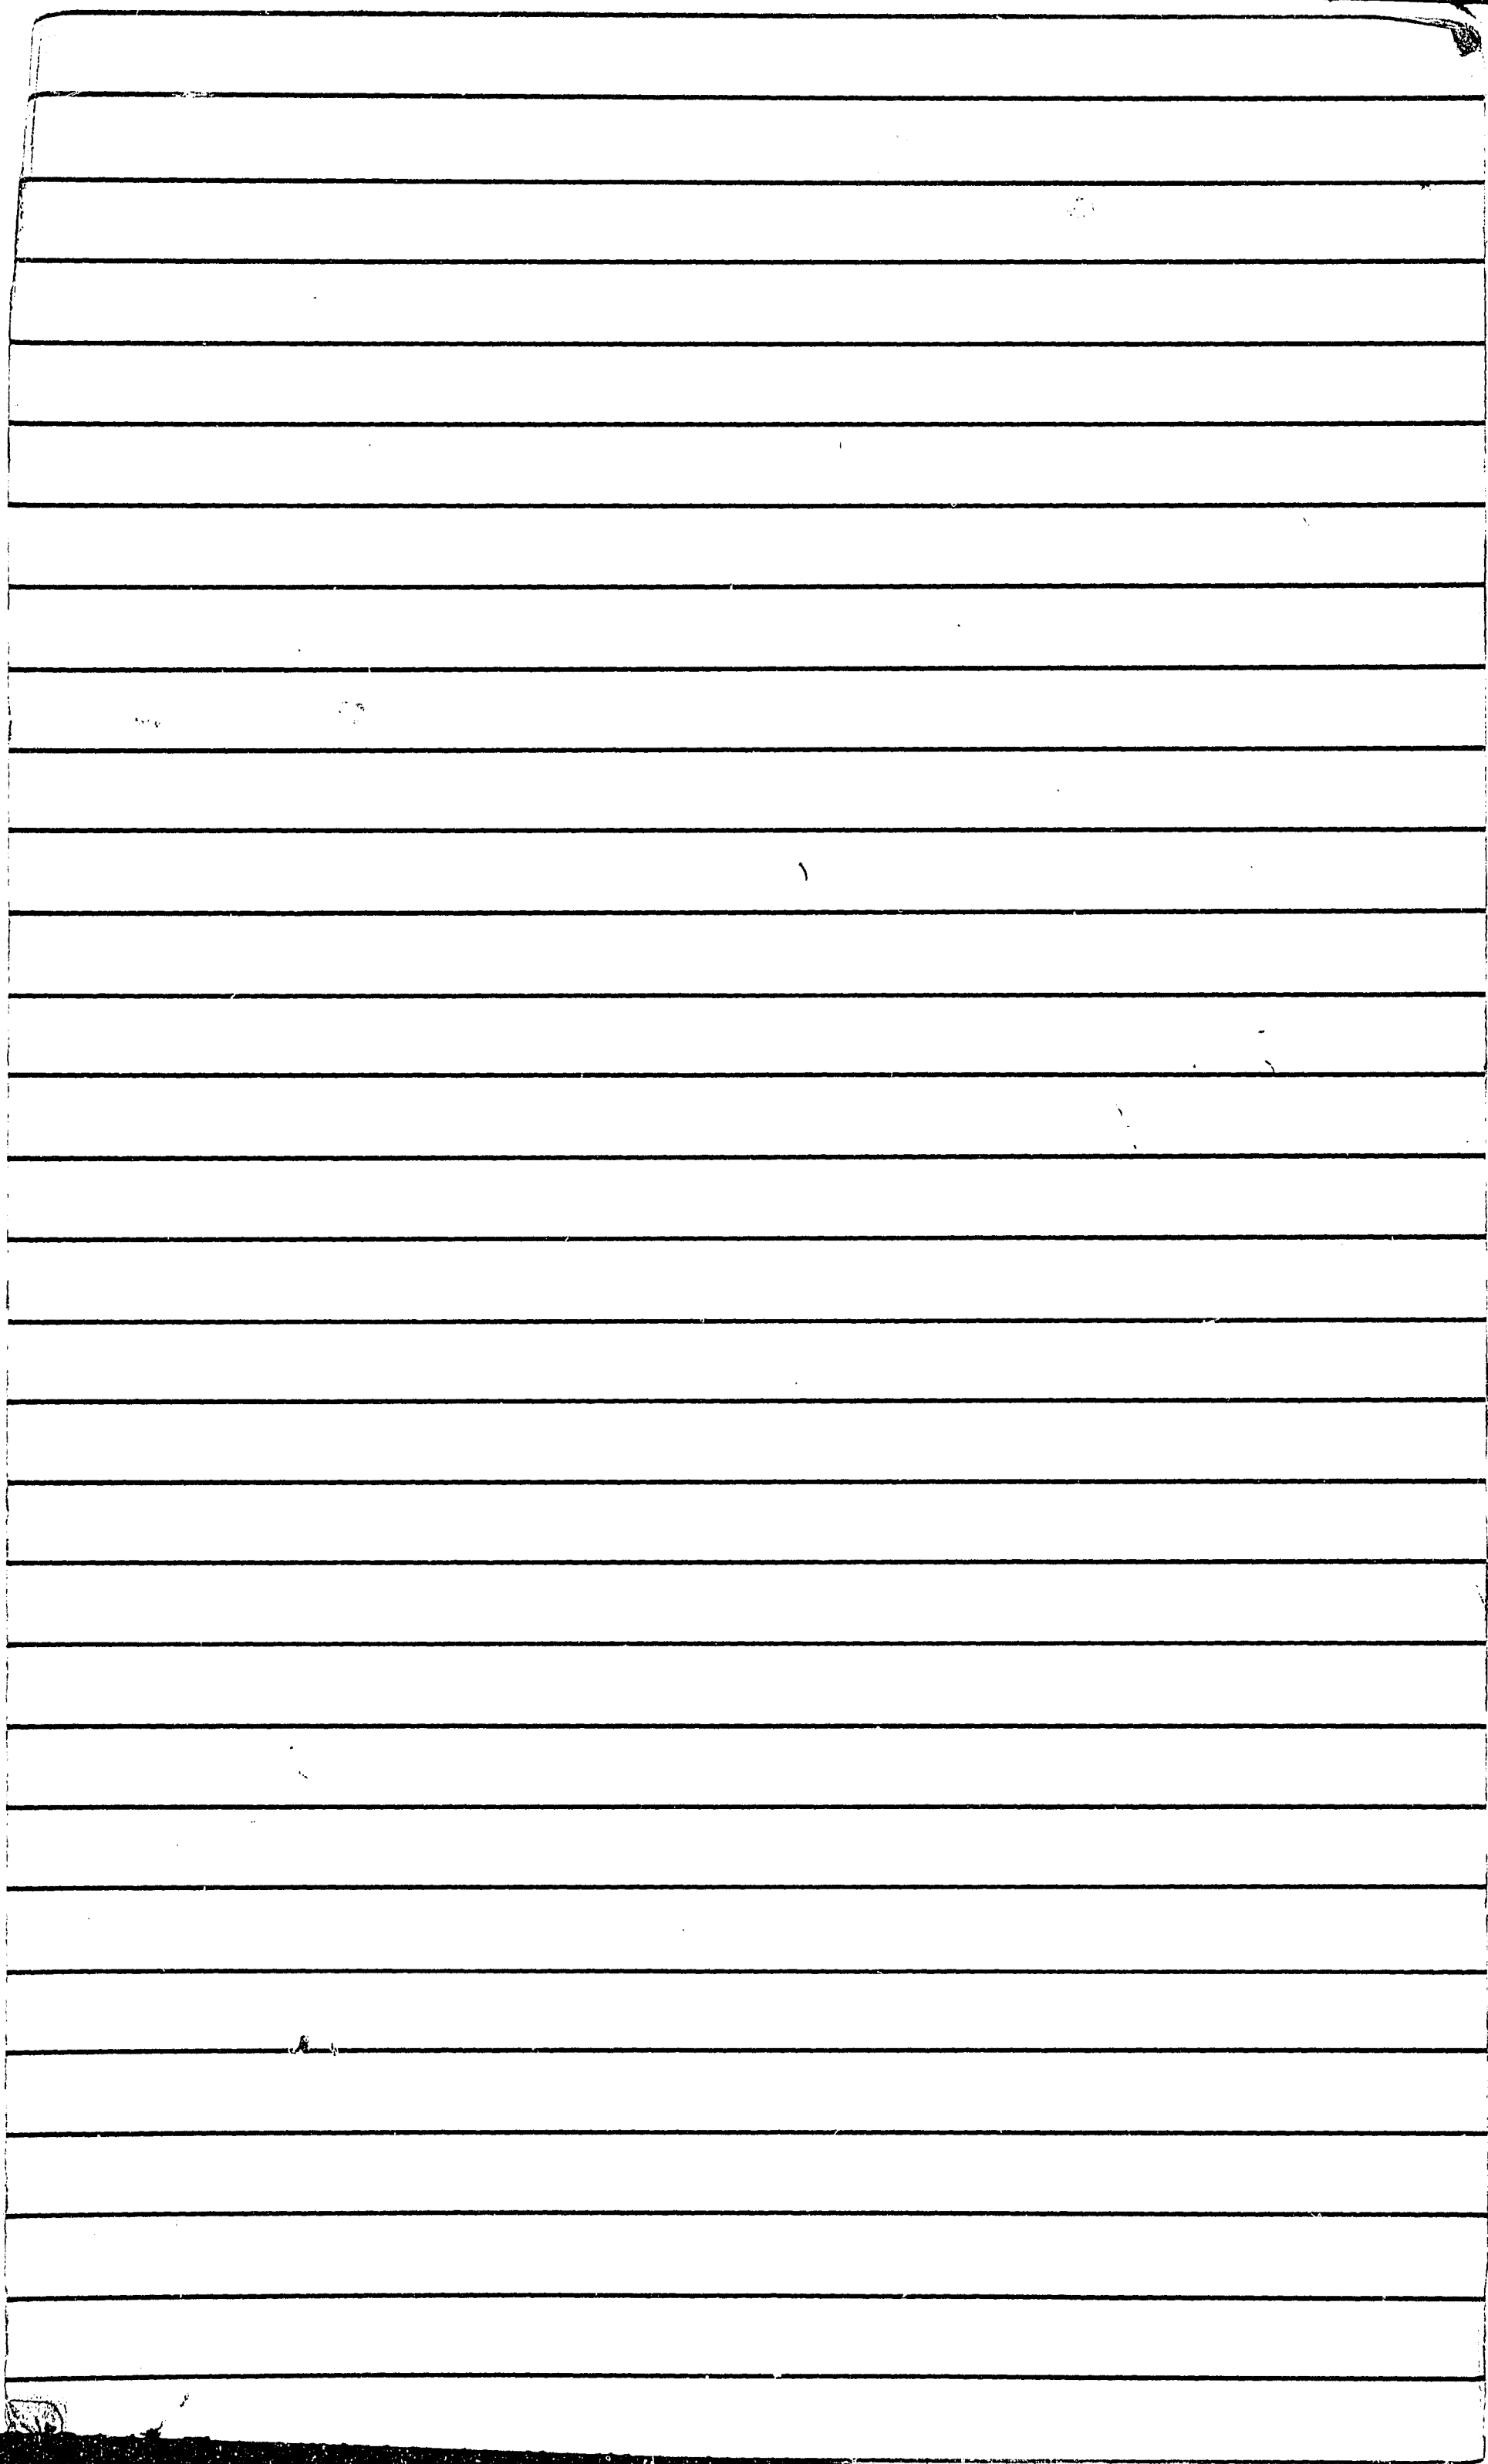

Director

CONDITIONS OF APPROVAL AND REMARKS

1. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
2. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
3. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
- * 4. Right 15-02023 is limited to the irrigation of 3215.0 acres in the place of use described above in a single irrigation season.
- * 5. Right 15-02024 is limited to the irrigation of 3215.0 acres in the place of use described above in a single irrigation season.
- * 6. Right 15-02025 is limited to the irrigation of 6735.0 acres in the place of use described above in a single irrigation season.
- * 7. Rights 15-02023 and 15-02024 when combined shall not exceed the irrigation of 3,215 acres, and when combined with Right 15-02025 shall not exceed the irrigation of 6,735 total acres.
8. Approval of Transfer 5233 does not grant any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.

Dated this 14th day of

December, 1998

J. Glen Saxton
Chief, Water Allocation Bureau

MEMORANDUM

FROM: PAM SKAGGS

RE: TRANSFER # 5233

DATE: 3-26-98

Original Transfer Application, Form and correspondence
regarding the above referenced Transfer is located within
file # 15-02023.

MEMORANDUM

TO: Files 15-02023/02024/02025/02074 & 02075

FROM: Pam Skaggs²⁸/State Office

SUBJECT: Transfer 5233

DATE: October 23, 1998

Transfer 5233 changes the place of use under Rights 15-02023/02024/02025/02074 and 02075. The applicant is changing the place of use under the combined right system to include new land for a shareholder. The transfer also identifies the 7120.0 acre common place of use for these rights, and clarifies sources and uses.

Season of use for irrigation and irrigation from storage, and diversion volume were adjusted to current standards. Source and tributary names were corrected to match the names as identified on the USGS map.

Recommended conditions include irrigation overlap, permissible place of use limits for the non-storage rights, combined right limits, right-of-way and standard transfer conditions.

Total number of acres irrigated: ** 7110

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under these rights may be affected by an agreement between the protestant and the right holder.
2. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
3. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
4. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
- * 5. The total instantaneous diversion of water from all points of diversion under Transfer 5276 shall not exceed 28.50 cfs.
- ** 6. Right 15-02023 is limited to the irrigation of 3215.0 acres in the place of use described above in a single irrigation season.
- ** 7. Right 15-02024 is limited to the irrigation of 3215.0 acres in the place of use described above in a single irrigation season.
- ** 8. Right 15-02025 is limited to the irrigation of 6735.0 acres in the place of use described above in a single irrigation season.
- ** 9. Rights 15-02023 and 15-02024 when combined shall not exceed the irrigation of 3,215 acres, and when combined with Right 15-02025 shall not exceed the irrigation of 6,735 total acres.
- ** 10. The right holder shall cease irrigation of 10 acres previously authorized under this right, and consolidate use of water on the remaining 7,110 acres.
11. Approval of Transfer 5276 does not grant any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.

Dated this 3rd day of April, 2000

J. Glen Saylor
Chief, Water Allocation Bureau
