INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Jedd Jones, Jr.
Malad, Idaho

Boise, Idaho March 2, 1944

Dear Sir:-

Under the terms of your permit No. 19407 you are required to complete your diversion works on or before May 24, 1944. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

Dear Mr. Ray:

We acknowledge receipt of your letter of May 24th, in which you request a certified copy of Permit No. 19407, filed in our office on March 2, 1944.

We enclose a certified copy of this permit, which, however, was filed May 20, 1943, and on March 2, 1944 a notice was sent to the permit holder, Mr. Jedd Jones, Jr., that proof of completion of works was due on or before May 24, 1944, according to the terms of the permit, and enclosing form of affidavit on which to make this proof.

It is, of course, now past that date, and if the proof is to be made now it will be necessary to show in the affidavit that the works were so completed within the required time, in order to keep the permit in good standing.

The fee for the certified copy is \$1.50, for which you or Mr. Jones may send us a check.

We enclose another form of Affidavit for proof of completion of works herein. The statutory fee of \$5.00 should accompany this proof.

Re: Permit No. 19407

Mr. T. D. Jones, Administrator,
Estate of Jedd Jones, Jr.
Malad, Idaho

Dear Mr. Jones:

We acknowledge receipt of the depositions of yourself and two witnesses, also the affidavit of publication from the Idaho Enterprise, all in connection with beneficial use proof under the above numbered permit.

Before final action can be taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will try to contact you at the time he makes the examination, so that you may arrange to show him over the ground.

Very truly yours,
